The tone of the lnmber market has seldom, if ever, been stronger than at the present time. From all sections of the country come reports of increasing business, from which it is concluded that the high price of lumber is not affecting building operations. Stocks in the east are very light, but promise to be augmented in the near future upon the opening of navigation. Box lumber and mill culls lead in point of demand throughout the Eastern States, and some dealers have recently marked up prices to a still higher basis. In the Lake Superior district No. 3 and better lumber is being sold at from $18 to $18.50, which would make this class of stock $21 for Chicago delivery. There is no dry piece stuff and much of that to be cut the coming season has been contracted for. The opening price by cargo is based on $16.50 for No. 1 short dry pine piece stuff, Chicago delivery. Hemlock continues strong, the Wisconsin manufacturers having adopted a new list making a material advance on several items. Similiar action was taken by the Wisconsin manufacturers of hardwood lumber. The new list will be found in another column. The conditions of trade are such that there is no price cutting but a very general disposition to adhere to the list. The quantity of hardwood logs taken out the past winter has not been large and it is estimated that more than one-half of the production has already been placed under contract. Thick maple and basswood are scarcer than other lines.

GREAT BRITAIN.

The British market is exhibiting a more cheerful tone and representatives of Canadian shippers have succeeded recently in placing considerable stock. There is an increasing inquiry from the East Coast for spruce deals. This is owing to the high prices asked for Baltic whitewood. An ordinary specification of 60 to 65 per cent. of 7 and 8-inch spruce is selling at £7 10s c.i.f. West Coast ports, and for small cargoes of the same specification £7 15s has been paid. Consumption is more active, which is regarded as a favorable indication on account of the probability of an early opening of navigation. Holders of stock are seizing every opportunity to reduce their supply so as to be in a position to receive new shipments, but notwithstanding this fact prices have been maintained and in some cases advanced. A quantity of first quality Quebec pine, 2 x 8 inch, brought £22 10s at a recent public sale. Waney pine is exceedingly firm. Belfast importers have contracted on the basis of 3s 9d per foot c.i.f. for 18-inch. This, so far as can be learned, is the maximum figure that has yet been paid.

STOCKS AND PRICES.

Carnweth's steam mill has finished sawing 250,000 feet of lumber at Memel, N.B.

The barque Avonia is loading deals at Hopewell Cape, N. B., for the United Kingdom.

J. L. Scott & Son, of Chatham, Ont., recently purchased 20,000 cedar posts for the spring trade.

The Moyie Lumber Company, of Moyie, B. C., expect to have 10,000,000 feet of logs to supply their mills during the coming season.

The lumber clearances from St. John, N.B., for the United States for the week ending March 21st included 1,168,000 feet of long lumber, 4,000,000 lath, and 425,000 shingles.

It is understood that Harold Kennedy, of Quebec, who has recently been in England, has placed his season's output of birch timber with Joseph Owen & Sons, Limited, of Liverpool.

Revelstoke citizens are staking out 90 miles of timber locations under special licenses in the Big Bend country. This is the largest tract of timber land ever taken up under special license.

The Alex. Gibson Railway & Manufacturing Company, of Marysville, N.B., have finished logging operations on the Nashwaak river. The cut has been in the vicinity of 30,000,000 feet. As the ice is already out of most of the tributaries of the Nashwaak, stream driving will be commenced in a short time.

Under date of March 14th Messrs. Clairmonte, Man & Company say of the Barbadoes market: "We have had no arrival with lumber during the fortnight. Our yards are still barely supplied, and during our reaping season, now going on, there is always a good demand. Prices are as follows: White pine, $26 for first quality and $21 for second quality; spruce, $22.50 for first and $19.50 for second quality. Last sales of Gaspe long cedar shingles were made at $4.89 to $5.04, but they are now worth more. Cedar laying shingles are worth $1.82 and spruce laying $1.65 to $1.70."

It is estimated that the cut of logs on the south branch of the Oromocto river, in New Brunswick, this winter was in the neighborhood of 6,000,000 feet. Smith Bros. have got about three and one-half millions, which they will manufacture at their own mill, and about 1,500,000 has been cut for John E. Moore, of St. John. Hilyard Bros. have about 1,500,000 at French Lake, which will likely be manufactured at St. John. W. J. Scott, who operates for Murchie & Sons, at Deer Lake, has finished his season's work in that locality. The recent soft weather ruined the hauling and he was obliged to leave 1,700 pieces in the woods.

The Northwestern Hemlock Manufacturers Association of Wisconsin have adopted a new price list effective March 30th, by which the price of hemlock lumber has been advanced. For No. 1 hemlock boards the prices are: 3x8 in., 10 feet, $14; 12 and 14 feet, $13; 16 feet, $13.50; 18 and 20 feet, $14; 22 and 24 feet, $15.50; 3x10 in., 10 feet, $14.50, 12 and 14 feet, $13.50; 16 feet, $14; 18 and 20 feet, $14.50; 22 and 24 feet, $16; 3x12 in., 10 feet, $15.50; 12 and 14 feet, $14.50; 16 and 18 feet, $15; 20 feet, $15.50; 22 feet, $17; 24 feet, $17.50; 4x4 to 8x8 in., 10 feet, $14; 12 and 14 feet, $13; 16 feet, $13.50; 18 and 20 feet, $15.50; 22 and 24 feet, $16.50.

NEW HARDWOOD PRICE LIST.

The following prices of hardwood lumber have been fixed by the Wisconsin Hardwood Lumbermen's Association, f. o. b. Wausau and effective March 25th:

Ash.—1st and 2nd: 1-in., $32; 1¼ and 1½ in., $34; 2-in., $35; 2½ in. and thicker, $40. No. 1 Common: 1-in., $22; 1¼ and 1½ in., $23; 2-in., $24; 2½ in. and thicker, $26. No. 2 Common: 1-in., $11; 1¼ and 1½ in., $12; 2 in. and thicker, $12. No. 3 Common, all grades, $6; 1-in. log run, No. 3 Common out, $20.

Basswood.—1st and 2nd: 1, 5 and 11 in., 8 to 16 feet, $30; 12-in., $35; 13-in. and wider, $36; 1¼ and 1½ in., $32; 2-in., $34. No. 1 Common: 1-in., $22; 1¼ and 1½ in., $24; 2-in., $25. No. 2 Common: 1-in., $14; 1¼ to 2 in., $15. No. 3 Common, all sizes, $10; 1-in. box Common (No. 2 and 3 mixed,) $13.

Birch.—1st and 2nd: 1-in., $28; 1¼ and 1½ in., $30; 2-in., $32; 1-in. red, $38; 1¼ to 2-in. red, $40; 2½ in. and thicker, red, $42. No. 1 Common: 1-in., $18; 1¼ and 1½ in., $20; 2-in., $22; 1-in. red, $28; 1¼ to 2-in.; red, $30. No. 2 Common: 1, 1¼, and 1½ in., $10; 2 in., $12; red, all sizes, $14; 1-in. log run, No. 3 Common out, $18.

Soft Elm.—1st and 2nd: 1-in., $26; 1¼ to 2-in., $28; 2½ in. and thicker, $30. No. 1 Common: 1 in., $16; 1¼ to 2-in., $18; 2½ in. and thicker, $20. No. 2 Common, $10. No. 3 Common, $8. Inch log run, No. 3 Common out, $16.

Rock Elm.—1st and 2nd: 1 to 2-in., $30; 2½ in. and thicker, $34. No. 1 Common: 1 to 2-in., $18; 2½ in. and thicker, $24. No. 2 Common, $12. No. 3 Common, $6.; 1 to 2-in. log run, No. 3 Common out, $18.

Hard Maple.—1st and 2nd: 1-in., $23; 1¼ and 1½ in., $25; 2-in., $25; 2½ in. and thicker $27. No. 1 Common: 1-in., $13; 1¼ to 2-in., $15; 2½ in. and thicker, $16 No. 2 Common: 1 to 2 in., $8; 2½ in. and thicker, $12. No 3 Common, $5; 1 to 2 in. log run, No. 3 Common out, $13.

Soft Maple—1 in. to 2 in. log run, No. 3 Common out, $14.

Red Oak.—1st and 2nd: 1-in., $39; 1¼ to 2-in., $42; 2½ in. and thicker, $48. No. 1 Common: 1-in. $29; 1¼ to 2-in., $32; 2½ in. and thicker, $38. No. 2 Common: 1-in., $19; 1¼ to 2 in., $22; 2½ in. and thicker, $28. No. 3 Common, $9.

White Oak.—1st and 2nd: 1-in., $37; 1¼ to 2-in., $40; 2½ in. and thicker, $46. No. 1 Common: 1-in., $27; 1¼ to 2 in., $30; 2½ in. and thicker, $36. No. 2 Common: 1-in., $17; 1¼ to 2 in., $20; 2½ in. and thicker, $26. No. 3 Common, $8.

SHIPPING MATTERS.

The steamer Brooklyn has been chartered by Clarke Bros. to load lumber at Digby and Bear River, N. S., for the West Indies.

The following charters are reported: Steamer Carman, Pugwash, N. S., to w. c. England, deals, 36s, May-June loading; Barque Globus, Yarmouth, N. S., to Buenos Ayres, lumber, $8; Robert Scrofton, Bridgetown, N. B., to Buenos Ayres, lumber, $8; Valuta, Campbellton, N. B., to Buenos Ayres, lumber, $8; Leviathan, Tusket, N. S., to Buenos Ayres, lumber, $7.75; Phyllis, St. John, N. B., to Buenos Ayres, lumber, $7.75.

The Board of Managers of the Lumber Carriers, in executive session at Detroit on March 24th, fixed its season carrying charges and decided upon the policy of the organization during the coming season. On the main, the lumber carrying rate will be about the same as it was last season, with the exception of hemlock. This was increased materially.

For the purpose of facilitating the work of making differential rates between the various points, the lakes were divided into eight sections and the carrying charges fixed as follows:—

Section No. 1—From the head of the lakes to Keweenaw Point, to Chicago and Lake Erie ports, pine, $2.50 per 1000 feet.

Section No. 2—From Keweenaw Point to Whitefish Point, to Chicago and Lake Erie ports, pine, $2.25 per 1000 feet.

Section No. 3—Whitefish Point to Detour, to Chicago and Lake Erie ports, pine $2 per 1000 feet.

Section No. 5—From Straits of Mackinaw, including Lake Huron and Georgian Bay, to Chicago and Lake Erie ports, pine, $1.75 per 1000 feet; hemlock 25 cents extra.

Section No. 5—North end of Lake Michigan to a line drawn from Green Bay to Traverse City, to Lake Erie, $2 per 1000 feet.

Section No. 6—Including the balance of Lake Michigan to Chicago, to Lake Erie, $2.12½ per 1000 feet; hemlock, 25 cents additional to above rates; hardwood, 75 cents per 1000 additional.

Section No. 7—To Oswego, 75 cents additional over Tonawanda rates.

Section No. 8—Including Ogdensburg, $1 over Tonawanda rates.

From district No. 1 to Bay City, pine, $2.25. Timber 6 x 6 to 8 x 10 to pay 25 cents per 1000 over pine rates; 10x10 and larger timber, 50 cents per 1000 feet extra over board rates.

Separate rates were made from St. Ignace and Cheboygan to Chicago. They were $1.75 on dry white pine; $1.87½ on green and 12½ cents additional over above rates on hemlock. Basswood same as hardwood, 50 cents over pine rate.

No action was taken in regard to the time of starting out, although all members present favoured a late start. But few of the owners of lumber tonnage have started to fit out, and it will probably be the middle of April before they get under way in full swing.

AUSTRALIAN TARIFF ON LUMBER.

The customs tariff of the Commonwealth of Australia, assented to September 16th, 1902, specifies the following duties on timber and wood-work:

Furniture n. e. i. (except metal) in parts or finished, including billiard and bagatelle tables and boards and accessories, photograph frames and stands for pictures, picture frames (on pictures or otherwise), and picture mouldings, cabinets, brackets, trays, verandah blinds, screens, show figures for draping or other purposes, writing and stationary cases, writing desks and mirrors, framed or set, ad val. 20 p.c.

Timber, viz: — Architraves, mouldings and skirtings of any material, per 100 lineal feet, 5s.; Timber, dressed, n. e. i., per 100 super. feet, 3s.; Timber, undressed, n. e. i., in sizes of 12 in. x 6 in. (or its equivalent), and over per 100 super. feet, 1s.; Timber, undressed, being Oregon, in sizes of 12 in. x 6 in. (or its equivalent) and over, per 100 super. feet, 6d.; Timber, undressed, n. e. i., in sizes of 7 in. x 2½ in. (or its equivalent) and upwards, and less than 12 in. x 6 in. (or its equivalent) per 100 super. feet, 1s. 6d.; Timber, undressed, n. e. i., of sizes less than 7 in. x 2½ in. (or its equivalent) per 100 super. feet, 1s. 6d.; Laths, per 1,000, 5s.; Palings, per 1,000, 15s.; Pickets, dressed, per 100, 4s.; Pickets, undressed, per 100, 1s.; Shingles, per 1,000, 3s.; Doors of wood—1¾ in. and over, each 7s. 6d.; over 1½ in. and under 1¾ in., each 5s.; 1½ in. and under, each 3s. 6d.

Wicker, bamboo, cane, or wood—all articles, n.e.i., made of, whether partly or wholly finished, including bellows, casks, shooks, sashes, and frames, timber, bent, n.e.i., wood cut into shape and dressed or partly dressed for making boxes or doors, walking sticks and canes, ad val. 20 p. c.

Axe and other unattached tool handles, ad val. 15 p.c.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber is firm at Boston, with an improved demand. There is some call for lumber for prompt delivery. The situation in the East is somewhat mixed, but high prices seem likely for lumber even if the cut of logs proves to be larger than at first reported. The quotations in this market are firm and unchanged at : Ten and 12-inch dimensions,$21; 9-inch and under, $18.50 to $19 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18 to $20 ; out spruce boards, $13 to $14 ; bundle furring, $17.

There is no change to note in hemlock lumber, the market being firm with a quiet demand : Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern ; Pennsylvania, No. 1, $18.50 to $19.50 ; No. 2, $15 to $16.50.

Western pine continues very firm, with only a small supply offering and a good demand: Uppers, 1 to 2 inch $84 to $87; 2½ to 3 in. $92 to $97 ; 4-in. $96 to $100 ; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78 ; 2½ to 3 in. $84 ; 4 in. $86 ; fine common, 1-in. $67 ; 1¼ to 1½ in. $69 ; 2-in. $72 ; 2½ to 3 in. $80; 4-in. $82 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Whitewood holds very firm, though no further advance is noted ; quartered oak is also firm with an active demand : Quartered oak, $75 to $83 ; plain oak, $45.00 to $47.00 ; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $54 to $60; sap, $43 to $48 ; common, $38 to $45 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $33 to $37 ; end-dried white maple, $46 ; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50 ; elm, $34 to $37.

Shingles are slightly firmer with a good demand : Extra cedar at $3.40 to $3.45; clear, $2.90 to $3.00 ; second clear, $2.30 to $2.40 ; extra No. 1, $1.75 to $1.80 ; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60 ; 18-inch, five butts to 2 inches, $4.25 ; five butts to 2¼ inches, $4.50.

Spruce clapboards are firm, with prices advanced. The demand is good, but the supply is still light : Extra, $45 ; clear, $43 ; second clear, $40 ; extra No. 1, $30 to $33.

Laths are firm and higher: One and five-eighths inch, $3.25 to $3.45 ; 1½-inch, $3.10 to $3.25.

WANTED

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, APRIL 8, 1903 No. 10

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'y Lumbermar— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED.—FIFTEEN LUMBER LORRIES, standard guage, also lath mill and bolter. THE DICKSON CO., Peterborough.

WANTED—A BURNER FOR SAW-MILL, about 24 ft. in diameter, by 40 ft. high, must be in good condition. Apply P. O. Box 23, Hamilton.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED—A POSITION AS MANAGER OR Superintendent, with a Lumber Company. Have a thorough knowledge of the lumber business, logging, sawing and shipping; speaking English and French. Address, 480 Temple Building, Montreal.

LIMITS FOR SALE CHEAP

59 SQUARE MILES ON THE BONNECHERE River for $10,000. Inspection invited at once. Also Mill and Water if desired with the limits at 4th Chute. JOHN KNIGHT, Renfrew P.O., Ont.

FOR SALE.

TWO PRESCOTT BAND MILLS, ONE RIGHT hand and one left hand, both in good condition; two second hand carriages, one right and one left hand; also the following shingle machinery: One Perkins shingle machine; one Boss shingle machine, jointers, edgers and packing boxes, one drag cut off saw, one slabber. Address HOLLAND & GRAVES, Buffalo, N.Y.

HARDWOOD LUMBER WANTED.

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE

VENEERS—SINGLE PLY OR GLUED UP stock. INTERNATIONAL LUMBER CO., LIMITED, Sault Ste. Marie Ontario, Canada.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

LUMBER WANTED

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, Owen Sound.

WANTED—WE ARE ALWAYS OPEN TO contract for all kinds of hardwood lumber. Please state price F. O. B. your nearest station, quantity and quality of the different kinds you will have to sell during 1903. We also require a large amount of Dimension stuff, particulars of which will be furnished, on application, by the KNECHTEL FURNITURE CO., of Hanover, Ont.

LIMIT FOR SALE

A TOWNSHIP WITH GOOD RED AND White Pine. About 50,000 Logs now cut and a portion hauled. Mill on the ground. Best shipping facilities. Location on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

TELEPHONE POLES FOR SALE

WE HAVE IN STOCK AND READY FOR shipment a large number of Cedar Poles in all lengths from 25 to 60 feet. Prices quoted on car lots f. o. b. here, or delivered at points required. GEORGE MCGREGOR, Killaloe Station, Ont.

FOR SALE

15,000,000 feet White Pine Lumber. 5,000,000 White Pine Lath.
A large portion of same is Cork Pine.
About 5,000,000 feet lumber already sawn and on sticks.
About 500,000 Laths already manufactured.
Mill now running. Location Sault Ste. Marie, Ontario.
22 feet water at loading dock.
For full information apply to the

INTERNATIONAL LUMBER CO.,
Limited,
Sault Ste. Marie, Ontario, Canada.

PLANING MILL MACHINERY FOR SALE

No. 6 Band re-saw with 4" diston 19 gauge saw, in use less than a year.
No. 1 Shaper iron frame. Invoice to me Oct. 30th, 1901 (McGregor, Gourley make.)
No. 8 Planer and matcher with drop heads, in use two years.
Pedestal buzz planer and countershaft, in use two years.
Bracket band saw, in use two years.
Pedestal tennon machine, in use two years.
Combination rip and cross-cut saw table, in use one year.
8" 3 sided sticker, all overhauled (Cowan & Co. make.)
Power mortiser with drilling attachment. (Fay-Egan make, sent out by A. R. Williams.)
Surfacer, 24" knife, revolving bed (McGregor, Gourley make.)
Post boring machine with tilting table, by Cowan & Co.
Jig saw, by A. R. Williams Co.
About 60 ft. 2" cold rolled steel shafting and numerous split pulleys all about as good as new. Address

H. L. MERRITT,
Blenheim, Ont.

FOR SALE.—TWO CARS XXX CEDAR Shingles. Orders solicited for Hemlock Bill Stuff, Broom Handles in Maple and Basswood. Table Pins and Dowels. A. P. EBERT, Wiarton, Ont.

WANTED—A COMPETENT MAN TO TAKE charge of planing mill. Must understand machinery, dressing and matching of lumber and be able to grade same. Apply Box S, CANADA LUMBERMAN, Toronto, Ont.

MANUFACTURES OF BOX SHOOKS, Broom-Handles, Wood-Pulp, Cardboard and similar goods should write to W.H.PRESTON, Hornsea, E. Yorks, England, who has largest connection amongst consumers in Great Britain and pays cash for goods.

WANTED—FROM 25,000 FEET TO 35 000 feet dry 1 inch beech, birch or maple, common and better. Will take in carloads lots. I will take from two or three different parties as long as there is a carload. Will pay the highest cash price. Apply to Box W, care CANADA LUMBERMAN, Toronto, Ont.

WANTED—A MILL RUN OF FROM THREE to five millions of white pine to be cut to order. We are open to buy any kind of white pine lumber. Will contract for ten million white pine lath. Please write us. CANADA LUMBER MFG. CO., North Tonawanda, N.Y.

FOR SALE, ABOUT 700 WHITE OAK TREES on Lot 5, Concession 2, Yarmouth, two miles north of Port Stanley. Sealed tenders will be received for the above up to the 14th of April, by W. L. WICKETT, Barrister, St. Thomas. The highest or any tender not necessarily accepted.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber demand throughout Ontario is all that could be desired. Notwithstanding that the sawing season is near at hand, prices of lumber remain unusually firm. There seems little ground on which to base the expectation of lower prices, as a large percentage of the production of all kinds of lumber has already passed out of first hands.

Salesmen who have visited retail yards report light stocks on hand. They have found it comparatively easy to effect sales, buyers having evidently become convinced that prices will not weaken for a few months at least.

Some manufacturers are quoting prices considerably above our list. No. 3 cuts and better have been sold this spring at $40. Box and common is worth $16 at the mill, 3 x 10 common $16 to $17, and 3 x 12 $17 to $18. It is probable that sales are being made below these figures, but on the other hand an established grade is readily taken at the above prices. Hemlock lumber has become greatly in favor. The price in Toronto is $14 for sidings and bill stuff up to 16 feet, stock boards being worth $1 to $1.50 more. Spruce lumber has been in some demand of late for box making. The average price is about $16. Inch mill run Norway sidings are held at $15 at the mill.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market has been much strengthened by the early appearance of spring, which has induced a brisk demand. Manufacturers are receiving numerous inquiries for stock for immediate shipment to the United States, while there is also more activity and a better tone in respect to British trade. As in some districts the cut of logs was less than anticipated on account of unfavorable operating conditions, there is little fear of a decline in prices. On the St. John and Salmon rivers several operators have been unable to get all their logs to the streams.

Spruce laths are disposed to strengthen, most sales being made around $3.15 for 1½ inch. Extra cedar shingles from a reliable manufacturer at less than $3.50 on Boston rate of freight are now considered a bargain. Smaller manufacturers are selling as low as $3.40, but this can scarcely be taken as the market price.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade continues active and the market firm. Within the week there hane been no price changes excepting in respect to British Columbia shingles, which, according to report, have been advanced ten cents per thousand. The new price is intended to apply to territory east of the Rocky Mountains, making the price in Manitoba and the Territories $2.75. At British Columbia points the figure remains at $2.25. Shingle manufacturers claim that the cost of production has increased much more than the selling price and that the new list will not give more than a fair margin of profit.

While the lumber business in British Columbia is in a prosperous condition, the trade is somewhat unsettled on account of a new regulation in respect to timber licenses ses which has been put into effect by the Provincial Legislature. This regulation provides that in future no special license to cut timber on Crown lands will be granted or renewed until after the applicants have had the limit surveyed by a provincial land surveyor. Loggers contend that the expense of making surveys will be exceedingly large.

UNITED STATES.

The lumber situation in the United States, as a whole, is most satisfactory. Retail dealers are placing orders quite freely, which is taken as an evidence that their stocks are low. As the demand throughout the winter was heavier than usual, it is surmised that retailers will be heavy purchasers of lumber this spring. Northern pine is exceptionally strong, the demand being reported in excess of the sup-

ply. Teis is exceptionally true with respect to low grade stock. Box makers are experiencing difficulty in securing the necessary lumber for their factories and are picking up mill culls and scoots wherever they can be located. Within the past month low grade stock has come into prominence, whereas the call for the upper grades has declined and stocks have accumulated. This is explained, no doubt, by the high price asked for the best grades. In the Buffalo market inch uppers have been held at $86, certainly a fancy figure, and as a result users of that grade of lumber have employed substitutes wherever it was possible to do so. The export trade is more active than for several years, 12-inch barn and box being in good demand for that purpose. Eastern wholesale dealers report that there is no talk of advancing prices, as it is felt that such action would curtail the eastern demand. If, however, there should be a further advance at producing points, it will be necessary for wholesale dealers to fall into line.

Hemlock and hardwoods continue strong. The demand for hemlock is in excess of the facilities for supplying it. In Michigan as high as $12 at the mill is asked.

There has been a flurry in the shingle market, caused by the situation in respect to red cedars. Prices of these shingles are somewhat weak, and it is reported that the Washington manufacturers are considering the closing down of the mills for a time.

GREAT BRITAIN.

British importers are still resisting the increased prices asked for lumber by White Sea and Swedish shippers. It is reported that the latter have reduced their asking prices five shillings per standard, and that as a result some contracts have been closed. Earlier in the season importers exhibited a similiar attitude in respect to Canadian lumber, but as the opening of navigation approached they gradually met the views of spippers and a considerable quantity of pine and spruce deals has been bought. The price of New Brunswick spruce deals is now firmly established at £7 10s per standard c.i.f. London and Liverpool for the usual specification of 60 to 65 per cent. 7 and 8 inch. This is equal to $19 per thousand feet. The consumption in Great Britain is not all that could be desired, but the opinion is advanced that a better tone will prevail from now on. Prices realized at recent public sales have been somewhat heavy, due probably to the indisposition of buyers to increase their stock of lumber very largely at a time when new stock is about to arrive. Reports from Ireland are not encouraging, the high prices asked for Quebec pine and spruce having induced some importers to purchase more heavily of pitch pine.

NEW BRUNSWICK CEDAR SHINGLES.

The market for New Brunswick shingles has recently stiffened slightly, and the production of well known mills is bringing $3.50 for extras. Less known and doubtful brands are selling at 10 to 15 cents less. The weather now is such that more shingles are being used, and as the winter mill production has been nearly cleaned out the indications are that the yards will be ready to buy freely by the time the summer mills start sawing. It is also likely that many of the strikes now on in building lines will be settled by May 15th, so that the season should open with a fairly brisk demand. General indications are, therefore, that prices will be held at present figures or higher. Quotations for standard shingles on Boston rates are as follows :

Extras, $3.40 to $3.50 ; Clears, $2.95 to $3.00 ; 2nd Clear, $2.40 ; Clear White, $2.30 ; Extra No. 1, $1.75.

STOCKS AND PRICES.

The Tracadie Lumber Company, of Sheila, N.B., took out about 13,000,000 feet of logs during the past winter.

Timothy Lynch, operating on the Miramichi River in New Brunswick, succeeded in getting all his logs to driving waters.

The O'Neill Lumber Company, of St. Martins, N.B., will have a smaller stock of logs than anticipated, as operators were obliged to cease work in the woods earlier than usual.

By the breaking of a boom at St. Romuald, Que., 15,000 logs belonging to E. Atkinson were set adrift. Most of the logs have been recovered, but at considerable expense.

Since January the Canadian Northern Railway has transported over 2,000,000 feet of saw logs from Whitefish and other points to Port Arthur for the Pigeon River Lumber Company.

It is reported that about 7,000,000 feet of logs cut on the Tobique river, in New Brunswick, have been left in the woods on account of the mild weather, also 20,000,000 feet cut on the Salmon river.

The Department of Railways and Canals at Ottawa is asking for tenders up to April 30th for the supply of about 155,000 feet b.m. of British Columbia fir dimension timber. The timber is required for the Rideau canal.

The Eastern States is said to be willing to buy heavily of No. 1 lath. The Merrill-Ring Company, of Duluth, Minn., have sold their entire cut for the coming season. Prices are $3 to $3.25 for No. 1, and $2.50 to $2.75 for No. 2.

In the Saginaw valley white pine shingles are quoted at $4.35 and $3.25. XXXX cedar are worth $4 and clear butts $2.75. Demand for lath is good. No. 1 pine are worth $3.75, No. 2 $3.25, No. 1 hemlock $3.35, and No. 2 hemlock $2.80.

The Huntsville Lumber Company, of Huntsville, Ont., are reported to have recently placed under contract almost the entire season's cut of their two mills, estimated in the neighborhood of 15,000,000 feet, and including lumber, lath and shingles.

The following tenders were received by the City of Ottawa for the supply of plank and cedar : W. H. McAuliffe, $6,710 ; W. C. Edwards & Company, $6,722; P. Burns, $6,872.50 : Ottawa Lumber Company, $6,960. The contract has been given to W. H. McAuliffe.

A report from Sydney, Cape Breton, states that the retail price of lumber is the highest ever quoted in that town, and that the demand is exceptionally brisk. Spruce scantling is selling at $14 per thousand, an advance of $1 over the figure of last year. Hemlock boards are quoted at $12, as against $11 one year ago. The most important advance, however, has taken place in the price of laths, which are particularly scarce and quoted at $3.50 in comparison with $2.25 last year.

It is reported that the shipments of lumber from Grindstone Island, Que., and Hopewell Cape, N. B., this season will exceed by a large amount the shipments of any previous year. It is said the total will be 28,000,000 or 30,000,000 feet. A number of vessels have already been chartered to load at these places. The ship Honolulu is due at Grindstone Island and the P. G. Blanchard is expected there on May 1st.

Of hemlock the American Lumberman says : Hemlock occupies a rather unusual position. The wood has come into great prominence during the last few months, due to the wide substitution that has of late been a feature of the market. It is now an important factor and the present demand is in excess of the facilities for supplying it. The situation in this wood is a good indication of the general market coudition, or rather of a peculiar phase of it. The consumption of lumber has been so heavy that woods other than those ordinarily used have been brought into play and the result has been a large increase in the demand for a wood that formerly was used to only a limited extent.

NEW LUMBER RATES.

A circular was issued on April 7th by the Grand Trunk Railway regarding lumber and lath rates from points in the Georgian Bay district to New York. The route will be by rail to Rouse's Point, Albany and Williams line along the Hudson river. The new rates are as follows :

From Trenton, pine or basswood lumber, per 1,000 feet, $3.75 ; laths per 1,000 pieces, 75 cents. From Peterboro, Campbellford, Lakefield, Lindsay, Fenelon Falls, Kinmount, Haliburton, Coboconk, Jackson's Point, Orillia, Uhthoff, Coldwater, Fesserton, Waubaushene, Sturgeon Bay, Victoria Harbour, Midland, Minessing, Hendrie, Phelpston, Elmvale, Wyevale, Penetang, Collingwood, Thornbury, Meaford, Longford, Washago, Severn, Gravenhurst, Muskoka Wharf, hardwood lumber, $5.85 per 1,000 feet ; $4 per 1,000 feet for pine or basswood lumber, and 80 cents per 1,000 pieces for laths. From Bracebridge, Falkenburg, Utterson, Huntsville, Craighurst, Orr Lake, Hillsdale, Mount St. Louis, Vasey, Novar, Emsdale, Scotia Jct., Katrine, for hardwood lumber per 1,000 feet, $6.15 ; for pine or basswood lumber, $4.25 per 1,000 feet, and 90 cents per 1,000 pieces of lath. MARKET FOR WOODEN BLOCKS.

The Eastern Trading Company, of Shanghai, China, has written to the British Columbia Department of Agriculture in reference to obtaining a supply of wooden blocks. The particulars are given in the following extract from their letter:

"Our council have decided on laying down a system of tramways, and we hear privately that in the course of about two or three months tenders for wooden blocks 8 in. x 3 in. x 5 in. will be required, the wood to resemble "billion' as much as possible. This wood being so well known you will not require any explanation, but most of the supplies for this market now come from North Borneo.

"We are unable to give you any exact amount that will be wanted, but our informant told the writer that it would run into several shipments. Seeing that rails 26 miles in length will be laid, you will see that the contract will be worth securing.

"It will be advisable also to have quotations in bulk, because it is just possible that the company who have the contract will be able to cut blocks in this country owing to the cheapness of labour.

"We should like quotations c.i.f. Shanghai, either at per ton or per 1,000 blocks, at the same time if you quote per thousand it will be advisable to know the weight of 1,000 blocks.

Kindly give us full particulars as to the time that you can deliver the goods provided we can place the contract.

"We shall be required to give, say, from 30 to 60 days' credit to the contractors on this side, and if business results, we shall be prepared to accept your bills drawn upon us at 60 to 90 days sight. If necessary, we could arrange for you to draw upon the contractors direct, you to simply pay us a commission of say two and a half per cent. for the trouble; we should then act as your agents."

The saw mill of F. E. Sayre and J. W. Holly at St. John, N.B., was destroyed by fire last week. The loss of $4,000 is covered by insurance.

TELEGRAPH POLES WANTED

We buy all lengths. Write us for prices and you will see that by cutting your Cedar into Poles it will net you more than you can get out of it in any other way.

Cushing & Company.

TIMBER LIMIT TRANSACTIONS.

John Hanbury, of Brandon, Man., has purchased several thousand acres of timber lands on the northern coast of British Columbia. The property is in different sections between Vancouver and Jervis Inlet. The purchase price was $47,000. It is understood that Mr. Hanbury intends operating the limits, and that in all probability a saw mill will be erected.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 27th March, 1903. The names of the parties may be obtained from the publishers of this journal.

A Huddersfield firm asks for names of Canadian exporters of weaving, spinning and twisting bobbins.

Inquiry is made by a firm of furniture makers and upholsterers for the names of parties able to supply dimension timber.

The following charters are reported: Barque Emigrant, Halifax, N. S., to w. c. England, deals, 37s 6d; several steamers, Bay of Fundy ports to U. K. during summer months at rates varying from 33s to 33s 6d; steamer Imperator Alexander II, St. John, N. B., to Melbourne, Australia, private terms; Barque Luarca, Weymouth, N. S., to River Platte, lumber.

THE BOSTON MARKET.

Spruce lumber holds very firm at Boston, with demand showing steady improvement. The quotations are fully sustained and even higher in some cases: Ten and 12-inch dimensions, $21; 9-inch and under, $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is steady and unchanged: Boards, 12, 14 and 16 ft. stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There continues to be a very firm market for western pine, with the demand good: Uppers, 1 to 2 inch $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Whitewood is held very firm, with only a moderate supply; oak is also firm, with other hardwoods steady: Quartered oak, $75 to $83; plain oak, $45.00 to $47.00; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $34 to $37.

There is only a light supply of spruce clapboards offering and prices are very firm at the recent advance: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30 to $33.

There is no further change to note in shingles, the market being firm, with a good demand: Extra cedar $3.40 to $3.50; clear, $2.90 to $3.00; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Laths are firm at the advance: One and five-eighths inch, $3.25 to 3.45; 1½ inch, $3.10 to 3.25.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, APRIL 15, 1903 No. 11

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED.—FIFTEEN LUMBER LORRIES, standard guage, also lath mill and bolter. THE DICKSON CO., Peterborough.

FOR SALE — LARGE QUANTITY BIRCH and Hemlock; can be cut to order at short notice. CLARIDGE & HILLOCK, South River, Ont.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED—A POSITION AS MANAGER OR Superintendent, with a Lumber Company. Have a thorough knowledge of the lumber business, logging, sawing and shipping; speaking English and French. Address, 480 Temple Building, Montreal.

LIMITS FOR SALE CHEAP

59 SQUARE MILES ON THE BONNECHERE River for $10,000. Inspection invited at once. Also Mill and Water if desired with the limits at 4th Chute. JOHN KNIGHT, Renfrew P.O., Ont.

FOR SALE.

TWO PRESCOTT BAND MILLS, ONE RIGHT hand and one left hand, both in good condition; two second hand carriages, one right and one left hand; also the following shingle machinery: One Perkins shingle machine; one Boss shingle machine, jointers, edgers and packing boxes, one drag cut off saw, one slabber. Address HOLLAND & GRAVES, Buffalo, N.Y.

HARDWOOD LUMBER WANTED.

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE

VENEERS—SINGLE PLY OR GLUED UP stock. INTERNATIONAL LUMBER CO., LIMITED, Sault Ste. Marie, Ontario, Canada.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

LUMBER WANTED

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, Owen Sound.

WANTED—WE ARE ALWAYS OPEN TO contract for all kinds of hardwood lumber. Please state price F. O. B. your nearest station, quantity and quality of the different kinds you will have to sell during 1903. We also require a large amount of Dimension stuff, particulars of which will be furnished, on application, by the KNECHTEL FURNITURE CO., of Hanover, Ont.

LIMIT FOR SALE

A TOWNSHIP WITH GOOD RED AND White Pine. About 50,000 Logs now cut and a portion hauled. Mill on the ground. Best shipping facilities. Location on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

TELEPHONE POLES FOR SALE

WE HAVE IN STOCK AND READY FOR shipment a large number of Cedar Poles in all lengths from 25 to 60 feet. Prices quoted on car lots f. o. b. here, or delivered at points required. GEORGE MCGREGOR, Killaloe Station, Ont.

FOR SALE

15,000,000 feet White Pine Lumber. 5,000,000 White Pine Lath.
A large portion of same is Cork Pine.
About 5,000,000 feet lumber already sawn and on sticks.
About 500,000 Laths already manufactured.
Mill now running. Location Sault Ste. Marie, Ontario.
22 feet water at loading dock.

Limited,
Sault Ste. Marie, Ontario, Canada.

PLANING MILL MACHINERY FOR SALE

No. 6 Band re-saw with 4" diston 19 gauge saw, in use less than a year.
No. 1 Shaper iron frame. Invoice to me Oct. 30th, 1901 (McGregor, Gourley make.)
No. 8 Planer and matcher with drop heads, in use two years.
Pedestal buzz planer and countershaft, in use two years.
Bracket band saw, in use two years.
Pedestal tennon machine, in use two years.
Combination rip and cross-cut saw table, in use one year.
8" 3 sided sticker, all overhauled (Cowan & Co. make.)
Power mortiser with drilling attachment. (Fay-Egan make, sent out by A. R. Williams.)
Surfacer, 24" knife, revolving bed (McGregor, Gourley make.)
Post boring machine with tilting table, by Cowan & Co.
Jig saw, by A. R. Williams Co.
About 60 ft. 2" cold rolled steel shafting and numerous split pulleys all about as good as new. Address

H. L. MERRITT,
Blenheim, Ont.

FOR SALE.

250,000 NO. 2 30" ELM STAVES. Apply to W. MARK DECEW, Fenelon Falls, Ont.

FOR SALE. — TWO CARS XXX CEDAR Shingles. Orders solicited for Hemlock Bill Stuff, Broom Handles in Maple and Basswood, Table Pins and Dowels. A. P. EBERT, Wiarton, Ont.

WANTED—A COMPETENT MAN TO TAKE charge of planing mill. Must understand machinery, dressing and matching of lumber and be able to grade same. Apply Box S, CANADA LUMBERMAN, Toronto, Ont.

FOR SALE,—ONE MILLION FEET OF 1½" dry maple and beech, (mostly maple). This stock is cut rough edge and runs 6 to 16 feet in length, piled mill run. We will sell it at a low figure in blocks of 100 thousand feet and up. For particulars apply Box 318, Woodstock, Ont.

WANTED—A MILL RUN OF FROM THREE to five millions of white pine to be cut to order. We are open to buy any kind of white pine lumber. Will contract for ten million white pine lath. Please write us. CANADA LUMBER MFG. CO., North Tonawanda, N.Y.

FOR SALE, ABOUT 700 WHITE OAK TREES on Lot 5, Concession 2, Yarmouth, two miles north of Port Stanley. Sealed tenders will be received for the above up to the 14th of April, by L. WICKETT, Barrister, St. Thomas. The highest or any tender not necessarily accepted.

WANTED—FROM 25,000 FEET TO 35,000 feet dry 1 inch beech, birch or maple, common and better. Will take in carloads lots. I will take from two or three different parties as long as there is a carload. Will pay the highest cash price. Apply to Box W, care CANADA LUMBERMAN, Toronto, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Each week brings to the lumber trade a larger volume of inquiries and active business. Given fine weather and there will doubtless be more urgent placing of orders than has been seen for some time, for everybody seems imbued with a desire to make the most of the prevailing favorable commercial conditions. There are still to be found persons who regard lumber prices as being too high, but usually such persons give little consideration to the conditions which have brought about the advanced prices. To the writer a manufacturer advanced several arguments in justification of the present prices, one of which—and a very important one—was that the value of white pine timber is gradually working to a higher basis. He further named several large manufacturers who have disposed of their total 1903 cut, and others who have sold a large proportion of their output. When the quantity which will be shipped to the United States is deducted from the Georgian Bay production, it leaves no large amount of lumber to be disposed of in the home market. Buyers for the British market have placed under contract the usual proportion of the Ottawa Valley product. Considering these conditions, and the shortage in the log supply as the result of the early cessation of work in the woods, estimated from 10 to 15 per cent. of the total cut, the buyer who is waiting for lower prices before placing orders for his season's requirments seems likely to be disappointed.

The hope previously expressed of freedom from strikes in the building trades has so far been realized, but the demands recently made by the labor unions upon the Toronto contractors will, it is feared, result in a suspension of work.

QUEBEC AND NEW BRUNSWICK.

Manufacturers of spruce lumber feel somewhat encouraged on account of recent inquiries received for cargo shipments to the east coast of England. A few years ago a number of cargoes were placed on the east coast, but since that time the business has been of little account. It seems that the price of Baltic whitewood has now reached the point where some consumers are disposed to again substitute spruce on account of its lower price. This demand will likely offset any probable decline in exports to the west coast of England. Prices of eastern lumber are practically unchanged. Favorable reports are heard in respect to cedar shingles, for which the range is now $3.40 to $3.50 for extras, Boston delivery.

Stream driving has commenced, the recent mild weather having caused a sudden rise of water in the rivers. In the northern part of New Brunswick there is still some snow in the woods, but in the southern portion it has entirely disappeared. In some quarters anxiety is expressed that the early disappearance of the snow may cause the streams to recede before the drives have reached the mills.

MANITOBA AND BRITISH COLUMBIA.

The only unfavorable feature in the lumber situation of the west is the danger of further labor troubles. The carpenters of Vancouver are now on strike, and in Winnipeg the situation is threatening, although the large amount of building placed under contract would seem to indicate that no serious results are anticipated. Some of the mills of Vancouver have an agreement with the builders under which they have refused to deliver lumber to others than members of the Exchange. On both sides, however, there is a hopeful feeling that the difficulty will be settled at an early date. The advance in the price of British Columbia shingles for delivery throughout Manitoba and the Territories, referred to last week, has been confirmed and gone into effect.

UNITED STATES.

There seems no likelihood of an early change in the remarkable condition of the lumber trade of the United States. The incidents of the past week have been in the direction of further strengthening the hands of the holder of lumber. Several large purchases of white pine have recently been made in the Lake Superior district. It is estimated that 150,000,000 feet of the proposed cut on the Menominee river has already been sold. In Chicago all grades of lumber are moving actively. Piece stuff brings $16.75 delivered in that city. Throughout the Eastern States there is a general complaint of a scarcity of box lumber, and there is a tendency to advance prices on all the coarser items. It is said that the supply of box, mill culls, and 6 and 12-inch barn boards is so small at Tonawanda that they are likely to be out of the market before new stock arrives. There is a splendid demand for Norway lumber, "C" and better being quoted at $40. Michigan manufacturers have made another advance in the price of hemlock lumber, for which the demand is much heavier than is usual at this season of the year. Some dealers are shipping green stock to fill their orders.

The entire hardwood list has been helped by the strong position of basswood. The Wisconsin Hardwood Lumbermen's Association has changed its quotations on this lumber, making an advance of $1 from the list adopted March 25th. The present prices are as follows, f. o. b. Wausau: 1-inch 1sts and 2nds clear basswood, 5 to 11 inches, 8 to 16 feet, $33; 1¼ to 1½ inch, $35; 2 inch, $37. White ash is also stronger, while maple and soft elm are becoming scarce. Good quartered white oak is selling in the eastern market at $70, while one year ago it could be bought for $55.

The shingle situation is satisfactory except in respect to Washington red cedars. At a meeting of the Washington Shingle Manufacturers' Association, held last week, it was decided to restrict the production, and it is the general opinion that about two hundred of the Washington mills will be closed down for an indefinite period.

GREAT BRITAIN.

Reports received respecting the condition of the British market are somewhat at variance. Shippers claim that they have succeeded in placing large stocks at their asking prices, while from other sources comes the information that importers have as yet bought sparingly and that they are not inclined to fall in with the views of shippers as to prices. It is perhaps near the mark to say that less than the usual quantity of Canadian lumber has been placed this season with British buyers. The outlook, however, is by no means discouraging, as stocks are as a rule in a healthy condition. There are practically no wide pine deals held in first hands, and shipments are taken at prices ranging from £32 to £39 per standard. The statistical position of red pine is favorable. Taking the Glasgow market as an example, the stock on hand March 31st of this year was 1,140,000 feet, as compared with over 4,000,000 feet at corresponding period last year. Quotations range from £9 5s to £12 per standard. Waney and square pine timber have appreciated in value, 18 to 19 inch waney being held at 3s 9d to 4d per cubic foot, and first-class square pine, 35 to 40 feet average, at 2s 9d to 3s. First-class rock elm is in good demand, but the stock of soft elm is large and prices correspondingly low. Birch is in better inquiry, 15 and 16 inch average ranging from 19 to 21d per cubic foot.

STOCKS AND PRICES.

The City of Winnipeg is asking for tenders up to April 28th for supply of lumber.

No. 1 white pine lath are quoted in Chicago at $3.60 to $3.75, No. 1 hemlock and No. 1 Norway at $3.25, and No. 2 lath at $2.75 to $3.

J. D. Carew, of Lindsay, Ont., has received a drive of 10,000 logs from Scugog Lake. Other drives are on the way from the Squaw River and Nogey's Creek.

The Rathbun Company have received the contract to supply lumber for the City of Kingston at $22.35 per thousand feet, and cedar for stringers at 3 cents per running foot.

The New Brunswick government will offer for sale at Fredericton, on April 22nd, four timber berths, as follows: 2 sq. miles on west branch Sabbies River, Bernard D. McCormick, applicant; 2½ sq. miles at mouth of Six Mile Brook, Cain's River, W. H. Murray, applicant; 6 sq. miles, north-west of Salmon River, W. H. Murray, applicant.

Owing to the early break-up of the logging roads in New Brunswick, W. J. Scott, operating on the Keswick river, was obliged to leave 4,000 logs in the woods. Several operators for Donald Fraser & Sons and the Tobique Manufacturing Company are reported to have also left large quantities of logs in the woods.

According to the United States Consul, the exports of lumber to the United States during the three months ending March 31 were valued at $185,428.58. Of this amount $94,616.03 represented Maine lumber manufactured at St. John, and $90,812.55 provincial lumber. Of the New Brunswick production long lumber was valued at $10,559.90 and lath at $25,922.27. Pulp exports represented $53,500.26, or more than half of the total New Brunswick product.

In the Chicago market tierce hoops are firm in price and scarce, quotations ranging from $15.50 to $16, while pork hoops are quoted from $11 to $12. In slack cooperage stocks are light and demand not urgent. Basswood heading for flour barrels is quoted at about 5½ cents a set, with sugar barrel heading at 6½ cents. The high price of hardwood lumber is making it difficult for purchasers of slack barrel stock to secure material with which to fill their orders.

Under date of March 28th, S. P. Musson, Son & Company refer to the Barbadoes lumber market as follows: "There has been no arrival of either white pine or spruce during the fortnight, but a mixed cargo of about 20,000 feet shipping and 50,000 feet second quality white pine, 40,000 shipping hemlock and 20,000 feet second quality spruce, said to be near by, has been sold at $26, $21, $19 and $18 respectively. Consumption is only moderate, and although stocks are not large there is not much inquiry, the impression being that prices will decline later on. There is hardly any inquiry for shingles."

Continued rains in the province of New Brunswick have caused freshets and resulted in considerable damage to logging booms. The boom at the mouth of the Nashwaak river gave way and 500,000 feet of logs belonging to Jas. M. Scott, of Dumfries, went adrift in the river. Most of them have been recovered, but at considerable expense. James Humphrey, of Moncton, lost 1,000,000 feet of logs and the top of his mill dam was washed away. By the breaking of the boom at Apohaqui, 5,000 logs belonging to Jones Bros. went adrift. A. H. Peck, of Hopewell Hill, suffered a slight loss in the same manner.

A better movement of shingles at North Tonawanda has not been noted this year, demand being exceptionally good. Red cedars are being quoted at 10 cents less than a week ago, attributed to a surplus and the disposition of consumers to secure other shingles that may be bought for less money. White pine manufacturers are reported somewhat behind in orders. There is a fair supply of them with dealers but the excellent movement makes more of them most desirable; consequently orders are being placed with producers right along.

A scarcity of dry hardwood is restricting the movement to consumers. During the month of March, says the Mississippi Valley Lumberman, a larger quantity was sold and shipped than in the the three preceding months, and supplies of the most desirable woods have been reduced to unusually low proportions. Prices on white quartered oak continue extremely high, and for the time being there is little prospect of any reduction. Common and cull are being absorbed more readily and $38 to $40 is obtained. A scarcity of basswood and cottonwood enables holders to obtained high prices, and cottonwood box boards have sold up to $44, and culls at $23, free on board, Cairo. The top price paid on basswood at Wisconsin points is $32 for firsts and seconds.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S.: Steamer Florence, for London, 265,607 feet spruce deals, value $3,183, 135,221 feet birch plank, value $1,458. Steamer Manchester City, for London, 306,787 feet spruce deals, value $1,366, 50,887 feet birch plank, value $542. Steamer London City, for London, 83,003 feet spruce deals, value $977. Barque Nora, for London, 970,749 feet spruce deals, value $11,140.

THE GLASGOW MARKET.

Edmiston & Mitchells' monthly timber circular of March 31st says of the Glasgow market:

Annexed will be found our usual quarterly statement showing the stock of logs and lumber at this date, compared with previous years. Of Quebec timber, waney pine, oak and ash logs are all considerably higher than at corresponding date last year, and a similiar remark applies to spruce deals; but of other Canadian goods, the stocks on hand generally are small. Low port spruce and pine are higher, and sawn pitch pine is 3,500 loads up, whereas, on the other hand, teak logs show a marked dimunition. Apart from these,

TELEGRAPH POLES WANTED

WRITE FOR PARTICULARS AND QUOTATIONS.

there is nothing in the statistical position calling for special attention. The consumption of both logs and lumber during the first three months of the year has been of gratifying dimensions.

A considerable amount of business has been done in contracting for the coming season's timber and deal requirements from Montreal and Quebec at prices which, generally speaking, show an advance on those of last season.

A fair amount of business has been done during the past month, several large transactions being reported in spruce deals, pitch pine and teak, while pine deals, sidings, etc., have also been active at firm prices. In American hardwoods there is a steady demand for poplar lumber of all grades and thicknesses, with the exception perhaps of 18-inch and up, which has come forward too freely of late, and prices for this stock are hardly as firm as they were.

WHITE OR YELLOW PINE.—Business during the month has been quiet. The import consists of about 150 loads sawn waney, via Baltimore, which met with ready sale "ex quay." There has been no movement from ponded stock of any importance, with the exception of a parcel of 1st quality square wood about 900 feet per page. Stocks are normal and prices are firm.

RED PINE.—There has been the usual small business, and the stock is now only about 150 loads. Prices firm at 1s. 9d. to 2s. per cubic foot.

OAK.—The demand still continues quiet, a few retail sales comprising the business for the month. The stock is heavy, chiefly composed of Southern States wood.

ELM.—Enquiries for good rock elm have been fairly numerous, and several transactions have taken place at satisfactory prices. The stock chiefly consists of second class and soft elm, for which there is little demand.

QUEBEC BIRCH.—There has been one import this month via Portland, consisting of 271 logs about 16-inch average, which were sold to arrive. The stock on hand is now very low, and there are several enquiries for 15 and 16-inch average, values of which are round about 19d to 21d per foot. Lower Port.—There is nothing of importance to report, the stock in first hands being exhausted. Nominal value of 15-inch Pictou is 17d to 18d.

ASH.—There is still a considerable stock on hand, and the consumption of this timber is becoming smaller and smaller, partly owing to the continued depression in the furniture trade, and partly to other cheaper woods being used in its place. Several shipments of American round logs have come to hand this month, the best of which found buyers from the ship's side, the balance going into store. Only second-growth ash is especially enquired for.

DEALS, ETC.—There has been a good steady business during the month, especially in the better qualities of pine goods. The stock of first pine deals and sidings is low, but of the lower qualities there is ample. Spruce deals are moving off freely, and prices of all kinds are firm. Current values are as under:— Broad first pine deals, £32 to £34; 11-inch, £29 to £31; ends and non-dimensions, £22 to £24. Second pine deals.— 11-inch and up, £19 to £21 10s.; ends and non-dimensions, £13 to £14 10s. Third pine deals.—11-inch and up, £13 to £14 10s; Ends and non-dimensions, £10 to £11. Red pine deals.—9 and 11 inch, £11 10s to £12 10s; Narrows, £8 10s to £9 10s. First pine sidings.—9 and 10 inch, £24 to £25; 11 to 12 inch, £26 to £28; 13 to 14 inch, £29 to £31. Spruce deals.—9-inch and up, £8 15s to £9 10s; 7 and 8 inch, £7 5s to £8 5s. Lower port pine and spruce.—7 and 8 inch, £7 to £7 15s; 9-inch and up, £8 5s. to £8 15s.

The following is a comparative statement of the stock of Canadian timber and deals in Clyde at 31st March for the last two years:

	1902 Loads	1903 Loads
Quebec waney boardwood	1,402	2,748
" square white pine	3,206	2,605
" red pine logs	254	166
" oak logs	684	2,541

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

The market for spruce lumber at Boston is very firm, with an active demand from the yard men. Recent advices from Maine report a return of winter with snow and ice, which will delay operations seriously. Prices are very firm, but not quotably higher: Ten and 12-inch dimensions, $12; nine inch and under, $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is steady and unchanged: Boards, 12, 14 and 16 ft. stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine is very firm, with an excellent demand: Uppers, 1 to 2 inch $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2 in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There is no further change in whitewood, but the markets, both here and in the south, are very firm; oak and other hardwoods are steady. The quotations are:— Quartered oak, $75 to $83; plain oak, $45.00 to $47.00; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $34 to $37.

There is still a light supply of spruce clapboards offering and prices are very firm: Extra $45; clear $43; second clear, $40; extra No. 1, $30 to $33.

Shingles are steady with a good demand:— Extra cedar, $3.40 to $3.50; clear, $2.90 to $3.00; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Laths are firm but not quotably higher: One and five-eighths inch, $3.25 to 3.45; 1½ inch, $3.10 to 3.25.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, APRIL 22, 1903 No. 12

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

FOR SALE—BLACK WALNUT LUMBER, about 3000 ft., extra dry. J. R. PARK, Amherstburg, Ont.

FOR SALE OR EXCHANGE — SAW-MILL 10,000 capacity; in town of 3,000 population; no opposition; a snap; particulars on application to BOX 16, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED—A POSITION AS MANAGER OR Superintendent, with a Lumber Company. Have a thorough knowledge of the lumber business, logging, sawing and shipping; speaking English and French. Address, 480 Temple Building, Montreal.

LIMITS FOR SALE CHEAP

Power mortiser with drilling attachment. (Fay-Egan make, sent out by A. R. Williams.)
Surfacer, 24" knife, revolving bed (McGregor, Gourley make.)
Post boring machine with tilting table, by Cowan & Co.
Jig saw, by A. R. Williams Co.
About 60 ft. 2" cold rolled steel shafting and numerous split pulleys all about as good as new. Address

H. L. MERRITT,
Blenheim, Ont.

FOR SALE.

250,000 NO. 2 30" ELM STAVES. Apply to W. MARK DECEW, Fenelon Falls, Ont.

FOR SALE. — TWO CARS XXX CEDAR Shingles. Orders solicited for Hemlock Bill Stuff, Broom Handles in Maple and Basswood, Table Pins and Dowels. A. P. EBERT, Wiarton, Ont.

WANTED—A COMPETENT MAN TO TAKE charge of planing mill. Must understand machinery, dressing and matching of lumber and be able to grade same. Apply BOX S, CANADA LUMBERMAN, Toronto, Ont.

FOR SALE,—ONE MILLION FEET OF 1½" dry maple and beech, (mostly maple). This stock is cut rough edge and runs 6 to 16 feet in length, piled mill run. We will sell it at a low figure in blocks of 100 thousand feet and up. For particulars apply Box 318, Woodstock, Ont.

WANTED—FROM 25,000 FEET TO 35 000 feet dry 1 inch beech, birch or maple, common and better. Will take in carloads lots. I will take from two or three different parties as long as there is a carload. Will pay the highest cash price. Apply to BOX W, care CANADA LUMBERMAN, Toronto, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

A scrutiny of the lumber situation fails to reveal any weak spots in the market. The movement of building lumber is large, manufacturers are buying quite liberally, and the export demand is gradually improving. United States firms are still buying with considerable energy. It is reported that the Skillings, Whitney & Barnes Lumber Company have purchased upwards of 150,000,000 feet of white pine lumber to be sawn this season by Ontario mills, while important purchases have also been made by other concerns. Lumber manufacturers have a larger volume of orders on their books than at this time one year ago. These factors cannot be ignored. On the other hand, they seem to remove any probability of lower prices during the spring or summer seasons.

Prices of log run pine are still of a wide range. A certain manufacturer who sold a large proportion of his output at $20 per thousand feet, is asking $25 for the balance, comprising 8,000,000 feet of selected logs. Average prices are perhaps $17 to $19 for common log run, $19 to $21 for medium, and $24 to $26 for choice. Norway lumber is worth about $13 at the mill.

QUEBEC AND NEW BRUNSWICK.

Differences have arisen between the Montreal stevedores and longshoremen which threaten to tie up business at that port upon the opening of navigation. Thirteen steamers are expected to arrive for cargoes within the next week, and if a settlement is not reached in the meantime the shipping of lumber may be seriously interfered with. Chartering of lumber vessels has not been active, and it is considered that the spring shipments will be lighter than usual. The market for spruce deals is slightly stronger, while there have been numerous inquiries for clapboards for shipment to the Eastern States. Quebec shippers have placed considerable square and waney timber. It is reported that almost the entire stock of waney pine has been placed at prices averaging about 85 cents per cubic foot for 18-inch delivered on vessel at port. For long lengths as high as $1 is said to have been paid. Quebec oak has been placed around 80 cents c.i.f. London. There is a better tone to the shingle market. For extra quality New Brunswick cedars $3.50 is offered, while a few of the largest manufacturers are holding their best grade at $3.55.

UNITED STATES.

The records of building permits for twenty-three leading cities of the United States show that building is more active than last year. During the month of March, 1902, 7,216 permits were issued in these cities, representing a value of $30,968,821, as compared with 7,380 permits of a value of $37,246,655 for the corresponding month of this year. These figures indicate that the higher price of lumber has had little effect upon building operations, being offset no doubt by the prosperous financial and industrial conditions. There is an active demand for lumber of all kinds. The opening of navigation has been delayed and stocks of white pine are running low. At Buffalo and Tonawanda the scarcity of box and mill culls has resulted in a slight advance in prices. Some dealers are now asking $21 for 12-inch box, as compared with $20 a fortnight ago. There is also a shortage in thick cuts. In the Chicago market piece stuff is selling from the yards at from $17.50 to $18, with $16.75 asked for 2x4 to 2x10 in short stuff. No. 3 and better is held around $22.50. The demand for spruce lumber is strong and there is every prospect that present prices will prevail for some months at least.

Quartered oak leads the hardwood market. Prices of this kind of lumber are somewhat irregular, some dealers venturing to hold their stock at figures which are considered by more conservative persons to be excessive. There is a good call for thick maple, while recently a shortage in the supply of elm has developed. Green basswood is being purchased by some consumers on account of inability to obtain the dry article. Maple flooring, which has been a little weak for some time, is now showing more activity and a hardening tendency.

The situation in respect to the Pacific

Coast product has somewhat unsettled the shingle market, although increased sales are reported and it is believed that the season will be a good one. White pine hold steady, while white cedars have advanced.

GREAT BRITAIN.

The British market continues somewhat perplexing. Some importers claim that weakness is in course of development, while others contend that the market is maintaining stability even in the face of very light buying. Agents of shippers report that it is most difficult to close contracts, but add that it will be absolutely necessary for importers to arrange for supplies at a very early date. In respect to Canadian lumber it can be said that first quality pine deals are now almost unobtainable, and sales of third quality have been made at £12 10s. to £12 15s. per standard of 1,980 feet. For fourth quality there is little demand. Quebec spruce deals have recently been sold in London at £9 5s. for 9-inch third quality, and £9 2s. 6d. for unassorted. For New Brunswick spruce, per regular liners from St. John, the price is £7 7s. 6d. to £7 10s. per standard. The imports by the liners have been small, but stocks at Liverpool, Manchester and other ports are somewhat heavy. Liverpool brokers are said to have made good sales of spruce on the Continent and in Ireland.

At a recent auction sale 2x11 Quebec spruce brought £12 per standard. A single lot of first quality white pine from Montreal, comprising 3x11, 3x10 and 3 x 6 and 7, sold at £13 10s., which was considered much below its value.

STOCKS AND PRICES.

Martin O'Donohue has opened a lumber yard at West Selkirk, Man., with 700,000 feet of lumber in stock.

Oliver & Beaton, of Fort William, Ont., cut over 20,000 ties at English River during the past winter.

Laths in Chicago are held at $3.50 for No. 1 white pine, $2.75 to $3 for No. 2, and $3.25 for No. 1 hemlock or Norway.

There is between 210,000,000 and 250,000,000 feet of logs to come out of the Spanish river and tributaries this season.

Tenders are invited up to April 28th for supplying the Works Committee of the City of Winnipeg with lumber required during the current year.

A. R. Mann, of Winnipeg, has ceased logging operations in the vicinity of Fort Francis, Ont. During the past winter he took out over 350,000 ties.

Sales of about 3,000,000 feet of No. 3 and better lumber were made at Duluth last week at prices distinctly in advance of the average for the past two weeks for both the narrow widths and the boards.

Skillings, Whitney & Barnes, of Boston, have contracted for over 30,000,000 feet of lumber to be cut this season at Cutler, Ont., by N. N. Wright & Company. The total cut of the Cutler mill will be about 40,000,000 feet, all of which has been sold.

Gilroy & Humber, of Mableton, N. S., were heavy losers by a recent freshet. Of their season's output of logs boomed above the water mill, amounting to 12,000, not more than 4,000 now remain. The balance are strewn along the river and will have to be collected and rafted down to a convenient place for booming and sawing.

Chicago reports a weak market for cooperage stock. Tierce hoops which a few weeks ago were worth $15 now range from $11 to $12. There is practically no demand for staves, hoops or heading. Buffalo jobbers quote first-class elm staves at $9.25 to $9.50; basswood heading, 6 to 6½ cents; coiled hoops, $10 to $10.50 for 6-foot and $9.75 to $10.25 for 5½ foot.

A despatch from Fredericton, N. B., states that driving operations have commenced on most of the streams. R. A. Estey, Hillyard Bros., Murchie & Sons and others who operate on the Tobique river have engaged crews for driving. Donald Fraser & Sons started operations last week and expect to get about 12,000,000 feet of logs. J. A. Patterson, who operates on the Salmon river, and J. H. Sawyer, on the Gulmac river, have made excellent progress with their drives. On the Restigouche the ice has been slow in moving.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

With log driving well in hand on several streams, the lumbermen are now turning their attention to the mills. Preparations are well advanced for a good season's cut. The cool spring presages a steady movement of logs, as the larger streams will be fed gradually from their tributaries during the late spring and early summer. The ice is not expected to move out of the more northerly creeks for another fortnight.

The first mill in the Ottawa district to resume operations was that of the Hawkesbury Lumber Company, at Hawkesbury, Ont. The strike declared on Good Friday paralyzed operations, but it was of short duration.

The Booth mill at Ottawa is running night and day, and will soon be employing between 1,500 and 1,800 men and boys, in the mills and yards. The Mason mill at Hintonburg, secured by the Shepherd & Morse Company, with its new equipment, is about the only new thing outside the establishment of the Fraser mill at Deschenes, and Davidson & Thackery's new mill at Davidson, Que., the new lumbering village in the Pontiac district.

Reference to the market page will show an advance in several lines of high grade stock. Even as a futurity it is exceedingly scarce, and it is figured that over one-half of the 1903 mill cut has long ere this passed from the manufacturer to the British and American buyers. Local dealers are experiencing considerable difficulty in securing stock to supply the local market.

The first logs of the season are reported at the Coulonge boom, near the juncture with the Ottawa. The logs are part of a bunch of 100,000 cut for Davidson & Thackery's new mill at Davidson station.

Mr. W. H. McAulliffe, the well known local lumber dealer, has purchased an additional block of land in the Chaudiere district adjoining his present extensive piling and sorting grounds. He will erect a planing mill, and thus add an additional branch to his rapidly growing business.

Messrs. Hurdman & Elmitt, one of Ottawa's aggressive lumber firms, have secured territory for piling grounds convenient to the city and in touch with the different lines of railway.

Mr. E. A. Chamberlain, formerly of the James MacLaren Lumber Company, Buckingham, has accepted a position on the construction work at Mr. Alex. Fraser's new mill at Deschenes, near Ottawa.

Mr. W. P. Hinton, general freight and passenger agent of the Canada Atlantic Railway, was at its last meeting elected President of the Canadian Freight Agents Association. Mr. Hinton well deserves the honor, a point on which his friends in the lumber trade of Canada and the United States will agree. Although one of the youngest, he is one of the best informed railway men in America.

OTTAWA, April 20th, 1903.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 3rd April, 1903. The names of the parties may be obtained from the publishers of this journal.

Inquiry has been made respecting the suitability of Canadian hemlock for railway ties, and the supplies of this timber available.

The names of users of spool-wood and "Excelsior" packing are required by a party in Canada who is taking up the manufacture and export of these goods.

BRITISH TIMBER SALE.

The following prices were realized for Canadian pine and spruce lumber at an auction sale held by Churchill & Sim, London, Eng., on April 8th:

PINE.—Ex. Langford, from Quebec—7-22 ft. 4x8 in. unassorted red, £9 per standard; 12-22 ft. 4x7, £8 10s; 9-20 ft. 4x6, £8 5s; 12-21 ft. 3x8, £8 10s; 10-20 ft. 3x7, £8; 12-18 ft. 2½x8, £8 10s; 12-18 ft. 2½x4-6, £7; 9-18 ft. 2x11, £12; 9-18 ft. 2x4-8, £7 5s; 10-18 ft. 1¼x4-11, £6 5s. Ex. Aquila, from Montreal—12-16 ft. 1x10 in. first quality red, £13 15s; 15-16 ft. 1x8, £12 10s; 15-16 ft. 1x7, £12 15s.

SPRUCE.—Ex. Carlisle City, from St. John—4-24 ft. 1x8-10 in. first, second and third quality, £7 5s. per standard; 6-24 ft. 1x7, £7. Ex. Hermann, from Saguenay, Que.—10 ft. 3x8 in. unassorted, £8 15s; 9-10 ft. 3x8, £8 15s; 10-15 ft. 3x7, £7 15s. Ex. Avona, from Quebec—10-15 ft. 3x11 third quality, £9 10s; 10-19 ft. 3x7, £7 10s; 9-11 ft. 3x7-9, £7 15s; 9-18 ft. 3x6-12, £8; 4-8 ft. 3x7-12, £7 10s. Ex. Lycia, from Quebec—12-13 ft. 3x5 in. third quality, £6 15s; 12-13 ft. 3x4, £7,

A saw mill in Kings County belonging to S. B. Benjamin, of Wolfville, N.S., was destroyed by fire on the 16th inst. The mill was just starting on the summer cut, the pond being full of logs. The property was insured for $14,000.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

The following charters are reported: Steamer, Dalhousie, N. B., to London, deals, 37s 6d, May; "Pocasset," St. John, N.B., to U.K., 875 standards, 33s; "Mara Kobb," St. John, N.B., to w.c. England, 33s, 500 birch, 15s 3d per load, May; Miramichi, N.B., to Mersey, 520 standards, 45s; steamer, 1,300 standards, Montreal to London, deals, 36s 3d, May-June; steamer, 650 standards, Quebec to Waterford, 40s, May-June.

COOPERAGE STOCK.

Writing of the cooperage stock market the Sutherland, Innes Company, of Chatham, Ont., say :

As far as Southern Michigan, Ohio, Indiana and Ontario are concerned, the heavy snow that came on top of the mud before there was any frost in the ground prevented lumbering this season, and what logs were taken out were only taken out at great expense, and in very small quantities. The stocks of last year's manufacture at the mills are practically nil, everything having been cleaned out, except a few No. 2 staves, and very few of them are now left on hand.

We expect that staves and heading will be high for some time to come. Hoops we hardly expect will maintain present prices, although they should keep pretty near the present prices to make the manufacture of hoops a profitable business to the mill men.

The future price of staves for the balance of the year, after the first of July, will of course be governed by the season that we have for trucking, and the prospects for an apple crop. If there is a good season for trucking and no apple crop in sight, staves will be easier towards the latter part of the season. From the 1st of August or a little earlier, provided there is an apple crop in sight, there will be no decrease in the price of either staves or heading, and while hoops may not decline for some time, as soon as an apple crop is assured, they will undoubtedly go up again.

The question at the present time for the mill men is how to get sufficient timber to run their mills, and this is a very serious problem this year.

With regard to tight-barrel stock, all classes of this stock are very scarce at present. There are quite a few staves and heading in the woods, but it has been impossible to get them out, and until there is a dry spell there is bound to be a scarcity of all classes of tight-barrel material. The floods in the South have almost stopped the production there. The consequence is that prices are very stiff, and while we do not think this will continue very long, we look for higher prices for all classes of tight-barrel stock this season than were obtained during the past season.

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

There continues to be an active demand for spruce lumber at Boston and throughout the Eastern States, with prices holding very firm. The season is backward in Maine, and the mills have been delayed by the ice. Quotations are very firm, but not quotably higher: Ten and 12-inch dimensions, $21; nine inch and under, $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

There is a steady market for hemlock lumber at unchanged prices: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50, No. 2, $15 to $16.50.

Western pine is in good demand, with prices very firm: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2 in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber continues in the very firm position recently noted, especially for whitewood and quartered oak. The quotations are:— Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $34 to $37.

Spruce clapboards are still in light supply, prices ruling firm: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30 to $33.

Shingles are firmer, with the better grades higher: Extra cedar, $3.45 to $3.55; clear, $2.90 to $3.00; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Laths are firm but unchanged in price. One and five-eighths inch, $3.25 to 3.45; 1½ inch, $3.10 to $3.25.

WANTED

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, APRIL 29, 1903 No. 13

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

FOR SALE—BLACK WALNUT LUMBER, about 3000 ft., extra dry. J. R. PARK, Amherstburg, Ont.

FOR SALE OR EXCHANGE — SAW-MILL 10,000 capacity; in town of 3,000 population; no opposition; a snap; particulars on application to BOX 16, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

LIMITS FOR SALE CHEAP

59 SQUARE MILES ON THE BONNECHERE River for $10,000. Inspection invited at once. Also Mill and Water if desired with the limits at 4th Chute. JOHN KNIGHT, Renfrew P.O., Ont.

WANTED.

A 24" SURFACER, REVOLVING BED; ONE Iron Jointer, with 16" knives; one arm Sandpapering Machine; 500 feet 1-in. gas pipe; 45 1-in. unions; one Circular Self-Feed Rip Saw with iron frame. JOHN MCCORMICK, Lawrence Station, Ont.

FOR SALE.

TWO PRESCOTT BAND MILLS, ONE RIGHT hand and one left hand, both in good condition; two second hand carriages, one right and one left hand; also the following shingle machinery: One Perkins shingle machine; one Boss shingle machine, jointers, edgers and packing boxes, one drag cut off saw, one slabber. Address HOLLAND & GRAVES, Buffalo, N.Y.

HARDWOOD LUMBER WANTED

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE

VENEERS—SINGLE PLY OR GLUED UP stock. INTERNATIONAL LUMBER CO., LIMITED, Sault Ste. Marie, Ontario, Canada.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

BASSWOOD WANTED — WE ARE OPEN to purchase Basswood either in lumber, logs or 52" bolts. State price F. O. B. your nearest station. THOMAS BROTHERS, LIMITED, St. Thomas, Ont.

FOR SALE.—ONE MILLION FEET OF 1½" dry maple and beech, (mostly maple). This stock is cut rough edge and runs 6 to 16 feet in length, piled mill run. We will sell it at a low figure in blocks of 100 thousand feet and up. For particulars apply Box 318, Woodstock, Ont.

LUMBER WANTED

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, Owen Sound.

WANTED—WE ARE ALWAYS OPEN TO contract for all kinds of hardwood lumber. Please state price F. O. B. your nearest station, quantity and quality of the different kinds you will have to sell during 1903. We also require a large amount of Dimension stuff, particulars of which will be furnished, on application, by the KNECHTEL FURNITURE CO., of Hanover, Ont.

LIMIT FOR SALE

A TOWNSHIP WITH GOOD RED AND White Pine. About 50,000 Logs now cut and a portion hauled. Mill on the ground. Best shipping facilities. Location on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

ADVERTISER IS OPEN TO ENGAGEMENT as Business or Office Manager of Door and Sash Factory. Practical Accountant, thoroughly conversant with plans and estimating for millwork connected therewith; competent as buyer, and also a knowledge of kindred trades; possesses both initiative and executive ability, (depending on location); can influence trade; satisfactory reasons for wishing to change position; present employers would give testimonial as to ability, character, etc. State salary would pay man meeting above requirements; correspondence confidential. Address first instance "Situation," care of CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

If assurance could be given that no troubles would result from the demands for increased wages which have been made upon almost every branch of the building trade, there would be removed the greatest barrier to an expansion of the lumber demand. Architects have in hand plans for numerous buildings, both large and small, the carrying out of which this season has been made conditional upon an early settlement of labor difficulties. Considering the present cost of building, the conservatism which is being shown is not surprising. Business in lumber during the month of April showed a gratifying improvement over that of the previous month. Apart from the circumstances to which we have referred, there is scarcely a dark cloud on the lumber horizon. In the Ottawa district prices are strong and the demand keen. Mill culls are selling readily, which is regarded as a very favorable feature. In Western Ontario there is an unprecedented demand for hemlock. Standard lengths, 16 feet and under, are now retailing in Toronto at $16. This is an increase of quite $2 since January last. This advance does not represent increased profit to the dealer, as the mill price of $10.50 quoted in January is now $12.50. Exceptionally long lengths of hemlock have sold in Toronto all the way from $17 to $20. Pine shingles are steady, with no advance. XXX are selling in Toronto at from $3.30 to $3.35, and XX from $2.40 to $2.45.

The hardwood situation is not likely to become easier until June at the earliest. Dealers are constantly in search of basswood, which is held at very stiff prices. It is almost impossible to buy firsts and seconds, as manufacturers insist upon the buyer taking common and better, for which $23 at the mill is usually asked.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber is stronger, probably in sympathy with the better feeling in the Eastern States. The majority of retail dealers have made a slight advance on all grades, while short lumber and clapboards are exceptionally firm. New Brunswick cedar shingles are in better demand. For extras as much as $3.60 is sometimes asked for Boston delivery, while no popular brand is to be had for less than $3.50. An advance of ten cents all along the line is predicted. Laths are somewhat irregular, although the tendency is towards higher prices, as some manufacturers are asking $3.40 for 1 5-8 inch on Boston rate.

Information concerning the log drives is somewhat conflicting. From Maugerville, N. B., comes the advice that the logs cut on the back streams are hung up, the snow all gone, and the river very low. On the other hand, it is reported that at Campbellton and other points north there are three or four feet of snow in the woods. The outlook for driving operations would seem to be fair, although the drives are likely to be later than last year.

MANITOBA AND BRITISH COLUMBIA.

The lumber situation in the West remains unchanged, there being an active demand at firm prices. The mills are operating to their utmost capacity, but are unable to meet the orders which specify early shipment. Enquiries are largely confined to building lumber, as throughout the entire Northwest building operations are very active. The permits granted this year in the city of Winnipeg exceed in value those for the corresponding period of last year by a million dollars.

A dispatch from Vancouver dated April 17th states that manufacturers have decided to reduce the price of shingles for Northwest delivery by ten cents. The statement, however, cannot be confirmed at time of going to press.

At a meeting of the Pacific Coast Lumber Manufacturers' Association held at Tacoma, Washington, on April 17th, at which several British Columbia mills were represented, it was decided to make a slight advance in the price of flooring, car roofing and siding, the demand for which has been larger than the mills have been able to supply.

UNITED STATES.

Apprehension that May 1 may bring serious labor troubles has acted as a

depressing influence in the timber trade. The carpenters of Boston and Philadelphia threaten to go on strike on that date unless their demands are conceded, and it is feared that it may involve all lines of building. Buyers of lumber for building purposes have urged that immediate shipment be made, while there has been a disposition to curtail orders for delivery after that date. The demand from factories and similar sources is steadily enlarging, and promises to consume a very large quantity of lumber this year. Box factories at Buffalo and Tonawanda which were closed on account of exhaustion of material have resumed operations, one or two cargoes having been received. There is a decided scarcity of box lumber and thick No. 1 cuts. Mill culls are by no means in heavy stock, while the price is $2 higher than last spring. Eastern spruce is equally as strong as pine. Opening spring sales have been at higher figures than ever before. Ordinary frames are held at $19 in Boston, but sales are reported at higher prices for prompt delivery. Hemlock is being bought very largely for the cheaper class of buildings, the difference between its cost and that of white pine being considerable.

Floods in the Southern States are reported to have curtailed the hardwood output at least 40 per cent. This circumstance has further strengthened the hardwood market, which has for some time been buoyant. Buffalo dealers are asking $85 for inch quartered white oak. Thick maple is wanted in excess of the supply, while buyers are at all times in search of basswood. Inquiries for maple flooring are numerous.

GREAT BRITAIN.

Reports from the British market are a repetition of what has been said for weeks past. Prices still remain firm but the outlook is uncertain. Importers refuse to entertain shippers' quotations, and there are at present no signs that either side will yeild. A lessened import this year will probably be the result. In some quarters it is predicted that later on shippers will be compelled to resort to free consignments and a drop in prices may result.

In the Liverpool district there is a large consumption of spruce deals of the ordinary sizes required for building purposes. Prices for ordinary specifications, say 60 per cent. of 7 and 8 inch, are nominally £7 10s c.i.f., but for better specifications higher prices have to be paid. In square and waney timber there is a fair trade at prices named last week.

STOCKS AND PRICES.

The steamer Micmac is loading a cargo of deals at St. John, N. B., for the United Kingdom.

The steamer Seguin cleared from Parry Sound, Ont., last week for Ogdensburg, with a cargo of lumber.

The cut of lumber in Yale and Kootenay, British Columbia, during the present year is expected to reach 100,000,000 feet.

The steamer Monarch is loading 400 standards of deals at Three Rivers, Que., after which she will proceed to Montreal to complete cargo for England.

The William Richards Company, of Boiestown, N. B., have secured the contract for the rear of the corporation drive on the Miramichi river. T. Lynch, of Fredericton, will have the running portion of the drive.

The cooperage market in Chicago is quiet, with little stock offering and apparrently still less wanted. In lard tierces the packers are offering $1.10 for small contracts, while the cooperage men are holding for $1.15.

The Town Council of Toronto Junction, Ont., has awarded the contract for supply of 900,000 feet of pine lumber to A. H. Clemmer at $18.33 per thousand feet, and that for 300,000 feet of cedar to the Toronto Junction Lumber Company at $15.50.

In Chicago there is a good inquiry for piece stuff, which is quoted at $16.50 to $16.75, with the latter price paid for good stock in shipping condition. Hemlock is in steady request, the range being from $12 to $13 for short dry piece stuff.

The W. H. Sawyer Lumber Company, of North Tonawanda, has purchased 20,000,000 feet of lumber from the Edward Hines Lumber Company, of Chicago, which constitutes nearly the entire output of the H. Whitbeck Company's mill at Marinette, Wis.

The schooner Brooklyn is loading lumber at Bear River, N. S., for the West Indies, shipped by Clarke Bros. The schooner Alexandria is loading at Kingsport, N. S., for the West Indies, while the schooner Severn is loading at Weymouth.

A despatch from Chipman, N. B., dated April 20th, stated that several million feet of logs had arrived at the boom at Brigg's Corner, on the Salmon river. A large quantity of logs are stranded along the bank of the river, while the balance of the drives on the Salmon river and Coal Creek are on their way down.

Under date of April 11th Messrs. S. P. Musson, Son & Company says of the Barbadoes market: "The arrivals have been the "Hilda C." from Lunenburg, N. S., on April 6th, with 120,000 feet of spruce, which we placed at $21, and the "Arctic," from Halifax, N. S., with 25,000 feet of white pine, 68,000 feet shipping and 21,000 feet second quality spruce, which we sold at $26.11, $20.30 and 17.30 respectively. A little previous to these arrivals we had placed about 140,000 feet spruce for prompt shipment at $21.50. The stock of white pine is moderate and first receipts should bring fair rates, but dealers expect a marked decline in both pine and spruce in the near future. We have no receipts of shingles to advise. The season is approaching, however, when arrivals from Gaspe may be looked for."

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

Schooner Beaver, for City Island, 126,748 feet plank, 22,813 feet scantling, 44,508 feet boards, bo A. Cushing & Company.

SHIPPING MATTERS.

Freight rates on lumber from British Columbia points are as follows: To Sydney, 32s. 6d. to 36s 6d.; Melbourne or Adelaide, 40s.; Port Pirie, 37s. 6d.; Fremantle, 47s. 6d. to 50s; Shanghai, 37s. 6d. to 40s.; Kiao-Chau, 40s.; Taku, 45s.; Vladivostock, 40s.; West Coast S.A., 32s. 6d. to 35s.; South Africa, 52s. 6d. to 56s. 3d.; U.K. or Continent, 50s.

The following charters are reported: Barks Beatrice and Corona, Bay of Fundy port to W. C. England, deals, 36s 3d; ship Vanduara, New Mills, N. B., to w. c. England, deals, 35s 3d; Barque Elise, St. Margaret's Bay, N. S., to w. c. England, deals, 37s; Barque Nova Scotia, Miramichi, N. B., to the Mersey, deals, boards, etc., 45s; Barque Lakeside, Yarmouth, N. S., to Buenos Ayres, lumber $7.75, option Rosario $8.75.

It is understood that nearly all of the large owners of vessel tonnage enrolled in the Lake Lumber Carriers' Association are bringing their influence to bear on the subject of an advance in the Lake Superior carrying charges. It is expected that a meeting will be held shortly. Just what the increase will be nobody seems willing to venture, although it is said that an advance of 25 cents, making the charge both to Chicago and lower ports $2.75 per 1000 feet, will be recommended.

BUSINESS NOTES.

J. & T. Charlton have closed their woodworking plant at North Tonawanda, N.Y. They are disposing of a quantity of hemlock, white pine, spruce and other lumber preparatory to devoting their entire attention to their manufacturing interests in the Georgian Bay district. It is understood that the firm will continue an office in Tonawanda, but will dispose of the mill.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The mills of the Ottawa district are getting under way on the season's cut, and their work is cut out for them, to quote a popular expression. Mills that are not working are waiting on logs.

Reports from the drives show that the movement of the 1902-1903 cut of logs is a slow one. The water is low on many streams, and the ice still remains on others. The spring so far has been a cold one, and rains are needed, along with a continuous spell of bright weather, to put the streams in high water.

Mail reports received from the Kippewa district go to show that the log drives have started on the Ostobonning, North Kippewa and other streams that are free from ice. Moreover, log-cutting operations were in full swing as late as the 21st inst. It is seldom in the one season that the drives start so early and log cutting is continued so late as to practically overlap. The weather is accountable for the strange combination of circumstances. Sun and wind have cleared the ice from some of the streams and lakes, while snow still lingers in the woods. Thus sleighing is provided and the operators enabled to cut logs in the proximity of the open streams, haul them and send them on their way the next day.

The railway companies report a brisk movement of lumber to New York, via the Albany barge route, and to Montreal, the shipments in both cases being for export. Next week the Rideau Canal will be ready for the Ottawa and American barge lines, and lumber shipments by water will get under way.

The Ottawa Valley lumber market is a veritable puzzle these days and it is almost an impossibility to fix on settled prices. What goes in one yard doesn't carry in another.

Never in the history of the trade was there such a shortage of available pine, and never was the demand so keen. Holders can practically command their own prices, for scarcity of high grade stock makes the seller, and not the buyer, ruler of the situation.

Over 2,500 cedar poles were taken out by Charles Desmerais, of Hull, at his camp on the Coulonge last winter. The stock is good, ranging 25 feet and upwards.

Ottawa, April 25th, 1903.

Keswick Bros. have completed logging operations on the Restigouche river, in New Brunswick. Owing to inability to get the supplies to the camps last winter, the cut was smaller than expected.

THE BOSTON MARKET.

Spruce lumber is in active demand at Boston, with prices firm. A fair supply is coming forward. Quotations are unchanged: Ten and 12-inch dimensions, $21; nine inch and under, $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

There is a steady market for hemlock lumber at unchanged prices: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is a good demand for western pine: Uppers 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2 in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There is a very firm market for hardwood lumber with the demand excellent, especially for whitewood and quartered oak. The quotations are: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Spruce clapboards are very firm, with only small offerings: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30 to $33.

Shingles are firm at the advance: Extra cedar, $3.50 to $3.60; clear, $3.00 to $3.10; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Laths are firm but unchanged in price. One and five-eighths inch, $3.25 to 3.45; 1½ inch, $3.10 to $3.25.

FIRES.

A small saw mill at Princedale, N. S., owned by E. M. Berry, has been burned; loss about $3,000.

William Noxell's saw and planing mill at Komoka, Ont., was burned last week. The loss of $3,000 is said to be covered by insurance.

The saw mill of H. L. Freeman, at Jordan River, N. S., was totally destroyed by fire recently. There was an insurance of $4,000.

The saw mill of the Swan River Lumber Company at Fisher's Siding, near Dauphin, Man., was burned on April 23rd. The mill had just been equiped with new machinery and was about to commence operations, 3,000,000 feet of logs being in the boom. The loss is about $12,000.

The planing mill of the Nelson Saw & Planing Mills Company, of Nelson, B. C., was almost completely destroyed by fire on April 16th, together with a small quantity of lumber. The mill had recently changed hands and is now controlled by the Yale River Lumber Company.

WANTED

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, MAY 6, 1903 No. [illegible]

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

CURRENT TRADE CONDITIONS.

ONTARIO.

An almost complete suspension of work in the building trade in Toronto, on account of labor troubles, has checked the local consumption of lumber. Where a few weeks ago dealers were being urged to accept orders, many of them now report, for the first time this spring, a slackening in the home demand. The strikes are likely to be settled at an early date, but if the employers should find it necessary to meet, even in part, the demands of labor for increased wages, it is feared that the cost of building will be so high as to discourage the carrying out of proposed undertakings. Many building projects are now in an embryo state awaiting the outcome of the negotiations under way. Throughout the province an average volume of building is in progress.

Fluctuations in lumber prices have been slight. A comparison of the May lists with those of April shows only minor changes. Common pine, 6x6 in 14 and 16-foot lengths, is held at $17 at the mill. Ten inch box and common is worth about $16, and inch box and common shorts about $13. Box manufacturers appear to be using a larger quantity of spruce lumber than formerly. The average price for spruce on the Georgian Bay is about $15, although as high as $19 is asked for lengths of 24 and 26 feet in 2 x 6 to 12-inch.

There continues to be heavy buying of hemlock lumber and dimension timber. For lengths above 18 feet $13.50 at the mill is asked.

Hardwoods are moving actively, shipments to the Eastern States being quite large. Manufacturers' prices for inch mill-run elm and basswood are around $20, and for birch $18. There is said to have been disappointment with the quantity of hardwood logs taken out during the winter, which has given a still firmer tone to the market.

Shingles and lath are steady. For XXXX pine shingles $2.75 at the mill is asked.

QUEBEC AND NEW BRUNSWICK.

Shipping of lumber from the port of Montreal has been paralyzed by the longshoremen's strike, which at time of writing has assumed a somewhat serious aspect. Vessels are completely tied up. Reports from mill points are encouraging. Manufacturers are receiving numerous inquiries for clapboards and other spruce lumber for shipment to the Eastern States. In lath and shingles the firmer tone noted last week has been retained. The demand continues to improve. Extra cedar shingles now range in price from $3.50 to $3.60, clears are worth $3, and second clears $2.40, on Boston freight rate.

BRITISH COLUMBIA AND MANITOBA.

The lumber consumption throughout the North-West this spring is exceptionally large, the demand being chiefly for building material. At some points a scarcity is reported, but it is believed that, as all the mills are now in operation, the production will shortly overtake the demand. Attracted by the rumors of a lumber combine, several American capitalists are turning their attention to the Canadian North-West, and will, it is reported, establish yards at different points. It is improbable that such action will result in reducing to any extent the price of lumber, owing to the high cost of production. Confirmation has been received of the change in the price of British Columbia shingles for delivery throughout Manitoba and the North-West. The new list which went into effect on April 1st last has been canceled, and the list of August 25th, 1902, is in effect. Owing to the shortage of cars the shingle manufacturers are considering the ques-

tion of closing down the mills for a time, but it is hoped that such action will not be found necessary.

UNITED STATES.

The lumber demand in the United States during the past week has been of average volume, although labor troubles in the Eastern States are a disturbing factor in the situation. There has been a falling off in the demand for dimension timber, and until the uncertainty prevailing in labor circles is removed bnyers will be cautious about assuming large responsibilities. Nevertheless lumber prices remain firm. At Buffalo and Tonawanda box lumber and other coarse grades have never been as scarce, resulting in an advance of from 50 cents to $1 during the past week. Some of the better grades are also scarce, due in large measure to a heavy export demand. The activity of hemlock has not subsided. In some instances an advance of 50 cents upon the list price has been made. Hemlock piece stuff is taking the place of Norway because of the difference in price. Very little Michigan hemlock is finding its way into the Eastern States, so that the Pennsylvania product has little competition. The spruce market continues firm, although random lengths are slightly easier at Boston.

There is as yet no indications of lower prices for hardwood lumber. At Michigan mi ls log run maple is held at $14, with very little dry stock being offered, log run basswood at $20, and ash at $16. At wholesale centres in the Eastern States log run basswood has sold as high as $30. Poplar is in excellent demand, bringing $52 in New York city. Maple flooring is firm and it is believed that concerted action on the part of manufacturers would make it comparatively easy to advance the prices to their former level.

GREAT BRITAIN.

The best that can be said of British trade is that the market is steady. Prices of lumber in stock have not strengthened as much as the position would seem to warrant, while contracts closed for new stock do not compare favorably in volume with the corresponding period of last year. The demand from South Africa is growing, but is not yet sufficient to measureably affect the market. Considering the uncertain outlook, it must be said that Canadian lumber is exceptionally firm. Pine deals are finding a ready market and some of the favorite sizes are becoming scarce. Spruce deals remain steady on the basis of £7 10s c. i. f. London and Liverpool for 60 per cent. of 7 and 8 inch. A quantity of spruce deals shipped from St. John was recently sold in Belfast at £8 per standard c. i. f. for deals and 10s per standard less for narrow widths. Battens are moving very freely, and public sales have shown a gradual advance in price.

Red pine has recently become active in the British market. It is being used more extensively for house-building purposes, and on account of its cheapness takes the place of North of Europe timber. At late public sales 3 x 10 red pine deals brought £16 15s per standard, and 3 x 9 as high as £17 5s. At the same sale first quality white pine deals of regular sizes sold at £30 5s per standard.

STOCKS AND PRICES.

The steamer Bawtry is loading deals at Halifax, N. S., for the United Kingdom.

The steamer Rathlin Head is loading deals at Hochelaga, Montreal, for the United Kingdom.

The schooner Estella loaded a cargo of railway ties at Bathurst, N. B., for Charlottetown, P. E. I.

The steamer Monarch took on 300 standards of deals at Three Rivers, Que., last week and is completing her cargo at Montreal.

William O'Neill is operating two portable mills at Sackville, five miles from Bedford, N. S., where he has over 4,000,000 feet of logs to be manufactured.

Two timber lots of 100 acres each in the parish of Lisfield, Sunbury County, N. B., owned by the Wm. E. Perley Estate, were sold last week to S. A. M. Skinner for $100.

The Rathbun Company have a drive of 75,000 pieces coming down the Burnt river. The logs will be sawn at Fenelon Falls, the firm having purchased the Ellis mill at that place.

The schooner Sephie loaded lumber at the Conger Lumber Company's docks at Parry Sound last week on account of the Edwin S. Hartwell Lumber Company, of Chicago.

J. J. Shields Bros., of Brooke, Ont., have shipped three carloads of square timber from Alvinston to England. The shipment contained nearly 2,000 cubic feet and is intended for ship-building purposes.

Spruce lath are selling in the Georgian Bay district at $2.50 for No. 1, $2 for No. 2, and $2.25 for mill run. No. 1, 32 inches in length, is worth $1.15 at the mill. No. 1 hemlock lath is held at $2.50 and No. 2 at $2.

During the week ending April 25th last, there were shipped from St. John, N. B., to the United States 1,220,000 feet of long lumber, 610,000 shingles and 50,000 lath. A cargo of 608,272 feet of long lumber cleared for Buenos Ayres and several steamers for the British ports.

Owing to the scarcity of elm and basswood, slack cooperage stock is slightly higher. At Buffalo first-class dry elm flour barrel staves are held at $9.25 to $9.50; basswood heading, 6¼ to 6½ cents; coiled hoops, $10 to $10.25 for 6 foot and $9.50 to $9.75 for 5½ foot; hickory hoops, $6.50 to $6.75.

Bank logs, by which is meant logs taken out in small lots by farmers and made up into rafts, are now arriving at Springhill, a few miles above Fredericton, N. B. They bring $11 per thousand feet for good spruce and $4.75 for hemlock. With such prices for the logs, the price of lumber cannot be otherwise but high.

John Carew, of Lindsay, Ont., has received his first consignment of logs from Scugog Lake. He has a drive containing about 1,000,000 feet on the Burnt river between Gooderham and Gelert; another containing 15,000 ties and half a million feet of logs is at Bass Lake in Harvey Township. The Squaw river drive, containing 6,000 ties and 600,000 feet of timber, is already at Ball lake and will shortly reach Lindsay. About 800,000 feet of logs and 4,000 ties are at Rosedale and will be taken to Fenelon Falls for sawing.

NEW BRUNSWICK LOG DRIVES.

The outlook for log drives on the upper St. John river and tributaries has improved during the last few days. The river rose fully four feet last week and is now higher than at any time this spring. There is still plenty of snow in the woods and another week with the river at its present driving pitch will see about all the logs on the move.

Already between 5,000,000 to 8,000,000 feet of logs have run into the booms at Douglas and Sugar Island. They came principally from the Tobique, Allegash and Grand Rivers and belong to Hilyard Bros., Estey, Cunliffe Bros., Sweeney, and Fraser & Son. None from Northwest Branch have yet put in appearance.

R. A. Estey, of Fredericton, has been advised that his Tobique drives, amounting to about 4,000,000 feet, are in safe water and his Rockway drive is coming along well. It is believed that all the Tobique drives will be out next week.

CANADIAN LUMBER SHIPMENTS.

From Vancouver, B. C.: Schooner Carrier Dove, for Shanghai, cargo lumber.

From St. John, N.B.: Steamer St. John City, for London, 258,303 ft. deals, 18,737 ft. scantling, 5,198 ft. ends, 1,656 ft. boards, 21,713 ft. birch plank, by A. Cushing & Company; 7,290 bundles shooks, by A. Gravel Lumber Company; 7,925 bundles shooks by William Thomson & Company. Steamer Pretorian, for Liverpool, 709,370 ft. spruce deals, 69,321 ft. scantling, 31,385 ft. ends, 45,924 ft. birch plank, 601 ft. ends, 174 tons birch timber, by W.M.Mackay; 32,317 ft. birch squares, by D.Fraser & Sons. Steamer Manchester Importer, for Manchester, 245,415 ft. deals, 22,964 ft. scantling, 65,181 ft ends, 28,890 ft. boards, 5,076 ft. birch deals, by George McKean; 377,394 ft. deals, 17,673 ft. scantling, 7,429 ft. ends by W.M.Mackay; 100,343 ft. deals, 378 bundles shooks by A. Cushing & Company; 27,504 ft. pine boards by William Thomson & Company. Steamer Lake Simcoe, for Liverpool, 6,339 maple blocks, 1,473 pieces oak lumber, 1,050 pieces elm lumber, 728 pieces oak lumber, 7,374 bundles shooks, 62 cases skewers, by Troop & Son; 210,267 ft. deals, 10,461 ft. ends, by W. M. Mackay; 3,784 pine doors (American goods) by Troop & Son. Schooner Hunter, for Fall River, 5,361 ft. plank, 122,873 ft. scantling, 100,652 ft. plank, by Stetson, Cutler & Company. Steamer Russ, for Sharpness, Eng., 2,252,665 ft. deals, 151,679 ft. scantling, 65,465 ft. ends, 97,744 ft boards, by W. M. Mackay. Steamer Lake Manitoba, for Liverpool, 9,937 maple blocks, 820,000 ft. oak lumber, 126,000 ft. maple flooring, 4,000 ft. birch timber, 24 maple logs, 6 elm logs, 6,000 elm strips, 1,200 doors, by Troop & Son; 1,117,136 ft. deals, 21,086 ft. scantling, 63,513 ft. ends, 503 tons timber, by W. M. Mackay. Barque Blenheim, for Rio Janerio, 608,272 ft. deals, 24,104 ft. ends, by W. M. Mackay. Schooner Annie Harper, for Boston, 67,877 ft. boards, 610,000 shingles, by Stetson, Cutler & Company. Schooner Ida May, for City Island, 147,677 ft. deals, by Stetson, Cutler & Company. Schooner Sallie E. Ludham, for City Island, 217,167 ft. boards, by Stetson, Cutler & Company. Str. Micmac, for Brow Head, 1,619,000 ft. deals and battens, 33,236 ft. scantling, 72,376 ft. ends, 179,113 ft. boards, by Alex. Gibson Railway & Mfg. Co. Str. Pocasset, for Mersey, 1,306,517 ft. deals and battens, 27,038 ft. scantling, 81,595 ft. ends, 142,355 ft. boards, 316 tons birch timber, by Alex. Gibson Railway & Mfg. Co.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

An Adirondack spruce firm has just closed a contract with the General Electric Company, of Schenectady, to supply them with about 9,000,000 feet of spruce, to be shipped to them during the year, and to be used for boxes.

In an interview given recently Mr. J. A. Humbird, of St. Paul, who is interested in the Victoria Lumber Company of Chemainus, B. C., said: "There is a large amount of lumber being sold at the present time. The worst feature about the lumber and shingle business on the coast is the car shortage. The trouble is that the westbound shipments are not great enough to keep the number of cars required here. You can't expect railroad companies to haul empty cars to the coast for the purpose of hauling lumber eastward."

THE BOSTON MARKET.

There continues to be a good demand in Boston for spruce lumber. In fact, it may be said that the demand is excellent when the possibility of widespread labor troubles is considered. A fair supply is coming forward, especially from the Provinces, though there is still complaint that the railroads cannot move freight as quickly as is desired. The quotations are firm : Ten and 12-inch dimensions, $21 ; nine inch and under, $19 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18.50 to $20; out spruce boards, $13 to $14 ; bundle furring, $17.

Hemlock boards are firm, but prices are generally unchanged : Boards, 12, 14 and 16 feet stock, $15 for good eastern ; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine holds very firm, with a good demand and only a moderate supply : Uppers, 1 to 2 in. $84 to $87 ; 2½ to 3 in. $92 to $97 ; 4-in. $96 to $100 ; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2 in. $78 ; 2½ to 3 in. $84 ; 4 in. $86 ; fine common, 1-in. $67 ; 1¼ to 1½ in. $69 ; 2 - in. $72 ; 2½ to 3 in. $80; 4-in. $82 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Hardwood lumber is in excellent demand with the market very firm both here and in the South. There is still complaint as to the scarcity of whitewood and quartered oak, and prices may go higher. The quotations are: Quartered oak, $75 to $83 ; plain oak, $45 to $47; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $54 to $60; sap, $43 to $48 ; common, $38 to $45 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $33 to $37 ; end-dried white maple, $46 ; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50 ; elm, $29 to $31.

Spruce clapboards are still very scarce, and prices are firm and unchanged: Extra, $45 ; clear, $43 ; second clear, $40 ; extra No. 1, $30 to $33.

There is a good demand for shingles and prices are firmly held : Extra cedar, $3.50 to $3.60; clear, $3.00 to $3.10 ; second clear, $2.40 to $2.50 ; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60 ; 18 - inch, five butts to 2 inches, $4.25 ; five butts to 2¼ inches, $4.50.

Laths are firmer, but prices are not yet quotably higher : One and five - eighths inch, $3.25 to 3.45; 1½ inch, $3.10 to $3.25.

SHIPPING MATTERS.

A dispatch from Seattle, Wash., dated April 22nd, says :—"Secretary Victor H. Beckman, of the Shingle Association, has received a letter from the Treasury Department asking for information regarding an order recently issued by the Great Northern and the Northern Pacific Railways and three days ago supplemented by an order from the Wisconsin Central, refusing to furnish any more cars for shingle shipments east of Chicago. The contention of the lines is that they now have upwards of 14,000 cars on foreign lines in the east, which they are unable to get back. The effect of this order will be to kill the Washington shingle market in the eastern states, amounting to about 5,000 cars annually, and in the face of present conditions, including the largest surplus stock on record in the hands of the coast mills and little demand in the central west, the situation is alarming to the trade."

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, MAY 13, 1903 No. 15

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'y Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

BOOKKEEPER—RELIABLE AND COMPETENT—with knowledge of lumber business; references required. Address, in writing, Box 1,024, Peterborough, Ont.

WANTED—2" HARD MAPLE, CULL OR better, 2" Black Ash and Soft Elm, log run, culls out. All dry. Address Box 37, care CANADA LUMBERMAN, Toronto.

FOR SALE — 200,000,000 FEET, FIR AND Cedar timber on Harrison Lake and Silver Creek, B. C. All easily handled. Inquire of J. J. HULL, Wahpeton, North Dakota.

FOR SALE — PLANING AND SHINGLE MILL in Dobbinton. Thirty-five h. p. boiler and twenty h p. engine, residence in connection Write to JOHN FRANK, Dobbinton, Ont.

BASSWOOD WANTED — WE ARE OPEN to purchase Basswood either in lumber, logs or 52" bolts. State price F. O. B. your nearest station. THOMAS BROTHERS, LIMITED, St. Thomas, Ont.

WANTED—A COMPETENT MAN TO TAKE charge of planing mill. Must understand machinery, dressing and matching of lumber and be able to grade same. Apply Box S, CANADA LUMBERMAN, Toronto, Ont.

FOR SALE

WE CAN SUPPLY FOR PROMPT SHIPMENT 75,000 feet Rock Elm timbers from 12 to 34 feet long, cut to order. For particulars, etc., write to KEENAN BROS., Owen Sound.

FOR SALE,—ONE MILLION FEET OF 1½" dry maple and beech, (mostly maple). This stock is cut rough edge and runs 6 to 16 feet in length, piled mill run. We will sell it at a low figure in blocks of 100 thousand feet and up. For particulars apply Box 318, Woodstock, Ont.

LUMBER WANTED

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, Owen Sound.

WANTED—WE ARE ALWAYS OPEN TO contract for all kinds of hardwood lumber. Please state price F. O. B. your nearest station, quantity and quality of the different kinds you will have to sell during 1903. We also require a large amount of Dimension stuff, particulars of which will be furnished, on application, by the KNECHTEL FURNITURE CO., of Hanover, Ont.

LIMIT FOR SALE

A TOWNSHIP WITH GOOD RED AND White Pine. About 50,000 Logs now cut and a portion hauled. Mill on the ground. Best shipping facilities. Location on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

Fire destroyed the saw mill and cheese box factory of George Edgington at Brownsville, Ont., last week.

CURRENT TRADE CONDITIONS.

ONTARIO.

Opinion is somewhat divided as to the future course of the lumber market. There is at the present time a fair demand from all sources, but the consumption by building operations is likely to be curtailed by labor troubles. In the city of Toronto the situation is rather serious, a large amount of projected work having been withdrawn on account of the unsettled condition of the labor market. Fortunately a large percentage of the lumber production has already passed out of first hands and is to be exported, so that manufacturers will not feel a decline in the local consumption very keenly. A favorable feature is the large consumption of lumber by furniture and implement factories and other manufacturing industries. The fire in Ottawa must also be reckoned with as a market factor, tending as it doubtless will to keep prices firm. Approximately fourteen million feet has thereby been taken out of the market, while no small quantity will be required for the reconstruction of buildings in the burned district.

Prices are little changed from last week. Box lumber is showing strength on account of the heavy demand. Shingles and lath are firm. Some dealers are said to be shading the price of British Columbia shingles, but it cannot be said that prices are quotably lower.

Basswood continues in strong demand. Holders of dry stock are to a large extent making their own prices and shipments of the new cut are being made almost green from the saw. Birch is in slightly better enquiry, but the supply is considerable.

QUEBEC AND NEW BRUNSWICK.

A settlement having been reached in the dock laborers' strike at Montreal, the shipment of lumber will again resume normal conditions at an early date. From the manufacturer's standpoint the outlook for lumber in Quebec and the Maritime Provinces is good, and prices are not likely to slump this season. Clapboards have made a sharp advance, prices now being $46 for extra quality and $44 for clear, on Boston rate of freight. It is probable that the higher prices will stimulate production, therefore it is unreasonable to expect that these abnormal prices will hold throughout the season. The highest prices on record have been obtained for spruce logs, a small quantity having recently changed hands at Springhill, N. B., at $13. This figure, however, is considered to be about $2 above the average market price. Cedar shingles are commanding the higher prices named last week. The demand has improved, and enquiry has proven that the available supply is not large.

UNITED STATES.

The manufacturers of yellow pine lumber have decided to advance prices on several descriptions of inch boards, and the Wisconsin Valley Lumbermen's Association is expected to take similar action in respect to dimension timber. It will thus be seen that the predicted decline in prices upon the resumption of work by the mills is not likely to take place. The strength of the market, in the face of a demand restricted by labor troubles, is remarkable. The East is receiving a considerable quantity of lumber from the upper lakes, and dealers are now in a better position to supply the demand. So far the strikes have not been as serious as was anticipated, although in New York the lumbermen have closed their yards rather than accede to the demands of the teamsters. Building there is practically at a stand-still. Philadelphia is suffering from a similar cause, but in other cities the most serious difficulties have been adjusted.

Cargo prices of pine for Chicago delivery are firmer, short dry piece stuff being quoted at $17, which is the record price. Business from retail yards has been comparatively light, but it is gradually increasing and the outlook is brighter. The position of spruce stocks is such as to warrant higher prices. Manufacturers, however, are adopting a conservative policy and it is not likely that quotations will be materially higher this season. Hemlock sells well, the base price in Buffalo being $15.50. Practically no Michigan hemlock is being shipped to the Eastern States. The course of maple flooring prices is being watched with much interest. A short time ago cutting of prices was general, but the situation is now much stronger. A slight improvement in the movement of hardwoods from producing points to the markets is noted. Michigan maple has been received in considerable quantities at Buffalo and Tonawanda. Efforts are being made to increase the supply of basswood, but it seems that the early cut is under contract and consequently out of the market so far as the wholesale buyer is concerned. Plain oak is slightly higher.

GREAT BRITAIN.

The strained relations between shippers and importers are now confined largely to European lumber. Many British buyers have accepted the quotations of shippers of Canadian pine and spruce deals and have closed contracts for a considerable quantity. The stock of pine deals and boards of first and second quality has become greatly reduced and prices for lum-

ber now in the yards are somewhat higher. The supply of the lower grades is moderate. It is understood that buyers have raised their offers in many instances, which accounts for a better feeling and increased business. At recent sales Canadian pine deals realized very satisfactory prices. Red pine is steadily growing in favor. In price it corresponds with Swedish fifth quality deals, while it is generally considered to be a superior class of lumber. Spruce deals are at a higher level. All classes of square and waney timber are steady. Oak leads in point of strength, while ash is relatively weak.

STOCKS AND PRICES.

The steamer Pandosia is loading deals at Miramichi, N. B., for the United Kingdom.

The schooner Brooklyn sailed from Bear River last week for Cienfuegos, with lumber.

The barque Antigua has loaded lumber at Tusket Wedge, N. S., and sailed for Buenos Ayres.

The steamer Pharsalia is loading deals at West Bay, N. S., for W. M. Mackay, for shipment to England.

In the Chicago market No. 1 white pine lath are selling at $3.50, and No. 1 Norway and No. 1 hemlock at $3.

The Pollet River Lumber Company's drive of 2,500,000 feet of logs reached the mill at Elgin, N. B., last week.

Knight & Company took out 4,000,000 feet of logs during the past winter, which they will manufacture at Musquash, N. B.

A total of 2,206,758 feet of lumber, valued at $29,304, was received at Bay City, Mich., from Georgian Bay ports during April.

The schooner Clifford C. is loading lumber at Bridgetown, N. S., for Boston. The schooner Clarence Shaffner is loading at same port for the West Indies.

For the week ending May 5th, 5,600,000 feet of lumber and 584,000 shingles reached Buffalo by vessel. The receipts at the Tonawandas totalled 9,000,000 feet of lumber.

The steamer Mount Royal has just loaded 150 standards of deals at Three Rivers, Quebec, and is completing her cargo at Montreal. She is destined for Great Britain.

During the week ending May 2 three steamers cleared from St. John, N.B., for British ports, their cargoes totalling 6,028,783 superficial feet of deals, scantling and boards.

So far this season about 7,500,000 feet of bank logs have been brought to Springhill, N. B., and sold. About 3,000,000 feet is still to arrive. Spruce logs are worth about $11.50 per thousand, and hemlock $4.75.

Ninety-eight ships sailed from St. John, N. B., the past winter as against sixty-six during the previous winter season. The exports included the following: 36,141,195 superficial feet of spruce and pine deals; 1,773,329 superficial feet of birch deals; 3,478 tons of birch timber; 959,272 feet of other lumber; 136,158 maple blocks; 2,128,657 box shooks; 5,391 elm logs; 47,352 bales pulp; also 17,041 maple and ash boards of American manufacture.

A report from Buffalo says: All prices are firm and it will take more of a disturbance than is expected to upset them. Receipts by lake have added to the already fair amount in yard, but it is expected that after the first lot of a cargo or two there will be a falling off. Reports from the saw mills do not give any promise of easing in prices, but there will be much objection to paying any more than formerly. Much of the lumber that is coming in was bought last fall, but the difficulty is it is mostly sold at prices that are just about on a par with the present asking prices at the mills. So there must be a readjustment before the mills and the eastern middleman shall understand each other.

Under date of April 25th, Messrs. Clairmonte, Man & Company, of Barbadoes, say: "During our reaping season, now going on, there is always a good demand for lumber. Last sales for local use were as follows: White pine, $26.21 for first quality and $21 for second quality; spruce, $20.30 for first and $17.30 for second quality. Two cargoes contracted for some time ago have arrived; prices have since declined, and we cannot now quote white pine at over $24.50 to $25, and spruce $18 to $18.50. There has been no arrival of Gaspe Long Cedar shingles since October. Last sales were made at $4.89 to $5.04 per thousand. Cedar Laying shingles are worth from $2 to $2.20, and Spruce Laying $1.60 to $1.65. We sold a cargo of Cypress sawn saps at $3.80 for 6-inch, $3.50 for 5-inch, and $3.20 for 4-inch. There is some enquiry for "hearts" split".

CANADIAN LUMBER SHIPMENTS.

From Halifax, N. S. : Steamer St. John City, for London, 213,111 feet spruce deals, value $2,587; 105,976 feet birch plank, value $921. Barque Elma, for Swansea, Wales, 193,593 feet birch plank, value $2,077; 516,455 feet spruce deals, value $8,190.

From St. John, N. B. : Steamer Indrani, for Glasgow, 431,340 feet deals, 11,927 feet scantling, 14,495 feet ends, by W. M. Mackay; 221,620 feet deals and battens, 13,112 feet ends, by D. Fraser & Sons; 76,133 feet deals, by A. Cushing & Company. Steamer Oriana, for Durban, 1,436 pieces pine deals, by William Thomson & Company. Schooner Stella Maud, for Fall River, 300,000 laths, 31,150 feet boards, 32,361 feet plank, by Stetson, Cutler & Company. Schooner I. N. Parker, for New Haven, 81,326 feet ends, 2,170 feet plank, 22,736 feet scantling, 150,000 cedar shingles, by Stetson, Cutler & Company. Schooner Wapiti, for New York, 645,000 laths, by Randolph & Baker. Schooner Hattie Muriel, for Westerly, 125,282 feet boards, by Stetson, Cutler & Company. Schooner Leonard C. Holly, for Providence, 604,500 laths, by Dunn Bros. Schooner Lyra, for Boston, 100,319 feet plank, 24,162 feet scantling, by A. Cushing & Company.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells, in their monthly timber circular of April 30th, review the Glasgow market as follows:

Business during the past month has been on the whole rather quieter than we have been recently accustomed to, but this is by no means unusual on the eve of the opening of the Quebec summer trade, the first arrivals of which are due here in a week or two. Prices have been well maintained, and there is no special weakness discernible in this direction so far as can be judged. Apart from pitch pine and spruce, stocks all over are very moderate, and particularly so in the case of first quality Canadian pine deals and sidings, prices for which continue to be as firm as ever, with the tendency still upwards. A fair amount of business has been done in teak, most of the recent arrivals having been disposed of from ships' side at prices which continue to show a very firm tone. In American hardwoods there has been considerable activity, with the exception, perhaps, of wide poplar lumber, which has been imported too freely of late.

The Clyde shipbuilding returns for March show that the output for the month represents 16 vessels of about 32,000 tons, compared with 16 vessels of 33,500 tons for corresponding period last year. The amount of new work secured on the Clyde is disappointingly small, only totalling about 25,000 tons. There is some fear of trouble with the engineers, and it would be most unfortunate if they are so badly advised as to come out on strike at this time in view of the dull prospects of this industry.

Housebuilding is still fairly brisk in the city and neighborhood, but there are evidences of quieter times ahead.

WHITE OR YELLOW PINE.—The import during the month consists of about 100 loads via St. John. The demand has been quiet in waney boardwood, but there has been more movement in square pine. Some 400 to 500 loads have been sold at round about 2s. 10d. per cubic foot. Stocks are moderate and prices are firm.

RED PINE.—There is nothing new to report. The present small stock is being gradually exhausted, with no prospect of further imports.

OAK.—The import consists of about 150 loads Southern States wood. There have been few enquiries, and the consumption has been small during the month. Stocks are still heavy.

ELM.—There has been the usual steady demand for 1st. class rock, and the stock of this class is now small, with prices firm. Second class is moving off slowly, and the stock is still heavy.

BIRCH. -- Quebec. — There have been two arrivals this month, consisting of about 150 loads (chiefly 15 and 17-inch average), which were disposed of from the ships' side. Value of 15-inch is about 19d. and 17-inch 23d., but prices are inclined to be easier as there are considerable quantities offering for early delivery. Lower Port.—The import consists of about 125 loads St. John timber, which was disposed of "ex quay" at 1s. 5½d. per foot on a basis of 15-inch average — a very fair price. Planks.—The stock on hand is still heavy, and prices show no immediate appearance of improving.

ASH.—The business done in this once popular furniture wood is becoming smaller and smaller in this market, so that the stock on hand is only being reduced very slowly. It consists chiefly of old Quebec timber, and is being sold at about 2s. on a basis of 15-inch. In American ash there is a fair enquiry for second-growth logs.

DEALS, ETC. — Business during the month has been quiet, though deliveries from the public yards are well up to the average. In 1st. quality pine goods the import has been small and has gone direct into consumption "ex quay". Spruce deals arriving per liners have gone chiefly into store. Current values are as under:—Broad first pine deals, £32 to £34; 11-inch, £29 to £31; ends and non-dimensions, £22 to £24. Second pine deals.—11-inch and up, £19 to £21 10s.; ends and non-dimensions, £13 to £14 10s.—Third pine deals.—11-inch and up, £13 to £14 10s.; ends and non-dimensions, £10 to £11. Red pine deals.—9 and 11-inch, £11 10s. to £12 10s.; narrows, £8 10s. to £9 10s. First pine sidings.—9 and 10 inch, £24 to £25; 11 to 12 inch, £26 to £28; 13 to 14 inch, £29 to £31. Spruce deals.—9 inch and up, £8 15s. to £9 10s.; 7 and 8 inch, £7 5s. to £8 5s. Lower port pine and spruce.—7 and 8 inch, £7 to £7 15s.; 9 inch and up, £8 5s. to £8 15s.

LUMBER BURNED.

By the disastrous fire which occurred in Ottawa on Sunday last, about 14,000,000 feet of lumber was destroyed. It was owned by J. R. Booth. The loss in round numbers will be $200,000, but the insurance is said to cover between 65 and 75 per cent. of the amount. None of the lumber was of high quality, the average price being about $14 per thousand feet.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

THE SASH AND DOOR DEMAND.

There is not as much activity in the sash and door trade as was anticipated one month ago. The erection of several proposed buildings of importance in Toronto has been postponed on account of the tenders exceeding the estimate of cost. The situation in the United States is similar, and is set forth by the American Lumberman as follows:

Strikes and labor unrest have had a quieting effect upon general business conditions in practically all trade centers and the door industry has not failed to share in this reduced volume of business. Wholesalers are not complaining seriously, however, as they are doing a fair business as a rule and in some instances are even active. Whatever dissappointment may exist is mainly on account of the late spring, which delayed the starting in of the usual spring trade, and the volume has not reached expectations. The strikes in various lines of business and many of them affecting the lumber trade directly, are not conducive to heavy building operations in the cities and the high prices of material and labor a so have had a depressing effect upon the building industry in general.

Prices are being maintained in good shape, very few deviations from the generally accepted list being found. Trade has improved to some extent since the sending out of the advanced price on No. 1 and No. 2 doors, and there is some talk that before very long another discount card will be sent out, possibly carrying also a slight advance. The sentiment of the trade seems to be in favor of the issuance of price lists frequently in order to stimulate interest in the market; and while the tendency of the market is now firmer it must be remembered that last fall prices were materially lowered and that the recent advance that has been made is only a partial recovery toward the former quotations.

Dullness is the prevailing keynote of the situation in the New York city market and there is talk of occasional cutting of prices in order to secure desirable orders, though such instances are declared to be few and far between. The factories are keeping busy, but they are accumulating a stock of manufactured goods that may take some time to work off.

The Northwestern Cedarmen's Association, at a meeting held at Escanaba, Michigan, on May 5th, made an advance ranging from ½ to 1 cent per foot in the price of cedar posts.

THE BOSTON MARKET.

Spruce lumber is still in good demand at Boston, though the various strikes have had some effect upon the trade. The supply is only moderate, and thus far the demand has prevented any accumulation. Prices are firm and unchanged: Ten and 12-inch dimensions, $21; nine inch and under, $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

There is a firm market for hemlock, especially for boards, at steady quotations: Boards, 12, 14 and 16 feet stock, $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is a very firm market for western pine, though the supply has increased somewhat since the opening of navigation. The eastern demand is not large, owing to the high prices and the strikes prevailing. The quotations are: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2 in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber shows little change, prices being firm with whitewood and quartered oak in light supply. The quotations are: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

There is a firmer tone to the market for spruce clapboards and prices are higher: Extra, $46; clear, $44; second clear, $41; extra No. 1, $33 to $35.

Shingles are in good demand at firm prices: Extra cedar, $3.50 to $3.60; clear, $3.00 to $3.10; second clear, $2.40 to $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Laths are firm and unchanged: One and five-eighths inch, $3.25 to $3.45; 1½ inch, $3.10 to $3.25.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, MAY 20, 1903 No. 16

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED—TWIN ENGINE FEED FOR carriage; state make, size of cylinder, condition, when could ship. B.F. WARD, Brantford.

FOR SALE

VENEERS—SINGLE PLY OR GLUED UP stock. INTERNATIONAL LUMBER CO., LIMITED, Sault Ste. Marie, Ontario, Canada.

FOR SALE—2 000,000 FEET OF DRY SPRUCE, Birch, Maple, Basswood, Elm and Butternutt sawn lumber, by A. H. CUMMINGS & SON, Coaticook, Que.

BOOKKEEPER—RELIABLE AND COMPETENT—with knowledge of lumber business; references required. Address, in writing, Box 1,024, Peterborough, Ont.

WANTED—2" HARD MAPLE, CULL OR better, 2" Black Ash and Soft Elm, log run, culls out. All dry. Address Box 37, care CANADA LUMBERMAN, Toronto.

FOR SALE

WE CAN SUPPLY FOR PROMPT SHIPMENT 75,000 feet Rock Elm timbers from 12 to 34 feet long, cut to order. For particulars, etc., write to KEENAN BROS., Owen Sound.

WANTED — TO BUY (STUMPAGE) ON Georgian Bay within five miles of Railroad or Lake, five million Hemlock and one to two million Pine, Spruce, Cedar, etc. Box B, CANADA LUMBERMAN.

WANTED.

IN CAR LOTS, INCH CULL LUMBER either Hardwood or Pine, cut to 22 inches long. State quantity and price. Also Basswood Lumber, inch, millrun. Box T, CANADA LUMBERMAN.

LUMBER WANTED

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, Owen Sound.

WANTED—WE ARE ALWAYS OPEN TO contract for all kinds of hardwood lumber. Please state price F. O. B. your nearest station, quantity and quality of the different kinds you will have to sell during 1903. We also require a large amount of Dimension stuff, particulars of which will be furnished, on application, by the KNECHTEL FURNITURE CO., of Hanover, Ont.

WANTED—POSITION

AS DOUBLE CUT BAND FILER, WHERE quality and quantity of Lumber is an object; long experience in best United States Mills. Strictly sober, expect to give highest results, and expect good wages. Unquestionable reference on application. A. H. BURTON, Parry Sound, Ont.

LIMIT FOR SALE

A TOWNSHIP WITH GOOD RED AND White Pine. About 50,000 Logs now cut and a portion hauled. Mill on the ground. Best shipping facilities. Location on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

Hear You N. B. Cedar Shingle Fellows !!

WE WISH TO LOCATE A GOOD MANUFACTURER of New Brunswick Cedar Shingles who wishes to contract his output at good prices. A connection that could be maintained several seasons. Address "SHINGLES", care CANADA LUMBERMAN, Toronto.

FOR SALE CHEAP

75 TO 100 MILLION FEET YELLOW PINE Timber. R. R. building into timber Finest logging proposition on earth. Other large tracks joining for sale. Address LOCK BOX 45, Heppner, Oregon.

WANTED—SHINGLES

WE WANT GOOD 18" WHITE PINE AND 18" Cedar, all grades, either contract mill output or single car lots. Write fully. J. G. STRAIT & SONS, Wolcott, N. Y.

CURRENT TRADE CONDITIONS.

ONTARIO.

The building outlook in Toronto is so uncertain that it is almost futile to endeavor to forecast the future of the lumber market. There is the usual steady demand from manufacturing industries, but the building requirement is gradually falling off on account of the postponement of projected work. It is estimated that buildings representing a value of $2,000,000 are being delayed by labor troubles. Visits to the offices of lumber dealers indicate that there is less confidence in the maintainence of present prices than, perhaps, at any previous time this year. It seems to be the almost universal opinion that lumber prices in general have reached the top notch for this season. It is not anticipated, however, that there will be any marked decline, as much of the season's production of both pine and hardwoods has already been sold for export. In outside towns building is progressing satisfactorily and dealers catering to that section of the trade report a fair volume of business.

Several orders have recently been placed for 12-inch pine boards. The wide sizes are becoming scarcer each year, and a gradual advance in price would seem to be in order. There is an improved demand for red pine, several manufacturers reporting sales at very satisfactory prices.

In the Ottawa valley there has been an advance in the price of shingles, ranging from 15 to 25 cents. The supply is light and the feeling somewhat confident that high prices for shingles will prevail throughout the season. Clear butts in 16-inch cedar range from $1.60 to $1.90, and XXXX from $2.25 to $2.50.

QUEBEC AND NEW BRUNSWICK.

The lumber trade of Montreal are anticipating an average consumption of lumber for the balance of the season, as labor difficulties in most branches of industry have been satisfactorily adjusted. The settlement of the longshoremen's strike has been followed by unusual activity in shipping circles, several steamers having sailed from Montreal with lumber cargoes. Prices of spruce lumber remain stationary, although some manufacturers are said to be making a slight cut in the price of clapboards, which for some time have been selling at abnormal figures. The higher prices ruling for square and wany pine timber promise to be maintained throughout the season.

Reports concerning log drives in New Brunswick and Nova Scotia are of a favorable character. Judging from present appearances the mills will have a full stock of logs for the season. In the northern part of New Brunswick there is still some snow in the woods.

UNITED STATES.

Building operations in the city of New York are completely tied up on account of the New York Lumber Trade Association and the Building Material Dealers' Association stopping the delivery of supplies to prevent the unionizing of their yards. The labor situation in that city is somewhat serious, about 50,000 men being on strike, and it is feared that if a settlement is not reached at an early date the lumber business of the Eastern States may suffer throughout the entire season. A strike of carpenters in Philadelphia has curtailed the consumption of lumber in that city. Where no labor troubles exist, building operations are more active than at the corresponding time last year. Prices of white pine continue steady. Our Albany list this week shows an advance of $1 in the price of 1 x 12 inch boards. On the upper lakes the movement of stock is satisfactory, particularly when it is remembered that the supply of dry lumber is very small. Buying by box concerns continues to be the feature of the market. Although business all spring has been good, box manufacturers state that there is a steady increase in the number of orders. Chicago reports a falling off in the local demand for lumber, but no decline in price. A cargo of short and narrow pine piece stuff was recently sold at $16.50.

Manufacturing industries are heavy buyers of hardwood lumber at the present time. This class of lumber has not so far shown any signs of the effect of the various strikes. Maple flooring is moving more actively at higher prices. Quartered oak sells in the Boston market at from $73 to $85, and plain oak from $45 to $50, with white ash about $1 higher. Both thick ash and maple are scarce in the Eastern States.

GREAT BRITAIN.

There seems to have been a slight turn for the better in the British lumber market. Orders are being placed more liberally, although the deadlock between shippers of North of Europe lumber and importers has

not yet been broken. The statement of stocks on hand on April 1st is favorable to Canadian lumber. Taking the Surrey Commercial Docks at London for example, it is found that, as compared with one year ago, white pine deals show a decrease of 72,590 pieces, battens of 30,228 pieces, and ends of 39,312 pieces. In spruce deals the decrease is 148,557 pieces, and in spruce battens 199,780 pieces. The stock of spruce in the docks is only about half the quantity in store one year ago. With a moderate consumption, therefore, it should not be difficult to maintain prices at their present basis. The supply of first and second quality pine deals is unusually light, and prices are slightly higher than one month ago. A good movement is reported in Quebec timber, several lots of square and waney pine having recently changed hands at current prices. A quantity of ash timber from Quebec sold at recent public sales at 75 shillings per load of 50 cubic feet.

There has recently been received in London some whitewood from Eastern Europe. It is said to have been purchased by consumers who have found that it takes the place of the more expensive Quebec spruce deals. Is is not anticipated, however, that the competition from this source will affect the import from Canada.

STOCKS AND PRICES.

The steamer Orange is loading deals at St. John, N. B., for the west coast of England.

During the month of April 53 special licenses to cut timber were issued by the British Columbia Government.

G. L. Burtis, of Thessalon, Ont., has received his first raft of logs from Garden River, containing about 3,000,000 feet.

The base price for hemlock at Buffalo is still $15.50, with every prospect that this figure will be maintained for some time to come.

No. 1 white pine lath are held in the Chicago market at $3.50, while No. 2 can be had for $2.60. The enquiry is largely for No. 2.

J. B. Farwell & Son, of Oswego, N. Y., and Orillia, Ont., lost a considerable quantity of telegraph poles by the recent forest fires north of Peterboro.

M. Ryan, of Smith's Falls, Ont., has secured the contract of supplying the Dominion Government with timber required for repairs and construction work on the Rideau Canal.

The Department of Interior at Ottawa is prepared to receive tenders up to June 10th for a permit to cut timber on berth No 1066 in the province of Manitoba, containing an area of 150 acres.

The schooner Palma is loading lumber at Weymouth, N. S., for Cuba, the shippers being G. D. Campbell & Company. The schooner Lillie is loading at Bear River, N. S., for Cienfuegos.

The New Brunswick Government will sell by auction on May 27th two timber berths, as follows: Three square miles at head of Tomogonops river, T. W. Flett, applicant; two square miles in Breadalbane Settlement East, Bartholomew river, Michael Buggy, applicant.

The steamer Ella Sayer is loading timber and deals at Montreal for the United Kingdom. The steamer Norfolk is completing a cargo of timber and deals at Chicoutimi for the United Kingdom. The steamer Nordboem loaded at Montreal and is completing cargo at Pierreville.

Messrs. Churchill & Sim, London, Eng., in a recent report, say: There is no change to report in this market for either pine or spruce deals. Pine remains firm at record prices for anything really good, and, of necessity, anything approaching these prices is very hard to obtain for the more numerous parcels which do not fulfill this condition. For spruce the London market is quietly firm without change either way, and should remain so so long as supplies do not increase on the rate of the past twelve months. Birch, elm and ash timber continue in fair demand; but oak has fallen back a little during the month. London seems to be giving up white pine timber altogether. The stock is almost nominal, but there is no change in quotations. The arrivals from New Brunswick have been:

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

A late revision of the price lists on the market page shows an all-round advance in shingles. Stock for present disposal is scarce and the demand high. Pine shingles, clear butt 18-inch, have advanced to $2.50 and $2.75, XXXX 18-inch to $3.50 and $3.75, and XX 18-inch to $1.25 and $1.75.

In lumber proper, pine sidings show an advance to $16 to $20. Other lines continue firm at prices previously quoted. The market is strong and stock scarce.

Shipments for the past week have been interfered with to a considerable extent by the labor troubles in New York city. The struggle between capital and organized labor has reached a stage where building operations in Greater New York are at a stand-still. Local lumber shippers have been advised to withhold for the present lumber intended for New York, as it is found impossible in that city to unload and place the lumber. Until building operations are resumed there will be a dullness in the forward movement of lumber from Ottawa.

The lumber destroyed in Sunday's fire in the J. R. Booth's yard in the west end of the city consisted principally of shorts and box stuff, aggregating in all about sixteen million feet. From the nature of the lumber destroyed it can be seen that there will be no hole in the stock of high grade stuff, although the impression has got abroad that the fire in diminishing an an already inadequate supply, would advance prices. The mere fact that the lumber was all sold and awaiting shipment would tend to prove the fallacy of this report of a probable advance in price. The insurance experts place Mr. Booth's loss at $220,000, on which there is $160,000 insurance, leaving a loss of $60,000.

The papers throughout the Province have come to the assistance of Ottawa with the advice that the lumber piles be moved to the country. The Council has taken the matter up, and in view of the fact that this is the second time the city has suffered within a comparatively short time it is likely that the piles, or at least the greater part of them, will go. Mr. Booth has threatened to remove his mill from the city if he is compelled to seek piling grounds outside its limits.

While the lumber piles were the primary cause of Sunday's fire, it must be borne in mind that the complete collapse of the waterworks system for forty minutes permitted the fire to gain a headway it would not have otherwise secured.

The camp supply number of THE LUMBERMAN excited favorable comment from the Ottawa district subscribers. The letter press and illustrations were both voted creditable in a high degree to the publisher and editorial staff.

The McGillivray Company of Ottawa has purchased the King mill at Parry Sound, with a daily output of 30,000 feet.

Reports from the Georgian Bay district show that the saws are doing their level best to put out a record cut of lumber. The mills at Blind River and other points were in full swing by the first of the month. It is reported that the Michigan Land and Lumber Company has sold its mills and mill site at Blind River to Dobson & Mc Keown, of Bay City. At Spanish Station the Mississaga Lumber Company is building a new mill with a daily output o 125,000 feet.

Reports as to the progress of the drives are conflicting. From the Kippewa and Temiscaming districts come reports of rains which will gladden the hearts of the lumber operators and incidentally help the drives along. It is rumored, however, that McLachlan Bros.' drive from the Petawawa limit recently purchased by that firm, has been "hung up." This report cannot be confirmed. If true it would mean a serious set-back, as the logs were intended for this season's cutting. On the Coulonge and Gatineau the logs also seem to be moving freely enough.

The supply of manufactured lumber in the Georgian Bay district is small and steadily decreasing. Even before the mills had entered on the cutting of the present season's lumber the boats were loading for Bay City and other points with the stock standing from last season. A new $12,000 dock is being built at Blind River by the Dominion Government. When completed this will greatly facilitate the movement of lumber.

OTTAWA, May 18, 1903.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 8th May, 1903. The names of the parties may be obtained from the publishers of this journal.

A wholesale seed firm requiring large supplies of wooden boxes, cut to specified sizes, have asked to be placed in touch with Canadian shippers of box shooks.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

THE BOSTON MARKET.

There is a good demand at Boston for spruce lumber, with the supply only fair. If it were not for strikes dealers say the demand would exceed the offerings. There is some anticipation that the troubles in New York will cause some diversion of shipments to this port, but as yet nothing of this kind has occurred. Prices are firm and unchanged: Ten and 12-inch dimensions, $21; nine inch and under, 19; 10 and 12-inch random lengths, 20 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.00.

Hemlock is firm at quotations: Boards, 12, 14 and 16 feet stock, $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is in rather better supply, but prices are very firm as previously quoted: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2 in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

The supply of hardwood lumber is only moderate, especially of whitewood and quartered oak. Prices are very firm: Quartered oak: $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Clapboards are steady at revised quotations: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

There is no change to note in shingles, prices being firm: Extra cedar, $3.50 to $3.60; clear, $3.00 to $3.10; second clear, $2.40 to $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Laths are firm and unchanged: One and five-eighths inch, $3.25 to $3.45; 1½ inch, $3.10 to $3.25.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, MAY 27, 1903 No. 17

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

Hear You N. B. Cedar Shingle Fellows !!

WE WISH TO LOCATE A GOOD MANUFACTURER of New Brunswick Cedar Shingles who wishes to contract his output at good prices A connection that could be maintained several seasons. Address "SHINGLES", care CANADA LUMBERMAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

From a provincial standpoint there is no apparent decrease in the demand for lumber. Manufacturing industries, which are operating to their full capacity, have been heavy buyers of late. Many dealers have recently visited the pine producing districts in search of desirable box grades which could be purchased at reasonable figures. Manufacturers are disposed to ask a slight advance on this class of lumber if in shipping condition. In Toronto the retail yards are doing some business, although not as much as was anticipated earlier in the year. This is due to the tie-up of building operations. Had it not been for labor troubles assuming more prominence than usual this year, it is quite probable that a record building season would have been experienced. As it is, the demand for lumber has been sufficient to maintain prices, as in very few instances has any inducement been offered the buyer. The uniformity of lists which has prevailed throughout the season is an indication that the trade regard present prices as warranted by the cost of production.

A number of the Georgian Bay mills have been closed down temporarily of late on account of a shortage of logs, the drives having been delayed by head winds.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber for building purposes is keeping both manufacturers and dealers very busy. In Winnipeg the volume of building is unusually large, and as many structures commenced early in the spring are now nearing completion, there is a corresponding increase in the call for finishing lumber. Prices are steady. British Columbia mills are making large shipments to the east. The lumber trade of that province are considerably exercised over an announcement made by the Provincial Government to the effect that nearly all the timber lands on Vancouver Island and the coast, not already taken up, had been reserved for two years for the Island Power Company, a new pulp concern. An order-in-council prevents any more special licenses being taken out.

UNITED STATES.

Notwithstanding the labor troubles, a record of building permits for twenty-one leading cities of the United States shows an increase of 5 per cent. for the month of April over the corresponding month of last year. This volume of building is reflected in a steady demand for lumber, although in New York city, where the number of workmen on strike has increased, trade is practically at a standstill. No change in prices has occurred. Box lumber is in exceptionally strong enquiry, with a few dealers asking an advance in price. A report comes to hand that the Mississippi Valley Lumbermen's Association have reaffirmed the price list adopted on January 1st, which will be reissued as the list for June. This is indicative of confidence that the demand will absorb the supply at prevailing prices. Large sales of shingles and lath have recently been made in the Lake Superior district. Saginaw dealers are doing a steady trade and are still buying some lumber at producing points. The Chicago market is quiet on account of fewer orders from local dealers. Prices of piece stuff for country delivery have been advanced to $17.50 for 2x4 and 2x6 in 12 and 14-foot lengths. Twelve inch No. 1 common boards are quoted at $27 for 10 and 12 foot and $26 for 14 and 16 foot. No. 2 12-inch boards are worth $24 and $23 for the lengths named. No. 3 boards are held at $18 for all lengths below 18-feet.

The hardwood industry continues active. Stocks are more plentiful, although still short in many lines. The tendency of al prices is upward. Inch quartered oak is constantly enquired for, and when it cannot be found, birch is often purchased. Maple flooring is stronger.

The tone of the hemlock market is especially firm. Chicago cargo quotations are $12.50 to $13 for short piece stuff delivered, equivalent to $11.50 at the mill. In carloads piece stuff brings $13.50 to $14. There is such a shortage in dry hemlock that some stock has been moved green.

GREAT BRITAIN.

There is a somewhat better tone to the British lumber market. New stock is arriving slowly, with a favorable influence on prices. The higher grades are scarce and in strong demand. A quantity of first-class pine from Montreal recently sold at £32 10s per standard for 11-inch, and at £24 5s for 9-inch. On the whole the prices realized at recent public sales have shown an improvement, importers not being disposed to sacrifice their present holdings in the face of the exceedingly high prices asked for new stock. As it is probable that the import of lumber will be moderate, there is no reason to anticipate an over-supply. Spruce deals remain firm and are going steadily into consumption. Shippers show no signs of reducing their asking figures, and it is admitted on all sides that the present level of prices is likely to be maintained. A considerable quantity of Swedish lumber

is being shipped by British dealers to South Africa, where business is gradually expanding.

STOCKS AND PRICES.

The barque Inderurle is loading deals at St. John, N. B., for the United Kingdom.

Robinson, Wright & Company expect to saw over 10,000,000 feet of deals at their mills at Shulee, N. B., this season.

The Corporation of Toronto Junction, Ont., has contracted for red pine lumber at $16.98 per thousand, and for cedar at $16.90.

It is reported that Chew Bros., of Midland, Ont., have taken a contract to saw several million feet of logs for the Hartwell Lumber Company, of Chicago.

All the logs belonging to the Swan River Lumber Company at Fisher's Siding, near Dauphin, Man., were destroyed by fire last week. The loss is estimated at $30,000.

Exports of lumber from St. John, N. B., to the United States during the week ending May 16th were 1,030,000 feet of long lumber, 4,000,000 lath and 2,290,000 cedar shingles.

A Prince Edward Island firm write us that they are desirous of purchasing No. 1 white ash and white oak pork barrel staves and headings. They use from 300,000 to 500,000 staves a year.

The Crow's Nest Pass Lumber Company, of Fort Steele, B. C., took out 15,000,000 feet of logs last winter. The drives on the Kootenay and St. Mary's rivers have commenced.

W. H. Higgins, of Vancouver, B. C., is operating in the vicinity of the Toba river. On Wednesday, May 13th, 9,000,000 feet of logs were swept down the stream a distance of thirteen miles in a little over four hours. Uusually such drives are of several days' duration.

The cut of the Rat Portage Lumber Company last winter was about 65,000,000 feet of logs. In addition there are 35,000,000 feet carried over from last season, which will give 100,000,000 feet to be sawn this year at the company's mills at Rat Portage and Rainy River.

Under date of May 9th, Messrs. Clairmonte, Man & Company say of the lumber market: During our reaping season, now going on, there is always a good demand. There has been no arrival of white pine during the fortnight, and we cannot quote the value of a cargo at over $24.50 to $25 per M. A cargo of spruce has arrived, which was sold to arrive some time ago at $21.50 per M. The value has since declined, and is now about $18.50 per M. There has been no arrival of Gaspe Long Cedar shingles since October. Last sales were made at $4.89 to $5.04. Cedar Laying are worth $2 to $2.20 and Spruce Laying $1.60 to $1.65. We sold a cargo of Cypress "sawn saps" at $3.80 for 6 inch, $3.50 for 5-inch, and $3.20 for 4-inch. There is some enquiry for hearts' split.

McLean's saw mill near Arkona, Ont., was burned a few days ago, at a loss of $2,500.

BRITISH COLUMBIA LUMBER SHIPMENTS.

The following export shipments of lumber from British Columbia were made during the first four months of this year:

The schooner Leah A. Whidden will load lumber at Bear River, N. S., for Cienfuegos.

The barque Vermont has been fixed to carry lumber from St. John, N. B., to the Canary Islands at 55 francs.

CANADIAN NORTHERN RAILWAY CO.

A complete and most modern through passenger train service between Port Arthur and Winnipeg will be established early in June, thus enabling Tourists on their way to and from the East to get a glimpse of the fertile Rainy River Valley.

This new train will make connections at Port Arthur with Steamers of the North-West Transportation Company and Canadian Pacific Railway.

A fast freight service can be depended upon from Port Arthur to all points West. Route shipments care of Canadian Northern Railway at Port Arthur.

Folder and Pocket Map of the Canadian Northern Railway will be sent upon application to

THE BOSTON MARKET.

The prevailing strikes have affected the market for spruce lumber quite seriously. The demand at Boston is light, but the supply is only moderate. Meanwhile dealers are not disposed to make concessions, though there may be a little easier feeling here and there. The trade is anxiously waiting for the settlement of the New York difficulties, a consummation which would have a beneficial effect upon this market: Ten and 12-inch dimensions, $21; nine inch and under, $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock is quiet, but prices are steady: Boards, 12, 14 and 16 feet stock, $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

While there is a better supply of western pine offering on account of the opening of lake navigation, prices hold firm: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2 in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwoods are in moderate supply, both here and in the south. Prices are firm, especially on quartered oak and whitewood: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Shingles are steady and unchanged: Extra cedar, $3.50 to 3.60; clear, $3.00 to $3.10; second clear, $2.40 to $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Laths are firm and unchanged: One and five-eighths inch, $3.25 to $3.45; 1½ inch, $3.10 to $3.25.

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE NEW BRUNSWICK LOG DRIVES.

Advices from New Brunswick are that about 30,000,000 feet of logs on the St. John river are in serious danger of being hung up. The water is falling quite rapidly and only a heavy fall of rain can prevent a tie-up. In such an event many of the St. John mills will be affected, including those of Dunn Bros., Stetson, Cutler & Company, A. Cushing & Company and Murray & Gregory.

On the Aroostook river the water is low, and it is thought that Robert Aiken will be compelled to abandon a portion of his drive. Thomas Clair, M. P. P., is meeting with difficulty on the Little Black river, with about even chances of getting his logs out. The drives on the Big Black river for W. H. Murray, John A. Morrison, and James Murchie & Sons are coming along well.

On the Miramichi river the drives have been very successful and are now largely in safe waters.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, JUNE 3, 1903 No. 18

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
32 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—SHINGLES

WE WANT GOOD 18" WHITE PINE AND 18" Cedar, all grades, either contract mill output or single car lots. Write fully. J. G. STRAIT & SONS, Wolcott, N. Y.

LIMIT FOR SALE

A TOWNSHIP WITH GOOD RED AND White Pine. About 50,000 Logs now cut and a portion hauled Mill on the ground. Best shipping facilities. Location on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Despite the unsettled condition of labor and its consequent effect upon building operations, the lumber market, from many points of view, is all that could be desired. The demand has been remarkably good and prices considerably higher than last year. Most mills have so far been unable to accumulate any stock. Advices from the Ottawa valley and Georgian Bay districts are to the effect that many mills have sold their entire season's cut. Hemlock is moving actively, and notwithstanding the advance that has taken place in the price of this lumber, it is predicted that it will resch a higher figure befor the close of the year. Thick stock, say two inches up, is much inquired for.

All lines of hardwood lumber are in demand, but particulary basswood and elm. Competition among buyers has been so keen of late that a large percentage of the contemplated output has already been contracted for at prices ranging from $2 to $4 higher than last year. There is every reason to believe that the hardwood market will hold its own for the balance of the season, and there can be little risk in buying at present quotations.

Revised prices for cedar shingles at Ottawa are $3.30 to $3.50 for XXXX in 18 inch, $2.50 to $2.75 for clear butts, and $1.65 to $2 for XX.

The labor situation in Toronto and one or two other points is such as to cause some apprehension regarding the extent to which the lumber business will be affected thereby. The past month witnessed a falling off in the demand for building timber, and unless an early settlement is reached many proposed undertakings will be postponed indefinitely. Strikes in the Eastern States have also restricted the volume of shipments to that market.

QUEBEC AND NEW BRUNSWICK.

The lumber business of the Eastern Provinces appears to be in a satisfactory condition. The demand from the Eastern States has fallen off recently owing to labor difficulties, but manufacturers still have plenty of unfilled orders on their books. By some it is reported that the demand exceeds the supply, with prices from fifty cents to one dollar per thousand in advance of last year on both spruce and hemlock. Spruce clapboards in 4-feet lengths find a very ready market, and notwithstanding the high price at which they are selling, the tendency seems to be upwards. No drop from the present price is anticipated within the next two months at least. Buyers are steadily accumulating cedar shingles. The price of extras is now firmly established at $3.50 to $3.55 for Boston delivery, with other grades equally firm. Some large shipments of lath have been made to the Eastern States. The uncertainty regarding the log drives is causing lumbermen some anxiety. Should a large quantity be hung up, as now seems probable, the result would probably be an advance in the price of lumber.

UNITED STATES.

A careful scrutiny of the various lumber markets of the United States leads one to the conclusion that the volume of trade has declined during the past two weeks. This is probably due largely to the unsettled conditions prevailing in the building trades in New York and some other eastern cities. There seems to be reason to expect a settlement of the New York building strikes this week, which would doubtless be followed by heavy buying of lumber. There has been no noticeable weakness of prices. Although some of the first cut has been marketed, it has had no effect upon prices, which are holding well. The splendid outlook for an abundant yield of wheat is doubtless a strengthening factor in the situation. At Buffalo the quantity of low grade pine is smaller than it was expected to be at this season of the year, and prices are consequently stiff. Some dealers are holding inch uppers at $80, 6-inch box at $17, 8-inch at $18, 10-inch at $19, and mills culls at $15. Difficulty has been found in contracting for dimension timber, owing to the fact that better returns can be obtained by sawing the logs into boards. This may result in a scarcity of dimension stuff.

Hardwood lumber is slightly more plentiful, although the demand readily absorbs

the available supply. Maple is a quick seller. Basswood is getting more plentiful, while there is complaint that the supply of elm is giving out.

Hemlock prices remain steady. The supply of logs in Pennsylvania and Michigan is very light, so that there will be no difficulty in marketing stock even if the consumption should fall off. It is difficult to size up the shingle situation. A report from the Sagniaw valley states that prices are weaker than they were in the early spring and that stocks are accumulating at the mills.

GREAT BRITAIN.

The consumption of lumber in Great Britain during the month of May was not as active as in the corresponding month of last year. It is believed, however, that the decrease in consumption will be offset by reduced imports. The outlook for shipbuilding has improved of late, while the unsatisfactory condition of house-building continues. Importers are still waiting developments. Offers are being made about five shillings per standard less than the quotations asked by shippers, but the latter have so far refused to close contracts on that basis. The stocks of pine at Liverpool are considerably lower than at this time last year, a fact which carries considerable weight. First and second quality are very scarce and high prices are being paid for standard dimensions. There has been no change in spruce prices. Opinions are freely expressed that the fluctuations in values during the season will be very slight. For 3 x 9 second and third quality spruce shippers are asking £9 15s and £9 5s respectively, while as high as £9 5s has been asked for third quality.

STOCKS AND PRICES.

The steamer Holmlea is now loading deals at Montreal for the United Kingdom.

The steamer Asta is loading deals at St, John, N. B., for the United Kingdom.

White pine lath are selling in the Chicago market at $3.50 for No. 1, $2.75 for No. 2, and $3 for No. 1 mixed and hemlock.

The barque Luarca sailed last week from Weymouth, N. S., for Buenos Ayres, with a cargo of lumber, shipped by D. G. Campbell & Company.

A. Hamilton will operate the mill of the Imperial Lumber Company at Warren, Ont., this season, and will cut Booth & Gordon's logs from Bannerman Creek.

W.O. Dickson, of Victoria, B. C., has purchased 5,000 acres of timber on the San Juan Straits. The timber is principally cedar and will be shipped to the United States.

The Grand Forks Lumber Company, of Grand Forks, N.D., has sold about 4,000,000 feet of logs to D. E. Sprague, of Winnipeg. The logs will be rafted to Winnipeg.

One million feet of logs on the banks of the Kootenay river, about six miles above Wardner, B. C., were destroyed by fire last week. The logs were the property of the Crow's Nest Lumber Company.

Slack cooperage stock is in better demand. Both elm and basswood logs are so scarce that the production of cooperage material is sure to be light. Jobbers quote slack stock $9.25 to $9.50 for first-class dry elm flour barrel staves; 6¼ to 6½ cents for first-class basswood heading; $9.50 to 9.75 for 5½ ft. coiled hoops; $10 to $10.25 for 6-foot and $6.50 to $6.75 for hickory hoops.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to 2nd June, as furnished by the Supervisor of Cullers :—

Waney WhitePine..	60,896	703,082	129,040

Birch and Maple ...	250,097	78,002	112,520

There is a considerable quantity of Southern pitch pine timber being shipped north to Canada this season owing to high prices and the difficulty in obtaining pine timber locally. Messrs. Mason, Gordon & Company, of Montreal, have just unloaded in that port the steamer "Hampstead," which brought from Savannah, Ga., 1,500,000 feet b.m. of very fine pitch pine timber which will be used largely for the harbor improvement works now going on. The Steamer "Henley" has arrived at Three Rivers, Que., from Savannah, with a second cargo of 1,600,000 feet b.m. of pitch pine timber, also for Mason, Gordon & Company, and is now discharging same. The timber is to be used for building the new Government dock in that city, for which Mr. Randolph Macdonald, of Toronto, is the contractor. The loading of the two steamers just mentioned at Savannah, Ga., crerted a considerable interest in that city, being the first steamers which have ever loaded full cargoes of timber out of that port, all cargo shipments having been made by sailing ships. Besides these steamers, several full cargoes of timber have been shipped to lower province ports by sailing ships this season and several more ships are under charter.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Shipments of lumber from Ottawa to Montreal and New York by water at paesent are active, more so perhaps than by rail. The resumption of coal carrying operations by water this season has already brought a dozen or more roomy American barges into port. The owners of these are only too anxious to secure a return cargo to the States and lumber is handled at a very reasonable rate. While the trip by water to New York takes several weeks, the difference in rates is worth considering where time is not a factor.

It is reported that a large block of 12-inch stock has been purchased by the Shepard & Morse Company from Mr. J. R. Booth. The lumber is intended for the South American markets. While the exact prices could not be ascertained, it is learned that they were good and stiff, and showed an advance on last season.

The Shepard & Morse Company has the Mason mill at Hintonburg, in the west end of the city, running night and day. Between 250 and 300 men are employed altogether on two shifts, with about 150 on the day shift alone. The old mill always had a good reputation for a mill of its class. The latest improvements installed by the Shepard & Morse Company make it one of the best band mills in the district. This mill is the first in the Ottawa district to use the double cutting band and steam set works.

The last year or so has seen some changes in the style of the output of the Ottawa district mills. The advance in the prices of manufactured lumber has led to an easier and more elastic grading and a more intelligent effort to produce the largest quantity of the high priced grades out of a log. What was formerly known as mill culls now classifies as box lumber, and some of the stock grades that were known as shipping culls are now classified by some manufacturers as mill run.

A correction will be noticed in this week's Ottawa market quotations in the section devoted to cedar shingles. Eighteen inch stock has been substituted for sixteen inch, for the reason that the former has the run. The sixteen inch stock, broadly speaking, is not required by or manufactured for the Ottawa trade. For this reason quotations will hereafter be made on eighteen-inch cedar shingles and not sixteen-inch as heretofore. For the benefit of those who may be interested in the latter, it may be said that the quotations which upon general inquiry seem to be correct on sixteen-inch shingles are: XXXX $2.80 to $3.00; clear butt $1.75 to $2.00; and XX $1.25 to $1.35. On the other hand eighteen-inch stock runs as follows: XXXX $3.30 to $3.50, clear butt $2.50 to $2.75, and XX $1.55 to $2.00.

Efforts to secure reliable hardwood quotations about Ottawa meet with scant reward, for the reason, given by the dealers, that there is a lack of anything like the uniform cassification that holds in other lines of lumber. All depends on the manufacturer; where one may get $25 for a line of ash or maple another not a dozen miles away accepts $16.

The latest reports speak of heavy rains in the Kippewa and Upper Ottawa country. This will gladden the hearts of the mill men, as it will facilitate the movement of the log drives. The latter seem to be coming along nicely, and the first logs of the 1093 cut may be expected at the mills within a month.

Mr. J. F. Birchard, of Detroit, Mich., formerly travelling representative of the CANADA LUMBERMAN, now with the Wing Graphite Metal people of Detroit, was in the city this week. He reported marked activity in the lumber industry of the Maritime Provinces, Quebec and Ottawa district. A number of mills east of Ottawa are being overhauled and in other places new ones built. Stocks of standing lumber are light and the season's sawing will be a heavy one, as orders are numerous.

Mr. J. R. Booth has bought a farm near the city, which it is believed he intends to use for pilling grounds. Hon. W. C. Edwards has announced, on the other hand, his inability to secure other piling grounds near the city, and says he will have to close down his mill at Ottawa if the by-law prohibiting lumber piling within the city is not rescinded.

OTTAWA, MAY 30, 1903.

THE BOSTON MARKET.

The eastern drives are being much delayed owing to low water in the rivers. This has lessened the supply of lumber in the Boston market, a fact which has a tendency to hold prices steady in the face of a quiet demand. The strikes are seriously affecting trade, and if it were not for the lessened supply the market would be demoralized. Forest fires have been adverse to the Maine and New Brunswick lumbermen, and this in connection with the continued drought and delayed drives indicates a smaller spruce supply than for a long time. The quotations are steady at: Ten and 12-inch dimensions, $21; nine inch and under, $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

These is a steady demand for hemlock at unchanged prices: Boards, 12, 14 and 16 feet stock, $15 for good eastern: Pennsylvania, No. 1 $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine is firm and unchanged, but the demand has fallen off somewhat.

Hardwood finish is in good demand locally, at firm prices. The new buildings being finished call for considerable lumber. Prices are not changed.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Sningles are quiet but prices are unchanged: Extra cedar, $3.50 to 3.55; clear, $3.00 to $3.10; second clear, $2.40 to $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Laths are firm and unchanged: 1⅝ $3.25 to $3.45; 1½ inch, $3.10 to $3.25.

The saw mill of James Greenless, situated near Creemore, Ont., in Essa township, was burned a few days ago.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

NEW BRUNSWICK LOG DRIVES.

Late reports from New Brunswick do not speak hopefully in respect to the log drives. The water in the St. John river is low and the absence of rain makes the conditions more serious. It is feared that not more than two-thirds of the cut on the Upper St. John will reach the mills.

John Kilburn has been compelled to abandon his drive of 6,000,000 feet for W. H. Murray at Nine Mile Brook. This drive is now within fifty miles of the corporation limits and a good rain would probably take it into safe water.

Cushing's drive of 5,000,000, feet is also hung up at Allagash Falls, while a small operator has 1,500,000 feet hung up at St. Francis.

FIRES.

The saw mill of C. Julien at Pont Rouge, Que., was destroyed by fire recently.

The planing mill of Dickie & McGrath at Tusket, N. S., together with 8,000 feet of planed lumber, was destroyed by fire last week.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, JUNE 10, 1903 No. 19

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will be immediately re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are open for inspection in the Department of Lands, Mines and Fisheries, in this city, and at the office of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Minster of Lands, Mines and Fisheries.

Patent For Sale.

BAND SAW CLAPBOARD MACHINE, THE only one in the world. Carriage has automatic setting device, only 8" stroke, with turn table. Block stands vertical and cuts all clapboards radially. Will take blocks any diameter 14" to 32 x 48" long. All clapboards cut desired thickness regardless diameter block. Will cut five times faster then any circular machine. 25 per cent. saved in saw kerf. A sound block 48" long x 32" diameter will cut out $10 worth of clapboards. Large demand in New England States. Prices $45 per M pieces. Will sell entire right for Dominion. Drawings and specifications on application. A. J. BURTON, Parry Sound, Ont.

Gellibrand, Heywood & Company, timber merchants, have found it necessary to remove their offices from Cardiff to London. They are now established at 57 Gracechurch street, London, E. C., their cable address being 'Gellicht, London."

CURRENT TRADE CONDITIONS.

ONTARIO.

Opinion concering the lumber outlook is more divided than it has been for some time. The prolonged strikes have greatly restricted building operations and unsettled business in general to some extent. Local dealers are not altogether satisfied with the volume of trade, claiming that orders have fallen off for both local consumption and for export to the Eastern States. An evidence that the market is well in hand, however, is found in the fact that prices have not weakened. This can no doubt be attributed to the large proportion of the season's cut that was contracted for early in the season. Mill men are in the fortunate position of being protected in large measure from declining prices by means of early contracts. Hardwood lumber is equally as firm as pine, and by many it is reported that the buying of it is of a better character. Hemlock remains steady. There is a heavy demand for inch stock, which is selling in some cases fully one dollar higher than 2-inch. Most of the mills are asking about $12 for 10 and 12 inch boards up to 16 feet in length.

Shingles and lath are practically unchanged in price. The demand for hemlock lath is growing. Mill prices are $2.50 for No. 1 and $2 for No. 2.

QUEBEC AND NEW BRUNSWICK.

Prospects in lumber circles in the eastern provinces are rather discouraging. The recent drought has been the cause of several forest fires which have destroyed both timber and mills, while the water in the rivers is so low that many logs are likely to be hung up. For this reason the supply of lumber will be greatly reduced and probably inadequate to meet the demand. Scarcity of logs has already resulted in the closing down, temporarily, of several large mills at St. John. Higher prices for timber, therefore, may be anticipated. Many manufacturers have placed their entire cut under contract, and are now compelled to refuse orders. Inquiries for both lumber and shingles are increasing in number. No change is reported in the price of New Brunswick cedar shingles, although the manufacturers who practically control the market are said to be in favor of making an advance.

MANITOBA AND BRITISH COLUMBIA.

Building activity in Winnipeg shows no abatement, and throughout the entire North-West there is a good demand for lumber. Importations from the United States are increasing. This is having a slight effect upon prices, especially of shingles. The British Columbia Shingle Manufacturers' Association have decided to curtail the output by closing down the night shift at all the mills, and it is said that some of the mills will voluntarily close down entirely until the present supply is reduced. Orders for British Columbia lumber continue in fair volume and large shipments are being made to the east.

UNITED STATES.

Floods throughout the South-Western States have resulted in much damage to property and blighted lumber prospects. In the east the labor situation has not improved materially, although rumors have been current for some time that an early settlement of the New York building trades strike would be brought about. The lumber market is quiet, principally due to the conditions named above. One or two grades are said to be slightly weaker in price, but firmness characterizes the general market. There has been heavy buying of box lumber. In the Lake Superior district No. 4 and 5 boards are selling readily at $11.25 and $6 to $6.25 per thousand, with the demand in excess of the supply. Norway lumber is in the same position. It is claimed that the supply will not be sufficient to meet the requirements. Hemlock continues to show unusual strength. At Buffalo it is selling at $16 to $18, and in New Jersey State the price has been advanced to $17 to correspond with the New York quotation.

The hardwood trade continues in excellent condition and seems to have been little affected by labor troubles. Prices are very strong, and stocks are not accumulating to any extent. It is believed that there will be a very small supply with which to meet the fall and winter demand.

Shingle prices have been unsettled by the continued weakness of red cedars. These are selling thirty cents lower than at the corresponding time last year. It is unreasonable to expect that other grades will more than hold their own so long as red cedar prices continue demoralized.

GREAT BRITAIN.

An improved tone is manifest in the British timber market. The consumption is about equal to that of last year, and if the import should be light, as is now predicted, a further improvement would seem to be in order. The strike in the shipbuilding trade at Belfast has been averted for the present. Importers are adding to their stocks whenever they can obtain even a slight concession in price, and a few are even acceding to the demands of shippers. The latter are not likely, in view of the lessened production, to reduce their asking prices. The first cargoes of Canadian pine deals have arrived at Liverpool and London, largely on contract. There has been no change in the position of spruce deals. The report from Belfast that prices are somewhat lower is not confirmed by information from other points. Elm timber is showing strength. A quantity from Quebec, 28 to 39 feet in length and from 12 to 21 inches in diameter, recently brought £5 15s per load of 50 cubic feet. Ash timber, on the other hand, is very dull and almost a drug on the market, the price obtained at recent public sales being 65s per load.

STOCKS AND PRICES.

The tug "Pilot" has been chartered to tow to Vancouver, B. C., 10,000,000 feet of logs, the property of W. H. Higgins.

No. 1 white pine lath is quoted at $3.50 for delivery at Chicago by water, No. 1 mixed at $3 to $3.50, and No. 2 at $2.75.

The Grand Valley Seignory, comprising 54 miles of timber limits, situated in the Lake St. John district of Quebec, is reported to have been purchased by a syndicate for $100,000.

The steamer Pandosia is loading deals at Miramichi, N. B., for the United Kingdom. The steamer Pydna is loading at Hopewell Cape, N. B., for Dublin. The steamer Holmlea sailed from Montreal last week for Hull, England, with a cargo of deals.

Two timber berths were sold at the Crown Lands office, Fredericton, N. B., last week as follows: Three square miles on Emognops River, to Thomas W. Flett, at $151 per mile; two square miles on Bartholemew's river, to W. T. Whitehead, at $30 per mile.

Tenders are invited by the Department of Interior at Ottawa up to July 8th for a license to cut timber on Berth No. 1071, comprising 20 square miles, in the district of Saskatchewan, also for Berth No. 1072, comprising fifteen square miles, in the same district.

Dickie & McGrath, of Tusket, N. S., are now loading with lumber the barque Leviathan, 1,006 tons. The barque Dristig is due to load for Lannelly, Wales; the barque Patriarch, 1,221 tons, for Buenos Ayres; the Ciampa Emilia, for Bristol Channel, while several others are due to load later.

Under date of May 23rd Messrs. S. P. Musson, Son & Company say of the Barbadoes lumber market: "There have been no arrivals since the spruce by "Ich Dien" reported in our last. This vessel had about 40,000 feet of second quality spruce, which we sold at $16.66. There is a fair supply and no inquiry. In white pine a cargo with full proportions of second quality would, we think, meet fair prices. There have been received a small lot of Spruce Laying shingles, which were placed at $2.21."

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance, "c/o CANADA LUMBERMAN.

THE BOSTON MARKET.

The situation in spruce lumber is still further complicated by the forest fires that are raging throughout the lumber regions of Maine and New Hampshire. Advices from Maine say that many mills are shut down. Some have been burned, while others have been obliged to send their men into the woods to fight fires. This, taken in connection with the delay to the drives on account of low water, tends to keep down the supply of lumber and in large measure counteracts the dull demand resulting from the strikes. Prices at Boston, therefore, hold steady : Ten and 12-inch dimensions, $21 ; nine inch and under, $19 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18.50 to $20; out spruce boards, $13 to $14 ; bundle furring, $17.

Hemlock lumber is quiet but steady at : Boards, 12, 14 and 16 feet stock, $15 for good eastern : Pennylvania, No. 1, $18.50 to $19.50 ; No. 2, $15 to $16.50.

Western pine lumber is still held firm, though the demand is only fair and the supply is ample to supply the trade : Uppers, 1 to 2 in. $84 to $87 ; 2½ to 3 in. $92 to $97; 4-in. $96 to $100 ; selects, 1-in. $76 ; 1¼ to 1¾ in. $76 to $78 ; 2-in. $78; 2½ to 3 in. $84 ; 4-in. $86; fine common, 1-in. $67 ; 1¼ to 1½ in. $69 ; 2-in. $72; 2½ to 3 in. $80 ; 4-in. $82 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Hardwood lumber is in active demand, the new buildings now being finished reduiring considerable finish. Whitewood is firm and tending up, and other grades are very firm : Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Clapboards are steady and unchanged : Extra, $45 ; clear, $43 ; second clear, $40 ; extra No. 1, $30.

Shingles are steady with a good demand : Extra cedar, $3.50 to 3.55 ; clear, $3.00 to $3.10 ; second clear; $2.40 to $2.50 ; extra No. 1, $1.75 to $1.80 ; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60 ; 18-inch, five butts to 2 inches, $3.75 ; five butts to 2¼ inches, $3.90.

Laths are firm and unchanged : 1⅝ in., $3.25 to $3.45 ; 1½ inch, $3.10 to $3.25.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, JUNE 17, 1903 No. 20

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—SOFT MAPLE, 2, 3 and 4" COMMON and better, or firsts and seconds. Box 90, care of CANADA LUMBERMAN.

FOR SALE—ONTARIO CEDAR SHINGLES XXX, XX, X; White Pine Shingles XXX, XX, X; Cedar Squares. Address Box 37, care CANADA LUMBERMAN.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

HARDWOOD LUMBER WANTED

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.
One 10" x 18" Engine.
One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)
One pair twin engines, 10x16.
One No.2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.
One set Trimmers, to trim 6 to 24 ft., chains, mandrils and saws.
Also a quantity of Shafting, 2" to 4" pulley, and steam and water pipe.
One 14' x 60" Boiler; one top saw slash table.
About one mile of telephone wire, and two 'phones. For particulars, apply to BOOTH & GORDON, Azilda, Ont.

WANTED—TWIN ENGINE FEED FOR carriage; state make, size of cylinder, condition, when could ship. B.F. WARD, Brantford.

FOR SALE

VENEERS—SINGLE PLY OR GLUED UP stock. INTERNATIONAL LUMBER CO., LIMITED, Sault Ste. Marie, Ontario, Canada.

FOR SALE

WE CAN SUPPLY FOR PROMPT SHIPMENT 75,000 feet Rock Elm timbers from 12 to 34 feet long, cut to order. For particulars, etc., write to KEENAN BROS., Owen Sound.

WANTED — TO BUY (STUMPAGE) ON Georgian Bay within five miles of Railroad or Lake, five million Hemlock and one to two million Pine, Spruce, Cedar, etc. Box B, CANADA LUMBERMAN.

HICKORY CUTTINGS.

WANTED—A QUANTITY OF HICKORY Pieces, mostly small sizes. Particulars of Scantling will be furnished on application. Apply Box 8, CANADA LUMBERMAN.

WANTED.

IN CAR LOTS, INCH CULL LUMBER either Hardwood or Pine, cut to 22 inches long. State quantity and price. Also Basswood Lumber, inch, millrun. Box T, CANADA LUMBERMAN.

WANTED—WE ARE ALWAYS OPEN TO contract for all kinds of hardwood lumber. Please state price F. O. B. your nearest station, quantity and quality of the different kinds you will have to sell during 1903. We also require a large amount of Dimension stuff, particulars of which will be furnished, on application, by the KNECHTEL FURNITURE CO., of Hanover, Ont.

FOREMAN WANTED

EXPERIENCED FOREMAN FOR A PLANing mill, capable of overseeing the work and keeping in order two matcher machines and a circular resaw. Salary to a capable, sober man, $3 per day. Address, stating fully experience, etc., "Foreman," office of CANADA LUMBERMAN, Toronto, Canada.

For Sale
Tramway Outfit

ABOUT FIVE MILES LIGHT RAILS-1 SHAY Locomotive, logging cars, etc. For particulars, apply JOHN J. GARTSHORE, 83 Front street west, Toronto.

FOR SALE
LARGE SPRUCE PROPERTY.

A large New Brunswick Spruce Lumber property comprising about 100,000 acres, with mills, dams, store, church, boarding house and 15 dwellings; the owner completely controls the harbor. Mills capable of manufacturing about 10,000,000 feet per annum. The lumber when manufactured is delivered alongside of vessel without any handling or expense. The stock of logs this year are delivered by contract into mill pond for $3.75 per thousand superficial feet and can be delivered, manufactured, on board vessel for $4.75 per thousand feet. The owner is advanced in years and has never before offered this property for sale. Will not give any bond on property, but will give sufficient time for thorough examination. His operations for past years have been to do a small business merely to keep up the property. It will produce from 8,000,000 to 9,000,000 feet per annum, which would be about the natural growth. No trees are cut under 11 inches in diameter at top of tree. It is a dense Spruce forest. Freight to New York, vessel $2.75 per thousand, also easy of access to all European markets. The purchaser can make his own terms of payment with owner. Property is free from incumbrances. For further particulars address Box 466, care CANADA LUMBERMAN.

FOR SALE—DOUBLE CLAPBOARD PLANER and joiner, built by Lane Manfg. Co., in first class order, a bargain for quick turn-over. Address: MACHINERY EXCHANGE, 22-24 Victoria Square, Montreal, Quebec.

WANTED—AN 8" SECOND-HAND MOULDer. Either a 3 or 4 side machine would do. Feed rolls must be power driven in bed and machine be in good order. Address W. S. F., care CANADA LUMBERMAN.

FOR SALE.

IN VIRGINIA, LARGE TIMBER LIMITS— virgin growth, and water powers — good streams for driving—easy of access. Apply to H. M. SIMPSON, 415 Merchants Bank Building, 205 St. James street, Montreal.

WANTED IMMEDIATELY, TEN CARLOADS of common and better 4/4 Black Ash, and two carloads of common and better 8/4 Black Ash. Cash will be paid for the same either at point of shipment or delivered at our factory at Hanover, less 2%. For particulars apply to the KNECHTEL FURNITURE COMPANY, Hanover.

MAPLE WANTED.

WE WILL BUY 1½" AND 2" COMMON AND Better Hard Maple in any quantity. Write us. GOLD MEDAL FURNITURE M'F'G. CO., Limited, Toronto.

Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

FOR SALE.

200 M FT. OF SOUTHERN LONG LEAF YELlow Pine 10" x 10" to 14" x 14" and up, average length 28 ft.; a small lot of 14" x 14", 55' to 60' long, all sawn square, also about 100 M ft. 3" good grade common birch suitable to cut into flooring and furniture stock. No fair offer refused. Address Box 630, Sorel, Que.

Patent For Sale.

BAND SAW CLAPBOARD MACHINE, THE only one in the world. Carriage has automatic setting device, only 8" stroke, with turn table. Block stands vertical and cuts all clapboards radially. Will take blocks any diameter 14" to 32 x 48" long. All clapboards cut desired thickness regardless diameter block. Will cut five times faster then any circular machine. 25 per cent. saved in saw kerf. A sound block 48" long x 32" diameter will cut out $10 worth of clapboards. Large demand in New England States. Prices $45 per M pieces. Will sell entire right for Dominion. Drawings and specifications on application. A. J. BURTON, Parry Sound, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber salesmen returning from business trips have as a rule no complaint to make regarding the conidition of trade. While in Toronto business is quiet, the result of labor troubles, outside dealers are buying very liberally, the spring consumption having reduced their stocks to the point where replenishment is necessary. Buffalo dealers have been quite heavy buyers of box lumber of late. Twelve-inch dressing is also in demand for that market. Inquiries, however, are by no means confinded to these grades, but pretty well cover the entire list. Sales of 6/4 No.2 cuts have been made recently at $44 at the mill. Hemlock shows more strength than any other lumber. One dealer in a large way stated to the writer that he did not think he could fill an order for 150,000 feet of dry hemlock, so reduced had his stock become. This is not an exceptional case. Dry hemlock is practically out of the market and very little of the new cut will be in shipping condition for some time yet. In the meantime those fortunate enough to have any dry hemlock for sale can fix their own selling price. Shingles are barely steady. The cheaper kinds are finding favor in the country districts.

A scarcity of cooperage stock, especially staves and heading, is very generally reported. It is almost impossible to buy No. 1 staves at any price, as is evidenced by the fact that a quantity of No. 1 30-inch elm staves is said to have been sold in New York recently at $11.

QUEBEC AND NEW BRUNSWICK.

The prolonged strike of employees of the sash and door manufacturers has somewhat unsettled the lumber trade in Montreal, but it is expected that the mills will be running as usual very shortly. The demand for building lumber is fairly good, while clapboards continue to be eagerly inquired for for shipment to the Eastern States. Anxiety over the New Brunswick log supply is quite intense. Although recent rains have relieved the situation somewhat, there is still great danger of a large quantity of logs being hung up. It is estimated that of the total cut of 110,000,000 feet on the St. John River, not more than one-half will reach the mills unless the water in the river should rise rapidly during the next few weeks. One operator on the Restigouche river has already abandoned his drive of 8,000,000 feet, representing the operations of two seasons. Present indications, therefore, point to a shortage in the spruce supply, with the inevitable result of higher prices. With the settlement of the labor disturbances in New York a heavy demand is expected from that quarter. Cedar shingles are firmly established at the base price of $3.50 for extras, Boston delivery.

MANITOBA AND BRITISH COLUMBIA.

There is sufficient business to keep all the saw mills busy, but the shingle market has become overstocked. The British Columbia manufacturers have therefore decided to close down all the mills for an indefinite period. The farmers in the Northwest are too busy to undertake building operations, but may be depended upon to require a large quantity of lumber after the crops are harvested.

UNITED STATES.

The lumber outlook of the United States has improved during the past week to the extent that prospects have brightened for an early resumption of work by the building trades of New York. This has been a great barrier to lumber consumption all season, and when business again resumes its normal condition the effect upon the lumber trade should be telling. While admitting a slight falling off in orders, the volume of business has been of very fair proportions. Saginaw dealers report a slow movement of the upper grades of white pine but more activity in the lower grades. Dimension and box lumber are very strong, the demand for dry stock being in excess of the supply. Lower prices on these grades cannot be looked for this season. Hemlock lumber is exhibiting greater strength. An advance of 50 cents is expected at any time at Tonawanda, while last week the Northwestern Hemlock Association adopted a new list on Wisconsin hemlock making an advance of 50 cents on No. 2 piece stuff and a slight advance on ship-lap. The supply of hardwood lumber has become greater, although as yet not sufficient to enable the mills to accumulate any stock. The high prices for oak will no doubt stimulate production this season, and it would not be surprising if that lumber should weaken towards the fall. Other lumbers which have not advanced in the same proportions are very likely to remain firm. A better supply of basswood at Buffalo is reported. In that market it sells readily at $40 for inch of best quality.

GREAT BRITAIN.

Advices from Great Britain indicate that the prospective buyer of lumber is more inclined to give due consideration to the possibility of a shortage in the Canadian supply. There is less disposition to defer the closing of contracts in the hope of being able to purchase at lower prices. The market is holding its own and would probably strengthen if a better demand for building lumber should develop. The statistics of stocks on hand at the leading ports show an improved position over that of last year. The stock of pine and spruce deals is slightly smaller. At Liverpool the supply of waney and square pine is only 73,000 cubic feet, which is an unusually small quantity.

Pine deals are in good demand, particularly first and second qualities. Cargoes of spruce deals have been placed at £7 10s c.i.f. for specifications containing 60 to 70 per cent. of 7 and 8 inch. First class waney pine is wanted and may command a higher figure than has yet been obtained. Oak is also much inquired for. Elm has improved of late, the buying evidently being by persons who have held off but are now of the opinion that the anticipated weakness is not likely to develop. While market opinions do not agree in every particular, the majority of importers believe that the market wil be firm until the fall at least.

The steamer Atbara sailed from Three Rivers, Que., last week for Glasgow, Scotland, with a cargo of deals.

NEW BRUNSWICK CEDAR SHINGLES.

New Brunswick shingles are in fair demand and prices are steady. Apparently the manufacturers have decided that there is only a fair margin in shingles at $3.50 basis and purpose accepting no business at lower prices. This fact in itself is a strong indication that prices will be firmly maintained during the remainder of the year.

For many years past the consumption of shingles has equalled the production, and while stocks have accumulated every year during the hot weather, say from July 15 to September 15, yet Christmas has invariably found the mill yards generally bare. Those manufacturers who were wise enough to hold their production during the heated term have generally gotten fancy prices late in the fall, after the bulk of the shingles had been moved. This object lesson has been taken to heart, and the great majority of shingle producers have acquired more nerve and do not now hasten to cut prices and thereby demoralize the market the moment they get on hand a few cars of shingles for which they have no orders. Again, the manufacturers now generally make prices on their production themselves instead of allowing some commission house to make figures for them. This makes it impossible for the commission men to cut prices to effect large sales at the cost of the manufacturer, and in itself tends to maintain prices.

For the last two months the wholesale and retail trade have been expecting N.B. shingles to weaken in price in sympathy with red cedar shingles. Retailers have refrained from buying because they figured on lower prices later. The lower prices have not materialized, and retail stocks have run down to a point where they must buy soon or be out of shingles. The labor troubles are being settled; the outlook is better for house construction; the drought is broken and the country yards are taking fresh courage.

At the manufacturing end of the line a considerable quantity of logs has been hung up and there is now a certainty that the 1903 production will be less, if anything, than the quantity produced in 1902. Absolutely the only unfavorable factor in the outlook is the low price of Pacific Coast red cedars. As this has not been able to affect prices of N.B. cedars during the last two months, there is reason to suppose that it will be unable to do so the remainder of the season, and that manufacturers of N.B. cedars may look for a steady market for some time to come and probably somewhat higher prices after October. We may further say that all low grades—clears and poorer—are in excellent demand, and that stock is well cleaned up at full prices. Prices quoted f.o.b. Boston points for standard brands are: Extras, $3.50; clears, $3.00; 2nd clears, $2.35 to $2.40; clear whites, $2.25 to $2.30; extra No. 1, $1.65 to $1.75. As usual some small mills are selling 5 to 10 cents off the list.

STOCKS AND PRICES.

A second boom of logs, comprising 3,000,000 feet, has arrived at the Burtis mill at Thessalon, Ont.

The schooner F.M. Knapp cleared last week from Thessalon, Ont., for Cleveland, with 415,000 feet of pine lumber.

A report from the Saginaw valley says that shingles are sluggish and 15 cents per thousand lower than two months ago. The red shingle situation is a little brighter.

The first raft of the season was taken over the Chaudiere slides at Ottawa last week. It contained 120 cribs of square timber belonging to Gillies Bros., of Braeside, and was en route to Quebec.

The tugs Harrison and Maitland reached Owen Sound, Ont., last week with a raft of 1,300,000 feet of hemlock, cedar and pine, from Meldrum Bay. The timber will be sawn at Maitland, Rixon & Company's mill.

The barque Argentina is loading lumber at Bear River, N.S., for Buenos Ayres. The barque Grenada is loading lumber at same port for Buenos Ayers, Clarke Bros. being the shippers. The schooner Margaret Rieley is loading at Annapolis, N.S., for West Indies.

CANADIAN LUMBER SHIPMENTS.

From Sorel, Que.: Str. Nordboen, for London, England, 676 hundred standards pine deals, value $29,320, by Tourville Lumber Mills Co. Str. Bangor Head, for Dublin, 89 hundred standards spruce deals, value $2,761, by Tourville Lumber Mills Co.

From Annapolis, N. S.: Barque James Daley, for Cuba, cargo lumber.

From Bear River, N. S.: Schr. Leah A. Whidden, for Cienfugos, cargo lumber.

From Hopewell Cape, N. B.: Barque Avoca, for Liverpool, England, 1,378,523 ft. birch and spruce deals, value $16,068, by J. Nelson Smith. Str. Tanagra, for Manchester, Eng., 3,144,580 ft. spruce deals, ends and scantling, value $36,191, by W. Malcolm Mackay.

From Yarmouth, N. S.: Barque Antigua, for Buenos Ayres, 454,000 ft. lumber, value $6,155, 211,000 ft. scantling, value $3,164, by Dickie & McGrath, of Tusket. Barque Hillside, for Buenos Ayres, 308,000 ft. lumber, value $4,618, 224,000 ft. scantling, value $3,241, by Dickie & McGrath. Barque Lakeside, for Buenos Ayres, 902,000 ft. lumber, value $13,083, by Parker, Eakins & Co.

From Halifax, N. S.: Str. Ocamo, for Trinidad, 50,874 ft. spruce lumber, value $950. Str. Carthaginian, for Glasgow, 105,550 ft. hemlock deals, value $854. Schr. Regina B., for St. Pierre, 59,817 ft. spruce boards, value $626. Schr. Carrie E., for St. Pierre, 54,943 ft. spruce lumber, value $575, 11,000 laths, value $25.

From St. John, N. B.: Schr. Flash, for Quency, 1,100,000 cedar shingles, by Charles Miller. Schr. Ravola, for Fall River, 945,000 laths, by Stetson, Cutler & Co. Schr. Alice Maud, for Vineyard Haven, 147,466 ft. spruce deals, by Stetson, Cutler & Co. Schr. Lyra, for Boston, 97,221 ft. plank, 30,337 ft. scantling, by A. Cushing & Co. Schr. Ayr, for Vineyard Haven, 81,980 ft. scantling, 222,000 laths, 4,283 ft. plank, by Stetson, Cutler & Co. Schr. Corinto, for Boston, 130,000 ft. boards, by Murray & Gregory. Schr. Maggie Miller, for Bridgeport, 600,800 ft. lath, by Dunn Bros. Schr. Tay, for Bridgeport, 106,075 ft. plank, 64,390 ft. scantling, by A. Cushing & Co. Schr. Rewa, for New York, 47,893 ft. pine plank, 45,000 ft. spruce plank, 56,597 ft. scantling, 51,271 ft. boards, by A. Cushing & Co. Schr. Quetay, for City Island, 164,871 ft. boards and plank, by Stetson, Cutler & Co. Str. Mara Kolb, for Brow Head, England, 1,981,760 ft. deals and battens, 46,512 ft. scantling, 100,421 ft. ends, 194, 425 ft. boards, 171 tons birch timber, by A. Gibson Railway & Mfg. Co. Schr. Rossa Mueller, for Philadelphia, 1,464,000 laths, by Thomas Bell. Str. Orinoco, 31 bundles matched boards for Bermuda, 100 bundles shingles for Antigau, 400 bundles shingles for Barbadoes, by J. Willard Smith. Str. Luectra, for Barrow, England, 2,672,549 ft. deals, 171,717 ft. scantling, 65,213 ft. ends, 36,701 ft. boards, by W.M. Mackay. Str. Bergenhus, for Brow Head, England, 282,583 ft. deals, 238,524 ft. scantling, 194,525 ft. ends, 33,233 ft. birch plank, 4,329 ft. birch ends, by W. M. Mackay. Schr. Lena Maud, for Salem, 127,616 ft. boards, 3,607 ft. scantling, by Stetson, Cutler & Co. Schr. Ida May, for Providence, 70,177 ft. plank, 93,056 ft. scantling, by A. Cushing & Co.

From Montreal: Str. Holmlea, for Hull, 60,467 pcs. deal, boards and ends, by R. Cox & Co. Str. Chickley, for Newcastle-on-Tyne, 68,021 pcs. deals, boards and ends, by Watson & Todd. Str. Arstein, for Waterford, via Three Rivers, 19,890 pcs. deals and timber, by Dobell, Beckett & Co.

OUTLOOK FOR THE DRIVES.

The outlook for the log drives in New Brunswick has improved slightly during the past week. Some rain has fallen, but it is yet extremely doubtful whether the rivers will rise sufficiently to bring out the logs that are hung up. The situation in Maine is equally uncertain. Upwards of 175,000,000 feet of logs were cut last winter on the Penobscot river, but as yet none of these have reached the boom.

John McAllister, operating for Cushing & Company, is hung up at Allegash Falls with 3,000,000 feet, and Mr. Sweenore, operating for W. H. Murray, has 5,000,000 feet huug up. R. Aitken is reported to be meeting with much difficulty on the Aroostook river, with the prospect that both the cut of this and last season, reaching about 7,000,000 feet, will be hung up.

The situation on other rivers is not so serious as on the St. John. The drives on the Restigouche are all out and the cuts this year at Campbellton and Dalhousie will be fully up to the average and will include a large quantity of cedar.

The drives on the Miramichi river are moving along fairly well. The cut on this river last winter was as follows:

	Feet.
Wm. Richards	16,000,000
Lynch	14,000,000
Welch	10,000,000
Robinson	3,500,000
Ritchie	10,000,000
Hutchison	9,000,000
Snowball	22,000,000
Burchill	2,500,000
Sinclair	3,500,000
O'Brien	1,500,000
D. J. and J. D. Buckley	3,500,000
Vaughan	10,000,000
Damery & McDonald	3,000,000
Gibson	7,000,000
D. Sullivan & Sons	3,500,000
Smaller parties	10,000,000
Total	129,000,000

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar cares to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

HARDWOOD PRICES AND DEMAND.

The American Lumberman makes some timely remarks regarding Michigan hardwoods, which, however, apply with some force to the general hardwood market. In hard maple, it is stated, there is no overstock and price conditions are excellent. A values from $1 to $2 higher than a year ago the demand is holding up excellently. The only menace to Michigan maple values is the ridiculously low prices at which maple flooring is being put on the market. It is argued by maple producers that maple flooring manufacturers will be unable to replace stock at a price that will show them any profit on flooring at current values.

Grey elm and basswood are the two Michigan woods that have shown the greatest accretion in value during the last year. The demand is stiff at an advance of fully $5 over one year ago. It goes without saying that the stock in first hands is very light.

Birch has followed the trend of maple values and is about $2 higher than a year ago. There seems to be a fair stock of birch in sight, but the demand is good.

Black ash has become so limited in supply that it cuts comparatively little figure among the other hardwoods of the state at present. The substitution of other woods is taking place and probably it will never again cut much of a figure as a standard product of Michigan.

Beech has also followed the fortunes of the maple and birch to the extent that it is in very reasonable demand at values from $2 to $3 higher than it was a year ago. On the whole Michigan hardwood conditions are in most excellent shape and the future for these standard woods looks very bright.

CANADIAN NORTHERN RAILWAY CO.

A complete and most modern through passenger train service between Port Arthur and Winnipeg will be established early in June, thus enabling Tourists on their way to and from the East to get a glimpse of the fertile Rainy River Valley.

This new train will make connections at Port Arthur with Steamers of the North-West Transportation Company and Canadian Pacific Railway.

A fast freight service can be depended upon from Port Arthur to all points West. Route shipments care of Canadian Northern Railway at Port Arthur.

Folder and Pocket Map of the Canadian Northern Railway will be sent upon application to

CORRESPONDENCE SOLICITED

The McGillivray Company, Limited,
Dealers and Manufacturers of OTTAWA, CANADA.
PINE, BIRCH AND HEMLOCK
Mills at Bear Lake, Ontario, and British Columbia. Bills cut to order. Specialty of British Columbia Douglas Fir.

The dull demand for spruce lumber at Boston continues, augmented partly by the labor strikes. The danger which has been threatening many mills in Maine and New Hampshire is now past, as the forest fires are nearly all under control. Mills whose men were out fighting fire have started up, and supplies are again coming forward in fair quantities, although low water in many streams is delaying the drives to some extent. Prices are steady and unchanged : Ten and 12-inch dimensions, $21 ; nine inch and under, $19 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18.50 to $20; out spruce boards, $13 to $14 ; bundle furring, $17.

Hemlock is steady with a quiet demand at : Boards, 12, 14 and 16 feet stock, $15 for good eastern ; Pennylvania, No. 1, $18.50 to $19.50 ; No. 2, $15 to $16.50.

Western pine lumber is firm, with a fair demand, and a good supply on hand : Uppers, 1 to 2 in. $84 to $87 ; 2½ to 3 in. $92 to $97; 4-in. $96 to $100 ; selects, 1-in. $76 ; 1¼ to 1¾ in. $76 to $78 ; 2-in. $78; 2½ to 3 in. $84 ; 4-in. $86; fine common, 1-in. $67 ; 1¼ to 1½ in. $69 ; 2-in. $72; 2½ to 3 in. $80 ; 4-in. $82 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

An active demand is noted for hardwood lumber for finishings. White wood is holding firm ; other grades very firm : Quartered oak, $75 to $83 ; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Clapboards are steady and unchanged : Extra, $45 ; clear, $43 ; second clear, $40 ; extra No. 1, $30.

Shingles are steady with the demand good : Extra cedar, $3.45 to $3.55 ; clear, $3.00 to $3.10 ; second clear, $2.40 to $2.50 ; extra No. 1, $1.75 to $1.80 ; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60 ; 18-inch, five butts to 2 inches, $3.75 ; five butts to 2¼ inches, $3.90.

Laths are firm and unchanged : 1⅜ in., $3.20 to $3.30 ; 1½ inch, $3. to $3.15.

TIMBER LIMIT TRANSACTIONS.

The Nova Scotia Steel & Iron Company are reported to have disposed of 500 acres of timber land located near Point-a-Coni and Little Bras d'Or Gut. The purchasers are understood to be Glasgow parties, who intend building a large saw mill.

The St. Lawrence Terminal Company, otherwise known as the Wolvin Syndicate, have just completed the purchase of 150 square miles of timber limits at St. Anne des Monts, Que., the negotiations being conducted by Mr. Butler Lowry, timber broker, of Chateau Frontenac, Quebec The properties purchased were owned by Wm. Power, M.P., of Quebec, A. S. Noble, of St. Anne des Monts, and Richardson & Company, of Matane. Two saw mills are located on the properties, and it is understood to be the intention of the purchasers to spend a considerable sum on improvements.

A saw mill belonging to Hon. Mr. Turner and situated at Lake Edward, Que., was burned last week.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, JUNE 24, 1903 No. 21

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Unfavorable weather conditions are responsible for a decrease in the volume of the lumber trade during the past week. The demand continues steady, however, and country trade is picking up to some extent. Retailers who have been holding off in the hope of buying at lower figures are apparently being compelled by necessity to replenish their stocks. Low grade pine is in better demand than the upper grades, the price of which has reached a point which is regarded by many as prohibitive to their use. In Toronto trade is unsatisfactory owing to the light demand for building lumber. Dealers have deserted this market and are giving their attention to outside customers. Buying of stock by Michigan concerns is still in evidence. A Saginaw firm lately added 15,000,000 feet of pine to their holdings of Georgian Bay stock. Prices in most instances are well maintained, and the future does not seem to offer much encouragement to the prospective buyer who hopes to obtain any marked concession from present prices. While the midsummer quietness may develop, and with it a slight weakness in exceptional cases, the lumber list as a whole is not likely to weaken, while if there should be an active fall demand, a strengthening of values might result. Hardwood lumber is being bought heavily by manufacturing concerns.

QUEBEC AND NEW BRUNSWICK.

Large shipments of lumber have been made from Montreal during the past week, the stock consisting chiefly of pine and spruce deals. The market is firm. It is understood that dealers have recently taken up options on considerable stock, as there appears to be a feeling that a shortage in the supply may result. Spruce prices are showing a tendency to advance. Several manufacturers in Nova Scotia are shipping largely to the South American market. The cedar shingle situation seems to be a little uncertain. Some firms are offering extras freely at $3.45, Boston delivery, while others are holding out for $3.50. Clears range from $2.90 to $3.00.

MANITOBA AND BRITISH COLUMBIA.

A slight falling off in the demand for lumber is reported by the manufacturers who supply the western trade. This is due in part to the temporary cessation of building operations in Winnipeg as the result of a dispute between the contractors and the brick-makers. The building season in that city is further advanced than in any previous year. This has brought about a shortage in the brick supply. The contractors claim, however, that a recently-formed syndicate is manipulating the market for the purpose of shutting out certain contractors and legal proceedings have been resorted to with a view to enforcing deliveries. It is expected that an early settlement will be reached, when work will be proceeded with as usual. The demand for British Columbia lumber is steady. In addition to shipments eastward, the local consumption is quite large. A warehouse about to be commenced in Vancouver will call for 1,000,000 feet of lumber. The Brunette saw mills at New Westminister were compelled to shut down for a time on account of high water.

UNITED STATES.

With the immediate lumber demand in the United States there is very little complaint. Buyers have been more numerous of late in the Lake Superior district, and manufacturers have been unable to accumulate any supply of dry stock. Practically all the lumber now in the yards is sold. The settlement of the labor troubles in New York was short-lived, hostilities having again broke out and work being tied up more completely than ever. The loss of this market is felt quite keenly by dealers at Albany, Buffalo and Tonawanda, but when building in that city resumes its normal conditition there should be a very active demand for lumber. High grade pine is exhibiting less firmness than the lower grades, for which there is a very active enquiry. Orders for bill stuff are so numerous that the mills are unable to meet the demand. There is also a pronounced scarcity of box lumber. Box concerns have sent representatives into the sawmilling districts in the hope of buying direct, but have not been very successful,

the mills having little stock for sale. Mill culls sell readily.

Hardwood lumber of all kinds is very strong. Maple appears to have taken the lead in place of basswood, although the latter is still in excellent demand. Dealers are buying liberally in advance of requirements, many of them having already contracted for their year's supply. The new cut is now coming on the market, but there are no indications of lower prices.

A renewed demand for 18 inch shingles is reported from Buffalo. Red cedar shingles are the weakest feature.

The future of the lumber market seems uncertain. It will depend largely upon crop conditions, which at the moment are favorable for wheat, but not as good as might be desired for corn. Should the crop harvested be equal to or above the average, it will go a long way towards sustaining the lumber market. Salesmen who have canvassed the eastern trade report that it has been difficult to book orders for delivery later than August.

GREAT BRITAIN.

Persons who have held the opinion that the lumber trade of Great Britain is likely to decline in the near future are pointing with some degree of satisfaction to the possibility of a general election as the result of the Hon. Mr. Chamberlain's new policy. They argue that the situation offers little encouragement to buyers and that prices are likely to weaken before the close of the year, even if such a result is not experienced immediately. There is a great diversity of opinion, and it will be necessary for the public to show greater confidence before any activity will be witnessed. Consumption is only moderate. Reports concerning Canadian lumber are of an encouraging character. The high prices recently quoted are being maintained. Large quantities of whitewood are being shipped from Southern Europe to London, much of it on consignment. This has resulted in a slightly easier market for Canadian spruce in stock, but c. i. f. prices have not been affected. Agents of shippers have refused to entertain lower offers, as they believe that the probability of a shortage in the supply justifies the prices at which stock is now being held. It is even stated that many contracts for future delivery have been declared void owing to the large number of logs that are hung up. Large quantities of stock from Quebec are going direct into consumption The freight market is favorable to business, the rates quoted being exceptionally low.

STOCKS AND PRICES.

The barque Fruen is loading deals at St. John, N. B., for the United Kingdom.

The steamer Fenchurch is loading deals at St. John, N. B., for the United Kingdom.

The steamer Norden is about to load deals at Riviere du Loup, Que., for Cork, Ireland.

The steamer Russ is loading a cargo of deals at Pugwash, N. S., for Great Britain.

The steamer Trold is loading a cargo of deals and boards at St. Thomas, Que., for London.

Lath prices in Chicago are $3.50 for No. 1 white pine, $3 to $3.15 for No. 1 mixed, and $2.75 for No. 2.

M. L. Tucker, of Parrsboro, N. S., estimates that the deal shipments from West Bay this season will be 30,000,000 feet.

The schooner Onora arrived at Halifax, N. S., last week from Norfolk, with 70,000 feet of creosoted piling for the breakwater at Herring Cove.

The barque St. Croix is loading lumber at Annapolis, N. S., for South America, and the barque Grenada is loading at Bear River for a southern port.

There is a large demand throughout Michigan for cedar posts, ties, and telegraph and telephone poles, which is curtailing the supply of shingle timber.

The Hanbury Manufacturing Company, of Brandon, Man., last week received a drive of 5,000,000 feet of logs, which were floated down the Assiniboine river.

W. H. Murray, of St. John, N. B., has purchased from W. J. Scott, of Springfield, 1,000,000 feet of spruce logs which were cut along the Keswick river last winter. It is understood that the price paid was in the vicinity of $12 per thousand feet.

The New Brunswick Government will offer for sale at Fredericton, on July 2nd, three square miles of timber limits north of the New Canaan River, above mouth of North Forks, the applicant for which is H. B. Hetherington.

The S. P. Benjamin Company, of Wolfville, N. S., have so far this year loaded six vessels with lumber and expect to have between 6,000,000 and 7,000,000 feet more to ship. Their loading place for small vessels is Hantsport, but the large-sized vessels and steamers load further down the river.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to 16th June, as furnished by the Supervisor of Cullers :—

	1901	1902	1903

H. Newsom, Sons & Company and Harry Smith & Company held an auction sale of lumber at Hull, England, on June 11th. Prices realized were as follows: 3rds Quebec spruce, 3 by 7, £7 5s ; 3 by 8 £7 10s ; 3 by 9, £8 10s: 3 by 10, £8 5s; 3 by 11, £8 15s to £9 5s; 2nds ditto, 3 by 7, £7 10s to £7 15s; 3 by 10, £8 15s; u/s ditto, 3 by 11, £8 15s; 12 to 13, £8 to £8 5s ; 3 by 10 and 11, £9; 3 by 8, £7 10s; 3 by 7, £7 10s. Red pine A, 3 by 8, £8 15s; u/s Quebec red pine, 3 by 7, £9 to £9 5s ; 4 by 9, £9 15s to £10. 3rds Quebec yellow pine, 3 by 11, £12. Quebec best pine sidings, 1¼ by 7 to 14, £17.

Under date of June 6th Messrs. S. P. Musson, Son & Company say of the Barbadoes lumber market: "The arrivals have been the "Francis A. Rice," from Church Point, with 134,000 feet of spruce; "E. Alexandra," from Kingsport, with 49,000 feet white pine, 22,000 feet spruce and 126,000 feet hemlock; and the "Gold Seeker" on 3rd inst. with 173,000 feet white pine, 22,000 feet spruce and 13,000 feet of hemlock. The cargo of the first vessel was sold at $18.50 for shipping and $15.50 for second quality; the cargo of the Alexandra brought $27.10 for shipping and $21.10 for second quality white pine, $16 for second quality spruce and $17.50 for shipping, and $15 for second quality hemlock. A cargo of white pine could, we think, be placed in the neighborhood of $26 for shipping and $21 for second quality. The only receipt of shingles was 100,000 Long Cedar of ordinary quality, which have been sold at $3.33."

QUEBEC TIMBER LIMIT SALE.

As previously announced, a sale of timber limits was held in the Crown Lands Department, Quebec, on June 16th. Hon. S. N. Parent, Minister of Lands, Mines and Fisheries, presided, assisted by Mr. E. E. Tache, Deputy Minister. There was a large attendance of lumbermen,including : E. W. Tobin, M. P., (Brompton Falls), W. Power, M. P., H. M. Price, Hon. R. Turner, Campeaux & Freres, M. B. Quinn, C. P. Easton (Albany), Mr. Well, (Ha Ha Bay), John Breakey, B. A. Scott, P. J. Owens, (Montmagny), T. W. Ordway, W. Dion, M. P. P., Thos. Crockett, (Fraserville), W. F. B. Atkinson, E. Poulin, (St. John, P. Q.), A. McLaren, (Montreal), A. E. Alexander, (Campbellton), Wm. Price, N. Flood, H. M. Calvin, M.P., (Kingston), O. J. X. Lavoie, (Perce), Hon. W. C. Edwards, (Rockland), Andrew Thomson, Mr. Newton, (Syracuse, N.Y.), John Forman, (Montreal), S. Grogan, (Batiscan), W. K. McKim, (Dalhousie), Harold Kennedy, Chas. Sewell, W. S. Bennett, Hon. N. Garneau, Thos. Lebel, (Rimouski),Mr. Tourigny, (St. Maurice), etc.

Altogether 2,760 square miles of limits were sold, for which the sum of $365,639 was realized. The location of each limit, name of purchaser and price are given below:

Upper Ottawa District—Block A, 1st range, 28 sq. miles, James Logue & Co., $101 per mile ; 3rd range, 39¾ sq. miles, A. McCormick, $105 per mile ; 4th range, 25 sq. miles, A. McCormick, $106 per mile; 6th range, 50 sq. miles each, E. W. Tobin, M.P., $165 per mile ; Grand Lake Victoria 611, 19 sq. miles, N. Flood, $86 per mile ; Grand Lake Victoria 612, 11¼ sq. miles, A. McCormick, $105 per mile ; River du Lievre, 100 miles, Champoux Freres, 50 miles at $105 per mile and 50 miles at $106 per mile.

St. Charles District—Jacques Cartier river, 33 sq. miles, Mr. D'Azure, $97 per mile.

Saguenay District—River Malbaie, 40 sq. miles, Senator Forget, $81 per mile ; river du Gouffre, 67½ sq. miles, William Power, M.P., $101 per mile ; Portneuf river, 39 miles, C. P. Easton, Albany, $138 per mile, and 45 miles at $103 per mile ; 69 miles on same river, E. W. Tobin, M.P. $102 per mile ; St. John, Salmon and Magpie rivers, 310 sq. miles, H. M. Price, Quebec, $75 per mile ; Township Albert, 20¾ sq. miles, Price Bros., $61 per mile ; part of Saguenay East, 7 sq. miles, Price Bros., $61 per mile.

Bonaventure West District—Little Cascapedia river, 283 sq. miles, W. C. Edwards, $83 per mile ; Grand Cascapedia, 115 sq. miles, W. C. Edwards, $105 per mile ; Angers Township, 28 sq. miles, Mr. McKim, Dalhousie, $170 per mile ; Bonaventure river, 92 sq. miles, W. C. Edwards, $164 a mile; Nouvelle and Escoumenac rivers, 166 sq. miles, J. McKean, $160 a mile ; Metapdia, range 2, Restigouche river, 1 sq. mile, A. E. Alexander, $426.

St. Charles District—River des Nieges, 148 sq. miles, Harold Kennedy, $150 per mile.

Saguenay District—East branch Pentecote river, 80 sq. miles, O. C. Morrissette, $127 per mile ; 300 sq. miles on same river, O. C. Morrissette, $93 per mile.

Aquila, from Montreal : 16 ft. 3 x 11 in., third quality red, £8 15s. Ex. Devona, from Montreal : 10–14 ft. 3 x 7–10 in. third quality, £10 10s. Ex. Caledonian, from Quebec : 10–15 ft. 3 x 9 in. unassorted red, £8 10s; 10–16 ft. 2 x 6, £7 5s; 10–15 ft. 2 x 6, £7 5s. Ex. Netherholme, from Quebec : 10–20 feet 1 x 8–9 in. unassorted red, £9; 10–18 ft. 1 x 8, £8 15s; 10–20 ft. 1 x 7, £8 10s; 10–18 ft. 1 x 7, £8 10s; 12–18 ft. 1 x 7, £8 10s. Ex. Nordhavet, from Quebec : 12–18 ft. 1 x 11 in. unassorted red, £11 15s; 10–18 ft. 1 x 11, £11 5s; 10–18 ft. 1 x 9, £10; 10–18 ft. 1 x 9, £10 10s; 10–20 ft. 1¼ x 7–9, £7 15s: Ex. Prone, from Quebec : 9–13 ft. 3 x 9 in. second quality, £14 15s; 10–11 ft. 3 x 9, £14 5s; 5–8 ft. 3 x 11, £15; 6–8 ft. 3 x 9–10, £12 10s; 6–8 ft. 3 x 7–8, £12; 6–16 ft, 3 x 4, £9 5s. Ex. Siberian, from Quebec : 10–17 ft. 3 x 8 in. unassorted red, £8 10s. Ex. Brazilian, from Montreal : 13 ft. 1½ x 9, dry C quality, £11 5s.

Oregon Pine—Ex. Lindfield, from Vancouver, B. C. : 31–40 ft. 6 x 12 in. dry, £10 10s per std.

Spruce—Ex. Valdorg, from Dalhousie : 17–26 ft. 3 x 9 in. first, second and third quality, £8 5s per std. Ex. Loyalist, from Halifax : 12–14 ft., 3 x 9 in. first, second and third quality, £8 10s; 3–26 ft. 3 x 9, £8 5s. Ex. Evangeline, from Halifax, 6–19 ft. 3 x 12–16 in. first, second and third quality hemlock, £5 and £5 5s. Ex. Victoria, from Hopewell Cape, N B. : 10–12 ft. 2½ x 7 in. first, second and third quality, £7 15s. Ex. Miniwaska, from Quebec : 9–14 ft. 3 x 9 in. second quality, £9 10s. Ex. Belgian, from Quebec : 12–16 ft. 3 x 11 in. third quality, £9. Ex. Carlisle City, from Halifax : 15 ft. 3 x 9 in. fourth quality, £8 10s.

Oak planks—Ex. Britta, from Quebec : 34 pcs. 5–5¼ in., 2s 2d per cubic ft. ; 35 pcs. 4–4½ in.,2s 3d; 300 pcs. 3–3¼ in.,2s 2d ; 110 pcs. 3–3¼ in., 2s 2d; 18 pcs. 2½ in., 2s 2d.

Elm planks—Ex. Britta, from Quebec : 31 pcs. 4 inches and up, 1s 5d; 27 pcs. 3–3¼ in.,1s 6d; 90 pcs. 2¼–3¼ in.,1s 3d; 84 pcs. 2¼–2¾ in., 1s 5d.

Oak timber—Ex. Aquila, from Quebec : 4 pcs. 11½–15¼ ft. 26-44 in., 100s per load of 50 cub. ft. ; 5 pcs. 10¾–15 ft. 28-41 in., 97s 6d ; 7 pcs. 12¾–12½ ft. 30-49 in. 97s 6d.

THE BOSTON MARKET.

Spruce lumber is in somewhat better demand at Boston, and prices hold firm. The rains have given plenty of water for the drives, but the logs will be late in coming down to the mills,and it is thought that some of the drives on the smaller streams will be left altogether. Prices are steady and unchanged : Ten and 12-inch dimensions, $21 ; nine inch and under, $19 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18.50 to $20; out spruce boards, $13 to $14 ; bundle furring, $17.

Hemlock is steady with a quiet demand at : Boards, 12, 14 and 16 feet stock, $15 for good eastern ; Pennylvania, No. 1, $18.50 to $19.50 ; No. 2, $15 to $16.50.

The demand for hard pine lumber continues very good, considering the strikes and the consequent interruption to business. An advance is expected in 14 to 16-inch timber, but other prices are steady and unchanged. Quotations are firm Large building orders, to arrive, $28 to $32 ; for immediate delivery from the yards, $30 to $35, according to schedule; floorings, from the yard, heart face, $26 to $32 ; best rift from the yard, $50 to $52 ; stepping, $45 to $48 ; sap and seconds, $35 to $38 ; kiln dried, all rail, best quality, $40 to $44 ; sap, $29 to $33.

There is a very firm market for western pine lumber,with the demand active : Uppers, 1 to 2 in. $84 to $87 ; 2½ to 3 in. $92 to $97; 4-in. $96 to $100 ; selects, 1. in. $76 ; 1¼ to 1¾ in. $76 to $78 ; 2-in. $78; 2½ to 3 in. $84 ; 4-in. $86; fine common, 1-in. $67 ; 1¼ to 1½ in. $69 ; 2-in. $72; 2½ to 3 in. $80 ; 4-in. $82 ; barn boards,$23 to $33; coffin boards,$28 to $32.

Hardwood lumber continues in active demand for finishing. Both whitewood and quartered oak are firm and in good request : Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak,plain,$43; whitewood, $54 to $60; sap,$43 to $48; common,$38 to $45; brown ash,$41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch,$27 to $30 ; birch,75 per cent. red, $45 to $50; elm, $29 to $31.

Clapboards are steady and unchanged : Extra, $45 ; clear, $43 ; second clear, $40 ; extra No. 1, $30.

Shingles are steady with a good demand : Extra cedar, $3.40 to $3.50 ; clear, $2.90 to $3.00 ; second clear, $2.35 to $2.40 ; extra No. 1, $1.65 to $1.75 ; British Columbia red cedar, 16-in., five butts to 2 inches, $3.50 to $3.60 ; 18-inch, five butts to 2 inches, $3.75 ; five butts to 2¼ inches, $3.90.

Laths are firm and unchanged : 1⅝ in., $3.20 to $3.30 ; 1½ inch, $3.00 to $3.15.

CANADIAN NORTHERN RAILWAY CO.

A complete and most modern through passenger train service between Port Arthur and Winnipeg will be established early in June, thus enabling Tourists on their way to and from the East to get a glimpse of the fertile Rainy River Valley.

This new train will make connections at Port Arthur with Steamers of the North-West Transportation Company and Canadian Pacific Railway.

A fast freight service can be depended upon from Port Arthur to all points West. Route shipments care of Canadian Northern Railway at Port Arthur.

Folder and Pocket Map of the Canadian Northern Railway will be sent upon application to

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. IX. TORONTO, CANADA, JULY 1, 1903 No. 22

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

MAPLE WANTED.

WE WILL BUY 1½" AND 2" COMMON AND Better Hard Maple in any quantity. Write us. GOLD MEDAL FURNITURE M'F'G. Co., Limited, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber manufacturers and dealers are satisfied with the trade of the month of June. While it has been, perhaps, slightly less in volume than that of the corresponding month last year, conditions existed this season which restricted the consumption of building lumber. Nevertheless, unsold stocks are smaller than usual at this season of the year, and the outlook is for a steady demand at firm prices. In pine lumber the demand is running to the lower grades, but this must be taken as a favorable factor, for the disposal of the comparatively small percentage of uppers which is now produced causes manufacturers no anxiety. If prices are to advance in relation to the demand, higher prices for box lumber may be predicted, for the call for this grade is unusually heavy. By many persons it is believed that hemlock lumber will make new prices in the near future. It is going into consumption so rapidly as to warrant a readjustment of prices on a higher basis. For stock two inches and thicker there is a very active demand.

The supply of hardwood lumber is still short. Dealers have been large buyers of elm and have picked up basswood where it could be found. Maple is also selling more freely.

Those who are looking for arguments on which to base predictions of lower prices for lumber have no abundance of strong points. The different markets supplied by the Canadian product are in a healthy condition, with little probability of a curtailment of buying power for some time to come. Should an abundant crop of grain be harvested in Canada and the United States, it will probably be reflected in a strong lumber market.

QUEBEC AND NEW BRUNSWICK.

The manfacturers of spruce lumber are in a very comfortable position in respect to the disposal of their output. The danger of a large percentage of the log production being hung up has been lessened only slightly by the recent rains. There promises to be a shortage in the spruce supply. It is clained that the demand is larger than ever known at this season of the year, and that manufacturers are receiving new orders daily. Many of these they are compelled to refuse on account of having their stock sold largely in advance. There has been heavy buying in Nova Scotia for the South American market, the prices for spruce ranging frrom $14 to $18. Deals are selling at $14 at the mill. The West India trade is also taking a considerable quantity of stock.

The price of New Brunswick cedar shingles still holds around $3.40 to $3.50 for extras, on Boston rate of freight. A few manufacturers are said to be selling even as low as $3.35, but this cannot be said to be the market price, while indications point to an advance in the near future.

UNITED STATES.

Lumber values in the Eastern States are uncertain, the building strike at New York having affected outside points. Although rumours of a settlement of this strike have been circulated, up to the time of going to press such a result has not been accomplished. When this end is reached, however, there will doubtless be heavy buying of lumber. The general demand throughout the United States is fair. Some dealers report a falling off in the call for building lumber. All manufacturers are holding prices up to the notch, being convinced, apparently, that the entire production will find a market. Reports from Buffalo, Tonawanda and Philadelphia tell of a remarkable demand for low grade white pine. Although the new cut is arriving the supply of the lower grades does not seem to increase, while it is predicted that consumption will expand from this time on. The buying of the higher grades is confined largely to actual needs. In the Chicago market piece stuff sells readily at $16.50 to $17 for strictly short. Hemlock in cargo lots is said to be slightly weaker.

Dry hardwood lumber is in better supply, but prices are still strong. Michigan oak and ash are held at $30 and $22 respectively. Basswood brings $22 and birch $20. Log run elm lumber is worth $18 at the mill. The scarcity of maple continues, manufacturers having to turn down orders.

The shingle market is still unsettled and prices as uncertain as ever. The depression in red cedar shingles has affected the entire list. The Logging Men's Association of the Pacific Coast have decided to close their camps from June 30th to August 3rd on account of the accumulation of shingles, especially of the Washington mills.

GREAT BRITAIN.

The lumber demand in Great Britain, if anything, shows some improvement, although the market cannot be called active. Wet weather has restricted the consumption. Shippers show no disposition to lower their asking prices, but on the other hand, in view of the probability of a shortage in the Canadian supply, are disposed to raise their quotations. Sentiment of importers is gradually changing to the view taken by shippers, namely, that the cost of production will not permit of selling lumber at lower prices. Large quantities of whitewood recently reached the London market and somewhat upset prices of spruce, but the condition is again normal and no further depression is anticipated in the near future. One of the largest importers points out that there is plenty of room in London for moderate supplies of whitewood in addition to all the spruce which is likely to reach that market. Pine deals from the St. Lawrence are going steadily into consumption. Birch timber is in fair demand, although prices are inclined to be easier. The volume of trade in birch planks is steadily increasing. Recent sales have been at 11d to one shilling per cubic foot. First-class rock elm timber is very scarce, but the stock of second-class and soft elm is rather large.

The stock of white pine deals and battens in the public docks at London is 588,000 pieces, as compared with 690,000 pieces at corresponding date last year. Spruce makes even a better showing, the stock being 536,000 pieces, against 844,000 pieces in 1902.

STOCKS AND PRICES.

The steamer Obi is loading a cargo of deals at Montreal for the United Kingdom.

Hemlock is being delivered in Chicago at $14 to $14.50 for No. 1 piece stuff.

The steamer Nordkap cleared last week from St. John, N.B., for London, with deals.

The Steamer Janeto sailed last week from Montreal for Greenock with timber, calling at Quebec to complete cargo.

Alex. Watson reports that a drive of logs in which he is interested is hung up on the St. John river in New Brunswick.

A raft of 30,000 ties reached Wiarton, Ont., on June 27th. This is said to be the largest number ever taken to Wairton by one tug.

The strike of the employees of the sash and door manufacturers of Montreal has been settled, after an idleness of nine weeks.

The Alex. Gibson Railway & Manufacturing Company, of Marysville, N. B., have 4,000,000 feet of logs hung up on the Nashwaak river.

The drive of logs on the Eel river, taken out by S. C. Wiggins, of Woodstock, N.B., is hung up. He has about 400,000 feet of cedar and spruce only a few miles from the mill.

The schooners Margaret May Riley and Helen Shafner are loading lumber at Annapolis, N. S., for the West Indies, and the barque Athena is taking on a cargo there for Buenos Ayres.

B. J. Gilligan, of Mattawa, Ont., is just getting out with his drive of 9,000,000 feet of logs, which were taken out for the Hull Lumber Company last winter. They were drawn on to Pontain Creek, which he has just got clear of.

Bay City parties are reported to have bought 10,000,000 feet of pine lumber from the Ontario Lumber Company, of French River, Ont., at an average of $1 per thousand over the price obtained for the same grade of stock last year.

In Chicago No. 1 white pine lath are quoted at $3.50, No. 1 mixed and No. 1 hemlock at $3 to $3.15, and No. 2 at $2.75. In the Saginaw Valley No. 1 lath are held at $3.50 for pine and $3.20 for hemlock. Pine shingles are offered at $4.25 and $3.25.

There is an improved demand for slack cooperage stock and a decided scarcity in everything but hoops. Jobbers at Buffalo quote in carlots as follows: First-class elm flour barrel staves, $9.25 to $9.50; mill run fruit barrels, $7.25 to $7.50; second-class, $5.50 to $5.75; basswood heading, 6½ to 6¾ cents for first-class and 4½ to 4¾ cents for second-class; coiled hoops, $9.50 to $9.75 for 5¼ foot and $10 to $10.25 for 6 foot; hickory hoops, $6.50 to $6.75.

Concerning the Minneapolis lumber market the American Lumberman says: "The market is in a satisfactory state; the stringency in stocks is now overcome and the trade is somewhat lighter. Conditions are only what is expected at this time. The general situation is good and crop prospects warrant belief in a good fall trade. The advance in hemlock dimension is maintained and white pine dimension promise to be as scarce as ever. From all reports the mills continue to slight dimension, which should command the present list prices without any trouble."

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Inquiry made to-day in local lumber offices fails to show any changes in Ottawa district lumber prices since last letter, so that present quotations stand. There has been comparatively little change in business. Dealers still profess an inability to secure stocks at prices that will insure them a return on their money. The unsettled state of the New York lumber market continues to give local dealers cause for vexation on account of the delay in shipments that is caused. A couple of times a settlement of the labor difficulties in Gotham has been reported, but the pot still seems to be boiling.

Around the mills all is activity, and with a good supply of logs laid over from last season's drives the saws are piling up lots of lumber. The first of the pine will not be ready for market before the first of August. While a scarcity of labor is reported at some of the mills, there have been no strikes since the Hawkesbury affair in April.

Reports show that the log drives are moving freely in all directions. They were kept on the go during the long drought, and the recent constant rains have helped them out towards the main streams. It is now practically assured that the big end of the log cut of 1902-1903 will reach the mills this season. This being the case, there should be no let up in sawing operations on account of shortage in log supply. The first of the cut of logs of the season 1902-1903 have already arrived at the mills. Rafts have been received at their mills by the W. C. Edwards Company, the Hawkesbury Lumber Company and Mr. J. R. Booth.

On the Petawawa river alone Mr. J. R. Booth has fully 50,000 logs. The Hawkesbury Lumber Company's drive off the Dumoine came out into the main stream last week. Other firms are doing equally well, noticeably the MacLarens, of Buckingham, who have everything well in hand on the Lievre.

The square timber is behaving itself nicely, in fact the first rafts have already reached Ottawa, but this was taken off one of the Gillies limits convenient to the main stream. Reports show that the other square timber rafts not being handled over the C. P. Railway are many miles distant from the Capital. However, taking all in all, natural conditions could not be very much better, and the lumbermen have nothing to complain of.

Already plans are being made for the work of 1903-1904. It is expected the men will be sent into the woods earlier this year than is usually the case, and it will be a matter of only a few weeks until the van guard is on the way. Conditions promise to be about the same as they were last year. The general prosperity will retain wages on a high plane.

An effort is being made by Mr. J. R. Booth and Hon. Senator Edwards to have the recent by-law prohibiting the piling of lumber in large quantities within the city limits rescinded. Application to the City Council to this effect has been made, but it is difficult to say what the outcome will be. It is pretty safe to say, however, that the mills will remain whether the piles go or stay. The by-law, in all probability, will be modified.

Mr. W. H. McAuliffe, lumber dealer, of Ottawa, has purchased all the present season's cut of spruce at McLachlan Bros. mill at Arnprior and the St. Anthony Lumber Company's mill at Whitney. Spruce is a more rapid drier than pine, and Mr. McAuliffe's stock will be ready to ship at any time now. Mr. McAuliffe's new planing mill is well advanced. The roof is being placed in position, and the mill will be running in about a month.

Mr. Charles Desmarais, Hull, Que., took out a large stock of poles this season. He has 1,500 on hand 25 feet and upward in length, 7 inch top. These are piled along the Gatineau and Pontiac lines ready for prompt shipment.

An old lumberman to-day furnished some figures which will show the wonderful advances there have been in the past half century in the price of white pine square timber. It is selling now at the port of Quebec at 65 cents a cubic foot, whereas it went begging for purchasers, practically, five years ago at 40 cents a cubic foot. The advance in the past five years has been almost four times as great as was the advance in the previous thirty years, for in 1869 white pine was quoted at Quebec at 33 cents a foot. This leaves an advance of 7 cents between 1869 and 1898, as against an advance of 25 cents between 1898 and 1903. Decrease in production rather than increase in demand is probably the reason for this strong advance in square timber. This year not one raft will pass down to Quebec, where there were ten a few years ago. It is getting more difficult, as the years pass by, and the cutting increases, to secure Canadian white pine suitable for decking.

Late reports, contrary to general expectations, show that forest fires during the recent long drought played havoc in standing timber on some of the Ontario limits. In the vicinity of Des Joachims, in the Black river section of the Upper Ottawa country, standing timber equivalent to fully 500,000 logs was burned through. This was on one of Mr. J. R. Booth's limits. Several keep-overs, holding large stores of supplies, were also destroyed. It is expected that part of the standing timber that was scorched can be sawed, providing it is felled before the worms get in their insidious work.

Mr. Wm. Hutcheson, ex M.P., Canadian Commissioner to the Exposition held at Osaka, Japan, states that the British Columbia, or Douglas fir, as it is commonly called, is received in great favor in the Orient and in Manilla. Experiments made on Government contracts in Manilla have shown that the Douglas fir is the only wood which will stand weather and insect ravages. For this reason it has been selected, although disguised under the name of Oregon fir.

OTTAWA, June 26th, 1903.

The following charters are reported: Barque Massa-e-Gueco, Chatham, N. B., to Buenos Ayres, lumber, $8; barque Niagara, Pictou, N. S., to Swansea, deals, 40s; str. Daventry, St. John, N. B., to w. c. England, deals, 36s 3d.

TIMBER LIMIT TRANSACTIONS.

Some years ago Charles Merrill & Company, of Bay City, Mich., purchased a tract of pine timber in the Lake of the Woods district, estimated to contain about 100,000,000 feet. They are reported to have just sold the timber to Canadian parties for $400,000, which is said to show a handsome profit on the investment.

THE BOSTON MARKET.

Spruce lumber continues in a very firm position, owing to a light supply, notwithstanding the interruption to business still being felt from the strikes in the building trade. Shippers at the eastern mills complain of car shortage, which delays shipments seriously. Prices are steady and unchanged: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

There is a quiet demand for hemlock lumber, with prices steady as last quoted: Boards, 12, 14 and 16 feet stock, $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is quiet here, though the movement in the West is active. Prices are steady: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to 97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Quartered oak is very firm with an active demand. Whitewood is a little easier, though not yet quotably lower. Other hardwoods are steady: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to 45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white map, $46; birch, 75 per cent. red, $40 to $45; northern elm, $29 to $31; Michigan elm, $34 to $37.

There is a steady market for shingles, with some lots offering below the market: Extra cedar, $3.40 to $3.50; clear, $3; second clear, $2.35 to $2.45; extra No. 1, $1.75 to $1.80; British Columbia red ceder, 16-in. five butts to 2-in. $3.50 to $3.60; 18-in. five butts to 2 in. $3.75; five butts to 2¼ in. $3.90.

Laths are firm and unchanged: One and five-eighths in. $3.20 to $3.40; 1½-in. $3 to $3.15.

BRITISH TIMBER SALE.

A small quantity of Canadian lumber was sold at the last auction sale of Churchill & Sim, London, England, on June 17th, prices ruling as follows:

PINE—Ex. Belgian, from Quebec—12-18 ft. 3 x 9 in. third quality, £9 per std. Ex. Miniwaski, from Quebec—10-19 ft. 3x9 in. first quality red, £11. Ex. Ontarian, from Quebec—10-11 ft. 3x7-8 in. second quality, £12 10s. Ex. Aquila, from Quebec—9-13 ft. 3 x 12 in. third quality, £9 10s. Ex. Ashanti, from Quebec—12-14 ft. 3x10 in. second quality, £15 5s; 7-11 ft. 3x10, £14 5s; 13-14 ft. 3x9, £15; 7-11 ft. 3 x 9, £14 10s. Ex. Otterspool, from Montreal—16 ft. 3x11 in. fourth quality, £9 15s; 14-16 ft. 3x11 in. £9 15s. Ex. Norge, from Quebec—10-13 ft. 3 x 11 in. first quality, £17.

SPRUCE—Ex. Forest Holme, from Quebec—9-16 ft. 2 x 7 in. unassorted, £8 10s per std.

BIRCH—Ex. Iona, from Quebec—2 pcs. 12 and 16 ft. x 22-25 in., £5 per load of 50 cubic feet. Ex. Gulf of Venice, from St. John, N. B.—4-17 ft. 3x11-12 in., 1s 1d per cub. ft.; 3-16 ft. 3x9, 1s 2d; 7-20 ft. 3 x 8, 1s; 6-19 ft. 3x6-7, 1s.

ASH—Ex. Columbian, from Quebec—10-14 ft. 14x19 in., 50s per load. Ex. Cambrian, from Quebec—12-20 ft. 15 x 25 in., 68s.

THE WHITE PINE MARKET.

Within the past few weeks a number of expressions of uneasiness regarding the future of the white pine market in the United States have been heard, and the opinion has gained some currency that the market was on the verge of a break. For the purpose of finding out just what is the sentiment among the manufacturers of the north, the secretary of the Mississippi Valley Lumbermen's Association sent out a circular to the members of that organization requesting their views on the present situation and what they thought of the future trade. In another circular sent out this week are a few replies chosen at random and covering the several markets of the white pine section. So far as the opininos expressed are concerned they all have been written by one man. They are unanimous in expressing no apprehension for the future. All report that trade is fully as good as they have any reason to expect. Most of them are doing more business than they were at this time last year, and all of them would be shipping more lumber were the stock available with which to fill orders. Most of the replies express surprise that there should be any feeling of weakness. A number report getting better than list on several items on the list. It is agreed that a number of the heavy buyers have been attempting to bear the market, but the general opinion is that this effort will not meet with material success.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, JULY 8, 1903 No. 23

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED, TO BUY POSTS 30 FT. AND UP. M. BRENNAN & SONS MFG CO., Hamilton, Ont.

WANTED—1" COMMON BIRCH; 3" TAMARAC 14' and 16'. All kinds and grades of Hardwood. Address Box 37, care CANADA LUMBERMAN.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

HARDWOOD LUMBER WANTED

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.
One 10" x 18" Engine.
One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)
One pair twin engines, 10x16.
One No.2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.
One set Trimmers, to trim 6 to 24 ft., chains, mandrils and saws.
Also a quantity of Shafting, 2" to 4" pulley, and steam and water pipe.
One 14' x 60" Boiler; one top saw slash table.
About one mile of telephone wire, and two 'phones. For particulars, apply to BOOTH & GORDON, Azilda, Ont.

WANTED—WHITE PINE BOX AND BARN boards for lake shipment. The C. H. Gill Lumber Co., Cleveland, Ohio.

FOR SALE

WE CAN SUPPLY FOR PROMPT SHIPMENT 75,000 feet Rock Elm timbers from 12 to 34 feet long, cut to order. For particulars, etc., write to KEENAN BROS., Owen Sound.

FOR SALE—ONE 8 INCH, 4 SIDED, ENDless bed Cowan moulder, (Head for 10" stock) in good condition. Can be seen at work in our factory. LAKING, PATTERSON & CO., Hamilton, Ont.

WANTED—AN 8" SECOND-HAND MOULDer. Either a 3 or 4 side machine would do. Feed rolls must be power driven in bed and machine be in good order. Address W. S. F., care CANADA LUMBERMAN.

FOR SALE—SAWMILL AND LIMIT IN District of Parry Sound, situated on G. T. Ry. Mill 18 to 20 M feet day. Several million feet hemlock, hardwood, spruce, balsam & pine timber. For particulars apply to Box 106, CANADA LUMBERMAN.

We have for sale and ready for shipment, One Thousand Cedar Telephone Poles, in all lengths from 40 to 60 ft. Prices given by mail or wire for car lots f. o. b. this station, or delivered at points required. GEORGE MCGREGOR, Killaloe Station, Ont.

Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

WANTED — SECOND HAND BAND SAW with removable re-saw attachment. THE WATEROUS ENGINE WORKS CO., Brantford.

FOR SALE — TWO GOOD SECOND-HAND Horizontal Tubular Boilers, one 25 H. P., one 35 H. P. For particulars address: MACHINERY EXCHANGE, 22-24 Victoria Square, Montreal, Quebec.

MAPLE WANTED.

WE WILL BUY 1½" AND 2" COMMON AND Better Hard Maple in any quantity. Write us. GOLD MEDAL FURNITURE M'F'G. CO., Limited, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The market appears to be about stationary. Stocks are still moving actively. Hemlock and hardwoods are in most demand. There is no great movement of shingle stock. Reports of light stocks still come in. The outlook and tendency of prices is strong.

Reports received from the many lumber firms in the Ottawa Valley show that the recent rains have removed all danger of any of the logs being held up this season. Most of the stock is down to the main stream.

Mr. Jardine, Canadian Commissioner in South Africa, in a report to the Dominion Government, comments vigorously upon the recent shipment of building material for South Africa railways. He states that the material ordered was to be first-class, but when it arrived it was found to be inferior and was refused. There was a long delay before the shipment reached the Cape.

The lumber mills of new Ontario are working night and day, and although the market is taking large quantities the demand is still on the increase.

There is considerable call from U. S. dealers for all kinds of white pine lumber.

QUEBEC AND NEW BRUNSWICK.

The demand for lumber is fairly good. The recent rains will swell the crop of logs that will reach the mills this season. The prices are about the same as last week.

At Bathurst, N. B., the mills are running day and night and they as well as the Caraquet mills are doing good work. In Nova Scotia the dealers report that they cannot supply the demaud in all kinds of lumber. Hemlock, spruce and pine is going rapidly. There is a large demand for shingles and special stock also. At Liverpool, N. S., no stocks are on hand, and vessels waiting. The outlook and tendency of prices for export is good. There are upwards of 100,000 acres of good timber lands for sale near this place. Most of it is a pine tract of virgin forest that has never had an axe in it; plenty of pines two and three feet on the stump.

MANITOBA AND BRITISH COLUMBIA.

In Winnipeg and Manitoba generally the demand for building stock is active. Judge Richards, of Winnipeg, has been commissioned by the Dominion Government to inquire into the charge that lumber dealers have formed a combine as alleged by the Hon. Thos. Greenway. The work of the commission will begin at once. The talk of the new railway from Quebec to Winnipeg, north of the C.P.R., has created a demand for back limits above the height of land.

On the Pacific coast conditions are very peculiar. One large company closed down temporarily the other day from inability to secure enough white labor. The management sought to fill the gap with Chinese labor, but the white workers then threatened to go out and the people showed themselves hostile to the Mongolian. The lumber company is now seeking white labor. As a result of the strike in the local mills it is reported by telegraph that the Vancouver mill men decided to refuse to fillt the local orders for lumber. Shipments by rail and water to outside points will be made as usual, hut no lumber will be supplied for local work until the strike is settled. It is also reported that a meeting of the British Columbia Lumbermen's Association will be held this week to consider the advisability of shutting down all logging camps for a period to be agreed upon. This is said to be the result of the unsatisfactory condition of the log market. The General Manager of the C. P. R. reports great evidence of thrift and prosperity in British Columbia, particularly in the shipment of lumber to the Orient, to Eastern Canada and to the United States.

There is a rumor that all the large Puget Sound red cedar shingle mills would shut down for a while as trade is reported dull. A prominent coast timber man reports that logs cannot be sold in Vancouver at any price. He claims there is an over stocking in the market and that logs are more plentiful than they have been for years. Logs have recently been sold for a third off the usual price.

Americans have been purchasing limits on Vanuouver Island on a gigantic scale. Nine hundred million feet have been purchased on the Nanaimo river, French Creek, and Alberni district for a San Francisco Company. This syndicate has a capital of $100,000,000 and have half a dozen large saw mills in operation in the various coast cities which have been unable to meet foreign demands. The price paid for these lands range from $5 to $50 an acre, according to location and quality. Several thousand acres have been acquir-

ed on Gabriola Island, where a saw mill will be built immediately. The Americans are, apparently, corralling all the available timber in this vicinity. The Syndicate above referred to, will put in several portable mills with a cutting capacity of 25,000 or 30,000 feet per day. A large force of men will commence logging operations on the first of August. A large saw mill capable of turning out 350,000 feet of lumber per day will be built at Nanaimo. This mill will employ 500 men. The syndicate expect to have everything in full swing by the first of September and claim to have enough timber already bought to operate the mills continuously for twenty years.

It is also stated that the E. K. Wood Lumber Company, of Puget Sound, has purchased a vast tract of timber on Vancouver Island in the Nanaimo district, containing 350,000 feet of fir. All this will affect market conditions.

UNITED STATES.

Latest reports from the white pine manufacturers show that there has been little change in the situation as regards demand and prices. On the whole the market remains firm and it appears to be in good condition. Those operating in the north note a little better demand from the east, caused by the winding up of labor difficulties. Many of the strikes having been settled there will be a material increase in the call for lumber. The future prospects of pine are good. Crop conditions show an improvement each week. Prices have not shown the weakening predicted by heavy buyers. There is no surplus of pine in the country. Many items of dry lumber are still hard to pick up.

An immense sale of 30,000,000 feet at a little over $25 is reported from the Lake Superior district. A number of good sized sales have also recently been made at good prices at various points along the lake. The situation along the lakes at present is strong. Buyers are more numerous and the outlook more promising. Lumber is moving out as fast as it gets in shipping condition. Prices for water shipment have seldom been firmer than at this time. Low grade lumber has been strong, while high grade stuff at the going quotation has never wanted for buyers. In the summer prices are expected to sag a little, but it is doubtful whether we shall see any falling off this season. Receipts of lumber at Chicago last week were only half that of the corresponding week a year ago.

In the Saginaw valley the white pine trade is moderately fair and prices continue strong. A dozen cargoes or more are being received each week, although much smaller than last year at this season. Shingles are quiet at this point. White pine is quoted at $3.25 and $4,25. Extra A cedar $2.75 and clear butts $2.20.

A log famine that threatened the Penobscot saw mills has been temporarily relieved by the recent rains. Without more rain there will be dull times along the Penobscot. Some of the mills are fairly supplied, others scantily, while some have no logs at all and are shut down.

Around Buffalo the white pine market continues active. Many dealers report an advance in the volume of business transacted last month. Shipments by rail and canal are brisk. Dealers who have usually small stocks are dropping shingles, and those who have made this a specialty are carrying light stocks until the prices are steadier. The supply is running down, and there is no revival in the prices of red cedars. Until there shall be, there will be no use of cutting white pine or white cedar shingles. Red cedars usually undersell everything else.

Hemlock continues to be the most active lumber and the supply is short of the demand.

There is little to say as to hardwoods, and there is an anticipation of lower prices. The present business is rather small, but it has had no effect on prices so far.

Oak is in about the former scant supply. Maple is not to be had in sufficient quantities and some are resawing thick maple to piece out. Elm is going out faster than it is coming in and there is less black ash than there ought to be.

GREAT BRITAIN.

This market is without change. Buyers show no anxiety about filling up their requirements and are buying with caution. The general trade of the country is far from being brisk. Trade is after all fairly sound but profits are close. Prices are being cut down in order to secure business. There is anticipation of a good autumn demand. At Churchill & Sims sale the Canadian goods in the catalogue are chiefly red pine deals and board sizes, with a sprinkling of spruce. The London market is well supplied and no more is needed at present. The demand for pitch pine timber is rather quiet.

STOCKS AND PRICES.

J. D. Wilson's saw mill at Eau Claire, Ont., is again running after a winter's successful cutting on Booth's limits.

The Goderich Lumber Company received a schooner load of shingles from Pike Bay and Pleasant Harbor. They are making extensive shipments of cedar posts.

It is said that Edward Murchie, of James Murchie & Sons, Fredericton, N. B., is negotiating for the Victoria mill, for the present season, for the purpose of sawing lumber on a large scale.

Over 90 loads of fine birch timber arrived by rail at Quebec for Mr. H. Kennedy. It has been dumped into the river, rafted and towed to Indian Cove, where it will be shipped on the outward bound steamships.

The Victoria Lumber Company are extending their logging railroad two miles to tap some good timber lands behind the north shoulder of Mount Brenton, B. C. This new field will be in operation next month.

The South River Lumber Company started their new mill on Tuesday last, one of the largest in Canada. It has two double cutting band saws and two large gang saws. They expect to cut 25,000,000 feet this season.

The steamer Aquila is loading deals at Hochelaga for Messrs. R. Reford & Company. The steamer Sticklested will take on a cargo of deals at Bay Verte for the United Kingdom. The ship Hydra sailed for Antofagasta, Chile, with a cargo of 580,000 feet of lumber The steamer Daventry is loading deals at St. John, N. B., for the United Kingdom.

Under date of June 20th, Messrs. S. P. Musson, Son & Company say of the Barbados market: "There have been no arrivals of any description, nor can we advise much change in the market. The demand for spruce is virtually over, but a cargo of white pine would we think bring $26 for shipping, and $20 or over for second quality. Shingles—no receipts of any kind; cedar laying are wanted, stock being very small. Gaspe long cedar should do fairly well, and we would value good quality at about $4.50."

Messrs. Clairmonte, Man & Company, of Barbados, quote white pine at last sale $27.10, spruce $18.50. There have been no arrivals for two weeks and the Barbados white pine market is bare. They value a cargo at $26.50 locally. Spruce—Last sales $18.50 for first, $15.50 for second quality. One hundred thousand small shingles from St. John, N. B., sold at $3.33 per thousand, good large size are worth $4.50 to $5 per thousand. Cedar laying are worth $2 to $2.20 per thousand, spruce laying worth $1.60 to $1.65 per thousand.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

THE OUTLOOK.

J. R. Booth's drives off the Pettawawa, consisting of 50,000 logs, is now being boomed at the mouth of the river. The last drive that passed out of the Coulonge river, belonged to the McLaren firm.

The drive of logs on the Black river moved into the Ottawa river on Monday. These logs belong to the McLaughlin Bros., of Arnprior.

The sweepers are at work on the Deep river at present, and expect to work down as far as the head of the Calumet this week.

The square timber is moving along the different streams at a good pace.

J. R. Booth's first raft from Mattawa has reached the lower Ottawa.

The water on the Pettawawa rose 22 inches in the recent rain, and on the main Ottawa the water rose 8 inches.

Messrs. McLachlin Bros. have decided to boom one of their Bonnechere river drives of sawlogs in Mud Lake. It will not be taken to their Arnprior mill this season.

In New Brunswick the drives were reported to be making rather slow progress on account of the low state of the water. The main corporation drive at Newburg, consisting of 6,000,000 feet, was covering both shores and the sand bars between that place and Meductic. A crew of men were at Grand Falls, N.B., with 1,000,000 feet of logs stranded in the "Coffee mill." There are no logs coming over Grand Falls and only a few are hung up between the Falls and Newburg.

Reports from St. John state that logs are a scarce article aronnd Bangor, and specially is this true of the spruce lumber, which is the best and most used in these mills. Two of these mills, Sterns' and Sargents', the Sargent Lumber Company, the first at East Hampden and the latter in South Brewer, have already stopped running from lack of logs to saw. Other mills are not sawing their full capacity. Ayer's mill, of the Eastern Manufacturing Company's mill, is the only one which has enough spruce to run all of its saws. It is said that this firm has enough logs to last until August. Walker's mill at Orono, James Walker & Co., being the firm name, is running one band saw on spuce, and Lowell & Engell are cutting as much pine as they are spruce.

The reports state that what logs there were in the booms would not last any where near the time of the arrival of the drives. Unless big rains continue, the mills will have to shut down about the middle of September until the middle of October. The Chamberlain lake logs cannot get into Grand lake without heavy rains. Reports state that they have water enough but there are too many logs there. After they have been sluiced into Grand Lake it would take big rains to get them down to the east branch and into the boom.

Thus far there have arrived in the Penobscot boom 31,000,000 feet of new logs, of which 19,000,000 feet were from the Main river and the lower end of the Piscataquis and Mattawankeag rivers. In addition to this there were about 3,500,000 feet of the old logs in the boom. All these logs have been rafted out, with the exception of the last drive, which the crew is now working on.

the Penobscot river is estimated at about 82,000,000 feet.

Reports from the lumber firms of the Ottawa valley tend to show that all the logs and square timber manufactured during the season of 1902-03 will be handled satisfactorily this summer. The past fortnight's rains filled up the smaller creeks and any danger of the timber being hung up has been removed. Most of the stock has already reached the main streams. It will be two or three weeks, however, before the first of the season's logs reach the mills. The Hawkesbury Lumber Company's drive of logs off the Dumoine river came out on to the main stream a few days ago and the Pettawawa drive belonging to the same firm is well on its way.

The Booth-Eddy Hawkesbury upper Dumoine logs from all reports will stay in Robinson lake till next year. The timber drives are also well on their way. E. D. Moore's timber drive passed Dumoine bridge on Saturday. Mr. J. R. Booth's rafts from his Mackey limit are well down the river. The steady movement of logs is important inasmuch as it will insure an early supply for the mills, all of which are rapidly manufacturing all the logs left over from last year. There does not appear to be any danger of any of the mills having to close down this season on account of scarcity of logs.

CANADIAN LUMBER SHIPMENTS.

TIMBER LIMIT TRANSACTIONS.

A transaction representing upwards of $1,000,000 has been finally consumated within the past few days. Mr. John Waldie, of the Victoria Harbor Lumber Company, Toronto, having purchased from Messrs. C. K. Eddy & Sons, of Saginaw, the timber berths known as Townships 68, 75, and 83 on Lake Penage, on the north shore of Lake Huron. The berths comprise an area of 83 square miles of virgin timber, said to be the finest block on the north shore, being easily lumbered and possessing special features of value. The sale was negotiated by Mr. Peter Ryan, of Toronto. The deal is one of the most important that has taken place for some time, and is further evidence of Mr. Waldie's appreciations of the value of standing pine.

Mr. J. J. Hartt has bought the new saw mill recently erected by Mr. Jesse Cook, of the Zephyr, together with the stock, limits and equipment. Included in the purchase was 400 acres of timber land.

The Sherbrooke Lumber Company, with a capital of $2,000, has been organized. Among the promoters are H. M. Price, Quebec; O. C. Morrissette, Megantic; B. Quinn, Windsor Mills; E. W. Tobin, M.P., Bromptonville; P. S. G. McKenzie, M. L. A., of Richmond, and Dr. Pelletier, M. L. A., of Sherbrooke. They own about 500 square miles of timber limits in the province, situated in Gaspesia, Port Neuf, St. Maurice, Rimouski, River Metapedia and the Upper Ottawa. Operations will be begun just as soon as the company have obtained their charter. Saw mills and pulp mills will be erected at the most convenient places for the shipment of lumber to the United States and the European market.

Tenders are asked untill August 15th for a berth of 50 square miles of timber on the Swan river, Saskatchewan territory.

Dr. Gaboury, of Portage du Fort, has sold his valuable timber limits to Mackay Bros., Renfrew.

A new lumber company is to operate in the north of Labrador, near Grand river. William Rand, of Canning, N.S.; and S. P. Benjamin, of Wolfville, N.S., are connected with this company. They have secured a tract of 126 square miles of timber land.

There is a talk of forming a company to build a narrow guage railroad into the saw mills and timber limits east of Novar, Ont. There is a large amount of timber and tanbark in that section, more or less of which is being destroyed by fire yearly which could be made available and bring revenue to the country if there was any road or way to get it out, and by running a train or railway around the lakes and across the lowlands stretching some eight miles into that section of country, the whole could be brought into market and the road conld be extended from year to year as required and would give the settlers a market for their wood, logs and tan bark at their own doors.

W. J. Scott, of Springhill, N.S., intends going south to secure some hard pine timber limits in Georgia and North Carolina, in the interest of Canadian parties.

The act of incorporation for the Columbia River Improvement Company, Limited, was granted at Ottawa. The promoters are James White, George McCormick, D. Inglis Grant, all of Orillia; A. Alexander and C. W. MacMillan and Thomas Meredith, of Winnipeg. The capital stock is $50,000, head office at Winnipeg. The company is given power to place booms in Upper Arrow Lake and on the shores of the Columbia River where it enters the lake, and to construct incidental works so long as navigation is not interfered with. The use of the works is to be allowed to the public at all reasonable times on reasonable terms. The act prescribes the rate of toll which shall be charged on different kinds of timber.

Mr. John Murray, Forest Ranger for Vancouver Island, B. C, has been commissioned to make a survey of the timbered country, lying between Quatsino Sound, and the east coast of Vancouver Island. It is said that the purpose of the survey is to determine the exact nature of the forest growth in this section of the Province, in order to settle some points which have arisen as to the delimitation of pulp limits, and the adaptibility of the wood for that industry.

The China Creek Lumber Company, Limited, has been incorporated with a capital of $30,000. The time limit of the company is fifty years.

The Port Renfrew Lumber Company, Limited, has been organized in British Columbia, with a capital of $10,000.

The B. C. Lands and Works Department gives notice that the Order-in-Council, dated March 26th, 1903, making a regulation for the survey of timber limits before the issue of special licences to cut and remove timber from Crown lands, has been rescinded.

Mr. Jenkins, of Minneapolis has purchased the saw mills at Sidney, B. C., together with $100,000 worth of timber limits. It is said he intends to make some move toward opening up the Ross-McLaren mill.

Timber which was being unloaded from C. N. R. cars at Port Arthur was placed under an order of replevin by Bailiff Connors, who is acting for the Brachus Brooks Co., Minnesota. The company complains that a portion of the timber amounting to some 25,000 feet, was cut off their lands, and they are putting a restraint on the timber until the case is settled. They ask $1,000 damages. The defendants in the case are Messrs. Steel, Bates and Cameron, of Duluth.

FIRES.

J. A. Seaman, of Downey's Cove, lost all his green timber and house by fire.

Andre Valinis saw-mill at L'Annonciation, Que., has been burned down.

A man named Miles has been arrested for setting fire to Tait & Turnbull's lumber camp, near Huntsville.

Albert Hayden's lumber plant at Woodstock, N. B., was burned last week causing s loss of $30,000.

At Shulee, N. S., Robinson, Wright & Co., have lost six thousand acres of forest by fires. E. J. White, of Sand River, and the Shulee Lumber Co., also had large tracts burnt up.

Murray & Gregory's big saw-mill at St. John, N. B, together with over two million feet of lumber, and a house and barn near the mill were destroyed by fire on July 4th. The mill is said to be insured, but the loss will be quite heavy, and a large number of men will be thrown out of employment.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. IX. TORONTO, CANADA, JULY 15, 1903 No. 24

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED, TO BUY POSTS 30 FT. AND UP. M. BRENNAN & SONS MFG CO., Hamilton, Ont.

WANTED—1" COMMON BIRCH; 3" TAMARAC 14' and 16'. All kinds and grades of Hardwood. Address Box 37, care CANADA LUMBERMAN.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

HARDWOOD LUMBER WANTED

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.
One 10" x 18" Engine.
One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)

We have for sale and ready for shipment, One Thousand Cedar Telephone Poles, in all lengths from 40 to 60 ft. Prices given by mail or wire for car lots f. o. b. this station, or delivered at points required. GEORGE & MCGREGOR, Killaloe Station, Ont.

Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

LATH FOR SALE, ABOUT 150 M. KNIGHT Bros. Company, Burks Falls, Ont.

WANTED — SECOND HAND BAND SAW with removable re-saw attachment. THE WATEROUS ENGINE WORKS CO., Brantford.

FOR SALE—TWO TO THREE MILLION feet 3x3 and 3x4 Scantling, 12 to 16 feet. Address in first instance SCANTLING, care of CANADA LUMBERMAN.

FOR SALE — TWO GOOD SECOND-HAND Horizontal Tubular Boilers, one 25 H. P., one 35 H. P. For particulars address: MACHINERY EXCHANGE, 22-24 Victoria Square, Montreal, Quebec.

MAPLE WANTED.

WE WILL BUY 1½" AND 2" COMMON AND Better Hard Maple in any quantity. Write us. GOLD MEDAL FURNITURE M'F'G. CO., Limited, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market is unchanged. The dealers report export trade good. The demand for shingles is slack, and the market is overstocked. Large quantities of B. C. shingles were brought in at a very low rate during December and January which killed local production, the prices then ruling being very low. Many dealers state that hemlock cannot be brought in at the prices quoted and a profit made thereon.

Heavy shipments from the Georgian Bay are being made to all United States points. The second cargo of lumber ever brought to the Menominee river from Canada was unloaded at Marinette, Wis., last week. The sawmill of the Algoma Commercial Co., at Sault Ste. Marie, Ont., has just cleaned up all of its cut of the past six months or more, at an average price of $22 a thousand, mill run, buyer to pay the duty. This lumber goes to Buffalo and is being shipped.

The imports of lumber from Canada to Great Britain are increasing. The export for the past six months as given by the British Board of Trade shows an increase in hewn wood of $50,000 and a decease in sawn wood of $35,000.

In the Ottawa district the Chaudiere slides are going full blast, immense ratts of timber being floated down in cribs. Several ratts have already past through this year. There is no trouble this year in putting the timber through the slides, owing to the improvements made and the high water. Practically all of the log drives have been moved off the Dumoine, Coulonge, Black and Gatineau rivers. It is estimated there were fully 50 per cent. more logs taken off the Coulonge this season than last. This increase is accounted for in part by the fact that all the logs hung up last year were sent through safely this season. On some of the streams the rise of water was four feet, owing to the heavy rains.

QUEBEC AND NEW BRUNSWICK.

Prices remain about stationary in Quebec. The Canadian railroads authorize the announcement that they are again shipping Canadian rossed and shaved pulp wood to the United States. They say that, pressure having been brought to bear upon the United States Treasury Department, the special duty of 35 per cent. on Canadian pulp wood has been withdrawn and they are now accepting shipments of this product as heretofore.

Some heavy sales of lumber as well as timber limits have been made to Americans. A New York syndicate has purchased a tract of 54 miles in the Lake St. John district where they intend to spend considerable money in the development of the property and the manufacture of lumber for the European market.

In Nova Scotia the reports of the great forest fires have been followed by reports of rain and good crop. This has had the effect of causing a better condition in the lumber market. In Cumberland alone the lumbermen have lost nearly half a million dollars. Among the areas burned are: At River Hebert 15,000 acres of J. Newton Pugsley, and large tracts of Christie Brothers, and S. B. Kelly. At Newville, 6000 acres of the Newville Lumber Co. 2000 acres of the Fox River Lumber Co. At Sand River, 7000 acres of E. I. White & Son; and at Shulee a large area. Large gangs of men were engaged for weeks in endeavoring to check the fires, and in many cases they met with considerable success.

From New Brunswick it is reported that the lumber market is about stationary. Ocean deal freights are still very low, 35 shillings being the rate hence to west coast of England. Several steamers have left St. John and a number of others about ready to proceed with full cargoes. The Gibson Company have shipped ten schooner loads to the American market and large lots by rail, besides some immense deal shipments to the old country.

It is said that about 35,000,000 feet of logs are still "hung up" above Grand Falls on the St. John river, as the rains have not been heavy enough to bring them out. In St. John county the loss to standing timber by forest fires has been heavy. At one place a thousand acres were burned over, and while the timber that is large enough can be cut and manufactured, the young growth is ruined for years to come.

MANITOBA AND BRITISH COLUMBIA.

The lumber industry in Manitoba is in a very flourishing condition. The total output of Winnipeg saw mills will be over 10,000,000 feet. Several new mills are going up in the Province. Building operations continue very brisk and the demand for lumber of all kinds is still large.

At the coast stocks are moving actively. The class of lumber most in demand at the present time is clear fir, flooring and siding, spruce and cedar siding, also fir timber. Shingles are slow, while all other lines are active. Dealers report mixed carload orders arriving daily. Stocks of lumber are low, but shingles are heavily stocked at all points on the B. C. coast. No heavy stocks of lumber are held. Prices are likely to remain steady. As previously announced the various saw mills in Vancouver, B. C., and vicinity have determined to make no sales of lumber to local contractors or builders until further notice, because of the carpenters strike. As a result all work has been stopped on building requiring lumber. The mills will be run as usual, but no lumber is supplied locally. Rail and boat shipments still continue. That is the programme adopted by the mill men. Three months ago logs were scarce and were selling at $7 and $8 a thousand, now they are being offered for $4 and there is no demand at that figure. It is estimated that there are 5,000 loggers working on the coast close to Vancouver. The daily output of the woods at the present time is 5,000,000 feet, with the result that there is an over-production, as the capacity of the mills is one-third less.

Some big deals in timber have been made. One million dollars in cash has been paid to the Dunsmuir estate for 50,000 acres of timber land and it is reported that another large milling plant on the island is under option to an American syndicate.

The request of the loggers of the coast, represented by the B. C. Lumbermen's Association, for permission from the Provincial Government to export logs to the American side was laid before Premier McBride. It was explained to him that on account of not being able to dispose of their logs to local mills, the loggers desired to export, and sought to have the law prohibiting export annulled for a period of six months.

Hon. Mr. McBride informed the deputation that if its desires were placed in a petition the matter would receive earnest consideration. In accordance a petition has been prepared and presented to the government, a reply to which is soon expected.

The loggers at the coast have decided to close down all the camps for forty-five days after August 1st, to provide for a recovery of the now over-crowded market.

UNITED STATES.

There has been some change in market conditions during the past week. Crop conditions having shown an improvement, and the strikes having about died out, the outlook for the lumber trade is brighter. Prices are steady at about former level, although a number of items are somewhat stronger. Building statistics show a very heavy demand for building material. The second half of the year opened up with a better feeling all around. Shipments have been fully up to the average. Wholesalers of white pine state the demand will absorb practically all the available stock. There is a general feeling of security on the part of those who are handling white pine. At some points trouble is anticipated in keeping full crews of loggers at work. Improvement is noted in the shingle market, although all the coast mills have been shut down, and will continue closed for some time.

North Dakota and Manitoba are calling for large supplies of white pine. In upper Minnesota dimension is extremely scarce. Lumbermen have had to contend with severe strikes in the east, floods in the south and south-west, and drouth in more northern territory, in addition to combined efforts of line yard buyers to break the market. Despite this the market today is in excellent shape.

There is a lull in the hardwood market. Offerings of stock are more numerous than a month ago. Basswood supplies have grown larger and the same can be said of oak, but it is doubtful if the production of poplar, quartered oak and a few other items will be sufficient for the trade this season. Buffalo reports a scarcity of maple and they are trying to fill the deficiency with birch. Prices have seen little or no change. Eastern hemlock continues in great demand and has gone up a point.

Receipts of lumber during last month were large at lake ports. There was received at Bay City 15,599,855 feet and at Saginaw 6,221,305 feet, making a total of 21,821,160 feet for June. The May receipts were 14,148,657 feet.

The Wisconsin valley shipped out a larger amount of lumber than during any previous month with one exception, which shows that the demand for lumber in that section is strong.

The conditions in the wholesale market are good. The demand for lumber in the manufacturing trade such as vehicles, box, furniture, etc., is very active. The heavy forest fires in the north have curtailed operations somewhat at producing sources. The spruce market continues very firm.

GREAT BRITAIN.

In the Liverpool market Canadian wood—waney board and square pine—have gone fairly well into consumption and prices remain very firm. Waney pine has arrived freely, values rule high and stocks are moderate. Square timber—the demand is limited; the deliveries have been disappointing and the stock chiefly of lower grade. Of red pine there has been a moderate import; the demand is limited and price is firm with a light stock. Oak has been in good request at full values. Elm is in good demand and the import consists chiefly of first-class rock elm. In ash the demand is dull. In New Brunswick and Nova Scotia spruce deals the import has been large, with a good demand. Pine deals are only in limited demand.

At Glasgow there have been no outstanding features of interest. The import season from the St. Lawrence has opened and deals from Montreal have arrived to an average extent. The import of spruce has kept well up. Prices of pine and spruce are firm, with a rising tendency. The demand for red pine is not extensive. Rock elm is low in stock, but there is an abundance of soft elm.

There seems to be a feeling that prices have reached the highest point, with the result that buyers are naturally inclined to operate with caution. The building trades throughout the United Kingdom are displaying greater activity. The imports so far have been chiefly on contract. Rolling stock manufacturers are prosperous, but the cabinet trade remains in a depressed condition.

STOCKS AND PRICES.

The schooner Baden Powell is loading laths at Musquodoboit for New York.

Schooner Prosperare is loading lumber at Jacksonville, N. B,, for Port of Spain.

Steamer Castleventry arrived in St. John, N. B., from Philadelphia to load deals for George McKean.

The steamer Manchester Importer will take on 300 tons of pulp and 600 standards of deals at St. John, N.B., for Manchester.

The steamer City of Belfast sailed from Montreal this week for Bathurst, where she will load a cargo of deals for the United Kingdom.

The ship Sardhana sailed from Baltimore, Md., last week for Montreal, where she will load a cargo of lumber for Adelaide, South Australia.

The Spanish brigantine Sansat, from Havana, arrived in St. John last week, and will load lumber at the Cushing mills for the Canary Islands.

The Norwegian barque Henriette, from Christiansand for Cape Tormentine, N.B., to load lumber, is ashore on Indian Rock, on the Prince Edward Island coast,

The Battle liner Pharsalia sailed from St. John, N. B., with a cargo of deals for Liverpool and Cork. The schooner Wanola is loading laths at Halifax for Philadelphia.

The steames Cyril is loading deals at St. John, N. B , for the United Kingdom. The steamer Moeris sailed from Quebec, Que., for Liverpool, with a cargo of timber and deals.

Steamers Daventry and Mantinea sailed from St. John last week for Manchester and Brow Head with a cargo of lumber and deals. The schooner Viola which arrived in Halifax last week, will proceed to Miramichi to load laths for New York.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to July 7th as furnished by the Supervisor of Cullers:—

	1901	1902	1903
Waney White Pine	537,254	1,286,662	611,480
White Pine	224,918	257,197	80,600
Red Pine	24,007	45,231	40
Oak	206,323	334,071	380,640
Elm	488,327	447,046	216,000
Ash	91,649	46,931	34,160
Basswood	332	.....	.....
Butternut	642	.....	.....
Tamarac	22	.....	.....
Birch and Maple	295,641	83,,10	132,840

Messrs. Hackett & Sons have sold one of their tugs, the St. Roch, to Mr. George Leprohon, of Three Rivers, who will use her for the purpose of towing logs. Messrs. Hackett have purchased another tug and will put her in commission to replace the St. Roch.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar cares to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

THE BOSTON MARKET.

The situation in spruce lumber shows very little change. The settlement of the labor troubles in Boston has relieved the situation somewhat, as far as new arrivals are concerned, but the demand is very quiet. Prices hold steady: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17 to $18.

The market for hemlock lumber is quiet but steady: Boards, 12, 14 and 16 feet stock, $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Hard pine lumber is very quiet, though prices are very firmly held especially for large sizes. The southern mills will accept orders, but will not guarantee early delivery. The quotations are: Large building orders, to arrive, $28 to $32; for immediate delivery, from the yards, $30 to $35, according to schedule; floorings, from the yard, heart face, $26 to $32; best rift from the yard, $50 to $60, according to quality; stepping, $45 to $48; sap and seconds, $35 to $38; kiln dried, all rail, best quality, $40 to $44; sap, $29 to $33.

The arrivals of lumber by sea, for the week were two cargoes from the south, with 1,409,703 feet, and two cargoes from the provinces with 237,083 feet lumber.

There is a firm market for western pine lumber, though the demand is

LUMBER

We represent British Columbia firms; dimension, any size up to one hundred feet; for bridging or heavy buildings; finishing in cedar and fir; also shingles; we quote delivered prices to all points; Ontario lumber, lath and shingles; pine culls, hemlock joist, scantling, and boards, shingles, lath, large or small quantities. FUEL & LUMBER CO., 75 Victoria street, Toronto, Ont.

CANADIAN NORTHERN RAILWAY CO.

A complete and most modern through passenger train service between Port Arthur and Winnipeg will be established on July 12th, thus enabling Tourists on their way to and from the East to get a glimpse of the fertile Rainy River Valley.

This new train will make connections at Port Arthur with Steamers of the North-West Transportation Company and Canadian Pacific Railway.

A fast freight service can be depended upon from Port Arthur to all points West. Route shipments care of Canadian Northern Railway at Port Arthur.

Folder and Pocket Map of the Canadian Northern Railway will be sent upon application to

Laths are firm and unchanged: One and five-eighths in. $3.25 to $3.45; 1½-in. $3.10 to $3.25.

NOTES.

Aubert & Gayne, saw mill, St. Giles, Que., have registered.

The assets of J. F. Moir's saw mill at St. Moise, Que., have been sold.

F.R.E.DeHart, Grand Coulee, N.W.T., advertise their business for sale.

Thos. A Cousins, dealer in pulp wood, etc., St. John's, Que., is dead.

The assets of T. Vallee, sash and door manufacturer, St. Thede, Que., are to be sold.

Coward & Sons sash and door factory at Fernie, B. C., is being removed to Elk River.

Taylor & McKenzie have started new works at Guelph, and will engage in the manufacture of wood-working machinery and tools.

Mr. S. Trethewey, of Harrison, is erecting a lumber and shingle mill near Port Haney.

The Wolvin Syndicate has purchased valuable timber limits about 150 miles square, at St. Ann des Monts.

R. Stewart has made a number of improvements in his planing mill, at Guelph, including a new engine and boiler.

J. B. Coates has decided to move the stave and hoop mill at Cowal to Dutton, and will enlarge the capacity of the mill.

J.G. Billings, Joseph and Peter Genelle, Nelson, B. C., have registered as proprietors of the Kootenay River Lumber Company.

The machinery is about to be installed in Theo. A. Burrows' new saw mill at Grand View. The logs are some fourteen miles up the river.

Approval is given for the change of name from the Fred Robinson Lumber Co., Limited, at Reverstoke, to that of Harbor Lumber Co., Limited.

H. L. Jenkins, of the H. L. Jenkins Lumber Co., Minneapolis, has been spending several weeks in Washington and British Columbia, where he is interested in lumbering.

The King Mercantile Co., of Cranbrook, B. C., is constructing a second sawmill on their limits, with a capacity of about 35,000 feet, giving a combined output for the two mills of 65,000 feet.

The Campbell & Ferguson Co., Ltd of Melita, Man., has been incorporated to take over the lumber and fuel business of Campbell & Ferguson at that place.

A new company has recently been formed, called "The Dartmouth Machine & Forge Co.," Dartmouth, N. S., manufacturers of sawmill machinery, etc. Their building is in course of erection.

G. H. Knowling, lumber dealer, Alameda, N.W.T., has sold out to the Imperial Elevator Company. Stewart Bros., of Rosenfeld, and C. A. Sankey, of Waskada, have sold out to the same company.

The Red Deer Lumber Company, of Red Deer Lake, Assiniboia, is erecting a mill which will be one of the best in western Canada. The Waterous Engine Works Company has the order for the machinery.

Two well-known Londoners, Messrs. J. Stevly and W. H. Braddon, have closed a deal for 6,000 acres of hickory timber land in northern Alabama, not far from Chattanooga, Tenn. There they will start a branch of the Columbia handle factory, which is located in London.

Advices from Port of Spain, Trinidad, up to 4th of July state: "Stocks of all descriptions are working down. Mixed cargoes of Canadian white pine and spruce would sell readily. The import duty is $2 per thousand feet. There has been no cargo arrival of lumber for a fortnight. Nova Scotia white pine boards, No. 2 quality, were placed at $19.25; Canada white pine boards, a lot was placed at $28.

The Canada Lumberman
TORONTO, ONT.

FIRES.

The planing mill and engine house of Vigars & Co., Port Arthur, has been burnt. Loss about $10,000. It was with difficulty that the saw mill and offices were saved. They will rebuild at once. The insurance was about $5,000.

The saw mill and shingle mill of Chas. Priddle, Hawkeston, Ont., was destroyed by fire last week. Nearly all the lumber, logs, shingles, ect., was burnt. There was no insurance.

The saw mill of G. P. Holton, Belleville, Ont., was burnt out on July 6. Loss $7,500; insurance $4,000.

Work on the new library building, Thousand Island Park, the gift of Mrs. E. R. Holden, New York, has been considerably delayed on account of the difficulty the contractor has had in getting chestnut lumber for finishing the interior.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, JULY 15, 1903 No. 24

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

HALIBURTON COUNTY

consisting of circular outfit, planer, matcher, moulder, shingle machine and grain crusher. The mill is running now; large amount of hardwood and other timber that can be bought cheap close to mill. My reason for selling: gone into more extensive business with mills at Coboconk. For all particulars apply to GEO. W. STEVENS, Boskung P. O.

CURRENT TRADE CONDITIONS.

ONTARIO.

Business in lumber cannot be called active, but there is a steady movement which augurs well for a healthy fall trade. Any uneasiness which has been exhibited has been confined to dealers in certain localities who purchased heavily early in the season and subsequently found their stocks rather large. This has been the case to a moderate extent in Toronto, where the lumber consumption has been restricted by the strike in the building trades. Now that this obstacle has been removed and building operations are again proceeding unimpeded, a large consumption of lumber may be expected. Work on many buildings was suspended during the strike, while other projects remained in an embryo state. Some of the latter will doubtless be commenced immediately, while others may be deferred until next spring.

Price lists issued by manufacturers show little change. For inch No. 1 cuts and better in white pine $50 at the mill is asked, and for 1½ inch $55. There is a good demand for box lumber. Ten-inch box and common is held at $16 for 10-foot lengths and $17 for 12 and 14-foot lengths. Mill culls are firm at $12.50 for 1 x 12 inch, 6 to 16 feet. In hemlock the call is chiefly for inch and dimension. Most of the mills quote $12.50 for 1 x 10 and 12-inch up to 16 feet in length, while $15 is asked for $22 feet.

Prices of white pine shingles have been shaded about ten cents per thousand, this being due to the weakness of red cedars. The production of the white pine variety is gradually diminishing, as there is very little money in manufacturing pine timber into shingles.

QUEBEC AND NEW BRUNSWICK.

The feeling in lumber circles throughout the Eastern Provinces is one of great confidence. It is believed that no difficulty will be found in disposing of the entire production of spruce lumber at remunerative prices. There is a distinctly better feeling in respect to British deals.

Information concerning the drives is of a more encouraging character. The St. John river has risen rapidly and logs are running freely. It is said that the river is full of logs for fifteen miles up from Fredericton. The main corporation drive is expected to reach the Douglas boom in about ten days. Present indication are that fewer logs will be hung up than was anticipated a month ago. The Fredericton Boom Company discontinued operations at the Mitchell boom last week, notwithstanding that several million feet of log are yet to be rafted. The action of the company has been severely criticized by lumbermen.

There is no material improvement in the cedar shingle market. Extras are still selling as low as $340 on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

There is a very active demand in Winnipeg for lumber, as building operations are on an extensive scale. It is estimated that the value of building work in that city this year will reach upwards of $5,000,000. The mills are taxed to their full capacity to supply the demand, although of late larger shipments have been received from British Columbia and the United States. Dimension timber has been advanced 50 cents per thousand.

The lumber situation in British Columbia

is still complicated. The over-production of logs has resulted in a drop in price of about $4 per thousand, and unless the Provincial Government should grant permission to the loggers to export some of the stock, there does not appear to be much probability of immediate relief. The proposal of the loggers is that they be allowed to export the logs now in the water up to 50,000,000 feet, or that they be given export privileges for a period of six months. As stated last week, the logging camps are to be closed down for a period of 45 days from August 1st next.

The shingle market is somewhat demoralized. The mills have large stocks on hand and are not experiencing a very active demand. One of the largest concerns is said to have become temporarily embarrassed on account of the over-production.

The Builders' Exchange of Vancouver have shown sympathy with the action of the mill men in refusing to sell lumber to the contractors, apparently believing that this action was in the best interests of the trade and likely to bring about a termination of the labor difficulties. The woodworkers have demanded a nine-hour day, and the mill men claim that they cannot grant such concession and compete in the lumber market of the North-West with the mills of the Lake of the Woods and the United States. As the general businsss of the city and district is being affected, it is thought that steps will be taken to bring about an early settlement.

UNITED STATES.

The strike in the building trades in New York City having been settled, it is expected that considerable activity in the demand for lumber will follow. Already there has been an improvement in the situation. In the outlying districts the yards are busy, with some dealers actually rushed with business. Retail dealers are placing orders freely, as during the strike period they were averse to increasing their stock to any extent. The call for spruce is equal to the supply, with prices steady and some predictions of an advance. It will probably be found difficult, however, to put prices to a much higher basis without restricting the consumption. There is a better feeling in the pine trade, the scarcity of the lower grades having offset the tendency towards weakness shown by the upper grades. Box lumber is the best seller in the list and is held for high figures by most shippers.

The hardwood situation shows little change. Stock is still scarce, although the new cut is coming onto the market quite freely. Efforts to make an exceedingly large cut in the South-Western States were thwarted by floods, and it is doubtful if prices would decline materially even in the event of a curtailment in the demand, which at the present time seems very improbable. Maple is especially scarce, while black ash cannot be obtained in any quantity.

The shingle market is characterized by uncertainty. Owing to the over-supply, dealers do not know what price to ask for Pacific Coast red cedars. White cedar shingles of first quality range from $3.40 to $3.50 in the Eastern States. The lath market is firm on the basis of $3 for cargoes, New York delivery, while car quotations are $3.15 for 1½ inch and $3.30 for 1⅝ inch.

GREAT BRITAIN.

A few weeks ago British dealers were disposed to let go of their stocks on the belief that they would be able to replenish them at a lower price later in the season. In this respect there has been a change of opinion, as it is now generally admitted that materially lower prices this year for Canadian lumber are out of the question. Trade, however, is only moderately active, and should the business of the country become depressed, it would probably be reflected in lower prices for lumber for next year's delivery. White pine deals continue very strong, as the supply is small and no satisfactory substitute has yet been found. There is a surplus of the lower grades of some clases of lumber, but this is not the case in respect to white pine, the splendid demand in the United States having prevented heavy shipments to Great Britain. For a quantity of first quality broad pine deals $30 was recently obtained at a public sale, and as much as $32 is being asked for first quality c. i. f. London. Spruce prices are firm. Some box-makers who have been obtaining their supplies from the Baltic are turning their attention to Canadian spruce, owiug to the fact that the Baltic production has been advanced in price. Quebec waney timber is very scarce. Some dealers have been compelled to withhold quotations until they could learn more definitely as to the quantity likely to be shipped from this side.

The Board of Trade returns show that during the first six months of this year the quantity of hewn and sawn lumber imported into Great Britain was 3,314,285 loads, as compared with 2,914,246 loads for the same period in 1902. The import from Canada was about the same as last year.

STOCKS AND PRICES.

The barque Grenada sailed from Bear River, N. S., last week for Buenos Ayres, with a cargo of lumber.

Thomas Denton, of Saginaw, Mich., has finished shipping 100,000 cubic feet of square timber to England via Quebec.

T. Wallace, of North Bay, has completed the delivery of 225,000 ties required for 70 miles of the Temiskaming Railway.

The Shier Lumber Company, of Bracebridge, Ont., are loading their hardwood on scows and shipping via the Portage to Huntsville.

The schooner Laura C is loading deals at Three Rivers, Que., for the United Kingdom, on account of Dobell, Beckett & Company.

The Saginaw Lumber & Salt Company of Sandwich, Ont., is reported to have bought a raft of 4,000,000 feet of logs from the Edmund Hall Estate. It will be manufactured at Sarnia.

The Ontario Government is asking for tenders for the construction of superstructure of a bridge across the Winnipeg river at Rat Portage. It is understood that considerable timber will be required.

The Department of Interior at Ottawa wants tenders by August 12th for a license to cut timber on Berth No. 1078 on the west shore of Lake Winnipeg, in the Province of Manitoba, and comprising an area of two square miles.

The steamer Deremore is loading a cargo of deals at Chicoutimi, Que., for London. The steamer Aldernay took on a quantity of deals at Pierreville and will complete her cargo at Montreal. It is destined for London. The steamer Nordvoen loaded at Montreal and completed her cargo at Three Rivers en route to the United States.

The barque "Inverdrule" has loaded a cargo of deals in the Louise Basin, Quebec, for H. R. Goodday & Company. The "Manchester Engineer" and the "Hermes" are loading at Quebec for the same port on account of Goodday & Company. The "Hyrundo" is loading at Sillery Cove, for Dobell, Beckett & Company.

The quantity of Canadian white pine deals in the public docks at London on June 30th of this year was 766,000 pieces as compared with 919,000 pieces at same date last year. The stock of spruce deals was 616,000 pieces, as against 731,000 pieces last year. Oak, elm, ash and birch timber also show a decrease.

Messrs, Churchill & Sim, London, England, referring to Canadian lumber, say that prices for really good deals reach higher level, but always, of course, for small quantities. Oak and birch timber have been the best of the hardwoods, elm, ash and white pine timber being neglected. The import from the St. Lawrence up to June 30th was 381,000 pieces of pine deals, 230,000 feet of spruce deals and 15,000 pieces of birch planks, all showing a marked decrease as compared with the corresponding period of last year. From New Brunswick the import was 7,000 pieces pine deals, 250,000 pieces of spruce deals and 80,000 pieces of birch planks.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance, "c/o CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Inquiry goes to show that prices, while showing no advance, continue hrm. The fact that so much of the lumber was contracted for months ahead in big blocks is probably accountable for this. In conversation with several manufacturers and dealers it was learned that the LUMBERMAN quotations are about right. It is sometimes a difficult matter to get a line on prices on account of the great difference in grades and styles handled by the different mills to suit the wishes of individual customers.

The mills of the Ottawa district, and the Nipissing and Georgian Bay districts as well for that matter, are now shipping steadily on the present season's cut of white pine lumber. Present season's deals were first on their way to second hands some time ago. With the assurances that practically all their logs are clear of the streams running into the main rivers, the lumber operators are turning their attention more closely than ever to the work at the mills. The moderation of the industrial turmoil in New York City has cleared the way to some extent for the receipt of Ottawa district lumber, but the advent of vacation season has on the other hand given business in some quarters a set-back. Lots of lumber is being sent out of the Ottawa and district yards by both rail and water nevertheless. A shortage of cars for the American trade is complained of, though shipments to Canadian points are not interfered with.

It's the large men, however, who are getting in their fine licks on the lumber carrying business. It is not an uncommon sight to see a tow of from four to eight barges on the move bound for Montreal for export. Upwards of 2,500,000 feet of lumber has been seen in one of these flotillas. The Canadian barges carry about 300,000 feet apiece, but the American

barges, on account of low bridges and small canals, have to be content with from 120,000 to 150,000 feet each. This year's shipments by water are far in excess of those of last year.

An important sale of timber limits in the Nipissing district has just been completed. Messrs George Gordon & Company, of Pembroke, have purchased from Holland & Graves, of Bying Inlet, 36 square miles of timber limits situated on the Sturgeon river. The price was in the neighborhood of $200,000. The limit has a good stock of white pine on it, and will be worked during the coming season. On the face of it the price indicates a marked advance in timber values Other timber limit dickerings are under way.

This has certainly been a great year for square timber in the Ottawa river district. For several days last week, there was a steady procession of cribs through the Government slides at the Chaudiere Falls. Fraser & Company, Gillies Bros. and J.R. Booth all had big rafts on the river at the one time. The Booth raft contained 155 cribs, the Fraser raft 152, and the Gillies raft 40. The Fraser raft made a record run, doing the distance from the mouth of the Coulonge to Ottawa city, 125 miles, in ten working days. Besides this timber sent by river, the C.P.R. is handling fully 1,000,000 cubic feet of square timber. This includes the output of the Hull Lumber Company, Rideau Lumber Company, R. H. Klock and Robert Hurdman, taken off limits in the Kippewa and Temiscaminque districts. This timber is to be delivered into the Ottawa river at Papineauville, and from that point rafted down to Quebec city. Edward Moore will have a couple of big rafts down by river. All the logs, or pretty near all, are off the Dumoine, Black, Coulonge, Desert and Lievere rivers. On some of these streams and the Gatineau there are logs awaiting the sweepers, but their number is small compared to the grand total. Some of the firms, wearying during the long May drought of ever getting rain, called their river drivers off the small creeks. Now that the latter are running full, there are no men to move the logs, and the latter will remain up country until next season. The W. C. Edwards Company sent a gang of men back up the Black river, to release a big drive which was in this predicament.

It is estimated that half as many more logs were taken off the Coulonge this season as last. This does not mean that that many more logs were cut this season, for the logs floated down included many stranded from last season. J. R. Booth, Hawkesbury Lumber Company, Gilmour & Hughson, W. C. Edwards & Company, MacLaren Company, McLachlin Bros., Gillies Bros., and other Ottawa district firms of smaller calibre all got their logs down.

Mr. J. R. Booth has decided to extend his lumber railroad running from Egan Estate on the western division of the Canada Atlantic Railway into his limits. The road is now eight miles in length, but the advance of the log makers has made it necessary to extend it another five miles. This is the road over which Mr. Booth handles logs during the winter season.

Davidson & Thackray, whose planing mill and sash factory was destroyed by fire, have decided to build on an isolated site in the west end of the city. The new mill will be a one storey brick structure 200 x 400 feet.

Talking about the long life of well managed limits, it may be remarked that the raft of square timber moved down the river a few days ago by Fraser & Company, was taken off the limit on which over half a century ago the late Alexander Fraser started the lumbering operations that brought him his millions.

Fraser & Company's new mill at Deschenes, Quebec, above Ottawa, is being rapidly fitted up. It will be running in a few weeks time. There is nothing to touch it hereabouts.

Ottawa, July 20, 1903.

TIMBER LIMIT TRANSACTIONS.

George Gordon & Company, of Pembroke, Ont., are announced to have purchased from the Holland & Graves Lumber Company, of Bying Inlet, Ont., 36 miles of timber lands situated on the Sturgeon river, Nipissing district. The price paid was in the neighborhood of $200,000. Valuable white pine covers the limit, which will be operated during the coming winter.

Further particulars have come to hand concerning the extensive purchase of timber lands on Vancouver Island B.C., by an American syndicate. Messrs. C. H. Cobb, James Campbell, Rufus H. Smith, of Seattle, and Frank Bronell, of Everet, paid $1,000,000 in cash to the Dunsmuir Estate for fifty acres of timber limits on that island. It is said that the purchasers are to have a choice of any fifty acres of the 2,000,000 acres owned by the Dunsmuir Estate. One estimate places the quantity of timber on fifty acres of the property at 2,500,000,000 feet, although it is believed that this estimate will be found to be above the actual quantity. Most of the timber is fir and cedar and is said to be of fine quality.

LUMBER IN SOUTH AFRICA.

THE BOSTON MARKET.

There is a little better feeling at Boston in the market for spruce lumber, owing to a noticeable improvement in the demand. Prices are steady and unchanged: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 feet and up, $20.50; 1x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17 to $18.

Hemlock lumber is quiet and at unchanged prices: Boards, 12, 14 and 16 feet stock, $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is no change to note in western pine, the market being firm, though rather quiet: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to 97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Quartered oak and whitewood are in good demand, especially for the better grades, and prices are firm. Other woods are steady: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white map, $46; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $34 to $37.

Shingles are quiet and easy at the recent decline: Extra cedar, $3.40 to $3.50; clear, $2.90 to $3.00; second clear, $2.25 to $2.40; extra No. 1, $1.50 to $1.75; British Columbia red cedar, 16-in. five butts to 2-in., $3.50 to $3.60; 18-in. five butts to 2 in., $3.75; five butts to 2¼ in., $3.90.

Laths are firm and unchanged: One and five-eighths in. $3.15 to $3.35; 1½-in. $3.00 to $3.10.

Obi, for London, cargo deals, shipped by McLean, Kennedy & Co.

LUMBER FREIGHT RATES.

Detroit, Mich., July 8.—At a meeting of the Lumber Carriers' Association held here yesterday, the Great Lakes Towing company submitted a proposition that will, if carried into effect, place lumber tonnage on a more equitable footing than has heretofore existed. Instead of 20 per cent. discount from tariff rates at the end of the season allowed to other tonnage, the lumber carriers under the new agreement will get 30 per cent. except at the ports of Chicago and Tonawanda, where a 35 per cent. discount from the tariff rates will be granted to members of the association. The cash discount will be 40 per cent. instead of 5 per cent. as given other tonnage. A flat price of $5 is also made for taking lumber tow barges into locks at the Soo, thus doing away with the necessity of the steamer handling a long tow in the locks.

TORONTO, ONT.

FIRES.

The saw mill of Oram Wheeler at Barnston, Que., was destroyed by fire last week.

The saw and shingle mill at Brudenell, Ont., owned by James Costello was burned recently. It is understood that there was no insurance.

The large saw mill of Murray & Gregory at Marble Cove, near St. John, N. B., was totally destroyed by fire a few days ago, together with about 2,000,000 eet of sawn lumber and three small dwellings. The loss is over $50,000, with about $20,000 insurance.

News has been received by cable from Shanghai that the schooner Carrier Dove, which sailed from the Hastings mill, Vancouver, on April 20th, for Shanghai, with a cargo of 902,782 feet of lumber, drove ashore ten miles north of the mouth of the Yangtsze-kiang river a few days ago. It is not known whether the vessel will be a total loss.

WANTED

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, JULY 29, 1903 No. 25

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED, TO BUY POSTS 30 FT. AND UP. M. BRENNAN & SONS MFG. CO., Hamilton, Ont.

WANTED—BASSWOOD AND HARDWOOD barrel heading, 5/4 and 8/4 beech, 2" and thicker soft maple and wormy chestnut. R. E. KINSMAN, Hamilton.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

HARDWOOD LUMBER WANTED

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.
One 10" x 18" Engine.
One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)
One pair twin engines, 10x16.
One No.2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.
One set Trimmers, to trim 6 to 24 ft., chains, mandrils and saws.
Also a quantity of Shafting, 2" to 4" pulley, and steam and water pipe.
One 14' x 60" Boiler; one top saw slash table.
About one mile of telephone wire, and two 'phones. For particulars, apply to BOOTH & GORDON, Azilda, Ont.

FOR SALE, TWO CARS 1" IN. DRY OAK, 1st, 2nd and 3rd. CHAS. ASLEY, P. O. Box 43, Foxboro, Ont.

FOR SALE — SAWMILL AND LIMIT IN District of Parry Sound, situated on G. T. Ry. Mill 18 to 20 M feet day. Several million feet hemlock, hardwood, spruce, balsam & pine timber. For particulars apply to Box 106, CANADA LUMBERMAN.

FOR SALE.

Stocks of White & Red Pine Lumber and Lath at Cache Bay and Midland, Ont. Shipments by rail or water. Prices and stock lists gladly furnished. THE NIPISSING LUMBER CO., LIMITED, Hamilton, Ont.

WANTED — 800 CEDAR POSTS — EIGHT feet long, nine inches or more diameter; must be straight; quote price f. o. b. Apply H. WINNETT, the Queen's Hotel, Toronto.

Oak For Sale

FIVE CAR LOADS OF CHOICE LOG RUN Red Oak, one and two inch. Apply to MAITLAND, RIXON & CO., Owen Sound, Ont.

TELEPHONE POLES FOR SALE

We have for sale and ready for shipment, One Thousand Cedar Telephone Poles, in all lengths from 40 to 60 ft. Prices given by mail or wire for car lots f. o. b. this station, or delivered at points required. GEORGE & MCGREGOR, Killaloe Station, Ont.

Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

PINE LIMIT FOR SALE

13½ MILES ON PIGEON RIVER, THUNDER Bay. Limit lies on river bank 50 miles from Fort William. A splendid location for good saw mill. Dray haul will water bulk of timber. Owner quitting lumber business. Limit will be sold at a bargain. Box 790 CANADA LUMBERMAN, Toronto.

Tenders Wanted

for next winter's cut of one or two million feet of Hardwood sawed to order. Birch, Maple, Oak, Beech and Basswood, Balm Ash, and Soft Elm; also two million feet of Hemlock in logs, and one million Pine, White and Norway, Piling Poles and Posts, Shingle Blocks and Lath Timber; 100,000 R. R. Ties, and 5,000 cords Pulpwood on Georgian Bay, f. o. b. or over rail. Box 13, CANADA LUMBERMAN.

PACIFIC COAST LUMBER MANUFACTURING OPPORTUNITY

WE WANT A FIRST-CLASS PRACTICAL mill man with $50,000 to $100,000 cash to take an active interest and management of one of the largest and best mills on Pacific Coast near Vancouver, B. C. Mill ready to put in commission with a small expenditure. Entire output of mill (both rail and foreign) practically contracted at best market prices. A splendid opportunity to make big money. A connection with most reliable parties, who can finance the proposition fully to make it one of the best paying mills on the Coast. An exceptionally fine opportunity for the right man, who must be thoroughly competent to handle a mill with a capacity of 250,000 to 300,000 ft. in a ten hour cut. The best of references requested and will be given. If you mean business and have the cash, or can get it, answer this at once and full particulars will be furnished. Address "BRITISH COLUMBIA," care CANADA LUMBERMAN.

LATH FOR SALE, ABOUT 150 M. KNIGHT Bros. Company, Burks Falls, Ont.

FOR SALE—80 CORDS OF GREEN HEMlock bark. Intending purchaser will state highest cash price, measured f.o.b. cars, Wiarton, Ont A. P. EBERT, Wiarton.

FOR SALE — TWO GOOD SECOND-HAND Horizontal Tubular Boilers, one 25 H. P., one 35 H. P. For particulars address: MACHINERY EXCHANGE, 22-24 Victoria Square, Montreal, Quebec.

WANTED

GOOD CEDAR LUMBER FOR BOAT BUILDing, one inch thick or over, as we can use any thickness and also use all other kinds of lumber; would buy mixed cars. PETERBOROUGH CANOE COMPANY, Peterborough.

SAW MILL AND TIMBER

On Easy Terms.

A MODERN FAST SAW MILL AND FIVE million timber and further available supply in vicinity. A. E. WATTS, Brantford.

400 CEDAR TELEPHONE POLES, 25 FEET long, 5 inch top. Also 800 Cedar Telephone Poles in lengths from 25 to 50 feet, and a quantity of 10 x 10 and 12 x 12 Hemlock, 12 to 16 feet long. JOHN D. MCRAE, Eganville, Ont.

TIMBER BERTH FOR SALE

Area about 10 square miles, on Georgian Bay, between the mouths of the Muskoka River and Go Home River. The Berth is easy of access from Midland and Penetanguishene and particularly well situated for logging. Full particulars on application to

THE MUSKOKA MILL AND LUMBER COMPANY, Limited, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The month of July has afforded manufacturers a very acceptable opportunity to devote attention to the sawing end of their business and to lumber shipments. Trade has been good but not as brisk as during the spring season. It now shows signs of improving and optimistic opinions are expressed as to fall business. The person who sees in the near future a decline in lumber prices is a rare exception. The many advocates of a firm market point with much satisfaction to the large quantity of this season's production of both pine and hardwood lumber that has already passed out at first hands, much of it for export, and the demand does not yet seem to be satisfied. Offerings of white pine have been readily absorbed, and in addition considerable southern pine has been imported. There is a heavy call for box lumber. Ten inch box and common ranges from $16 to $17 and 12-inch from $19 to $20.

Hardwood lumber has been bought urgently all season. The conditions have been favorable to the buyer and are likely to continue so. So much of the hardwood production is consumed by local manufacturing industries that there is a very small quantity for export.

The shingle market is steady at the recent decline in prices. As country buildings become more nearly completed an increased demand may be looked for. At the present time the buying is by no means insignificant, the unfavorable feature being the heavy stock of red cedars. Upon the development of fall trade a firming up of prices may result. Manufacturers are asking $2.70 for XXXX pine shingles and $1.90 for XX.

QUEBEC AND NEW BRUNSWICK.

The strength of the spruce lumber market is well illustrated by the prices ruling for logs, which are probably the highest ever known. Twelve dollars per thousand was recently paid for one million feet of spruce logs located above Fredericton, and at the annual sale of unmarked logs, held last week, $13 was paid for spruce of an average quality. In order that the buyers may make a profit on the transaction it will be necessary to obtain about $17 for deals. This figure, however, is so near the present selling price in England that there is very little buying. Such shipments as are being made are to fulfil contracts made early in the season. The buyers of logs at these prices are, of course, not counting on a loss, and it would seem that they anticipate an advance in the price of spruce lumber. This anticipation is doubtless based on the shortage in the log supply. Recent rains have brought the main corporation drive on the St. John river into the boom at Fredericton, but they have not been sufficient to move the stranded logs above Grand Falls. Although there has been a rise in the river, the water is still four feet lower than when the drives were abandoned. The prospects of bringing out stranded logs in midsummer are never considered good, because the water falls very fast again after a rise.

MANITOBA AND BRITISH COLUMBIA.

Lumber continues to sell very readily throughout Manitoba and the Territories. Buildings under way are being pushed forward as rapidly as possible and are consuming a large quantity of lumber, but a slight falling off in the volume of new work is reported. Prices are steady. The situation in British Columbia has been improved by the abandonment of the strike inaugurated by the men employed in the mills and wood-working factories of Vancouver. Lumber is now being delivered throughout the city as usual, and

the mills are quite busy. For clear fir flooring and siding and spruce and cedar siding there is a steady call. Heavy fir timber is also in splendid demand. Stocks of lumber are low, but shingles are heavily stocked at all points on the B. C. coast. It is probable that the mills may decide upon a curtailment in the production of shingles until such time as the market recovers.

UNITED STATES.

General satisfaction is expressed with lumber market conditions in the United States. Trade during July has been typical of that month, being of a quiet character. During the past week, however, the demand has become more active and any weakness which developed early in the month has passed away. Those who hold large stocks of lumber are in no hurry to sell, for they believe that the fall will witness a heavy demand for all kinds of lumber. The New York labor difficulties having been finally adjusted, the outlook in that city is particularly bright. Plans were filed last week for 46 new buildings to be erected in the boroughs of Manhattan and the Bronx, at a cost exceeding $1,600,000. Cleveland dealers report that Norway lumber is showing decided strength, and white pine shop, which weakened early in the spring, is rapidly recovering. No. 1 common boards, 8 and 10 inch, which suffered from the substitution of yellow pine, are again in demand. Box lumber has been bought in large quantities and dry stock is very scarce; in fact, the call is generally for the lower grades of pine.

In the Albany list one or two grades have been marked down, as follows: No. 1 cuts, 1 to 2 inch, $55 to $57; No. 2 cuts, $35 to $45; 10 inch common, $20. In other grades and sizes advances have been made which offset these declines.

Hardwoods have even a better run than white pine. Boston reports a scarcity of thick maple, white ash and plain and quartered oak. Basswood is moving more actively, but there is still little dry stock available. The bulk of the visible supply of hardwoods is in the hands of a few large dealers. In Chicago $38 is asked for first and second basswood, although a few sales are being made below this figure. Buyers, however, will probably find that they will have to pay the price or use a substitute. Birch and elm are scarce in the Eastern States and sell readily. The base price of hemlock has not changed, that lumber being sought after as much as ever. Eastern dealers report heavy sales of the Pennuylvania product. Michigan stock is beginning to make its appearance in greater quantities at Tonawanda and Buffalo.

GREAT BRITAIN.

Advices from Great Britain in respect to lumber are of a more favorable character than for some time past. The market is more settled and importers and shippers are coming closer together on the question of price. Importers have changed their attitude somewhat and are now buying with more liberalty. There seems to be a general improvement on all sides. Building operations are more active and retail dealers are replenishing their stocks. The absence of shipments of lumber on consignment has been noticeable this year, tending to prevent an overstock. A report from West Hartlepool states that the scarcity of best quality pine deals is causing a number of inquiries, and prices are exceptionally strong and show no signs whatever of weakening. The spruce market has been strengthened by the return to that lumber of many merchants who purchased heavily of whitewood a short time ago because of the high prices demanded for spruce. They appear to be convinced that whitewood cannot supply the place of spruce in the box-making industry. Predictions have been made that deals will shortly bring £10 per standard. They have recently sold at £9 15s. Some firms have given instructions to their representatives to withdraw all previous quotations owing to the difficulty of obtaining supplies at a price which would leave a margin of profit.

STOCKS AND PRICES.

It is stated that log run basswood by lake from Michigan costs about $28 in Buffalo.

Sales of hemlock for water delivery are being made on the basis of $10.50 to $11 at the mill. Delivered in Chicago the price is $12.50.

Murray & Gregory, of St. John, N. B., who recently lost their fine saw mill by fire, have set up a portable mill capable of cutting about 30,000 feet per day.

Haines & Company, of Buffalo, have a single lot of about 3,000,000 dry pine lath ready to come down from the Lake Superior district as soon as a boat can be obtained.

Over 3,000,000 feet of logs reached Vancouver, B. C., about midnight on the 21st inst. The logs were divided into five tows, the largest belonging to the tug Pilot, which brought 1,250,000 feet from Toba Inlet.

The tug Roscebel reached Sarnia, Ont., on July 19th with a raft containing 8,000,000 feet of logs towed from Georgian Bay for the Cleveland-Sarnia Saw Mill Company. It is said to be the largest raft ever towed on Lake Huron.

The receipts of lumber at the Tonawandas by vessel during the third week of July were 13,000,000 feet, a gain of 4,000,000 feet over the previous week. Buffalo received by lake only 3,648,000 feet of lumber and 4,952,000 shingles.

Probably the largest carload of shingles ever received at St. Thomas, Ont., reached the lumber yards of J. M. Green & Son early in July. It contained 270,000 red cedar shingles, and was shipped from Vancouver, B. C., on June 10th, the freight amounting to over $300.

An improved market for cooperage stock is reported in Chicago. Pork barrels are selling at $1.15 to $1.20 for oak; $1.02½ to $1.05 for ash; tierce staves are quoted from $28 to $29; pork staves at $22 to $23; tierce hoops from $15 to $15.50.

No. 1, 2 and 3 white pine lath are quoted in North Tonawanda at $3.75, $3.25 and $2.50 respectively, and some dealers say they have secured an advance over these figures in certain instances. In Chicago No. 1 white pine lath are quoted at $3.50, No. 1 mixed at $3, and No. 2 at $2.75.

The United States Consul at St. John, N. B., furnishes the following statement of lumber exports from that port to the United States during the fiscal year ending June 30th, 1903: Lumber, value $113,307.04; laths, $211,118.83; piling, $9,695.30; shingles, $28,963; staves, $446.25; wood pulp, $253,402.61. The above exports comprised Canadian lumber exclusively. The export of the lumber product of main logs is given as follows: Lumber, $438,746.79; clapboards, $8,046.00; laths, $84,111.62; pickets, $223.63; shingles, $77,910.21; shooks, $1,008.00.

There is a slight stiffening of the shingle market at Buffalo, says the American Lumberman, on account of the good demand, but it looks as though it will take some time before the red cedar demoralization will cease, and until it shall there will be few others sold here, especially as it is taking redwoods so long to come through by rail. Dealers say that there is no accumulation of stock yet and possibly when it may become necessary to order more freely for the winter supply there will be a general firming up of the prices and the trouble will be over.

Fourteen cars of white pine arrived in Port Arthur, Ont., recently, over the line of the Canadian Northern Railway, destined for Glasgow, Scotland, to be used for ship-building. The pine, which had been squared, averaged 35 feet in length and 22 inches on the face. Some of the pieces were 50 feet long. The timber was put into the water, loaded on vessels and taken to Quebec, where it will be transshipped into one of the ocean liners. This is said to be the first material which has been shipped all the way from the head of the lakes to be used for the construction of ocean carriers.

The Barbados market is thus reviewed by S. P. Musson, Son & Company, under date of July 4th: "The only arrival to note is the "Foster Rice" with 40,000 feet shipping and 72,000 feet second quality white pine, which was placed at $27 and $21 respectively. Some of the dealers being almost, if not quite bare of stocks, a caago has been placed to arrive at $26 and $20 for shipping and second quality. No receipts of spruce, which is not wanted at present. Shingles — No receipts of Gaspe Long Cedar. The "Foster Rice" had a small lot of 16,000 Spruce Laying, which were sold at $2.24, and the "Orinoco" brought 100,000 Laying Cedar for importers' account."

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar cares to put in several machines to work broom handles we can take his outpnt. Write in first instance to Empire, care of CANADA LUMBEEMAN.

THE BOSTON MARKET.

Spruce lumber is quiet at Boston and yet the situation is strong. The cargo mills are getting their logs very slowly and some of the car mills have already shut down. New York prices are reported about $1 higher than Boston: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17 to $18.

Hemlock lumber is quiet and unchanged: Boards, 12, 14 and 16 feet stock, $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is firm and unchanged: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

There is a falling off in the demand for finishing hardwoods, but they are relatively doing better than other kinds: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $34 to $37.

Shingles are quiet: Extra cedar, $3.40 to $3.50; clear, $2.90 to $3; second clear, $2.25 to $2.40; extra No. 1, $1.50 to $1.75; British Columbia red cedar, 16-in. five butts to 2-in., $3.50 to $3.60; 18-in. five butts to 2 in., $3.75; five butts to 2¼ in., $3.90.

Laths are quiet and easier: One and five-eighths in. $3.10 to $3.20; 1½-in. $3.00 to $3.10.

HIGH PRICES FOR LOGS.

The annual sale of unmarked logs rafted by the Fredericton Boom Company this season took place at Fredericton, N. B., on July 22nd. Great interest was taken in the sale, as was evidenced by the large number of lumbermen present, among whom were W. H. Murray, A. H. Hilyard, Chas. Miller and Fred Miles, St. John; R. A. Estey, T. Lynch, Donald Fraser, jr., Robert Aitkin, John A. Morrison, John Kilburn, Jacob Hazleton and T. E. Babitt, of Fredericton; Wm. Hennebury, of the Fredericton Boom Company; George Perley, of Maugerville; Parker Glasier, M. P. P., of Lincoln, and others. Bidding was lively at times, and competition was keen, on account of the scarcity of lumber at present. Prices went a little above the average for the spruce lumber, which sold at the high figure of $13 per thousand.

The first lot for sale was 153 pieces of unmarked hemlock, 11,360 feet, and 7,620 feet of mixed, which was bid in by R. A. Estey, of Fredericton, for $4.50 per thousand. The next lot offered for sale was 1,860 pieces, containing 60,930 feet of unmarked and 6,510 feet of mixed cedar. There was some sharp bidding on this, but it was finally knocked down to Charles Miller, of St. John, at the figure of $10.25 per thousand.

One hundred and twenty-nine pieces of pine, containing 10,490 feet unmarked and 560 feet mixed, was bid in by G. A. Perley, of Maugerville, for $11.25 per thousand. The keenest competition was for the spruce logs, of which there were 5,903 pieces, containing 301,544 feet of marketable and 42,216 condemned, all unmarked, and 44,335 feet of mixed. After some sharp bidding the spruce was knocked down to Charles Miller, of St. John, who was bidding for John E. Moore, at the high figure of $13 per thousand.

CROWN TIMBER SALE.

There is to be an extensive sale of timber on Crown lands in New Ontario during the latter part of the summer or in the early autumn of this year. The rush of settlement and the consequent surveying of dozens of new townships has been invading the region of the forests, and in consequence the danger that sections of them will be wiped out by fire is great and is constantly increasing, although the fire ranging is as stringent as possible. It is therefore considered wiser policy to turn some of the exposed timber into a cash asset of the Province as speedily as possible. The locations of the townships and parcels of land off which the timber is to be sold will be announced by the Crown Lands Department as soon as possible, so that all intending buyers may have an ample opportunity of sizing up the properties for themselves.

INCREASED STUMPAGE DUES.

Hon. A. T. Dunn, Surveyor General of New Brunswick, has given notice to licensees of crown timber lands and others interested that he will on August 5th hold a conference of lumbermen and others at Fredericton, for the purpose of considering the advisability of increasing the stumpage on crown timber lands during the present season. The notice assigns as a reason for the increase, re-forestation, protection against fire, and the interest of the department and province. A large and representative attendance is asked for and the attendance of an expert on forestry is promised.

FIRES.

The saw and planing mill of Knechtel & Young, at Rosseau, Ont., was totally destroyed by fire on the 22nd inst. The only lumber destroyed was a small quantity inside the mill. The loss is about $2,000, partly covered by insurance. They will probably rebuild.

The lumber yard of George Wilson & Company, St. Catharines, Ont., was burned on July 26th, together with two sheds which contained a quantity of dressed lumber and interior work for building. The planing mill and box factory were saved. The loss is estimated at $35,000, largely covered by insurance.

TORONTO, ONT.

SHIPPING MATTERS.

The barque Abyssinia has been chartered to load lumber at Hastings mill, Vancouver, B. C., for South Africa.

The schooner E.C.Gates, from St. John, N. B., for Vineyard Haven, struck a gale and 200,000 laths were washed overboard and lost.

The schooner Eric has been chartered by W. A. Ward, of Victoria, B.C., to load mining props at that port for Santa Rosalia.

The following charters are reported: Steamer Eastry, Miramichi, N. B., to w.c. England, deals, 37s 6d; str. Nether Holme, Miramichi, N.B., to Newry, deals, 42s 6d; August loading; str. Vega, West Bay, N.S., to w. c. England, 36s 3d, 2s 6d extra if part cargo.

The lumber yard of T. H. Patrick, at Souris, Man., was burned last week. It contained 100,000 feet of lumber, 10,000 shingles and a large quantity of cord wood.

WANTED

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. IX. TORONTO, CANADA, AUGUST 5, 1903 No. 27

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

FOR SALE, TWO CARS 1" IN. DRY OAK, 1st, 2nd and 3rd. CHAS. ASLEY, P. O. Box 43, Foxboro, Ont.

WANTED—BASSWOOD AND HARDWOOD barrel heading, 5/4 and 8/4 beech, 2" and thicker soft maple and wormy chestnut. R. E. KINSMAN, Hamilton.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

HARDWOOD LUMBER WANTED

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.
One 10" x 18" Engine.
One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)
One pair twin engines, 10x16.
One No.2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.
One set Trimmers, to trim 6 to 24 ft., chains, mandrils and saws.
Also a quantity of Shafting, 2" to 4" pulley, and steam and water pipe.
One 14' x 60" Boiler; one top saw slash table.
About one mile of telephone wire, and two 'phones. For particulars, apply to BOOTH & GORDON, Azilda, Ont.

WANTED — 800 CEDAR POSTS — EIGHT feet long, nine inches or more diameter; must be straight; quote price f. o. b. Apply H. WINNETT, the Queen's Hotel, Toronto.

Oak For Sale

FIVE CAR LOADS OF CHOICE LOG RUN Red Oak, one and two inch. Apply to MAITLAND, RIXON & Co., Owen Sound, Ont.

Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

PINE LIMIT FOR SALE

13½ MILES ON PIGEON RIVER, THUNDER Bay. Limit lies on river bank 50 miles from Fort William. A splendid location for good saw mill. Dray haul will water bulk of timber. Owner quitting lumber business. Limit will be sold at a bargain. Box 790 CANADA LUMBERMAN, Toronto.

TIMBER BERTH FOR SALE

Area about 10 square miles, on Georgian Bay, between the mouths of the Muskoka River and Go Home River. The Berth is easy of access from Midland and Penetanguishene and particularly well situated for logging. Full particulars on application to

THE MUSKOKA MILL AND LUMBER COMPANY, Limited, Toronto.

Tenders Wanted

for next winter's cut of one or two million feet of Hardwood sawed to order. Birch, Maple, Oak, Beech and Basswood, Balm Ash, and Soft Elm; also two million feet of Hemlock in logs, and one million Pine, White and Norway, Piling Poles and Posts, Shingle Blocks and Lath Timber; 100,000 R. R. Ties, and 5,000 cords Pulpwood on Georgian Bay, f. o. b. or over rail. Box 13, CANADA LUMBERMAN.

Patent For Sale.

BAND SAW CLAPBOARD MACHINE, THE only one in the world. Carriage has automatic setting device, only 8" stroke, with turn table. Block stands vertical and cuts all clapboards radially. Will take blocks any diameter 14" to 32 x 48" long. All clapboards cut desired thickness regardless diameter block. Will cut five times faster then any circular machine. 25 per cent. saved in saw kerf. A sound block 48" long x 32" diameter will cut out $10 worth of clapboards. Large demand in New England States. Prices $45 per M pieces. Will sell entire right for Dominion. Drawings and specifications on application. A. J. BURTON, Parry Sound, Ont.

PACIFIC COAST LUMBER MANUFACTURING OPPORTUNITY

WE WANT A FIRST-CLASS PRACTICAL mill man with $50,000 to $100,000 cash to take an active interest and management of one of the largest and best mills on Pacific Coast near Vancouver, B. C. Mill ready to put in commission with a small expenditure. Entire output of mill (both rail and foreign) practically contracted at best market prices. A splendid opportunity to make big money. A connection with most reliable parties, who can finance the proposition fully to make it one of the best paying mills on the Coast. An exceptionally fine opportunity for the right man, who must be thoroughly competent to handle a mill with a capacity of 250,000 to 300,000 ft. in a ten hour cut. The best of references requested and will be given. If you mean business and have the cash, or can get it, answer this at once and full particulars will be furnished. Address "BRITISH COLUMBIA," care CANADA LUMBERMAN.

LATH FOR SALE, ABOUT 150 M. KNIGHT Bros. Company, Burks Falls, Ont.

WANTED—TO RENT A PORTABLE SAW Mill; state charges per thousand feet. Apply Drawer 12, Hamilton.

FOR SALE—80 CORDS OF GREEN HEMlock bark. Intending purchaser will state highest cash price, measured f.o.b. cars, Wiarton, Ont A. P. EBERT, Wiarton.

FOR SALE

FACTORY FLOORING

KILN DRIED BIRCH, ABOUT 60 M. Box 442 CANADA LUMBERMAN.

WANTED—WHITE PINE

MILL CULLS AND BETTER, ALSO HEMlock and Basswood. We handle entire cuts. HURDMAN & ELMITT, Ottawa.

WANTED

GOOD CEDAR LUMBER FOR BOAT BUILDing, one inch thick or over, as we can use any thickness and also use all other kinds of lumber; would buy mixed cars. PETERBOROUGH CANOE COMPANY, Peterborough.

WHITE OAK PILES FOR SALE

ABOUT 700 WHITE OAK PILES FROM 20 to 60 feet long; good desirable piles. Also some large oak logs; can deliver on rail in August and September. Address Box 78, Dresden, Ont.

FOR SALE

400 CEDAR TELEPHONE POLES, 25 FEET long, 5 inch top. Also 800 Cedar Telephone Poles in lengths from 25 to 50 feet, and a quantity of 10 x 10 and 12 x 12 Hemlock, 12 to 16 feet long. JOHN D. MCRAE, Eganville, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The first days of August have witnessed no material change in the lumber market. The buying has been confined chiefly to small lots for sorting up purposes. The tone of the market, however, is steady, with indications of a satisfactory trade during the fall months. The scarcity of cars has rendered it impossible to keep shipments up to orders. It is feared that the car shortage this fall may again seriously interfere with business, as it has developed earlier than usual this season.

In pine the most urgent call is for box and mill culls, the supply of which has been greatly reduced by the heavy buying which has been in evidence for some time past. Prices of these grades, as might be expected, are exceptionally firm. Dressing is also in good demand. The consumption of hemlock lumber continues to be heavy, and higher prices are predicted by some manufacturers. Basswood, elm and maple sell more readily than the other hardwoods, although the general hardwood situation is one of considerable strength. Buyers willingly meet the prices asked by manufacturers. This is probably due to the fact that the latter have pursued a conservative policy and have not advanced prices to an unreasonable basis.

There has been no improvement in the shingle situation, and until the supply of red cedars held by Ontario dealers shall become reduced conditions promise to be unsettled. For pine shingles the mills are asking $2.70 for XXX, $1.90 for XX, and 65 cents for X.

QUEBEC AND NEW BRUNSWICK.

Prices for spruce lumber are being maintained, by necessity if not by demand. The feeling among manufacturers is that a material decline in prices is out of the question on account of the increased cost of stumpage and labor. At the present time very few sales of British deals are taking place, for the reason that the British market has responded slowly to the high prices ruling on this side. There is a disposition to restrict the production of lumber intended for that market and to give more attention to shipments to the West Indies, France, Australia and the United States. Should there be a general falling off in the lumber demand, the manufacturers claim that they are in a position to restrict the log production during the coming winter. There are about 30,000,000 feet of logs hung up on the St. John River in New Brunswick, the greater part of which will not come out this year. Smaller quantities of logs are hung up on the streams in Nova Scotia.

The shingle demand is not altogether satisfactory, although there is an undercurrent of strength, due to the attitude assumed by the large manufacturers, who refuse to accept offers lower than $3.40 for extras on Boston rate of freight. It is believed that shingles will strengthen later in the season, but at the moment the demand is scarcely equal to the offerings.

MANITOBA AND BRITISH COLUMBIA.

The country demand for lumber throughout Manitoba and the Territories has slackened, as the farmers are devoting their time to preparations for harvesting of the crops. The total yield of wheat by the Canadian North-West is estimated at 60,000,000 bushels, a slight decrease from that of last year, but still a bountiful crop. When the harvest is gathered an increased demand for lumber will doubtless arise. In Winnipeg the chief call is for finishing material, many of the buildings commenced early in the year being well on towards completion.

The settlement of the labor troubles in Vancouver was followed by a quick re-

vival in building operations. Confidence has been restored and money is easier. The mills have many orders for lumber on their books. The logging industry, however, continues in an unsatisfactory condition, chiefly on account of the depression in the shingle trade. Many of the logging camps are closed down. It is understood that the Provincial Government have notified the Loggers' Association that the law prohibiting the exportation of logs to the United States must stand. There continues to be a good demand for limits. During the month of June 155 licenses to cut timber on Government lands were issued. Of these 99 were licenses to cut on Government lands in the Big Bend and Duncan River district, Kootenay.

UNITED STATES.

The lumber demand throughout the United States is irregular; some districts report an increase in the volume of trade, others a falling off. At Duluth and Philadelphia prices of white pine are said to be slightly easier. There has been no general weakness, however, and business is about as good as could be expected at this season of the year. Farmers are engaged in harvesting the crop and will not be in the market for lumber until the early fall. The wheat harvested shows a good yield and the promise is for an average crop. The yield of corn will perhaps be slightly less than last year.

Stocks of lumber are accumulating to some extent. This is not regarded in an unfavorable light, as in the past many of the mills have been handicapped in making shipments on account of scarcity of certain grades. Chicago dealers report a better trade and less pressure to sell. Norway pine is in light supply and strong. There still prevails a disposition to advance the price of demension. It is claimed that not more than half of the regular supply of demension is being turned out by the mills, nearly everybody cutting inch lumber almost exclusively. Thus the shortage of dimension promises to be further increased. Spruce lumber sells readily. Throughout the Eastern States clapboards are worth $45, $43 and $40. The list for car frames from the mills is unchanged at $19 for ordinary and $21 for 12-inch.

A very satisfactory movement of hardwood lumber is reported. Stocks in many varieties are still scarce. In quartered white oak it is said that the greatly increased amount of dry stock available has not been sufficient to satisfy the demand in the slightest. Soft elm and birch are selling very freely. The supply of basswood has increased, although it is still below normal. Maple is slightly lower, but the demand is keeping up well. Manufacturers of maple flooring have shaded prices, resulting in an increased volume of orders. Laths are slightly weaker. In Chicago No. 1 white pine are quoted at $3.35, No. 1 Norway and No. 1 hemlock at $3, No. 2 white pine at $2.75, and No. 2 mixed at $2.50.

GREAT BRITAIN.

The reports of the British lumber market this week are not of an entirely satisfactory character. The consumption does not show the improvement which had been hoped for, and sellers have found it difficult to place large blocks of stock, the tendency being to purchase for immediate requirements only. There is a desire to buy cheaper kinds of lumber instead of pine deals whenever it is at all possible to do so. At the last public sale in London prices ruled steady, 3 x 9 spruce bringing £10 10s per standard. A favorable feature is the fact that importers are beginning to recognize that there will be no fall in the price of Canadian lumber this year. A writer in the Timber News expresses a favorable view of spruce in the following words: "Spruce values are steadily improving, and although the number of regular buyers at the auction sales is not great, the competition among them is exceedingly keen. Many buyers who have been waiting for a fall are very sorry they did not accept the advice offered in these columns some months ago, when we urged spruce consumers to stock up." The same writer, after referring to the shortage in the log supply in Maine and New Brunswick, says: "This extra demand from the United States spells higher prices all round, and coming on top of the existing Canadian shortage gives both manufacturers and shippers much the best of the strong position. In view of these circumstances, all tending in the direction of reduced supplies abroad and higher quotations here, would it not be greater wisdom for British consumers to promptly cover their reasonable wants for the present year?"

STOCKS AND PRICES.

The tug Harrison is bringing a raft of logs from Byng Inlet to Owen Sound, for the John Harrison & Sons Company.

The Saginaw Lumber & Salt Company, Sandwich, Ont., have just received a large raft of logs from the Georgian Bay.

The J. D. Shier Lumber Company, of Bracebridge, Ont., have sold their good sidings, strips and shorts to the McArthur Export Company.

J. J. Wheelock & Son, Connors, N. B., report the following prices at the mill for 16 inch cedar shingles: Extras, $2.75; clears, $2.40; second clears, $1.75.

The steamer Crown of Navarre is loading deals and timber at Miramichi, N. B., for the United Kingdom. The steamer Brantingham is loading a cargo of deals at Quebec for the U. K. The steamers Persian and Ramon de Larrinaga are about to load at St. John, N. B.

During the first six months of this year British Columbia mills shipped by cargo 31,223,534 feet of lumber and 521,820 shingles.

The market price for No. 1 short hemlock piece stuff in carloads delivered in Chicago is $3.50. Water shippers are finding the cargo trade rather weak, sales for the present time being placed at $10.50 to $11.00 at the mill, as against $11.00 to $11.50 during the spring. There is a good demand, however, at the lower quotations.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to July 28th as furnished by the Supervisor of Cullers:—

	1901	1902	1903
Waney White Pine	850,753	1,519,699	1,084,440
White Pine	337,500	297,570	188,920
Red Pine	45,961	59 947	34,000
Oak	247,737	505,742	364,080
Elm	656,342	527,884	216,000
Ash	98,621	68,438	50,760
Basswood	332	.....	.....
Butternut	740	.....	.....
Tamarac	22	.....	.....
Birch and Maple	296,412	90,410	189,760

At a meeting of the directors of the Vermillion River Boom Company, held in Toronto on July 27th, it was reported that the upper river drive will be down to the mouth of the stream a month earlier than it was last season, when each owner drove his own logs. The company will handle more logs this season than in any previous year.

The Edward Hines Lumber Company, of Chicago, have taken a contract from the Barnett & Record Company for 8,000 40-foot piles for the Canadian Northern Railroad, to be delivered at Port Arthur, Ont., within thirty days. The piles are to be used for the foundations of elevators. The piling is about the only wood used in the work and the contract is one of the largest undertaken this year.

Cooperage supplies are scarce. Second-class elm staves are lowest in stock and with a good apple crop in sight, prices promise to advance. There is a slight advance in staves and heading, first-class elm flour and apple barrel staves selling in Buffalo at $9.50 to $9.75; mill run elm, $7.25 to $7.50; second-class, $5.50 to $5.75; basswood heading, 6¾ to 7 cents for first-class, 4½ to 4¾ cents for second-class; coiled hoops, $9.50 to $10 for 5½ foot and $10 to $10.50 for 6-foot; hickory, $6 to $6.75.

Under date of July 18th Messrs. S. P. Musson, Son & Company say of the Barbados lumber demand: "The only arrivals to note are a small lot by the schooner "Talmouth", not yet on offer, and the schooner "Rhoda", from Liverpool, N.S., with 212,000 feet, which was contracted for some time ago. The stock is moderate and fair prices should be maintained for both shipping and second quality pine. The demand for spruce is over. The "Talmouth" brought 442,000 Cedar Laying shingles, which we sold at $3.20 for clears, $2.85 for second clears, $2.36 for extra No. 1 and $2.24 for ordinary. We also learn that two cargoes of Long Laying are on the way from Gaspe, Que."

LARGE CAR LOAD OF SHINGLES.

Messrs. H. J. Hall & Son, of Berlin, Ont., write: "We noticed in the weekly edition of the LUMBERMAN of July 29th, that J. M. Green & Son, of St. Thomas, Ont., received a car of B. C. shingles with 270,000 on it, and freight of $300.00. We received a car in June with 360,250 shingles, with freight of $361.05. This, we think, is the King car, and hard to beat for quantity."

THE SPRUCE LOG SUPPLY.

The prospects of securing an ample supply of logs for the mills of Maine have improved during the past week, although it is still feared that there will be a considerable shortage. On the Chaudiere river it is reported there are 50,000,000 feet of logs hung up, and at considerable expense operators are building a dam in the hope of raising sufficient water to float the logs. The same thing is in contemplation, says the American Lumberman, on the Salmon river, where 25,000,000 feet are hung up.

It is regarded as certain that about 10,000,000 feet of the East branch logs, belonging to Marsh, Lawlor & Murphy, will be left above Grand Lake until fall and probably until next spring. The rear of the Kennebec drive left the Forks on July 21, and although two weeks behind the usual time, it is thought they will reach the boom as early as last year.

It is reported that Minneapolis capitalists have purchased a large interest in the Hastings Shingle Manufacturing Company, of Vancouver, B. C. It is stated that there will be no change in the management of the mills and that they will be conducted as formerly. The company own a saw mill, planing mill and two shingle mills at Vancouver and four shingle mills in Washington.

THE WHITE PINE SITUATION.

Northern white pine continues strong, with visible supplies much below the average, in some items this running to actual scarcity, and the demand all that could be asked for during the midsummer season. The Mississippi Valley Lumberman says that Northern Minnesota mills with few exceptions notice little let-up in business. The demand from Canadian points is still active. Thousands of new settlers have gone into Manitoba and the Canadian mills being unable to meet the call, large quantities have to be shipped across the border. Manufacturers in the northern part of Minnesota report the situation as being very strong. Prices are as well maintained as at any time of the year. Some of the mills in central Minnesota state trade has eased off a little, but this was looked for at an earlier date. Duluth has been somewhat quiet and the movement of lumber has not been heavy. There is considerable inquiry, however. Sales appear to be up to what could be expected and there is some stock moving all the time. The bulk of the spring sawing is not yet dry enough to ship and the larger part of the winter cut has been sold. A trifling decline in some few grades is noted, but as a whole the market is in very fair shape. Manufacturers operating below Minneapolis report no change in the situation. Trade is not heavy but prospects are good. Values in that section appear to be holding firm. The Iowa dealers are making more inquiry for stock than was the case three weeks ago.

No change is noted in the Minneapolis price situation. Values on nearly all items are well maintained. Dimension of about all sizes continues scarce and some few items cannot be picked up. There is plenty of inch stock to supply present requirements. With favorable sawing conditions stocks show continued improvement in both assortment and size.

It would seem that this fall white pine people will feel little competition from the southern yellow pine manufacturers. In the south is noted a severe and growing scarcity of railway equipment. Lack of motive power, principally, is holding down lumber shipments and wholesalers make the statement that not to exceed sixty per cent. of their orders will be shipped during the rest of the year. This will evidently mean that less yellow pine will enter into white pine territory and that the call for the latter will be increased accordingly.

Minneapolis manufacturers report a somewhat light demand, though very fair for July. A number state they receive all the business that they can take care of, because of depleted stocks. The time has almost arrived for a substantial increase n trade. This is shown by the larger volume of inquiries coming in. Line yards, while not buying heavily at this time, are looking around. A few large orders for future delivery have been placed by them. That fall business will be of very good proportions no one now doubts.

THE BOSTON MARKET.

The market at Boston for spruce lumber is still very quiet, and yet the situation is fully as strong as previously noted. The eastern mills are having difficulty in getting their logs down, and the consequent delay in shipments helps to maintain prices in the face of a quiet demand: Quotations are unchanged at: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

There is a quiet market for hemlock lumber, with prices easier, though perhaps not quotably lower: Boards, 12, 14 and 16 feet stock, $14.75 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is in fair demand with fine common and uppers very firm and bringing full quotations: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Clapboards are quoted as follows: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Hardwoods are more quiet, but prices are steady and offerings are not heavy: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $34 to $37.

Shingles are steady: Extra cedar, $3.40 to $3.45; clear, $2.90 to $3; second clear, $2.25 to $2.40; extra No. 1, $1.50 to $1.75; British Columbia red cedar, 16-in. five butts to 2-in., $3.50 to $3.60; 18-in. five butts to 2 in., $3.75; five butts to 2¼ in., $3.90.

James Carr's saw mill at Carr's Mills, twelve miles from Woodstock, N. B., together with a quantity of lumber, was burned a few days ago. The loss is about $8,000.

CANADIAN NORTHERN RAILWAY CO.

A complete and most modern through passenger train service between Port Arthur and Winnipeg will be established on July 12th, thus enabling Tourists on their way to and from the East to get a glimpse of the fertile Rainy River Valley.

This new train will make connections at Port Arthur with Steamers of the North-West Transportation Company and Canadian Pacific Railway.

A fast freight service can be depended upon from Port Arthur to all points West. Route shipments care of Canadian Northern Railway at Port Arthur.

Folder and Pocket Map of the Canadian Northern Railway will be sent upon application to

TIMBER LIMIT TRANSACTIONS.

George Schneider, of Maryboro, Ont., has sold 400 acres of land and his saw mill to Charles Neilson for the sum of $18,800.

The Victoria Times states that John Hanbury, formely of Brandon but now of Vancouver, has purchased 3,850 acres of timber lands on the Sechelt Inlet, British Columbia, from the Thomson Estate of Hamilton, Ont. It is said that $5 an acre was paid for the timber, which is cedar and fir of fine quality.

The sale of timber limits to be held this fall by the Ontario Government will, according to report, be the largest since 1885. In the neighborhood of 900 square miles, or 25 townships, will be offered. Much of the timber is located along the lines of the Temiskaming and Northern Ontario, Central Canada and Bruce Mines and Algoma Railways.

In the item in a recent issue in reference to the purchase of extensive timber lands on Vancouver Island, B. C., by an American syndicate, the area was inadvertently given as 50 acres. This should have read 50,000 acres. Later reports state that the price was $12 an acre, although no official announcement has yet been made. It is said that M. King, of Victoria, has an option on 150,000 acres at the same price.

The name of the Edwin S. Hartwell Lumber Company, Chicago, has been changed to the Hermann H. Hettler Lumber Company, the officers of which are: President, Hermann H. Hettler; vice-president, J. L. Philip; secretary, E. L. Casey.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, AUGUST 12, 1903 No. 28

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'y Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

WANTED—OUTFIT FOR SHINGLE MILL, including Boiler and Engine about 25 horse power. J. J. HUSTON, Thessalon, Ont.

WANTED—BASSWOOD AND HARDWOOD barrel heading, 5/4 and 8/4 beech, 2" and thicker soft maple and wormy chestnut. R. E. KINSMAN, Hamilton.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HARDWOOD LUMBER WANTED

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE.

240 acres Timber Land, 4½ miles from Durham, Ont., with good saw, shingle and lath mills complete; also good dwelling house and stables. Railroad switch can be put in property. PACIFIC COAST LUMBER MANUFACTURING OPPORTUNITY

WE WANT A FIRST-CLASS PRACTICAL mill man with $50,000 to $100,000 cash to take an active interest and management of one of the largest and best mills on Pacific Coast near Vancouver, B. C. Mill ready to put in commission with a small expenditure. Entire output of mill (both rail and foreign) practically contracted at best market prices. A splendid opportunity to make big money. A connection with most reliable parties, who can finance the proposition fully to make it one of the best paying mills on the Coast. An exceptionally fine opportunity for the right man, who must be thoroughly competent to handle a mill with a capacity of 250,000 to 300,000 ft. in a ten hour cut. The best of references requested and will be given. If you mean business and have the cash, or can get it, answer this at once and full particulars will be furnished. Address "BRITISH COLUMBIA," care CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market has developed a slightly irregular tendency, although there is no general weakness. In pine the demand is chiefly for the export and lower grades. Box lumber continues to be bought eagerly, although it was expected that the large purchases earlier in the season would have supplied the requirements of the box trade. Wide boards of first quality suitable for the European market are particularly scarce. The only weakness is confined to cutting-up grades. The demand for lumber for building purposes has slackened, which is, no doubt, responsible in large part for the dullness of the medium grades of pine. Mill run, 1x4 and 5, is held at $18 at the mill. The higher prices predicted for thick hemlock have not yet materialized. While some manufacturers have held for higher prices, there has been a sufficient quantity of stock offering at current quotations to prevent the advance becoming at all general. Hardwood lumber is quite as good property as earlier in the year. There continues to be good buying by local implement and furniture manufacturers, as well as for export to the Eastern States. A considerable quantity of birch has been shipped to Buffalo. The shingle market still exhibits signs of weakness, but recent developments have been favorable to white pines, which will be in a stronger position after the red cedar situation has become brighter.

QUEBEC AND NEW BRUNSWICK.

Prices of timber at Quebec continue very strong, the light production having encouraged manufacturers to oppose any drop in values. The quantity of waney pine timber received at Quebec this season is 500,000 cubic feet less than for the corresponding period of last year. Decreases are shown in other kinds as follows: Square white pine, 10,000 cubic feet; red pine, 25,000 cubic feet; oak, 150,000 cubic feet; elm, 300,000 cubic feet. Birch and maple are the only woods that show an increased production. The spruce market is quiet. The total shipments of spruce lumber from St. John to trans-Atlantic ports during the first six months of this year were 76,000,000 feet. This is a decrease and reflects the extent to which lumber has been diverted to the United States market. Two or three large cargoes have recently been shipped to Ireland.

An event which promises to help the lumber industry is the recent formation of an association by the lumbermen of New Brunswick. This step was brought about in part by the proposal of the Government to increase the stumpage dues to $1.50 per thousand feet, an advance which in the opinion of the lumber trade is not warranted.

MANITOBA AND BRITISH COLUMBIA.

Nothing has occurred within the past week to disturb the lumber market of Manitoba and the Territories. Heavy shipments are being received by dealers from British Columbia. Up to August 1st of this year the building permits issued in Winnipeg aggregated almost $3,500,000, a showing which is unprecedented and which clearly explains the large consumption of lumber. Shingles continue weak.

The manufactures of British Columbia held a meeting on August 7th and decided to check further over-production by closing down all the shingle mills from August 15th until the situation was relieved. This step should at once have a beneficial effect upon the market. The demand for timber limits has also slackened, there being but three applications for licenses to cut timber off Government lands during the week ending August 1. Many of the logging camps are still closed down. The Premier has wisely decided not to interfere with the operation of the law prohibiting the export of logs. It is pointed out that the over-production of logs in Washington is just as great as in British Columbia, and that the loggers could not find a market for their production even if the export embargo were removed.

UNITED STATES.

A few days ago it was reported that white pine prices at the head of the lakes had weakened. Late advices do not altogether confirm this report. There has been a slight softening in prices of the upper grades, but this has been offset by the increased strength of the lower qualities. At Tonawanda and Philadelphia an advance of 50 cents has been made on nearly every grade below intermediate. While the demand generally has been of a quiet character, sales at Duluth during the first week of August were quite heavy. It is estimated that fully 15,000,000 feet of various grades of merchantable lumber were contracted for, and many manufacturers are now sold up to the saws. It is said that sales have been at very satisfactory prices. A lot of No. 3 pine was sold at $15. Ohio dealers report that low grade lumber has been moving freely, and that No. 3 and No. 4 boards are strong, with a very light stock in sight. Chicago is experiencing a steady trade and the outlook is good for fall business. Spruce is very strong in New York. Prices are now the highest ever known. At Boston and other eastern points the situation is strong, though less lumber is moving.

The growing strength of common and plain sawed oak and the scarcity of elm are the features of the hardwood market. Buyers are unable to find a sufficient supply of 1½ inch elm and prices are strong. Maple in the same size is by no means plentiful. Basswood is holding its own, the increase in supply having as yet had no visible effect upon the price.

Any change in the shinge demand has been in the direction of improvement. Shingles of good quality find a ready market, but there is a considerable stock throughout the Eastern States that are not up to standard, and these may have to be sacrificed. More activity in shingles is expected next month.

GREAT BRITAIN.

Although the holiday season is at its height, there has been of late a slight increase in the consumption of lumber at London and Liverpool, which is taken to reflect the conditions throughout the United Kingdom. The outlook in timber-consuming industries is considered bright, and it is probable that the fall will witness increased activity. Canadian lumber of all kinds seems to be in a strong position. All the available stocks have been cleared and there is little in first hands for buyers to select from. The position of the Canadian import, according to the Timber Trades Journal, is quite abnormal, the trade usually counting upon a considerable quantity of New Brunswick spruce about this time; but this season fewer cargoes have come forward than for many years past. No pine whatever has been shipped on consignment, consequently the tendency of values is towards a further advance. The standard sizes in first and second quality are now held at higher figures than at any previous time this season. Third and fourth quality are in larger supply and consequently prices do not show the same degree of strength as those of the better grades. The position of spruce has changed within a week. There is absolutely little or nothing to offer for arrival until the season is more advanced, and then the supplies are expected to be short of the average to an extent that has not been witnessed for some years. Some buyers apparently kept out of the market on the belief that the low rates of freight would encourage shipments. This, however, has not been the case. It is claimed that the low freight rates are due to the fact that there is less lumber to be shipped across the Atlantic. There is a good inquiry for red pine, rock elm and oak. Birch is in large supply and slightly easier.

STOCKS AND PRICES.

The barque Maria Laurie is about to load lumber at St. John, N. B., for the Canary Islands.

A raft containing 3,600,000 feet of logs left Stella, on the Columbia River, B. C., August 1, for San Francisco.

J. A. Morrison, of Fredericton, N. B., is shipping large quantities of cedar shingles to the New England States.

During July 3,007,749 feet of lumber was entered at Saginaw and 15,230,988 feet at Bay City, making the total receipts for the month 18,238,737 feet.

The schooner Arona is loading lumber at Bear River, N. S., for Buenos Ayres. The Brigt. Dixon Rice is loading at Annapolis, N. S., for the West Indies.

The DeLaplante-McBurney Lumber Company, of North Tonawanda, N. Y., recently purchased 6,000,000 feet of white pine in the vicinity of Duluth and Menominee.

The Robert H. Jenks Lumber Company, of Cleveland, Ohio, have been shipping considerable hemlock to the Tonawandas and other eastern ports from Alpena, Cheboygan and Manistee, Mich.

Since navigation opened 194,000,000 feet of lumber has arrived by vessel at the Tonawandas, as compared with 158,000,000 feet for the same period of last year, an increase of nearly 26,000,000 feet in the receipts for 1903.

The Pigeon River Lumber Company, of Port Arthur, Ont., have already sent two hundred men into the woods. The company expect to make a large cut during the coming season. Six camps will be put in, in addition to two or three jobbers.

There is a strong demand for slack cooperage stock. A Chicago dealer reports sales of No. 2 30 inch elm staves at $5. No. 1 are supposed to be worth from $8.50 to $8.75 for 28 and 30 inch. No. 1 basswood heading is in strong demand at about $7.50.

A quantity of birch timber, from Halifax, N. S., was recently sold at auction in London and brought the following prices: 6-15 ft. 4x10-16 in., 1s 3d per cubic ft.; 3-15 ft. 4x8-9, 1s 2d; 4-15 ft. 4x6-7, 1s 1d; 4-18 ft. 3x13-17, 11½d; 3-19 ft. 1x10-11, 11d; 3-19 ft. 3x9, 10½d; 3-16 ft. 3x8, 10d; 3-19 ft. 3x7, 9½d; 3-16 ft. 2x7-16, 1s 3d; 6-15 ft. 5x6-9, 1s 4d.

Seventeen oak logs from Quebec recently sold in London, at prices ranging from 40 to 50s per load of 50 cubic feet. Elm timber, from Quebec, sold as follows: 40-44 ft. x 12-17 in., 87s 6d per load; 36-38 ft. x 12-21 in., 97s 6d; 84-89 ft. x 13-21 in., 100s; 33-35 ft. x 12-17 in., 97s 6d; 30-32 ft. x 12-21 in., 92s 6d; 26-29 ft. x 11-16 in., 87s 6d.

In Chicago short pine piece stuff is selling wholesale in sizes from 2 x 4 to 2 x 10, 10 to 20 feet long, at $17.50 to $19.50 f. o. b. cars. Northern rail shippers are delivering the same sizes and lengths on this rate at $16.50 to $18.50 and these prices are being generally adhered to. No. 1 common boards, all widths, are selling at $21 and No. 2 at $19. No. 1 stock boards, 10 inch, are quoted at $23, and 12 inch at $17; No. 1 4 inch fencing, 10-foot, $22, 16-foot, $23; 6 inch, 10-foot, $25, 16-foot, $26; No. 2 fencing, 4 inch, 10-foot, $17.50, and 6 inch $20, with $1 added for 16 foot and longer.

THE BOSTON MARKET.

The is a little better movement in spruce lumber at Boston with prices steadily held at full quotations. The situation in the East is still very strong, though the mills on the Kennebec are said to be in better shape as to supply of logs than those farther east. The quotations are firm at: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is quiet, without change in prices: Boards, 12, 14 and 16 feet stock, $14.75 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is a fair demand for western pine lumber, with the better grades still very firm: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There is only a quiet demand for hardwood lumber, but prices are firm, especially for whitewood and quartered oak: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $34 to $37.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Shingles are firm for the better grades but off stock is in full supply and easy: Extra cedar, $2.40 to $3.45; clear, $2.90 to $3.00; second clear, $2.25 to $2.40; extra No. 1, $1.50 to $1.75; British Columbia red cedar, 16-in. five butts to 2-in., $3.50 to $3.60; 18-in. five butts to 2 in., $3.75; five butts to 2¼ in., $3.90.

Laths are quiet: One and five-eigths in., $3.15 to $3.25; 1½-in., $3 to $3.10.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar cares to put in several machines to work broom handles we can take his outpnt. Write in first instance to Empire, care of CANADA LUMBERMAN.

THE GLASGOW MARKET.

From Messrs. Edmiston & Mitchells' monthly timber circular, of July 31st, we extract the following particulars of the Glasgow market :

The import from Montreal, which up to the end of June was but trifling, has been on more extensive lines, several full cargoes augmenting the meagre supplies coming forward by the liners. First quality white pine deals and sidings of good average continue in demand, and are almost unfailingly sold from the quay, but there is a hesitancy in some quarters to pay the existing high prices. In spruce the position is unaltered from the previous month, there being a fairly active demand at recent prices. A fair business has been done in hardwoods of all descriptions from the United States, and prices of poplar lumber particularly have been well maintained. The house building trade in the city and neighbourhood continues brisk, and a considerable amount of work is on hand.

WHITE PINE.—There has been a considerable import during the month, aggregating 1400 loads, practically the whole of which came in during the last week by the steamer "Janeta," which is the first arrival at Greenock from Quebec this season. There have been no transactions of any importance, and business has been quiet.

RED PINE.—The import has only been of a trifling nature, but the demand being extremely limited, the present small stock is sufficient for immediate requirements at least.

OAK.—Several transactions of nice lines of Quebec timber were completed during the early part of the month, but the import has been on the heavy side, about 1100 loads. Second class and southern wood is slow of sale, but a fair demand is in evidence for good large Quebec logs.

ELM.—There have been no transactions worthy of mention, and the demand being somewhat restricted, the stock, which is further increased by this month's import, is more than ample for probable requirements.

BIRCH.—Quebec. The import from Montreal during the month amounts to 650 loads, consisting partly of contract wood and partly on consignment. The demand is unfortunately very restricted, and "ex quay" sales can only be effected at unsatisfactory prices. 13-inch is quoted at 18d., and 16-inch 20d. "ex quay." Lower Port. There has been one arrival during the month from Pictou, N. S., consisting of about 1050 loads of log timber and 120 standards planks. Value of 15-inch is about 16d., and of planks about 11d.

ASH.—The import for July is comparatively trifling, and it just as well that this is so, for there is very little demand for it nowadays. There is still some old stock in the market unsold, and this is being offered for sale at considerably under import cost.

DEALS, ETC.—Only a limited volume of business has been done, but this to a large extent is on account of the holidays, as supplies have been coming forward much more freely. Broad 1st pine deals find a ready market, and recent small arrivals have all been disposed of from shipsside. Low quality deals, however, are receiving but scant attention. Prices remain unaltered and firm, current values being : Broad first pine deals, £32 to £34; 11-inch, £29 to £31 ; ends and non-dimensions, £22 to £24. Second pine deals, 11-inch and up, £19 to £21 10s. ; ends and non-dimensions, £13 to £14 10s. Third pine deals, 11-inch and up, £13 to £14 10s. ; ends and non-dimensions, £10 to £11. Red pine deals, 9 and 11 inch, £11 10s. to £12 10s.; narrows, £8 10s. to 9 10s. First pine sidings, 9 and 10 inch, £24 to £25 ; 11 to 12 inch, £26 to £28 ; 13 to 14 inch, £29 to £31. Spruce deals, 9-inch and up, £8 15s. to £9 10s. ; 7 and 8 inch, £7 5s. to £8 5s. Lower port pine and spruce, 7 and 8 inch, £7 to £7 15s. ; 9-inch and up, £8 5s. to £8 15s.

FIRES.

The sash and door factory of A. C. Duchemin & Company at Charlottetown, P. E. I., was damaged recently to the extent of $10,000.

The saw mill at Coaticook, Que., owned by Mr. Gilmour, and used for sawing chair stock, was burned last week.

The box factory of Barchard & Company, Duke street, Toronto, was recently damaged by fire to the extent of $5,000.

The steamer Hedwig from Bathurst, B., for Manchester, with lumber, has put back to Pictou, having been in collision with an iceberg in the Strait of Belle Isle.

TIMBER LIMIT TRANSACTIONS.

It is reported that the timber property of the East River Lumber Company at Sheet Harbor, N. S., has been purchased by United States capitalists. Rhodes, Curry & Company, of Amherst, are interested in the property.

The sale of two townships north of Thessalon, Ont., both heavily timbered with pine, is reported. The owners were N. & A. Dyment, of Thessalon, and the purchasers are George Neibergall & Son, of Windsor.

W. E. Wilson, of the Wilson Lumber Company, San Francisco, has, according to report, been buying up timber limits on Vancouver Island, B. C., for several months. He has now secured between 80,000 and 90,000 acres. His last purchase was completed only a week ago and consists of 10,000 acres of timber in one block at Comox. The timber is located on Crown-granted land and can therefore be exported to the United States.

The Canada Lumberman
TORONTO, ONT.

HOO-HOO.

Owing to the short notice a number of lumbermen were not able to attend the meeting held last Friday. Another grand concatenation will be held at Toronto, on the 28th of August, for those desirous of joining.

ONTARIO TIMBER LIMIT SALE.

In this issue will be found an announcement of the proposed sale of timber limits to be held by the Ontario Government on December 9th next. The limits to be sold aggregate about 900 square miles. The hardwood and timber other than pine on the limits, except some non-agricultural areas in the Rainy River district, will remain the property of the Crown. The conditions of the sale provide that ten years only will be allowed the purchaser to complete the cutting of the timber. The ground rents have been increased to $5 per square mile, an advance of $2. The Crown dues payable when the timber is cut have been advanced to $2 per thousand feet board measure, and on square timber to $50 per thousand cubic feet, these being double the rate charged on old limits.

The following charters are reported: Str. Loyalist, St. John, N. B., to Greenock and Glasgow, deals, 35s; str. Micmas, St. Margaret's Bay, N. S., to Bristol Channel, deals, 36s 3d; str. Huntcliffe, Halifax, N. S., to w. c. England, deals, 33s; str. Coringa, St. John, N. B., to Glasgow, deals, 33s; str. Hero, Miramichi, N. B., to London, 40s; barque Ansgar, Miramichi, N. B., to Dunkirk, deals, 50s.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, AUGUST 19, 1903 No. 29

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'y Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

PACIFIC COAST LUMBER MANUFACTURING OPPORTUNITY

WE WANT A FIRST-CLASS PRACTICAL mill man with $50,000 to $100,000 cash to take an active interest and management of one of the largest and best mills on Pacific Coast near Vancouver, B. C. Mill ready to put in commission with a small expenditure. Entire output of mill (both rail and foreign) practically contracted at best market prices. A splendid opportunity to make big money. A connection with most reliable parties, who can finance the proposition fully to make it one of the best paying mills on the Coast. An exceptionally fine opportunity for the right man, who must be thoroughly competent to handle a mill with a capacity of 250,000 to 300,000 ft. in a ten hour cut. The best of references requested and will be given. If you mean business and have the cash, or can get it, answer this at once and full particulars will be furnished. Address "BRITISH COLUMBIA," care CANADA LUMBERMAN.

FOR SALE

Sealed tenders addressed to the undersigned will be received up to and inclusive of the 5TH DAY OF SEPTEMBER, A. D., 1903, for thirty acres of timber, being the southerly thirty acres of the north half of lot 19 in the 7th concession of the Township of Yarmouth, in the County of Elgin, the property of L. C. Cottington. The timber consists of White Ash, Black Ash, Rock Elm, Soft Elm, Hard Maple, Basswood, Beech, Hickory, White Oak and other timber. The highest or any tender not necessarily accepted. For further particulars apply to

W. L. WICKETT,
Barrister, Etc.,
St. Thomas, Ont.

Dated August 17th, 1903.

WANTED—TO RENT A PORTABLE SAW Mill; state charges per thousand feet. Apply Drawer 12 Hamilton.

WANTED — GOOD PLANING MACHINE hands, steady work, good wages. G. ELIAS & BRO., Buffalo, N. Y.

CURRENT TRADE CONDITIONS.

ONTARIO.

The past week has been an uneventful one in lumber circles. There has been less activity in shipments and fewer inquiries. The outlook for fall trade is not altogether promising, although taken in conjunction with the quantity of lumber for sale the conditions cannot be called unsatisfactory. So much of the season's production has already been contracted for that manufacturers are not seriously concerned as to the disposal of the balance. There is little doubt that the demand will absorb the supply before the cut for next season is ready for the market. It may be said that there is an entire absence of uneasiness in respect to white pine lumber, for the market for that lumber has so expanded within the past year or two that it is more a question of where the supply can be obtained than how the production can be disposed of. As to immediate demand, buyers appear to think that lumber is about as high as it will get and that nothing can be lost by holding off. On the other hand, the fact that prices are ruling firm shows the confidence the manufacturers and wholesalers have in the future of the market. In the Ottawa district pine shorts are firmer. A car shortage is again feared this fall and a few dealers are aiming to forestall the shortage by placing orders for their fall and winter requirements earlier than usual. This would seem to be a wise policy.

Reports from the Georgian Bay are that the drives are making splendid progress and that very few logs are likely to be hung up. There is a great scarcity of men for operations in the woods, which may again curtail the production.

QUEBEC AND NEW BRUNSWICK.

The strong position of spruce in the Eastern States has done much to help out the situation in the Maritime Provinces. It has been possible to dispose of all good lumber to advantage and manufacturers have been largely independent of the British market. It must not be supposed, however, that the European trade has been neglected, as considerable shipments have been made to France and Spain as well as to Great Britain. There is an urgent demand for wide spruce and persons having such stock for sale find no difficulty in obtaining a slight advance

upon recent quotations. Clapboards are very firm at the prices quoted. So far as this class of stock is concerned the market is entirely in the hands of the shipper.

New Brunswick cedar shingles are quoted at from $3.40 to $3.50 for extras on Boston rate of freight. An occasional order is accepted at five to ten cents below this figure, but the large manufacturers are holding out for $3.50 and predict that at an early date the price will be firmly established on that basis. For this reason orders for late delivery are turned down.

MANITOBA AND BRITISH COLUMBIA.

Owing to the congestion of the shingle market, the members of the British Columbia Lumber and Shingle Manufacturers' Association decided to suspend operations. On Saturday last, August 15th, all the shingle mills were closed down and will remain idle until the situation has sufficiently improved to warrant a resumption of work. The closing down of the mills will doubtless be followed by a suspension of operations in several logging camps, and the total number of men thus thrown out of employment will be quite large. It seemed absolutely necessary, however, to curtail the shingle production, which had been greatly increased within the past year by the erection of several new mills. The lumber demand is of average volume and prices steady. Seventy-seven licenses for cutting timber were issued by the British Columbia Government during July.

UNITED STATES.

The month of August so far has turned out about as expected. The volume of business does not compare favorably with the corresponding period of last year, but still there is very little complaint of unsatisfactory trade. The crops have deteriorated slightly within the past month, but promise an average yield. It seems to be the general opinion that prices of white pine are not likely to advance to a higher basis this season. For this reason consumers are showing no anxiety to add to their holdings, but on the other hand are disposed to wait until necessity compels them to purchase. Business conditions generally are favorable. A large consumption of lumber by the Eastern States is expected this fall, as most of the building strikes have been settled. The lower grades of pine are selling somewhat readily, the consumption being large. A Buffalo firm reports the sale of half a million feet of Lake Superior No. 3 boards, 12-inch, for $20.50 on board the barge. The price of 12-inch box is still $20. Stock is accumulating rapidly at Buffalo and Tonawanda, but the poorer grades, especially box and barn, are still insufficient to supply the demand. Saginaw Valley dealers are not buying to any extent, as most of them have a sufficient stock to care for the fall trade. The spruce demand is as firm as ever and prices slightly stronger. By some it is predicted that the fall will witness an advance. Boston and Bangor dealers are making large shipments to the South American market.

The hardwood supply has doubtless been considerably increased of late, but the demand has been sufficient to prevent an accumulation of stock at wholesale centres. The demand for quarter-sawed oak is less urgent. Basswood has become more plentiful as a result of shipments from Michigan and Wisconsin. Birch and elm are scarce and cannot be kept in stock.

Hemlock prices continue to be very stiff. In some districts hemlock lumber is being supplanted by North Carolina pine. Buffalo reports great activity in hemlock on the base price of $16.

Shingle prices are practically unchanged. There is a disposition to hold shingles for the improvement which is expected in the fall. In the Saginaw Valley cedar shingles are held at $2.60 and $3.60 for 18-inch stock and $2 and $2.45 for 16-inch.

GREAT BRITAIN.

The holiday season in Great Britain has resulted in a falling off in the lumber demand. The consumption, however, has been equal to the import, and stocks are no heavier than one month ago. The high prices of first quality pine and spruce deals have been maintained. Pine deals are almost invariably sold from the quay, which has prevented any accumulation of stock. Importers who make a specialty of this branch of business state that they have no lack of orders. There is more uncertainty about fourth quality pine, the supply of which is comparatively large. Very little spruce arrives at either London or Liverpool that has not already been contracted for. The receipts of 3 x 9 and 11 inch have been exceptionally small.

A writer in the Timber News urges prospective buyers to place their orders at current figures. He says: "The immense Quebec output is a vision of the past, and the enormous rise in all prime log stuff is at length reacting much more perceptibly with regard to sawn deals, boards and scantling. It may appear and indeed is an absurdity for consumers here to be quoted £45 per standard for best broad pines, with £35 for all 11 x 3; but in view of the facts already adduced, however, and having respect to the improving quotations of other competing woods, we are strongly of opinion that the buyer will have to be content for the present to remain entirely in the hands of the seller. The small quantities available in all prime stocks is another dominant factor to be remembered. While it must be admitted that a considerable percentage of consumers have been able to divert a portion of their wants to other woods, and to substitute canary whitewood, cottonwood, kauri and sequoia for pine lumber, there still exists a sufficient number of buyers who are impelled to maintain the use of Canadian pine. In this connection importers have succeeded this season in placing fair quantities of prime logs ranging from 18in. to 19in. average at 3s 9d to 4s per foot string measure ex quay. It is to be doubted even if these excessive results represent finality. We learn that one or two of the principal Quebec shippers are even sounding buyers as to their willingness to contract for next year at still higher quotations, which they assert will prevail in 1904."

STOCKS AND PRICES.

For the week ending August 8th Buffalo received by water 4,474,000 feet of lumber and 4,880,000 shingles.

The Gull River Lumber Company, of Cobokonk, Ont., have cut about 750,000 feet of lumber this season.

The steamer Persian is loading deals at Marysville, N. B., for the Alexander Gibson Manufacturing Company.

No. 1 white pine lath is selling in Chicago at $3.50; No. 1 hemlock and Norway mixed at $3 to $3.10, and No. 2 at $2.75.

D. & J. Ritchie & Company, of Newcastle, N. B., are understood to have purchased a quantity of logs which will enable the mill to run longer than anticipated.

The steamer Nzassa arrived at Montreal last week from Savannah, with 1,932,790 feet of pitch pine lumber, consigned to McLean, Kennedy & Company.

W. A. Preston, of Mine Centre, Ont., has just received a contract to get out 100,000 ties for the Canadian Northern Railway. He has two camps in operation.

A raft of 5,000,000 feet of pine logs from Spanish River to Sarnia, in tow of the tug Buscobel, broke away from the tug in a heavy gale about 48 miles off Sturgeon Point on August 11th.

Firsts and seconds white ash sells readily in Chicago at $36 for one inch, common at $22 and cull at $11 to $12. Holders are asking $38 for firsts and seconds basswood. Birch is quoted at $29 for inch first and seconds, with 1¼ and 2 inch selling at $2 additional.

Keenan Bros., of Owen Sound, Ont., last week received a raft of 1,500,000 feet of hemlock logs from St. Joseph's Island. Unfavorable weather was encountered and it is estimated that nearly 300,000 feet were lost during the journey and through the breaking of booms at the island.

The corporation of Victoria, B. C., recently invited tenders for paving blocks. James Leigh & Son, J. A. Sayward, the Taylor Saw Mill Company and the Shawinigan Lake Lumber Company tendered, but prices were the same in each case, namely $18.75 for fir and $23.45 for cedar.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

THE BOSTON MARKET.

The spruce lumber situation at Boston is practically unchanged. The eastern mills are hung up for the want of logs, the drives having been much delayed by low water. This is especially true of the Penobscot mills, the manufacturers in Bangor being unwilling to make prices on account of the scarcity of logs. The situation on the Kennebec is better, but most of the lumber sawed there is going to New York, where better prices are being obtained. Boston could also have a share from this source if the dealers here were willing to pay about $1 more for lumber. Trade is quiet, but owing to the light supply prices hold firmly at: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

There is a quiet demand for hemlock lumber at unchanged prices: Boards, 12, 14 and 16 feet stock, $14.75 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is firm, though the demand is only fair: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2 1-2 to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is quiet, but firm for whitewood and quartered oak: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $34 to $37.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Shingles are firm for the better grades, with an over supply of off stock: Extra cedar, $3.40 to $3.50; clear, $2.90 to $3.00; second clear, $2.25 to $2.40; extra No. 1, $1.50 to $1.75; British Columbia red cedar, 16-in. five butts to 2-in., $3.50 to $3.60; 18-in. five butts to 2 in., $3.75; five butts to 2¼ in., $3.90.

Laths are quiet: One and five-eighth in., $3.15 to $3.25; 1-in., $3 to $3.10.

CANADIAN NORTHERN RAILWAY CO.

A complete and most modern through passenger train service between Port Arthur and Winnipeg will be established on July 12th, thus enabling Tourists on their way to and from the East to get a glimpse of the fertile Rainy River Valley.

This new train will make connections at Port Arthur with Steamers of the North-West Transportation Company and Canadian Pacific Railway at Port Arthur.

Folder and Pocket Map of the Canadian Northern Railway will be sent upon application to

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The midsummer lassitude has had its effect on the lumber trade in Ottawa and district, and while cutting operations at the mills have been brisk, the movement of lumber at least to the United States has been slow. The past few days have ushered in an improved condition of affairs in some yards, but a substantial all round improvement is looked for with the advent of September days and the return of the American buyer from his vacation. The New York and Eastern States building strikes had a lot to do with the falling off in local lumber business when it should have been at its best.

Labor troubles have certainly played the deil with the export lumber business of this district, but now that the differences between employer and employee in dependent lines of trade, have been straightened out, local shippers look forward to busy doings.

The millmen up the C. P. Railway, at Pembroke, Cache Bay and other points, report a rush in the movement of lumber to Montreal for export. The dock laborers' strike earlier in the season is responsible for this rush, as purchasers who held off their consignments then are now clamoring with one voice to have them rushed through.

Inquiry amongst local and visiting lumbermen and a scrutiny of several bills of lumber, fail to show any change from the quotations running for the past fortnight. Pine shorts are a trifle firmer, showing an advance of a dollar a thousand on medium grades. On pine sidings the mill quotations run from $16.50 to $19.00 per M. Other lines, however, warrant no change.

One dealer who returned this week from a trip in the New England States reported that wherever possible Georgia and other southern pine was being substituted for Canadian white pine on account of the stiff prices asked for the latter.

In both lath and shingles hereabouts trade is quite, particularly so with shingles. This depression is probably responsible for the fixed figures in the price list.

It is early yet to make a forecast of figures for the future. Inquiries for deals are being made, however, but no figures are mentioned.

Local lumbermen are taking great interest in the big sale of limits to be held by the Ontario Government in Toronto on December 9th. Discussing it to-day, one prominent holder expressed regret that the Provincial Government had inserted a clause requiring the removal of all timber within ten years. He characterized it as a needless sacrifice of an asset of ever increasing value. It is felt that the sale will be the means of introducing several new companies into the business, this being made possible by the division of townships for sale into small lots.

Speaking on the question of limits a day or so ago, an operator who recently paid $350,000 for a tract of white pine in the Nipissing country, gave it as his opinion that the present price of pine on the stump would hold, no matter how the price of the manufactured article might fluctuate. Judging from the figures quoted on recent sales of limits, his opinion is held in common by the majority. The standing pine is being cut in some limits faster than is imagined, and at a pace that outdistances natural reproduction. As an instance, in the Kippewa district the coming season's cut of waney and square timber will be considerably less than that of last season.

The call for the lumber jack is heard in the land. Some of the lumber companies profess no difficulty in securing men, while others say they are having trouble. The lateness of the Ontario harvest and the exodus to the Northwest, to both of which are attached high wages, have combined to deplete the available supply of lumbermen. With the completion of the harvesting operations, however, the situation will be relieved. A number of the firms having retained the names of last season's good hands, are re-engaging them easily this time. From the Soo comes the report that the Lake Superior Consolidated Company is after 2,000 men, many of which are being hired here.

Everything is moving briskly up in the Georgian Bay district, and the late logs are coming along satisfactorily. A sale of limits is reported from Thessalon. N. & A. Dyment, of that town, sold two townships recently to George Neibergall & Son, of Windsor. This firm will establish a well equipped mill at Echo Bay, on the Soo branch of the C. P. R. Ritchie Bros'. mill at Aylmer, Que., above Ottawa, will have a record cut this season, amounting, it is expected, to fully 20,000,000 feet. It is mostly intended for the English and South African market, but Buffalo will get some. The red pine goes to Watson & Todd, Liverpool, and the white pine to the W. C. Edward Company.

The Pembroke Lumber Company's mill has been shut down at night, and the gang sent forward to work in the camps. The Shephard & Morse mill at Hintonburg was also shut down on night operations on account of the exhaustion of the log supply. It will resume night work shortly, however, as more logs are on the way.

The recent accident at Fraser & Company's new mill, whereby the power house was laid in ruins by a cyclone, will delay the commencement of cutting operations about six weeks or two months.

LUMBER SHIPMENTS TO THE UNITED STATES.

The shipments of lumber from Canada to the United States continue to increase. The last statement compiled covers the eleven months ending May 31st, 1903. The export in that period was 653,358,000 feet, valued at $9,603,274, as compared with 594,596,000 feet, of a value of $8,253,168, for the eleven months ending May 31st, 1902. This is an increase of over 58,000,000 feet. There is also a steady increase in the value of lumber exported, the average price this year being 15 per cent. higher than in 1901 and 6 per cent. above that in 1902.

The increase in value and amount of shingles exported is about in line with that in lumber, except that the price is increasing at a greater ratio than the volume. The export for eleven months ending May 31st for three years was as follows: 1903, 653,487,000 shingles; 1902, 624,736,000; 1901, 483,946,000. The average value for the three years was $2.06, $1.92 and $1.85.

TIMBER LIMIT TRANSACTIONS.

Richard Keay & Company have bought the Hanbury timber limit in the Duck Mountain district, Manitoba, and will operate it in future.

Christie & Fraser, of Victoria, B. C., have purchased from the Erie Milling Company their timber limits and logging outfit on Guilford Island, the purchase price being in the neighborhood of $15,000. There are some 12,000 acres of timber lands.

It is rumored that American capitalists are negotiating for the purchase of the timber limits and mills of the William Richards Company at Campbellton, Chatham and Boiestown, N. B. It is also stated that an American syndicate has an option on the properties of the Edward Sinclair Company, of Newcastle, N. B.

The Michigan Land & Lumber Company, of Blind River, Ont., are reported to have sold about one-half of their timber limits in the Algoma district to the Morgan Lumber Company, of Toronto. The limits sold are estimated to contain between 65,000,000 and 75,000,000 feet of timber and the deal includes the logging outfit of the Michigan Company. The consideration is said to be $300,000 cash. The company still holds three townships estimated to contain 75,000,000 feet, but it is unlikely they will operate the coming winter.

Michael McAvoy, of Burks Falls, Ont., has the contract for taking out piles for the new government dock at that place.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, AUGUST 26, 1903 No. 30

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—TO RENT A PORTABLE SAW Mill; state charges per thousand feet. Apply Drawer 12 Hamilton.

WANTED—BASSWOOD AND HARDWOOD barrel heading, 5/4 and 8/4 beech, 2" and thicker soft maple and wormy chestnut. R. E. KINSMAN, Hamilton.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1¼, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care Box 22 CANADA LUMBERMAN.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.

One 10" x 18" Engine.

One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)

One pair twin engines, 10x16.

One No.2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.

One set Trimmers, to trim 6 to 24 ft., chains, mandrils and saws.

Also a quantity of Shafting, 2" to 4" pulley, and steam and water pipe.

One 14' x 60" Boiler; one top saw slash table.

About one mile of telephone wire, and two 'phones. For particulars apply to BOOTH & GORDON, Azilda, Ont.

FOR SALE

TWO CARS 1", 1¼", 1½", AND 2" DRY PINE No. 2 cuts and better. SOO LUMBER COMPANY, Sault Ste. Marie, Ont.

Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier Ont.

PINE LIMIT FOR SALE

13½ MILES ON PIGEON RIVER, THUNDER Bay. Limit lies on river bank 50 miles from Fort William. A splendid location for good saw mill. Dray haul will water bulk of timber. Owner quitting lumber business. Limit will be sold at a bargain. Box 790 CANADA LUMBERMAN, Toronto.

FOR SALE

Sealed tenders addressed to the undersigned will be received up to and inclusive of the 5TH DAY OF SEPTEMBER, A. D., 1903, for thirty acres of timber, being the southerly thirty acres of the north half of lot 19 in the 7th concession of the Township of Yarmouth, in the County of Elgin, the property of L. C. Cottington. The timber consists of White Ash, Black Ash, Rock Elm, Soft Elm, Hard Maple, Basswood, Beech, Hickory, White Oak and other timber. The highest or any tender not necessarily accepted. For further particulars apply to

W. L. WICKETT,
Barrister, Etc.,
St. Thomas, Ont.

Dated August 17th, 1903.

Land well timbered with Hemlock, Maple, Birch and Cedar. Will either sell outright or one-third interest to practical man who will manage business at reasonable salary. Apply to COCKBURN, WHALEY & CO., Guelph, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

If present trade is any criterion of the fall demand, an active lumber business may be expected. No one complains of more than seasonable dullness, while the number of inquiries received indicates an early change for the better. Investigation leads to the conclusion that the stocks of dealers and consumers are generally light and in need of replenishment. Buyers have held off in the hope of being able to purchase to better advantage, and being unsuccessful are now disposed to accept the inevitable. The proposed increase in pine stumpage dues is not indicative of lower prices for lumber.

There is an active demand for low grade pine, particularly box lumber and mill culls. The consumption of box lumber this season has been exceptionally heavy, box factories being operated to their utmost capacity. The position of mill culls is equally strong. The price at the mills in the Georgian Bay district is in the neighborhood of $10.50 per thousand feet This price has been paid by American buyers, and with a duty of two dollars and freight rate of from $1.50 to $2, means a total cost for the stock laid in the yards on the west coast of Lake Huron of upwards of $14. The good end of pine is also much inquired for, leaving the intermediate grades the most inactive.

The demand for hardwoods is not less pronounced than heretofore. The mills have very little dry stock for sale. Prices are uniformly firm, with singular strength in birch, which is meeting with a heavy call for furniture manufacture. Basswood is slightly more plentiful than earlier in the season, but still in short supply.

QUEBEC AND NEW BRUNSWICK.

The past week has witnessed considerable activity in lumber shipments from the Eastern Provinces. Montreal exports have been quite heavy, consisting chiefly of the Ottawa valley production. The spruce market maintains its strength. Boston is a large buyer of clapboards even at the high prices now ruling. There has lately been received several inquiries for cargo lots of spruce lumber for shipment to New York, where the demand is quite active. In some sections, principally eastern Nova Scotia and Cape Breton, there is a scarcity of spruce sheeting and flooring.

It is necessary to quote a wider range for New Brunswick cedar shingles, as the market is still unsettled. Small manufacturers are offering extras as low as $3.35 for Boston delivery, while a few of the more prominent manufacturers are holding out for $3.50. It is probably within the mark to say that the bulk of the transactions are on the basis of $3.40 for extras, with clears fluctuating between $2.85 and $3.

MANITOBA AND BRITISH COLUMBIA.

The general tone of the lumber market throughout the west is not as firm as it was, although the demand is still of fair proportions. Lower prices are predicted by some, while others argue that after the crops are harvested the demand will be such as to keep prices steady. The shingle mills in British Columbia which cater to the Canadian trade are now closed down, in accordance with the general resolution, but those supplying the American market are still in operation. The demand for shingles from the North-West has practically ceased temporarily. The position of loggers has not improved, one of the largest firms in the province having been compelled to make an assignment within the past week.

UNITED STATES.

Taken as a whole the lumber market of the United States is more active than at last writing. Buffalo and Tonawanda dealers are making large shipments to the Eastern States and travellers from that district have returned with very satisfac-

tory orders. If labor matters at New York should become permanently settled for this season it would do much to still further revive the eastern markets. Price lists issued indicate that there has been no weakness. Some Buffalo dealers are asking $100 for 6-inch white pine uppers, $94 for 4-inch, $80 for 2-inch and $75 for inch selects. While receipts at that point have been quite heavy stocks have not increased to any extent. Business at Bay City and Saginaw has improved during the week. There is more inquiry for lumber and some dealers who purchased earlier in the season are being offered an advance of fifty cents a thousand on what is still to be manufactured for them at the mills. Much interest is taken in the meeting of the Mississippi Valley Lumbermen's Association to be held this week. The Association has been making inquiry into stock conditions with the object of revising the price list. It is probable that an advance will be made in the price of dimension, as everything points to a serious shortage in this class of lumber. The percentage of dimension being sawed is very small and it is thought that the production might be stimulated by raising the price. The hemlock manufacturers are also considering the question of advancing prices.

A decline in cargo spruce was predicted some time ago, but owing to the fact that the logs have been slow in reaching the mills the opposite condition has resulted. Prices have stiffened materially, the supply being below the demand and many mills refusing to quote figures. Some of the Bangor mills have sawed all their logs. A freer movement of spruce lumber may be expected in September, and an easing off in prices would not be unnatural.

Oak and basswood still lead among the hardwoods, although the entire list is active and firm. Our Buffalo quotations this week show an advance of $2 in ash and elm. Good ash is very scarce and is being replaced by maple to some extent. Birch is also selling quite freely.

GREAT BRITAIN.

It is difficult to reach a conclusion as to the actual condition of the British lumber trade. One usually reliable authority states that the receipt of large shipments has taken the edge off the market and that prices are maintained only with difficulty. On the other hand, information from other sources indicates an improvement in trade and a somewhat hopeful feeling in regard to the outlook. Canadian lumber has been firm all season, and now it is stated that White Sea shippers have absolutely refused to make any concessions whatever, stating that if they cannot obtain their present asking prices they will hold their stocks over until next season. For the first seven months of this year the imports of sawn and planed lumber were 2,919,921 loads, as against 2,899,963 loads for the corresponding period of last year. Thus it will be seen that the increased import is very slight. As the consumption has been of average volume, the stock on hand is not large.

The retail trade are placing orders more liberally, having apparently realized that there is not likely to be any material slump in the prices of the best class of lumber. First quality pine deals range from £25 to £31 per standard, while third quality sell as low as £12. The strength of spruce deals is frequently commented upon by the trade. At some points, especially Bristol and Liverpool, the stock of the better grades is unusually low. Red pine deals now command from £19 10s to £22 for first quality, and from £13 to £15 for second quality. Some dealers are carrying more than an ordinary stock of red pine on account of its lower price in comparison with white pine, believing that the demand for it will steadily grow. Waney and square pine timber is in good demand at high prices.

STOCKS AND PRICES.

During the week ending August 15th 29 vessels reached the Tonawandas, with a total of over 22,000,000 feet of lumber.

The steamer Dunmore Head, from Montreal, with a cargo of deals for the Imperial government, arrived at Portsmouth last week.

J. Carew, of Lindsay, Ont., has secured a contract to supply ties for the Lindsay, Bobcaygeon and Pontypool Railway.

The schooner Eduardo is loading lumber at Bear River, N. S., for Grenada, Clarke Bros. being the shippers. The barque Hornet is loading at Annapolis, N. S., for Havanna.

P. S. McManus, of Memramcook, N.B., has secured a contract for the reconstruction of the Courtenay Bay branch of the Intercolonial Railway. The work will call for over 1,000,000 feet of timber.

The last of the drives on the St. Croix river, N. B., which left Vanceboro, on July 6th, reached Milltown, on August 15. Very few logs were left behind on any of the St. Croix waters.

The tug Harrison arrived at Owen Sound Ont., last week from Byng Inlet, with a raft comprising 750,000 feet of logs for the John Harrison & Sons Company. The company have still 3,000,000 feet at Byng Inlet to be brought down this season.

The cooperage trade is in fairly good condition. There are practically no No. 2 staves nor heading in stock at Buffalo. Jobbers quote first-class elm flour barrel staves at $9.75, mill run at $7.50, and second-class at $6; first-class basswood heading 7 cents, mill run 6½ cents; coiled hoops $9.75 for 5½ foot, $10.25 for 6 foot.

Daniel McCoy, of Grand Rapid, Mich., and others have timber estimators at work in British Columbia on a tract of timber 100 miles in length and 2 miles wide, covered with fir, spruce and cedar, estimated to cut 2,000,000,000 feet. If reports are favorable a syndicate will purchase the property.

Licenses to cut timber on the following berths will be sold at Fredericton, N. B., on September 2nd: Two square miles at mouth of Crystal Brook, Nepisiguit river, R. McEwan, applicant; 4½ square miles on Never's Brook, branch of Caanan river, J. H. Barry, applicant; 2 square miles at head of Gibson's creek, George W. Masten, applicant; 2 square miles south of Shediac river, east of McLaughlan road, J. H. Barry, applicant; 2 square miles on Salmon river, Henry Lamp, applicant; 3 square miles on north branch of Oromocto river, F. Phillips, applicant.

Of the lumber demand in the Barbadoes Messrs. Clairmonte, Man & Company say: "Just now our market for white pine is moderately supplied. Last local sales of small lots ex Talmouth was at $22.43 as it runs. Last sale of spruce was at $17.29. After our reaping season is over, the demand for lumber, especially spruce, generally falls off. The last importation of Gaspe long cedar shingles was 100,000 of small size from St. John, N. B., which sold at $3.33 per M. Good large size are worth $4.50 to $5. Cedar laying are held at $2.24 to $3.20 according to quality, and spruce laying at $2.24."

The Mississippi Valley Lumberman thus refers to the white pine lumber market: "The white pine situation has shown marked and decided improvement within the past ten days or two weeks. This fact is made apparent by the reports of manufacturers in the two valleys. There is but one strong reason for this. They now more thoroughly appreciate the situation. During the past month a number of large companies permitted their quotations to sink considerably under list. Concessions have even been made on items that are in very small supply all over the country. Something of the nature of panic was experienced, though statistically the market should have been in the best of conditions. They were unable to withstand the many times repeated reports of crop failures and light demand for lumber. Most of them appear to have come to their senses again and the market to-day is much stronger than it has been for some time. There can be no doubt but that the demand for pine has increased, principally from the country trade. The line yards are placing more numerous and heavier orders than was the case three weeks ago and this condition is also true of the small dealer. Their confidence has been restored by the late crop reports, which show that the damage to grain in different parts of the pine territory will not be as large as expected. The wheat crop will be of fair size and in addition wheat prices are soaring, promising as heavy returns in actual money as ever received by the northern farmers.

Messrs. Farnworth & Jardine, Liverpool, Eng., quote the following prices for Canadian lumber:

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar cares to put in several machines to work broom handles we can take his outpnt. Write in first instance to Empire, care of CANADA LUMBERMAN.

It is understood that several Georgian Bay lumber firms are interested in the recent assignment of George Wilson & Company, builders and lumber merchants, St. Catharines, Ont. The liabilities are said to amount to $100,000. The cause of the failure is reported to be the loss sustained by the late fire in the lumber yard.

BRITISH COLUMBIA LETTER.

(Special Correspondence of the CANADA LUMBERMAN.)

The lumber industry in all parts of British Columbia is in a fairly prosperous condition. For the past few months large shipments have been made by land and sea, and orders continue to come in, necessitating some of the mills running overtime to fill rush orders. Trade in Manitoba and the Territories is very satisfactory and will likely continue so. Reports of lumber agents in those parts state that although the crops in Manitoba are not equal to those of last year by at least fifteen per cent.; the condition of buyers financially is satisfactory and the price of grain is higher than last year, which will more than compensate for the shortage. Prices for foreign shipments remain firm and the demand fair.

In the shingle industry, there has been an over-production, and the mills, with the exception of two or three of the smaller ones, have signed an agreement to shut down for thirty days to relieve the situation. Many of the mills have been running two shifts for some time and the market has been temporarily overstocked. It is not the intention of the Manufacturers' Association to make any cut in price, and eastern buyers who have been endeavoring to "bear" the market are not likely to accomplish their object, unless something unforeseen occurs. The manufacturers almost to a man are resolved on keeping the prices firm, and there is little fear of the price of shingles being lowered below a fair profit-making basis.

The logging business has been overdone. "Hot air" newspaper accounts of the enormous profits that were to be made in the business, induced inexperienced men in the business to invest, with the consequence that there were about one-third more logs going into the water than the mills had a market for. The result has been that prices of the inferior grade of logs have fallen $2.50 per thousand feet, which practically places many of them below cost. Some firms have already assigned and more are likely to follow. Many of those now in the business are closing their camps and the industry will regain its equilibrium shortly. Over-booming of the industries of British Columbia by the press has its detrimental effects, and it would be wisdom for intending investors to make careful investigation as to where a market for their product is to be found before making investments in the lumber and shingle industry. There are more than enough mills in the Province to supply what Canadian trade comes to British Columbia, and lumbermen here are practically shut out of the United States market by the duty. On the other hand, United States rough lumber and shingles come into Canada free and in some instances this country is made the dumping ground for their surplus.

FOURTH QUALITY PINE.

It is pleasant to be able to report in favor of consumers that the culling of pine —especially in 3rd quality deals—is generally found to be satisfactory. Several parcels which we have personally inspected are so good as to remind us of the high-water mark of a few years ago. It is evident, therefore, that £13 c.i.f. for an ordinary specification of 3rd quality 3 in. deals is leaving the maker a sufficient margin of profit to raise the culling, and thus in another form to help the British importer to better please those he has to cater for. The worst feature of the demand is seen in the cabinet trade, in which direction the bulk of the 4th quality deals shipped are required. This big demand is now being partially supplied by the lower qualities of planed canary whitewood and cottonwood in thin kiln-dried sizes practically ready for use. Both these American woods are now admitted to be equally good substitutes for common pines, with the extra advantage of being regularly obtainable at a relatively lower range of values. This fully accounts for the shrinkage in 4th quality Canadian deals apart from the prevalent dulness in all classes of cabinet work.—Liverpool Timber News.

SHIPPING MATTERS.

The following charters are reported: Barque Familigia Cavello, Halifax, N. S., to Newport, Cardiff or Swansea, deals, 30s 6d; str. Director, Dalhousie, N. B., to w. c. England, deals, 37s 6d; barque Argo, same voyage, 42s 6d; str. Scottish Hero, Miramichi, N. B., to London, deals, 40s, August-September loading; barque Hector, Weymouth, N. S., to Buenos Ayres, lumber $8; barque Prince Victor, Miramichi, N. B., to Dublin or Belfast, deals, 41s 3d.

Manxman, for Liverpool, 15,903 pcs. deals, ends and boards, by Watson & Todd.

THE BOSTON MARKET.

Spruce lumber is still very firm at Boston, with the market only moderately supplied. The situation in Maine is unchanged, most of the mills on the Penobscot and eastern rivers being short of logs. The demand is fair, with the prices unchanged: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock is easier for eastern stock: Boards, 12, 14 and 16 feet stock, $14.50 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is a firm market for western pine lumber, though the demand is quiet: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2 1-2 to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is firm with a steady demand: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Some off grade shingles are still selling at low prices, but generally the market is steady; western red cedars are firmer: Extra cedar, $3.35 to $3.50; clear, $2.90 to $3.00; second clear, $2.25 to $2.40; extra No. 1, $1.50 to $1.75; British Columbia red cedar, 16-in. five butts to 2-in., $3.45 to $3.50; 18-in. five butts to 2 in., $3.75; five butts to 2¼ in., $3.90 to $4.

Laths are quiet: One and five-eighth in., $3.15 to $3.25; 1½-in., $3 to $3.10.

TIMBER LIMIT TRANSACTIONS.

Later advices from Fredericton, N. B., substantiate the report that E. H. Sinclair has disposed of the Sinclair timber limits in Northumberland county, to American capitalists. The property covers 150,000 acres and it is reported that the consideration is $400,000.

James M. Scott, of Dumfries, W. J. Scott, of Springhill, and John S. Scott, of Fredericton, N. B., have purchased the lumbering property at Fredericton, formerly owned and operated by the firm of Hale & Murchie and more recently by John R. McConnell, of Marysville. The property includes the Victoria saw mill with wharves, dwelling houses, etc. Scott Bros. own large tracts of timber lands in the vicinity of Maguadavic Lake and have recently purchased from Chipman & Eaton, of St. Stephen, upwards of 50,000 acres in that vicinity well timbered with spruce. It is their intention to cut about 6,000,000 feet of logs on this property next winter. They have also secured large timber limits on the upper waters of the St. John river.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 14th August, 1903. The names of the parties may be obtained from the publishers of this journal.

Inquiry is made for names of Canadian manufacturers of oak mouldings.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, SEPTEMBER 2, 1903 No. 31

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—TO RENT A PORTABLE SAW Mill; state charges per thousand feet. Apply Drawer 12 Hamilton.

WANTED—BASSWOOD AND HARDWOOD barrel heading, 5/4 and 8/4 beech, 2" and thicker soft maple and wormy chestnut. R. E. KINSMAN, Hamilton.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1¼, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care BOX 22 CANADA LUMBERMAN.

Price $45 per M pieces. Will sell entire right for Dominion. Drawings and specifications on application. A. J. BURTON, Parry Sound, Ont.

The saw mill at Carleton, N. B., owned by J. A. Gregory, of St. John, was destroyed by fire last week, together with about $1,000 worth of lumber belonging to Mr. Driscoll.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber business is fully up to normal in volume and the outlook for the future is satisfactory. There is evidence of buying in anticipation of fall and winter requirements, some dealers being disposed to place their orders earlier than usual in order to forestall the car famine which develops every fall. The lower grades of white pine are moderately active, but there is less call for the intermediate and higher grades. Manufacturers still report numerous inquiries for box lumber. The advisability of making an advance in the price of box grades has been discussed, but the general disposition seems to be to pursue a policy of conservatism and encourage consumption by keeping prices at a reasonable basis. A slight improvement in Norway lumber is reported from the Ottawa district. There continues to be a heavy trade in hemlock at unchanged quotations, the attempt to advance certain sizes having been frustrated by offerings by the smaller mills. The hardwood market is characterized by a short supply in relation to the demand. Very few mills are carrying more than a moderate stock, while some of the largest manufacturers are almost completely sold out.

Prices of white pine lath are tending towards weakness. The demand is not as large as might be expected at this season of the year, while the supply in certain districts is comparatively large.

QUEBEC AND NEW BRUNSWICK.

The lumber trade of the Eastern Provinces continues in a healthy condition. There have been no recent sales of square or waney timber, consequently the list is unchanged. Large shipments of spruce lumber are being made to the New York market, where prices are about one dollar per thousand higher than at last writing. The demand is fully equal to the supply, with some sizes exceptionally scarce. Laths are more active and slightly higher. New Brunswick cedar shingles are still uncertain. Fancy brands bring $3.50, but the bulk of sales are probably being made at $3.40 for Boston delivery. Clears range from $2.85 to $3, and seconds from $2.25 to $2.40.

The lumbermen are sending men into the woods for the winter's operations. Wages are about the same as last year, $26 to $30 being paid for good men.

MANITOBA AND BRITISH COLUMBIA.

The movement of lumber throughout the North-West continues large. Prices generally are firm, although some dealers are said to be making a slight cut in one or two grades. There is no abatement of

the building activity in Winnipeg and a large quantity of lumber is being consumed. The situation is respect to British Columbia shingles is unchanged, the mills being closed down. On the other hand, the saw mills are working full time and are behind with orders. This is largely the result of active local building operations. A recent trial in the courts to decide the legality of loggers holding logs for wages has resulted in a victory for the loggers.

UNITED STATES.

Dealers in pine lumber were much interested in the meeting of the Mississippi Valley Lumbermen's Association held last week, for two reasons, first, that changes in the price list would be considered, and, secondly, on account of the statistics that would be presented. The Price List Committee made only unimportant changes. Dimension over 18 feet was advanced 50 cents, and piece stuff of 10-foot length was made the same price as 12, 14 and 16 foot; 6-inch No. 3 fencing, E siding and lath were reduced 50 cents, and D siding $1. The list, it may be said, remains unchanged, as the advances in some lines were offset by reductions in others. The report of the secretary showed the pine market to be in a strong position statistically, with a pronounced scarcity of box grades. Lumbermen are inclined to the opinion that all the lumber manufactured will find a market at prices now ruling.

In the East conditions continue to brighten. Box lumber and mill culls are as scarce as ever. A Buffalo dealer says that the price of 12-inch box pine is now established at $20. There is not a large call for the higher grades and occasionally a slight cut in price is reported. There is no oversupply of hemlock, which continues in active demand. Piece stuff is taken as fast as it is ready for the market. Among the hardwoods birch and basswood are in short supply; dealers are meeting with some success in selling other kinds of lumber as a substitute for basswood. A slight advance has been made in the price of maple. In New York City the hardwood market is active and firm, with the better grades of both plain and quartered oak finding ready sale at high prices.

GREAT BRITAIN.

The British lumber market does not yet show any decided tendency. It is feared that unless the consumption shall improve lower prices will rule for Baltic lumber, of which the quantity on hand in the leading centres is somewhat large. A few cargoes of pitch pine lumber have lately been received at London on consignment, which is not regarded as a favorable sign. These circumstances have affected Canadian stocks to some extent, but on the whole they are relatively firm. Good pine stocks are in a strong position, and with an increase in consumption higher prices could easily be obtained, especially for first and second qualities. There is a further slight improvement in spruce deals. Shipments from the St. Lawrence have been below the average this year and promise to be small for the balance of the season. A cargo is said to have been recently placed at London at £9 15s for 3×9 seconds and £9 for thirds. Prices of square and waney pine timber are very high, causing a curtailment in the consumption for certain purposes. At London the stock of elm timber is low, but prices realized at recent auction sales do not indicate that the market is particularly firm. There has been an improvement in flooring boards, the supply of which is light.

London dealers are making considerable shipments to South Africa. There is a fair demand there for building lumber, the price of deals ranging from 6d to 8d per foot run.

STOCKS AND PRICES.

Cedar 18-inch shingles are held in Chicago at $2.60 and $3.60, and 16-inch at $2 and $2.45.

Cleveland dealers report a great scarcity of Norway lumber and the winter will find yard assortments badly broken.

The steamer Forest Holme took on deals at Montreal for London, completing her cargo at Riviere de Loup, whence she will sail this week.

The steamer Bray Head sailed from Quebec on Saturday last with a full cargo of deals for Plymouth and Davonport, for the Imperial Government.

Lath in the cargo and carload trade at Chicago is moving moderately at $3.45 to $3.50 for white pine and Norway and $2.50 for hemlock and No. 2 pine mixed.

The Pigeon River Lumber Company, of Port Arthur, Ont., have three logging camps and one road camp in operation on their limits, and more will be started as soon as men can be secured.

Raworth Bros. have cut 1,200,000 feet of lumber at Hampton, N. B., for Flewelling Manufacturing Company. The mill has been removed to Bonny River to saw 2,000,000 feet for John E. Moore.

The receipts of lumber at the Tonawandas for the week ending August 22 were about 10,000,000 feet, bringing the total for the month to that date up to 50,000,000 ft. There is considerable lumber on its way down the lake.

The Temiskaming and Northern Ontario Railway Commission are asking for tenders up to September 25th for the delivery of 135,000 ties along the right of way between the 72nd and the 112th mile of the Temiskaming and Northern Ontario Railway. Tenders are to be addressed to P. E. Ryan, Manning Arcade, Toronto.

A sale of No. 4 boards was recently made at Duluth, Minn., at $12, which is the top of the market so far. No. 1 and No. 2 strips are claimed to have been sold at about $2 better than the ordinary price. The demand is far better for lower grades of pine than for higher qualities.

The attention of our readers, and especially dealers in shingles, is directed to the advertisement in this issue of Woods & Spicer, Limited, of Vancouver, B. C. They are anxious to hear from dealers either in the United States or Canada who handle 20 or 24 inch shingles, and no doubt they have something good to offer.

The Georgian Bay lumber firms are making preparations for work in the woods. The Victoria Harbor Lumber Company will employ about 600 men if they can be obtained. They will have three camps on the Wahnapitae river, two on the Sturgeon river and one on the French river. The total cut will probably exceed 20,000,000 feet. Pitts & Charlton will operate on the Whitefish river and expect to cut between 15,000,000 and 20,000,000 feet.

The New Brunswick Government will offer the following timber berths for sale at the Crown Lands Office, Fredericton, on Wednesday, September 9th: Two square miles on West Branch, No. 18 Brook, Little River, A. Cushing, applicant; two square miles on Green river, below Emerson Farm, R. A. Estey, applicant; two miles on Nevers Brook, branch of Caanan river, Thomas Campbell, applicant; two miles on North East Branch Pickett's Cove, C. H. Mott, applicant.

Though there is a report of light buying of various hardwood lumber in the eastern markets, it is all laid to the midsummer season, and there are already indications of a return to the former demand. All hardwoods, says the Buffalo correspondent of the American Lumberman, are doing well, unless it be white ash, which has given way to substitutes. The need of oak is so great that all grades are eagerly taken. There is a larger sale of basswood than formerly, though the price is strong at $40 for inch. Maple is running up in price and will soon be one of the expensive woods. It brings $22.50 in Michigan and reports come in that the Michigan Maple Company is turning down all orders, having sold so far ahead. Certain dealers report the receipt of chestnut and birch, but there is no regular supply of either to be had. They go out about as soon as the consumer learns of their existence.

The new list compiled by the Mississippi Valley Lumbermen's Association fixes the following prices for common boards f.o.b. Minneapolis, taking effect August 25, 1903: No. 1, 13 inch and wider—12, 14 and 16 ft. $23; 18 and 20 ft. $24. No. 1, 12 in.—10 ft. $24.50; 12, 14 and 16 ft. $23.50; 18 and 20 ft. $25.50. No. 1, 10 in.—10 ft. $21.50; 12 ft. $20.50; 14 and 16 ft. $19.50; 18 and 20 ft. $22.50. No. 1, 8 in.—10 ft. $17.50; 12 and 14 ft. $19.50; 16 ft. $20; 18 and 20 ft. $19.50. No. 2, 13 in. and wider—12, 14 and 16 ft. $19. No. 2, 12 in.—10 ft. $20.50; 12 and 14 ft. $20; 16 ft. $19; 18 and 20 ft. $22.50. No. 2, 10 in.—10 and 12 ft. $18; 14 and 16 ft. $17; 18 and 20 ft. $19.50. No. 2, 8 in.—10 ft. $15.50; 12, 14 and 16 ft. $17; 18 ft. $16.50; 20 ft. $16.50. No. 3, 12 in.—10 and 12 ft. $17.50; 14 and 16 ft. $16.50; 18 and 20 ft. $18. No. 3, 10 in.—10, 12, 14 and 16 ft. $15; 18 and 20 ft. $18.50. No. 3, 8 in.—10 ft. $14; 12, 14, 16, 18 and 20 ft. $15. No. 3, 4 in. and wider—10 ft. $13.50; 12, 14, 16, 18 and 20 ft. $14.50. Lath prices were fixed as follows: No. 1 white pine, $3.50; No. 2, $2.50; mixed $3.

BUSINESS NOTES.

W. H. Higgins, of Vancouver, who has for several years conducted the largest individual logging business in British Columbia, has been compelled to make an assignment for the benefit of his creditors. The cause of the failure is officially stated to be the present stringency of the timber market, Mr. Higgins having now on hand between five and six million feet of logs which are unsaleable, but which at ordinary prices would realize more than sufficient to pay the liabilities. The liabilities are estimated at something like $20,000. The plant for logging at Toba Inlet is said to be worth $25,000. It is said that Mr. Higgins recently offered 3,000,000 feet of logs at $4.50 per thousand, which is claimed to be less than cost price, whereas two months ago he could have obtained from $7 to $8 for the same logs.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar cares to put in several machines to work broom handles we can take his outpnt. Write in first instance to Empire, care of CANADA LUMBERMAN.

WHITE PINE STATISTICS.

The report of the white pine production in the territory covered by the Mississippi and Wisconsin Valley Lumbermen's Associations states that estimates of the probable production indicate that on the whole there will be a slight increase in this year's cut. The mills have so far this season sawed about 20 per cent. less piece stuff than last year. There has been a steady decrease in the percentage of piece stuff on hand during the past four years. There is less shop lumber being produced this year than last, as less No. 3 shop is being put in pile. No. 4 boards which were in plentiful stock at the beginning of the season are reported well cleaned up. This is particularly true in the Wisconsin valley.

An increase in the amount of lath on hand August 1st is reported, being in the neighborhood of 7 per cent. over that of August 1st of last year.

Statistics showed that the lumber manufacturers of the Mississippi and Wisconsin Valleys held on August 1, 1900, 11 per cent. less lumber than they had on August 1, 1899.

On August 1, 1901, they had 7 per cent. less stock on hand than on August 1, 1902, making a total shortage of last year over 1899, of 25 per cent.

We find, after as careful an investigation as we can make, that the stock on hand August 1 this year, is slightly in excess of that on hand last year, or about 3.2 per cent. This shows that stocks are still far from normal.

On January 1st the combined inventories showed a decrease of 1.3 per cent. over the stocks on hand January 1, 1902, or a total of 1,484,127,575 feet.

Shipments for the first seven months of the year by the members of both associations amounted to 1,235,133,863 ft., which is 1.4 per cent. greater than the total reported by the same firms for 1902. The consumption in the Northwest and shipments to Chicago and the East count for the increase.

The steam saw mill owned by William McNutt at Tay Creek, York County, N. B., was burned on August 24th, also 30,000 feet of lumber and 45,000 shingles.

LUMBER PRICES IN LONDON.

Prices realized at the last auction sale held by Churchill & Sim, London, England, were as follows:

FIRES.

The shingle mill of Phillips Bros. at Flesherton, Ont., with a quantity of shingle stock, was burned a few days ago.

On August 28th fire broke out in the lumber yard of the Sheppard & Morse Lumber Company at Ottawa, but it was extinguished before much damage was done. About 100,000 laths were destroyed.

GEO. H. SHAW, Traffic Manager, Winnipeg, Man.

TIMBER LIMIT TRANSACTIONS.

It is reported that the Rat Portage Lumber Company, of Port Arthur, Ont., have recently purchased a large area of standing timber in Minnesota.

The saw-mill and timber limits of S. C. Smith, of Enderby, B. C., have been purchased by J. A. Taylor, of Arrowhead. The limits are located on Sugar Lake.

Prouty & Miller, of Newport, Vt., last week purchased from the Eastman Lumber Company, of Eastman, Que., 34,000 acres of timber lands on the eastern side of Mount Orford and in Bolton township, Quebec. The price paid was in the vicinity of $25,000.

The large demand for birch is a feature of the hardwood trade. This lumber is now used very largely for the manufacture of furniture.

NOTES.

Haines & Company, of Buffalo, have received 3,600,000 laths within the past ten days.

It is reported that Pacific coast red cedar shingles have been advanced 5 cents per thousand.

Hemlock is selling in Chicago at $12.50 to $14. Norway pine piece stuff is held at $16.50 for short and $18 for long.

His Honor Judge Bole, in County Court at Vancouver, B. C., decided that the men who claimed liens for wages against the booms taken out of the woods for G. H. Finlay & Company had valid claims. Finlay & Company were logging on the Squamish, and had a boom of 1,000,000 feet at the mouth of the river, another about twenty-five miles up from the river mouth, and also had timber in the woods near the camp. The firm assigned, and the loggers filed liens for their wages under the Woodman's Lien for Wages Act.

THE BOSTON MARKET.

There is a quiet market at Boston for spruce lumber, but the supply is light, owing to the better prices in the New York market attracting the output of some of the leading Maine mills. Quotations are unchanged: Ten and 12 in. dimensions, $21 ; 9 in. and under, $19 ; 10 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock is quiet and easy : Boards, 12, 14 and 16 feet stock, $14.50 for good eastern ; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is quiet but very firm : Uppers, 1 to 2 in. $84 to $87 ; 2½ to 3 in. $92 to $97 ; 4-in. $96 to $100 ; selects, 1-in. $76 ; 1¼ to 1¾ in. $76 to $78 ; 2-in. $78 ; 2 1-2 to 3 in. $84 ; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72 ; 2½ to 3 in. $80; 4-in. $82 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Hardwoods are easier. Plain oak is quoted lower, but quartered oak is firm. Whitewood is also easier : Quartered oak, $75 to $83 ; plain oak, $42 to $45 ; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $51 to $53 ; sap, $43 to $48 ; common, $38 to $45; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31.

Clapboards are steady and unchanged : Extra, $45; clear, $43 ; second clear, $40 ; extra No. 1, $30.

Shingles are steady : Extra cedar, $3.35 to $3.50; clear, $2.90 to $3.00; second clear, $2.25 to $2.40 ; extra No. 1, $1.50 to $1.75 ; British Columbia red cedar, 16-in. five butts to 2-in., $3.45 to $3.50; 18-in. five butts to 2 in., $3.75 ; five butts to 2¼ in., $3.90 to $4.

Laths are firmer : One and five-eight in., $3.15 to $3.25 ; 1½-in., $3.10 to $3.15.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, SETEMBER 9, 1903 No. 32

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING. MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—TO RENT A PORTABLE SAW Mill; state charges per thousand feet. Apply Drawer 12 Hamilton.

WANTED—TO CORRESPOND WITH MILL Men having bright Spruce, first quality, suitable for piano sounding boards THE MASON & RISCH PIANO CO., Limited, Toronto.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1¼, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care BOX 22 CANADA LUMBERMAN.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.
One 10" x 18" Engine.
One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)
One pair twin engines, 10x16.
One No.2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.
One set Trimmers, to trim 6 to 24 ft., chains, mandrils and saws.
Also a quantity of Shafting, 2" to 4" pulley, and steam and water pipe.
One 14' x 60" Boiler; one top saw slash table.
About one mile of telephone wire. and two 'phones. For particulars, apply to BOOTH & GORDON, Azilda, Ont.

HAVING DECIDED TO CLOSE OUR sash and door department, we are offering our machinery and balance of materials at close prices. Apply to HENRY S CANE, Newmarket, Ont.

FOR SALE

TEN CAR LOADS OF DRY INCH PINE mill culls, different widths and lengths. Apply to MAITLAND, RIXON & COMPANY, Owen Sound, Ont.

On Georgian Bay, Lake Huron or elsewhere in Canada small or large. Address Box 426, London, Ont.

FOR SALE

FACTORY FLOORING

KILN DRIED BIRCH, ABOUT 60 M. Box 442 CANADA LUMBERMAN.

WANTED

50,000 FEET 2" MILL RUN BROWN ASH and 100,000 to 500,000 feet Box Spruce. HURDMAN & ELMITT, Ottawa.

FOR SALE

ONE OF THE BEST PAYING AND MOST complete lumbering concerns in British Columbia, including limits, mill and plant, capacity five million per year, on which a net profit of over $20,000 per annum is being cleared. For particulars apply to X. Y Z, care CANADA LUMBERMAN.

FOR SALE.

240 acres Timber Land, 4½ miles from Durham, Ont., with good saw, shingle and lath mills complete; also good dwelling house and stables. Railroad switch can be put in property. Land well timbered with Hemlock, Maple, Birch and Cedar. Will either sell outright or one-third interest to practical man who will manage business at reasonable salary. Apply to COCKBURN, WHALEY & CO., Guelph, Ont.

The steam saw mill of William Bloedow at Killaloe, Ont., on the line of the Canada Atlantic Railway, was destroyed by fire last week, at a loss of $4,000. There was no insurance.

CURRENT TRADE CONDITIONS.

ONTARIO.

There are few new features in lumber circles to record. General conditions are satisfactory but business is on a conservative basis. Some consumers are postponing the placing of orders in the belief that the time has come for a reaction in prices. This disposition, however, has not impaired the firmness of values, and it is doubtful whether the buyer will be offered a greater inducement than is represented by current prices. Shipments to the United States are quite active. During the first seven months of this year there were exported to that country 313,000,000 feet of lumber and 365,186,000 shingles. While these figures represent a slight falling off in trade as compared with the corresponding period of last year, they indicate also a highly satisfactory volume of business. A comparison of prices shows an advance of about 60 cents per thousand feet in the price of lumber in favor of this year. The report from Ottawa that manufacturers are asking an advance for next season's production of deals is of an encouraging character. It is impossible to obtain the required number of men for logging operations, and it is probable that the production of logs this winter will be considerably curtailed from this cause. Doubtless the probability of a diminished production is the basis of the present asking prices for lumber of next year's manufacture. One or two of the Georgian Bay firms are said to be offering such grades as common and dressing at a slight concession, but this is the only instance of retrogression that has been heard of, and it is probably due to the relative dullness of the intermediate grades. These no doubt will firm up in due course.

There is not the slightest indication of any weakness in the hardwood list. There are many buyers throughout the country and the consequent competition has a tendency to bring about higher prices. Basswood and birch have been bought quite heavily.

Shingles are showing a little more activity, but prices are no stronger. An advance is not looked for at the present time, as persons are not anxious to buy heavily for stocking up purposes.

QUEBEC AND NEW BRUNSWICK.

Nothing has occurred within the past week to disturb the spruce market. Lumber is going into consumption locally in considerable volume and stocks are being picked up for export. New York is paying high prices for spruce, the settlement of labor troubles in that city having

been followed by a heavy demand for lumber of all kinds. The cedar shingle market has not yet shown signs of improvement. There seems to be more shingles offering than the market is capable of absorbing, and until confidence is restored prices are likely to be unsteady. Extras are selling at from $3.35 to $3.45 on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Lumbermen in Manitoba and the Territories have every reason to be satisfied with trade conditions, both present and prospective. On all sides there are signs of prosperity. Harvesting is in full swing and the yield promises to be greater than was estimated one month ago. Building activity in Winnipeg continues. Up to August 31st of this year the aggregate value of new buildings erected was $4,181,450, an unprecedented record which clearly indicates the large consumption of lumber in that city. Prices generally are firm. The saw mills and sash and door factories in British Columbia are busy, largely on orders for the provincial markets. No decision has as yet been reached as to the resumption of operations by the shingle mills, but it is understood that an agreement has been entered into relative to the allotment of the cut among the various mills. The amount of the daily cut will be fixed according to the capacity of the mills. In this manner it is hoped to prevent a recurrence of an abnormal accumulation of shingles.

UNITED STATES.

Such buying of white pine lumber as has been done during the past fortnight was largely for actual needs. That it has been sufficient to prevent a marked accumulation of stock at the mills signifies an average consumption. When speculative purchases shall become the rule, the consequent increased activity will produce a more hopeful feeling. Given an average yield of wheat and corn as now seems likely, a continuance of the country's prosperity for another year would be assured, and with it a normal demand for lumber at good prices. The high grades of white pine are accumulating to a greater extent than the lower grades, which are selling very readily. At Lake Erie wholesale points the supply of Norway framing dimensions and timber is short and dealers are looking for such stock with some anxiety. Norway lumber has improved in almost every market and there is ground for believing that it will command higher prices in the near future. Mill culls and box lumber are wanted throughout the Saginaw Valley. Buffalo and Tonawanda dealers report bright prospects for future trade. As a rule stocks in these centres are light and general conditions very satisfactory. Any uncertainty which exists is confined to the higher grades of pine, and as these cannot be produced in large quantities, there is little fear of a heavy accumulation.

All kinds of hardwood lumber are in demand. There does not seem to be a surplus anywhere, the current trade keeping all the available lumber in motion. The demand for basswood, maple, white ash and birch is strong. Basswood brings $40 in the Buffalo market, and elm $33. Boston reports a slightly easier market for hardwood, in contradistinction to advices from other places.

GREAT BRITAIN.

The prevalence of wet weather in Great Britain has not been conducive to an expansion in the lumber consumption. Buyers consider offers in an apathetic manner and apparantly will only purchase stock when in actual need of it. Predictions are rife, even at this early date, that lower prices will rule during next year, these being based usually on the large stock of Baltic lumber that has not yet passed out of first hands. Nevertheless, nothing but encouraging reports come to hand regarding the present position of Canadian lumber. A Liverpool correspondent states that although the consumption of waney and pine timber has been checked somewhat by high prices, a lower range of values is not likely to be established, but on the other hand prices are likely to advance when the higher rates of insurance for autumn shipments set in. The same remarks apply to Canadian pine deals and boards. The control of these is in few and strong hands. In spruce deals the position is as strong as ever. Shippers have very little stock to offer and indications point to a steady if not an advancing market for spruce deals until the close of the shipping season from the New Brunswick and Nova Scotia ports. At Cardiff spruce deals and floorings are held at advanced figures, in consequence of the quantities offering being much less than is usual at this period. A Bristol report says that the stock of spruce deals is lower there than ever before. At the present time conditions seem to favor the seller, and unless there should be a sharp falling off in the consumption, there seems little reason to expect that prices for Canadian lumber in Great Britain will not be as high next year as they have been during the past.

STOCKS AND PRICES.

The barque Alert is loading lumber at Digby, N.S., for South America, for account of Clarke Bros.

B. Connor, of Alma, N. B., recently purchased timber property from E. Wilson and will operate a rotary mill.

William Button, of Wingham, Ont., has recently purchased a lot of standing timber, chiefly hard maple and hemlock, in the vicinity of Creemore, Ont., which he will likely log during the coming winter.

William Margach, Crown Timber Agent at Rat Portage, Ont., states that lumbering operations in the woods this winter will be larger than ever.

The steamers Ovidia and Drot are loading deals at Montreal for the United Kingdom, the latter being destined for Sunderland and Dundee.

George McKean, of St. John, is reported to have purchased 7,000,000 feet of lumber from the Nova Scotia Lumber Company at Walton, N.S., probably for export to Great Britain.

The Saginaw Lumber & Salt Company have received 29,000,000 feet of pine logs this season at their mill at Sandwich, Ont., and have another raft of 2,500,000 feet yet to come down.

Eastern spruce boards in the Boston market range from $13.50 to $15. Pennsylvania No. 2 boards range from $15 to $16, with a decreasing demand for No. 1 at $18.50 to $19.

J. P. Mosher, who is manufacturing the cut of logs got out last winter at Musquash, N.B., by Knight Bros., has already sawn 1,200,000 feet of lumber and 800,000 laths. A cargo will be shipped to Great Britain this fall.

In Chicago hemlock short piece stuff is selling at $12 to $12.50; long lengths bring from $1.50 to $2.50 more than the prices of short. Norway piece stuff is held at $16 to $16.50 for short lengths and $17.50 to $19 for long. White pine common inch lumber is held by the cargo at $20 to $21. Cedar shingles by the cargo are $2.60 to $2.70, and standards $2.20 to $2.25.

A small quantity of pine and spruce deals were sold at the last auction sale held by Foy, Morgan & Company, London, England, on August 25th, bringing the following prices: Third quality spruce, 3x8, £7 15s per std.; 3x7, £7 10s; 3x6, £7; fourth quality, 3x9in. £8 15s. Pine—13 ft. 1½ x9in. C quality, £11 15s and £11 10s. Some pine doors from New York, 6 ft. 6 in. x 2 ft. 6 in. x 1½ in., brought 4s 6d each.

A report from Minneapolis, Minn., states that the red cedar shingle situation there is not promising. The dealers had been selling on a five cent. margin, which all declared too low, but when a five cent drop was registered on the coast the Minneapolis market followed suit and in some cases has even gone further. The proposed pool arrangement of the west coast mills is the only thing which can restore strength to the market.

Slack cooperage staves and heading are advancing in price. The supply is very light, considering the demand that is expected soon. The shortage is largely on account of the lack of men to get out logs. At Buffalo the price of hoops is $9.75 to $10 for coiled 5½ foot, and $10.50 to $10.75 for 6-foot with hickories $6.75 to $7. First-class elm staves are $10 to $10.50, and second-class $7 to $7.50; basswood heading 7¾ cents for first-class, and 5 cents for second-class.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to September 1st as furnished by the Supervisor of Cullers:—

	1901	1902	1903
Waney White Pine	984,375	1,591,600	1,420,040
White Pine	412,132	298,600	318,920
Red Pine	77,790	60,080	52,500
Oak	385,432	527,760	772,060
Elm	916,032	527,760	772,960
Ash	134,430	79,240	54,320
Basswood	264	.....	160
Butternut	944	.....	.....
Tamarac	198	.....	.....
Birch and Maple	306,842	164,800	196,640

Several timber berths were sold at the Crown Lands office, Fredericton, N.B., last week, as follows: Two square miles on mouth of Crystal Brook, Nepisguit river, to J. H. Barry, at $9 per sq. mile; 4½ miles on Never's Brook, branch of Canaan river, to T. B. Winslow, at $52 per mile; 2 miles at head of Gibson Brook, to George W. Marster, at $15 per mile; 2 miles on south side Shediac river, to J. H. Barry at upset price; 2 miles on Salmon river, to D. Duffy, at $17 per mile; 3 miles on north branch of Oromocto river, to South Bros., at $82 per mile.

The last report of the Barbados lumber market says: "Arrivals have been the "Letty M. Hardy" from Halifax, N. S., with 77,000 feet of white pine, and the "Lady Napier" from St. John, N. B., with 85,000 feet, which, owing to some of the dealers being quite bare, and stimulated by the probable demand from Martinique and Jamaica occasioned by the hurricane which has visited those islands, was sold at the very high price of $25.40 as it runs. Further receipts would do well. No arrivals of spruce have taken place, but in view of the high price of white pine a cargo should bring good prices. The cargo of shingles by the "Bravo" was sold at $5.09 to $5.29

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The one absorbing and prevailing topic in lumber circles is the scarcity of men, and it is not all talk either, for lack of help is proving a serious business in the yards and on the limits too. The late harvest in Quebec and Ontario and the prevailing high rate of wages drew the men to the fields and they are not available for the limits and mill yards. Of course, matters will improve as soon as the harvest work is nearing a close. Railway agents and mill men say that large quantities of lumber are lying in the yards awaiting shipment, but tied up for the reason that men cannot be secured to load it. One dealer this week offered three dollars a day, but could not get men to load a rush order. It is a big jump from eight or nine dollars a week in a mill yard to thirty dollars a month and board on a farm, and the unskilled laborer naturally prefers the latter.

For a similar reason, as has been remarked before, it is difficult to get men for work on the limits. The Georgian Bay firms are offering in Ottawa as high as thirty-five dollars a month and board for axe men. Local firms naturally do not welcome this intrusion, as it means increased outlay for them. Men are being forwarded almost daily from Ottawa, Thurso, Buckingham and other points to the Georgian Bay and Soo country. A firm operating near the Soo is said to have gone as far in its search for men as to have secured the release of six prisoners from the County jail. The aggregate amount of the fines, $50, will be deducted from the men's wages in the woods.

Many inexperienced men are finding their way to the lumber camps. Gruesome proof is given by the records of the local hospitals. Almost every day for the past fortnight, disabled novices at the log-making business have been brought down, a foot or a hand having been chopped instead of a tree. To-day there were four such cases. Yesterday a local lumberman rejected five of eight men offered for work in the woods.

Already calculations are being made on the quotations on next year's cut of deals. It is safe to say there will be an advance of from five to ten per cent., made necessary, so the operators say, by the advance in wages and the inferior class of labor offering. What will have to be taken as a good day's work this year would not have been accepted a few years ago.

Fraser & Company's new mill at Deschenes, above Ottawa, will be running full blast in a few days. The firm figures on cutting about five million feet of lumber this season.

Damage to the extent of $1,000 was done a few days ago in the Shepherd & Morse lumber yard, near the mill in Hintonburg. About three quarters of a million feet of lath was destroyed.

Work is rapidly advancing on Davidson & Thackray's new planing mill and sash and door factory in the west end of the city.

The MacLaren Company, of Buckingham, are busy shipping dimension timbers at present. A number of contracts have been let to jobbers for pulpwood, ties and logs.

Yesterday for the first time in sixteen years there was a logjam at the Government slides at the Chaudiere.

Ottawa, Sept. 5th, 1903.

LUMBER EXPORTS TO THE UNITED STATES.

Exports of sawed lumber from Canada to the United States during the fiscal year ended June 30th, 1903, amounted to 719,135,000 feet, valued at $10,569,066, or at the rate of $14.91 a thousand. In 1912 664,751,000 feet were exported, valued at $9,228,970, or $13.95 a thousand. In 1901

PINE, BIRCH AND HEMLOCK

Mills at Bear Lake, Ontario, and British Columbia. Bills cut to order. Specialty of British Columbia Douglas Fir.

the exports were 490,571,000 feet and the valuation $6,343,865. Thus we see that within three years there has been a notable gain in respect to both exports and the price at which lumber has been sold. Of course the increase of value has resulted from the rise of prices in the United States and has been in conformity therewith. The lumber consists predominantly of pine and spruce, and prices therefore have naturally followed those of the same kinds of lumber in the United States. The increase of exports in the last fiscal year over exports of the previous year amounted to 54,410,000 feet, and over the fiscal year ending June 30, 1901, 228,305,000 feet. Thus the increase in three years has been a fraction over 31 per cent. It is probable that the increase of lumber sale, movement and consumption has correspondingly increased in lumber derived from domestic sources; that is, that stock exported from Canada has shared in the result of the general prosperity which prevailed.

CANADIAN LUMBER SHIPMENTS.

Burstall & Co.; 12,504 pcs. deals, etc., by Dobell, Beckett & Co.; 3,191 pcs. deals, by Montreal Lumber Co.

THE BOSTON MARKET.

Spruce lumber is quiet at Boston but prices are steady: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 9 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

There is no change to note in hemlock, the market being quiet at quotations: Boards 12, 14 and 16 feet stock, $14.50 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is a steady demand for western pine, and prices are firm: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2 1-2 to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwoods are generally easier, except for the best quartered oak: Quartered oak, $75 to $83; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $51 to $53; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31.

The slightly improved demand for red cedar shingles continues, but ordinary eastern stock is, if anything, easier: Extra cedar, $3.35 to $3.45; clear, $2.85 to $2.95; second clear, $2.30 to $2.35; extra No. 1, $1.50 to $1.70; British Columbia red cedar, 16-in. five butts to 2-in., $3.40 to $3.45; 18-in. five butts to 2 in., $3.70; five butts to 2¼ in., $3.85 to $3.95.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

The number of mills putting their slabs into pulp is constantly increasing, and the result is a stiffening market for laths: One and five-eighths in., $3.15 to $3.25; 1½-in., $3.10 to $3.15.

TORONTO, ONT.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 28th August, 1903. The names of the parties may be obtained from the publishers of this journal.

Inquiry has been made for names of a number of small joinery mills in Canada who might be willing to enter into negotiations for the supply of doors, mouldings, etc.

SHIPPING MATTERS.

The schooner Eva Stuart, from Windsor, N.S., for Boston, with lumber, was towed into Rockland, Me., leaking badly, having had to jettison 15,000 feet of lumber.

The following charters are reported: Str. Britannia, St. Lawrence river to an Irish port and Bristol Channel, deals, 40 shillings; Normania, Miramichi, N.B., to w.c. England, deals, 41s 3d; barque Italia, St. John, N.B., to Ipswich, deals, 50 shillings; barque Fred P. Litchfield, Sherbrooke, N.S., to Buenos Ayres, lumber, $8, option Rosaria, $9.

The saw mill of William J. Scott, at Springhill, N.B., was almost totally consumed by fire a few days ago, together with a quantity of cedar shingles. The loss is placed at $12,000. It is improbable that the mill will be rebuilt, as Mr. Scott has recently purchased the Victoria mills at Fredericton.

We are in the Market for :—

Rock Maple logs and planks
Rock Elm Logs
Waney Birch Logs
White Oak Logs
Oak planks, best quality, in long lengths

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, SETEMBER 16, 1903 No. 33

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

FOR SALE

SEVERAL LARGE TIMBER LIMITS ON the Kootenay Lakes and along Crows' Nest line of C. P. R. Most available timber for Northwest trade. For particulars, apply to D. I. DEWAR, Nelson, B. C.

FOR SALE

ONE OF THE BEST PAYING AND MOST complete lumbering concerns in British Columbia, including limits, mill and plant, capacity five million per year, on which a net profit of over $20,000 per annum is being cleared. For particulars apply to X. Y Z., care CANADA LUMBERMAN.

J. W. Johnstone, lumber, Lacombe, N. W.T., has sold out to H. R. Folgeur & Company.

The saw mill of William Shea at Royston, Ont., was destroyed by fire on September 12th, at a loss of $2,500.

The sheriff is said to be in possession of the estate of James Harrison, lumber merchant, Burlington, Ont., who disappeared recently. The claims of creditors aggregate $4,300.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market shows considerable snap. There has not been a perceptible increase in the demand, but the steady buying of small lots indicates that consumers are carrying comparatively light stocks and that they consider it wise to gradually increase their holdings. When the buying for fall and winter trade shall become more general increased activity will be seen. The harvest throughout the province has been safely garnered and the yield is quite up to the average. Business conditions generally are good and payments are being well met.

The hardwood manufacturers still continue to hold the reins of power. Competition among buyers is keen, and the bulk of the hardwood production has passed out of first hands. Prices rule very firm. Manufacturers are asking $20 for ash, basswood and soft elm log run, mill culls out, $18 for birch, and $16 for maple. These prices are f.o.b. cars at the mill, and it is understood that large sales have been made near these figures. The present outlook is for a continuation of strength.

The call for lath is growing and that article promises to be quite brisk before winter. There are also more enquiries for white pine shingles.

It is yet too early to estimate the extent of operations in the woods during the coming winter. By some it is predicted that there will be a considerable shortage as compared with last season on account of the excessive cost of logging. No doubt the holders of timber limits acquired under the smaller stumpage charge will be opposed to depleting them unless a fair profit from the operations should seem reasonably certain.

QUEBEC AND NEW BRUNSWICK.

An enlargement in the demand for wide spruce lumber is perhaps the only change in the eastern market. The demand for all kinds of spruce is sufficient to absorb all the stock that is pressed for sale, so that prices continue firm. The large manufacturers have fixed a price on their stock and will doubtless hold it until the buyer meets the figure. There has been an increase in the transactions in cedar shingles, but these have not brought about a higher range of prices. Extras are selling at $3.40 for Boston delivery. Considerable shipments of lath have been made to the New York market.

UNITED STATES.

Lumber is not being purchased in large quantities. Until the corn crop is fully

matured there will be hesitation about making committments. Dealers do not appear to be stocking up for fall and winter business, but it is believed that the stocks carried are comparatively light and that considerable buying will be done in the late fall. There is some weakness in the higher grades, but all the lower grades remain firm and constitute the bulk of the sales. Buffalo and Tonawanda dealers report a scarcity of low grade pine, their efforts to increase the supply by purchases in the Lake Superior district not having met with much success. The demand for Norway is strong, while the supply is light. The market generally has been strengthened by the action of the North-Western Hemlock Manufacturers' Association, which has put into effect an advance in hemlock dimension which amounts to 50 cents a thouaand on lengths over 20 feet and on 3 x 12 in 18 feet, also on 16-foot common boards and ship-lap. The general shortage of dimension stock and heavy demand for it is responsible for this action.

An important meeting of the hardwood manufacturers of the United States was held at Cincinnati on September 5th. At this meeting it was reported that 70 per cent. of the membership had suggested a revision of the price list making an advance on certain items. The report from 190 manufacturers showed that the surplus stock on hand August 1st was only 4,677,-000 feet, whereas one year ago the surplus stock held by 70 members was 3,330,000 feet. It will thus be seen that the statistical position of hardwoods is strong. Maple flooring does not improve. This is surprising in view of the fact that prices of maple lumber are firmer, and everything else in the hardwood line is in good demand.

GREAT BRITAIN.

The buying of lumber in the British market has not improved to any extent. Prices have reached the point where buyers think they cannot go much higher, and accordingly they are disposed to wait in the hope of a reaction. Prompted by reliable advice, we reiterate that the conditions in Canada do not offer any hope of lower prices for lumber shipped to Great Britain this season. Shippers have absou tely refused to consider offers which represent a reduction in price, and if they annot obtain their asking prices they are likely to carry the stock over till next spring The situation in London has been improved by a reduction in the quantity of lumber in the public docks. While the amount is larger than at same time last year, there is a marked reduction as compared with a few months ago. Deals, for instance, that in the early part of the year exceeded last year's stock by a million pieces, are now in excess by only 15,000 pieces. There is quite a large stock of Baltic boards. Foy, Morgan & Company estimate that the present stock of Baltic deals constitutes a sufficient supply for the next seven months. The Canadian supply is, comparatively, much lighter. At Liverpool the supply of pine and spruce deals is considerably less than at the corresponding period last year. The high price of first quality pine deals has curtailed the consumption to some extent. Considerable spruce has been sold throughout Ireland. Current values for about 60 per cent. 9 inch x 3 inch are £9 2s 6d to £9 5s per St. Petersburg standard of 1980 feet, c.i.f. Belfast. Plasterers' laths have been consumed in large quautities, the price of 3/16 x 1 inch having steadily advanced from £5 10s per standard to £6 10s. Rock elm timber is in good demand, also oak. The stock of ash timber is light, but the demand has been curtailed by importations of plank.

STOCKS AND PRICES.

H. S. Brennan & Company will take out logs at Birch Island, McGregor Bay, next winter.

The base price of hemlock in Tonawanda is $16.50. Some retail dealers have been shading prices slightly.

Probably the last raft of square timber of the season is at the Chaudiere slides, Ottawa. It belongs to E. Moore and contains 193 cribs.

The steamer Platea is completing her cargo of lumber at Gaspe, Que., and will shortly sail for the United Kingdom, with about 3,500,000 feet.

It is reported that the Spanish River Pulp & Paper Company, of Webbwood, Ont., will have ten camps in operation the coming winter taking out pulp wood.

Norway piece stuff is in short supply in the Chicago market. All the Norway possible nowadays is converted into inch lumber, which sells well in place of soft pine.

Hemlock piece stuff is selling in Chicago at $12 to $12.50; long lengths $1.50 to $2.25 a thousand more than shorts; Norway short lengths, $16 to $16.50, hemlock inch lumber, $17 to $18.

W. M. Mackay has this season loaded four steamers and one bark with lumber at Hopewell Cape, N. B., the total shipment being about 18,000,000 feet. The barque Avoca is now loading at that place for J. Nelson Smith and John L. Peck.

The Department of Interior at Ottawa is prepared to receive offers up to October 7th for a license to cut timber on Berth No. 1089, comprising the south-half of section 6, section 9, and the north-west corner of section 10, in the Province of Manitoba.

Shingles are in better demand in the Saginaw Valley, and the supply in dealers' hands is small. Cedar shingles are held at $2.60 and $3.60 for 18 inch, and $2 and $2.45 for 16 inch.

The Lands and Works Department of British Columbia will receive tenders up to September 23rd for a twenty-one years' license for cutting timber on lot 5,985 on Cherry Creek, East Kootenay, containing 10,855 acres. Tenders must be accompanied by certified cheques for $5,266, the amount of the first year's rental and the cost of surveying and cruising the limits.

Messrs. S. P. Musson, Son & Company, in their report of August 29th, refer to the Barbados market as follows: "There has been no arrival of white pine during the fortnight. The market is lightly stocked and first receipts should do well. In spruce the "Success" from Paspebiac, Que., brought 70,000 feet, which owing to the present stimulated condition of the market, brought $21.63 as it runs. This is a very full rate and may not be maintained unless receipts are very moderate. This steamer brought 690,000 shingles, of which about 240,000 laying cedar has been sold to arrive at $2.43½ and 160,000 long were for one of the lumber dealers. Further receipts should also do fairly well. The balance, consisting of 200,000 long and 78,000 dimension, were sold at $5.56, $6.56 and $5.31 for the former, while the latter were placed at $4.60 for 4-inch, $6.25 for 5-inch, $7.35 for 6-inch and $8.55 for 7-inch. These high prices have undoubtedly been brought about by the anticipated demand acting on a moderately stocked market and are somewhat inflated."

BRISK DEMAND FOR HARDWOODS.

Apparently there is no abatement in the demand for all the leading hardwoods. Buyers who go south and north among the mills are just as zealous in picking up lumber as they were months ago. Wherever there is a bunch for sale it is snatched up without delay, says the American Lumberman. In the south the early season was so wet that getting logs was impossible a large part of the time, and difficult nearly all the time, so that there has not been nearly a normal season's output. At the same time the demand from manufacturers of finished product of all sorts, from the builders, furniture factories, car shops and railroads, has taken all the oak, ash, cottonwood, birch, basswood, poplar, elm and maple that could be produced. The stress has been particularly strong in oak, prices have vaulted upward and remain unbroken all along the line, because there are no accumulations, and no competition among sellers. How long this will continue depends on future conditions at the mills and in the woods, and on the rate of demand. At present there are no conditions that point to a larger supply in proportion to the demand or softer prices.

A like comment can be made on the other hardwoods, though the call for oak is the most emphasized, because it is the most conspicuous hardwood in the country. Ash cannot be procured in sufficient quantity to make it overabundant in any season, and now that the supply in the south has been shortened by unfavorable weather for logging the demand is especially pronounced. In the southern list cottonwood this season attracts a good deal of attention because it is in short supply.

Northern hardwoods are sold close up to the point of scarcity. The call for birch continues urgent with small stocks with which to respond. Basswood is in like condition. Soft elm is wanted all the time, but the coopers have for a year or two taken so much of the Michigan product that it has diminished the supply of lumber. It is generally understood that the season's cut of hard maple has been mostly sold or put under contract.

Finally, when we consider the whole line of hardwoods there is no burdensome surplus anywhere, while the demand for consumption continues to absorb what is offered. Of course under such conditions it is easy to maintain prices.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar cares to put in several machines to work broom handles we can take his outpnt. Write in first instance to Empire, care of CANADA LUMBERMAN.

Boston prices for spruce lumber rule about as follows: 10 and 12 inch dimensions, $21; 9 inch and under, $19; 10 and 12 inch random lengths, 10 ft. and up, $20.50; 2 x 3, 2 x 4, 2 x 5, 2 x 7, and 3 x 4, 10 ft. and up, $17 to $17.50; all other random lengths, 9 inches and under, 10 ft. up, $18 to $18.50; merchantable boards, 5 inch and up, $17; matched boards, $18.50 to $19; bundled furring, random lengths, p. 18., $17.

THE GLASGOW MARKET.

Edmiston & Mitchell, of Glasgow, Scotland, under date of August 31st, furnish the following particulars of the lumber market :

Business during August has been fairly active, deliveries both from the quay and from the yards having been up to the average for this month, while values have been on the whole well main ained. Arrivals from the St. Lawrence have been on a considerable scale, a large proportion of which were deliveries against contracts made earlier in the season. In spruce and pitch pine there have been a number of transactions at prices which show little, if any, alteration from those ruling last month. In hardwoods a moderately active business has been in evidence, and, speaking generally, prices continue to be very firm. There is every appearance of a healthy tone in the market, and, so far as can be seen, values are likely to be maintained to the end of the year, assuming that imports are not abnormally heavy. Scotch shipbuilders have launched during August 34 vessels aggregating 73,585 tons, which forms a record output for one month, and compares with 22 vessels of 46,882 tons for same month of last year. The new business contracted for amounts to over 36,000 tons, which is a satisfactory addition to the work at present on hand. There has been a falling away of orders for sailing vessels and tramp steamers of late, which of course is explained by the present low freights ruling. The housebuilding trade in the city and neighbourhood continues wonderfully active, and there is a considerable amount of work still on hand.

WHITE PINE—The import during the month has been exceedingly light, about 100 loads sawn waney via liners from Montreal comprising the total. Stocks of fiast-class waney are low, and the demand is moderate, while square timber is difficult to move. Prices are firm and likely to continue owing to the meagre imports.

RED PINE—The import consists of a small parcel sawn timber, good squares, via Montreal, which met with a ready sale "ex quay." The stock is low, but ample for all present requirements.

OAK—The import consists of about 500 loads Southern States wood. A few good sales of first-class Quebec wood, 15-inch and up, are reported at prices from 3s. 6d. to 3s. 9d. in ponds, and one or two small sales of second-class wood at 2s. 8d. to 3s. per foot. Stocks are heavy, especially in second-class and Southern timber.

ELM—There has been a fair demand for first-class rock, and several transactions have resulted at good prices. Second-class wood is moving off slowly, and the stock of this class is still heavy.

BIRCH—Quebec—There have been quite a number of arrivals during the month, a large proportion of which consisted of inferior or small logs, and were mostly disposed of from the ship's side. The market is dull, and sales can only be effected at unsatisfactory prices. Lower Port—There is now a considerable stock on hand, consisting chiefly of Pictou wood, the nominal value of which is about 17d. for 15-inch average logs, but the demand is trifling in extent.

ASH—Several shipments have come forward lately, and in most cases proved to be of somewhat unsatisfactory quality. There is very little demand, and values are more or less nominal.

DEALS, &C.—There has been a good volume of business during the past month. The import has been a fairly large one, and sales "ex quay" have been rather more difficult to effect. Prices, however, are firm, especially in the better qualities. Lower qualities are difficult to move. Current values are as follows : Broad first pine deals, £32 to £34 ; 11-inch, £29 to £31 ; ends and non-dimensions, £22 to £24. Second pine deals, 11-inch and up, £19 to £21 10s.; ends and non-dimensions, £13 to £14 10s. Third pine deals, 11-inch and up, £13 to £14 10s. ; ends and non-dimensions, £10 to £11. Red pine deals, 9 and 11 inch, £11 10s. to £12 10s.; narrows, £8 10s. to £9 10s. First pine sidings, 9 and 10 inch, £24 to £25 ; 11 to 12 inch, £26 to £28 ; 13 to 14 inch, £29 to £31. Spruce deals, 9-inch and up, £8 15s. to £9 10s.; 7 and 8 inch, £7 5s. to £8 5s. Lower Port pine and spruce, 7 and 8 inch, £7 to £7 15s. ; 9-inch and up, £8 5s to £8 15s.

NEW HEMLOCK PRICE LIST.

The new price list adopted by the North-Western Hemlock Manufacturers' Association will doubtless be of interest to manufacturers in Canada. The list took effect August 28th. For common boards s1 or 2s, the prices fixed are as follows : 8 inch No. 1, 8 ft., $12 ; 10, 12 or 14 ft., $13.50 ; 16 ft., $14 ; 18 and 20 ft., $13.50. 8 inch No. 2, 8 ft., $10 ; 10, 12 and 14 ft., $11.50 ; 16 ft., $12 ; 18 and 20 ft., $11.50. 10 inch No. 1, 8 ft., $12; 10, 12 and 14 ft., $13.50; 16 ft., $14; 18 and 20 ft., $13.50. 10 inch No. 2, 8 ft., $10; 10, 12 and 14 ft., $11.50; 16 ft., $12; 18 and 20 ft., $11.50. 12 inch No. 1, 8 ft., $13 ; 10, 12 and 14 ft., $15 ; 16 ft., $16.50; 18 and 20 ft., $15. 12 inch No. 2, 8 ft., $10.50; 10, 12 and 14 ft., $12.50; 16 ft., $13; 18 and 20 ft., $12.50. Mixed widths No. 2, 4 inch and wider, 8 ft. and longer, $11 ; No. 3, $6.50. Rough boards, 50 cents per M less.

For 2-inch piece stuff s 1 s and e, the prices are : 2x4, 8 ft., $10 ; 10 ft., $13.50; 12 and 14 ft., $12.50; 16 ft., $13.50; 18 ft., $16 ; 20, 22, and 24 ft., $16.50. 2 x 6, 8 ft., $10 ; 10 ft., $11.50 ; 12 and 14 ft., $12 ; 16 ft., $13 ; 18 ft., $14.50 ; 20 ft., $15 ; 22 and 24 ft., $16. 2 x 8, 8 ft., $10 ; 10, 12 and 14 ft., $12 ; 16 ft., $13 ; 18 ft., $15 ; 20 ft., $15.50 ; 22 and 24 ft., $16. 2 x 10, 8 ft., $10 ; 10 ft., $11.50 ; 12 and 14 ft., $12.50 ; 16 ft., $13 ; 18 ft., $14.50 ; 20 ft., $15 ; 22 and 24 ft., $16. 2 x 12, 8 ft., $12 ; 10, 12 and 14 ft., $13.50 ; 16 ft., $14 ; 18 ft., $15.50 ; 20 ft., $16 ; 22 and 24 ft., $17.

Timbers and 3-inch rough plank: 3 x 6 and 8, 10 ft., $14; 12 and 14 ft., $13 ; 16 ft., $13.50; 18 ft., $14; 20 ft., $14.50 ; 22 and 24 ft., $16; 3x10, 10 ft.,$14.50; 12 and 14 ft., $13.50 ; 16 ft., $14 ; 18 ft., $14.50 ; 20 ft., $15 ; 22 and 14 ft., $16.50 ; 3x12, 10 ft., $15.50 ; 12 and 14 ft., $14.50 ; 16 ft., $15; 18 ft., $15.50 ; 20 ft., $16 ; 22 ft., $17.50 ; 24 ft., $18 ; 4x4 to 8x8, 10 ft., $14 ; 12 and 14 ft., $13 ; 16 ft., $13.50 ; 18 ft., $14 ; 20 ft., $14.50 ; 22 ft., $16 ; 24 ft., $15.50.

Very slight changes were made in the prices of flooring, fencing and ship-lap. No. 1 lath 3-8x1½ inch, 4 ft., was placed at $2.75, and No. 2 at $2.

The Canada Lumberman
TORONTO, ONT.

TIMBER LIMIT TRANSACTIONS.

Scott Bros., of Fredericton, N.B., have just completed the purchase from Messrs. Eaton, of Calais, Me., of extensive timber lands on the upper waters of the St. John river. The lands comprise about 50,000 acres on the Wildcat and Black tributaries and contain a large quantity of spruce and other timber. It is their intention to log on the property this winter, cutting about 5,000,000 feet on the head waters and about 15,000,000 feet in their total operations. Their mill at Magaguadavic wil be stocked from the limits lately acquired from Chipman & Murchie, of St. Stephen. Four portable lath mills will be erected on the lands near Deer Lake. The firm have about 500,000 feet of logs at Springhill, which will probably be sold.

The McMahon Moulding Company, manufacturers of moulding, Toronto, have sold out to E. F. R. Zollner.

RECORD CAR-LOAD OF B.C. SHINGLES.

So fa as we can learn, the "king" car of British Columbia shingles was received by Butler Bros., of Woodstock, Ont., from the Robert McNair Shingle Manufacturing Company, of Vancouver, in July. The car contained 358,000 shingles and the freight was $399. This, evidently, beats all previous records.

The sash and door factory of H. Chagnon & Company, Montreal, was damaged by fire recently.

We are in the Market for :—

Rock Maple logs and planks
Rock Elm Logs
Waney Birch Logs
White Oak Logs
Oak planks, best quality, in long lengths
White Ash planks, best quality, in long lengths
Black Walnut logs and boards
Pine deals and sidings

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, SEEMBER 23, 1903 No. 34

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING: MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

ONE HUNDRED AND FIFTY MILLION feet of good sound healthy timber. About 10 million white pine, 80 million cedar; balance hemlock. For particulars apply to P. J. GALLAGHER, Rossbery, B. C.

CURRENT TRADE CONDITIONS.

ONTARIO.

There is a fair movement of all kinds of lumber, and particularly of low grade pine and hardwoods. Orders appear to be a little more plentiful than earlier in the month. It is generally believed that consumers are carrying light stocks, as their policy for some time past has been to buy conservatively in the hope of being in a position to take advantage of the expected decline in prices, which up to the present time has not materialized. Manufacturers of pine lumber do not anticipate lower prices in the near future. Even if the demand this winter should fall below normal, it is not likely that the effect upon prices would be material, as the pine manufacturers are in a strong financial position. Unless there should be a permanent decline in the volume of trade, prices will not yield. Hardwood manufacturers are equally certain of being able to maintain present prices. The quantity of unsold stock at the mills is exceptionally light, and the supply will be shorter this winter than during the corresponding season a year ago. The stumpage price for hardwoods has advanced in full sympathy with the higher prices for lumber, which consideration warrants the view that present values will continue. By some an advance in the price of the thicker sizes of hardwoods is predicted. A manufacturer who has been selling his basswood at $20 for mill run culls out writes that he has just received an offer of $22, which clearly in-

dicates an upward tendency. Plain red oak is held at $30 at the mill for log run, dead culls out.

QUEBEC AND NEW BRUNSWICK.

In spruce lumber the market is largely in the hands of the seller. The supply of dry stock is below the average of recent years, and the steady demand from New York has induced some manufacturers to advance their prices. For extra quality of spruce clapboards there is a steady and urgent inquiry, the average selling price being $45 for 4-foot boards on Boston rate of freight. Clears are quoted at $43 and second clears at $40. Narrow boards do not find a market so readily.

The cedar shingle market is still uncertain. Extras are freely offered by practically all the small dealers at $3.40 for Boston delivery, while some of the more important manufacturers are still holding their stocks for $3.50. It is believed that the market will work back to a $3.50 basis within a few weeks. Strength is shown by spruce lath, which brings about $3.20 for 1½-inch and $3.40 for 1⅝-inch.

MANITOBA AND BRITISH COLUMBIA.

The lumber market of the North-West is seasonably active. Dealers are increasing their stocks in anticipation of a steady demand during the fall and winter months, the abundant crop yield having inspired confidence in business generally. It is now reasonably certain that the wheat production of Manitoba and the Territories will exceed sixty million bushels, against sixty-five million bushels last year. This yield will net the producer more than last year on account of increased prices. The lumber market generally is firm, although some United States manufacturers are said to be taking orders for pine for delivery at Manitoba points at about $1 less than the prices which have been prevailing. Local manufacturers have not as yet met this competition. There is no change in British Columbia shingles. The manufacturers notified shingle sawyers that a cut of 1½ cents a thousand would be made in wages, and trouble has arisen at some of the mills. Should a general strike be inaugurated it would enable the market to right itself from a serious overproduction.

UNITED STATES.

Based on reports of serious damage by frost to the corn crop, the news was last week spread abroad that lower prices for lumber had been decided upon by the pine manufacturers of the Mississippi valley. This proved to be premature, for the result of a meeting of such manufacturers was an agreement to hold prices at the basis which has ruled for some time past. In view of the reduced cut it was felt that there would be no large surplus of stock. At the same time, it was admitted that the demand was not all that could be desired, and that there had been a curtailment in the buying of lumber for building purposes. Some slight concessions have been made on northern pine and on shingles and lath. The box business, on the other hand, is in a flourishing condition, the buying of box lumber continuing to be a feature ; in fact, all low grade white pine and Norway are strong, while the better grades are exhibiting signs of weakness. It is said that inch No. 1 cuts which a short time ago were held in the eastern markets at $42 can now be obtained for $39. Heavy rains in Michigan brought business almost to a stand till last week, but the recent favorable turn has caused an improvement. Chicago dealers report a better inquiry for lumber in cargo lots. Norway piece stuff is held at $16 to $16.50, and Norway inch, common, at $14.

The hardwood market exhibits more activity than any other branch of the lumber industry. It is almost needless to specialize, as all kinds and grades are in demand. The Wisconsin Hardwood Lumbermen's Association, at a meeting held on September 15th, after mature consideration, reaffirmed the March list, although many of the members were in favor of an increase in the price in the case of a majority of the items on the list.

Prices of shingles and laths do not improve, notwithstanding that the demand is considerable. The Wisconsin Valley Lumbermen's Association have reduced the price of No. 1 pine lath 25 cents, and that of No. 2 50 cents. In Chicago No. 1 pine lath is held at $3.25 and No. 2 mixed at $3.

GREAT BRITAIN.

We cannot report conditions in the British market to be materially different from those of a week ago. The effect of the extremely cautious buying by importers is becoming visible, there being a gradual improvement in the price of what is termed "spot goods," that is, lumber in stock. At the recent auction sales all first class lumber has been taken at firm prices, and if there should be no quantity of consignment goods sent forward there is not likely to be any difficulty in maintaining prices. Pine deals of first and second quality are now held at an exceptionally high figure, but there is no large accumulation and little prospect of any important addition to the stock this season, for the consumption is almost certain to keep pace with the import. Spruce deals are held at stiff prices. At the last London sale fourth quality 3 x 9, 12 feet in length, brought £9, and fifth quality £8, which figures cannot be regarded otherwise than satisfactory. The flooring market is exceptionally strong, prices having gradually advanced during the past two months. Narrow boards are also firmer, a run upon these sizes having been experienced.

STOCKS AND PRICES.

The steamer Loughrigg Holme is loading a cargo of deals at Baie Verte, N. B., for Manchester.

The steamer Fashoda sailed from Montreal last week for Glasgow with deals, calling at Three Rivers to complete cargo.

W. &. A. McArthur, of Little Current, Ont., are making preparations for work in the woods and expect to cut about 30,000,000 feet this season.

All manufacturers in the Georgian Bay district report a good demand for pine mill culls and box lumber, one or two large lots having recently changed hands at high prices.

Hemlock lumber is reported somewhat more plentiful than at any other time this season. Chicago dealers claim that they have received offers of concessions in price to the extent of $1 a thousand.

Keenan Bros., of Owen Sound, Ont., are reported to have bought the saw and shingle mill of Hickling Bros., Artemesia township, with the timber on the property, amounting to about 1,750,000 feet.

The largest cargo of Canadian lumber ever received at Tonawanda, N. Y., arrived on September 15th. It consisted of 1,150,000 feet of white pine for Dodge & Bliss and Silverthorn & Company, and was carried by the schooner Burma from Parry Sound, Ont.

The logging camp recently operated by G. H. Finlay & Company, on the Squamish river in British Columbia, will be opened shortly and operated by the E. K. Wood Lumber Company. Improvements will be made to facilitate the booming of logs at the mouth of the river.

At the Crown Lands Office, Fredericton, N. B., on September 16th a timber berth of two square miles on the west side of the Magaguadavic river was sold to Robert Anderson at the upset price of $8 per mile. Another berth of two and a half square miles at north branch Salmon Creek was sold to George S. Dykeman at $8.50 per mile.

George McKean, of St. John, N. B., has this season loaded three steamers and one sailing vessel with deals at West Bay, N. S., and has yet a considerable quantity for export. W. M. Mackay has sent from that port five steamers, which carried 17,000,000 feet of deals, and three sailing vessels with a smaller quantity. There yet remain for removal two cargoes.

The price list of the Wisconsin Hardwood Lumbermen's Association fixes the following prices f.o.b. Wausau : Ash, 1 inch log run, No. 3 common out, $20 ; birch, 1 inch log run, No. 3 common out, $18; soft elm, 1 inch log run, No. 3 common out, $16 ; rock elm, 1 to 2 inch log run, No. 3 common out, $18; hard maple, 1 to 2 inch log run, No. 3 common out, $13 ; soft maple, 1 to 2 inch log run, $14.

Arthur Hill, who is largely interested in the St. Anthony Lumber Company at Whitney, Ont., states that much difficulty has been found in securing the necessary labor. It has been necessary to shut down a portion of the mill in consequence of the scarcity of help. He expresses the opinion that this scarcity will shorten the output of the mills fully one-third and will equally affect the operations in the woods the coming winter. He believes that this will prove beneficial to the market, indicating no glut, and consequently all the lumber manufactured will be wanted.

A new list has been issued by the Wisconsin Valley Lumbermen's Association making the following price changes, f.o.b. Wausau : D selects, all lengths and widths, reduced $2 a thousand ; D flooring, all lengths, reduced $2 ; No. 1, 8 and 10 inch boards, rough, increased 50 cents; Drop siding, No. 1, 8 and 10 inch, and plain shiplap D and M, No. 1, 8 and 10 inch, increased 50 cents ; D siding, tied, reduced 50 cents ; piece stuff, 2 x 4, 10 foot, reduced $1 ; No. 1 white pine lath and No. 1 mixed, reduced 25 cents; and No. 2 lath, reduced 50 cents.

There has been a considerable slump, says the British Timber Trades Journal, in the price of American white oak planks, partly due to the slack condition of the wagon-building industry and partly to the large quantities sent forward on consignment to Liverpool and elsewhere. The fall in price affords shippers a temptation to somewhat exceed their contracts, the result being, in one instance at least that has come to our knowledge, that a parcel cut to the particular lengths and dimensions suitable for the construction of a certain type of wagon, and useless, except

at a great waste, for any other sized rolling stock, has been refused, and subsequently offered at tempting prices to clear, which, of course, only tends to further depress quotations. We are getting to understand the benefits of standardization in this country, but, unfortunately, oak wagon setts have not yet come under the beneficial movement, and no two specifications of different manufacturers of rolling stock can be got to agree.

COOPERAGE STOCK.

The Sutherland-Innes Company, of Chatham, Ont., referring to the cooperage stock market, say: The whole situation in respect to slack barrel stock can be pretty well covered by saying that at the present time the demand is greater than the supply. This situation has been brought about by conditions over which the manufacturers had very little control. The winter of 1902-1903 was a very poor one for lumbering, the woods being full of water when snow came, and the snow coming on top of the soft wet ground prevented the frost reaching the ground to freeze it and make it passable for teams. What little time there was when the woods would bear up teams was so short that very little timber was put in. Timber now has to be hauled long distances to mills in most cases, and consequently a long lumbering season is necessary to stock up. This the mill men did not get, but had an unusually short one.

The output being so limited and the demand being so great, not only in staple lines, but for apples, of which there are an unusually good crop of excellent shiping apples, everything that can be produced finds a ready market.

Owing to the increased price of timber, heavy cost of summer hauling and higher wages demanded by men, manufacturers have been obliged to ask high prices for stock, and there is no possibility of prices coming down this season; the tendency is upward.

The conditions in the tight cooperage-stock industry are very much the same as in the slack-barrel branch. The weather so far this season has been unfavorable for getting out raw material. The demand for all classes of tight-barrel stock has been very heavy. The prices in tight-barrel stock have gone up by jumps; in fact, in proportion, have increased even more than in slack stock. The demand for fall and winter trade promises to be heavy, and the difficulty will be to get enough stock to supply the market. The cooperage-stock manufacturers in both lines of the trade are not in a very happy frame of mind at the present time, as most of them have to turn down orders which they would very much like to fill.

THE BOSTON MARKET.

Spruce lumber continues to improve slowly in the demand, but prices are not changed. Large dimensions are difficult to place, owing to the scarcity of logs at the mills supplying Boston: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 9 and 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is steady and unchanged: Boards, 12, 14 and 16 feet stock, $14.50 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is a very firm market for western pine lumber, though the demand is quiet: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2 1-2 to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwoods continue in good demand for choice finishing stock. The quotations are: Quartered oak, $75 to $83; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $51 to $53; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

The difference in quality accounts largely for the selling of shingles at a wide range, but uncertainty about the future is a decided factor. For extra cedar $3.35 to $3.50 is asked, and for clears $2.85 to $3.

Laths are firm at the advance, with sales being made at full quotations: One and five-eighths in., $3.25 to $3.40; 1½-in., $3.15 to $3.25.

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, SEPTEMBER 30, 1903 No. 35

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

HARDWOOD LUMBER FOR SALE, ABOUT 600,000 ft. of birch, beech and maple. The lumber is wide and prime and could be sawed to suit purchaser. L. M. MAJOR, Bedford, N. S.

WANTED—TO CORRESPOND WITH MILL Men having bright Spruce, first quality, suitable for piano sounding boards. THE MASON & RISCH PIANO CO., Limited, Toronto.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1¼, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care BOX 22 CANADA LUMBERMAN.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.

One 10" x 18" Engine.

One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)

One pair twin engines, 10x16.

One No.2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.

TIMBER LIMIT FOR SALE

ONE HUNDRED AND FIFTY MILLION feet of good sound healthy timber. About 10 million white pine, 80 million cedar; balance hemlock. For particulars apply to P. J. GALLAGHER, Rossbery, B. C.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber business has felt the impetus of fine weather, and September closes with a very satisfactory volume of trade to its credit. The incoming month is expected to develop an increase in retail orders, as many yards are thought to be carrying light stocks. While higher prices for lumber are not anticipated, the opinion is becoming more general that there is not likely to be any material decline. It is not unusual to meet a person who predicts an early break in prices, but it is difficult to point to one manufacturer who is shading quotations. One of the strongest factors in the situation is the very light stock of unsold lumber in the mill yards. Even a moderate demand during the next six months will leave the supply of dry stock comparatively limited, and the mills will resume operations next spring under favorable conditions. Building operations throughout the province are active for this season of the year. The number of permits taken out in the city of Toronto this fall would almost indicate a boom, but it is safe to say that, with favorable labor conditions, the activity next year will be no less pronounced. The demand for houses is in excess of the supply, showing that the building movement is based on a sound foundation.

The furniture and implement factories continue to be large buyers of hardwood lumber. The seller invariably makes the price, and if his lumber is of the quality required by the prospective purchaser, a deal usually results. Shingles seem to be in a less satisfactory condition. From some districts the report is heard that prices are a trifle easier and the demand none too brisk.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber has seldom been in a stronger position than it is to-day. Many

mills in Quebec and New Brunswick will be compelled to shut down at an early date on account of log shortage, and as the bulk of the lumber manufactured this season has already been placed under contract there is little danger of a decline in prices. The New York market is taking large quantities of lumber and lath. The high price of $14.50 per thousand was recently paid for medium-sized spruce logs. This figure will compel the manufacturer to obtain a fancy price for his lumber in order to make a profit on the transaction. The manufacturers of pulp have this year been keen competitors in the log market and have no doubt been responsible for forcing prices to a higher basis than seems actually warranted by the demand for either pulp or lumber.

There is a little more life to the shingle market, but prices are not improved. Very few sales of extras for Boston delivery have been made at $3.50, and it is probably within the mark to say that the range of sales is from $3.35 to $3.45.

MANITOBA AND BRITISH COLUMBIA.

The lumber situation in Manitoba and the Territories is said to be a little easier. The United States manufacturers have resorted to price-cutting, which has unsettled the market. The demand, however, shows no falling off, but is expected to expand during the next month. The British Columbia mills are experiencing an active local trade, building operations in Vancouver and Victoria being on a large scale. Shingles are still a drug on the market. At a meeting of the manufacturers held last week it was decided to again commence sawing shingles for the Canadian market. The shut-down has relieved the situation to some extent, but the over-production is still apparent.

During the month of August 177 timber licenses were issued by the British Columbia Government, 45 of these being renewals. The business is evidently once more becoming active, after a period of depression.

UNITED STATES.

Fears regarding the failure of the wheat, corn and cotton crops have been dispelled, and business conditions have improved to that extent. The decline in the prices of iron and steel, however, is taken to indicate a falling off in the demand, and as these commodities are looked upon as a fair barometer of trade, it is predicted by some that the general business of the country will experience a gradual restriction. This is not yet in evidence in lumber circles. The demand is steady and prices on the whole have been well maintained. In some sections a reduction in the price of certain kinds of lumber has been made; inothers a corresponding advance has taken place. The great activity which prevails throughout the box trade is one of the most favorable features. Throughout the Eastern States the demand for boxes is as great as ever known in the past. The scarcity of box lumber has become acute and has done a great deal towards strengthening the entire list. The fact that the Standard Oil Company have recently bought box lumber quite heavily is regarded as an indication that that corporation do not anticipate lower prices in the near future. Norway pine is also comparatively scarce and is being replaced to some extent by hemlock and yellow pine. The upper grades of white pine are irregular in price, certain dealers carrying a fair stock having in isolated cases resorted to the policy of shading prices in order to close sales. For inch No. 1 cuts the price at Buffalo is about $40. The hemlock market is steady at about the prices that have ruled for the past month. The hardwood industry is in a most satisfactory condition. Opinions seem to favor a brisk demand throughout the fall and winter months. It is predicted that before spring the price of oak will have advanced $5 per thousand, notwithstanding that for some time past almost incredible prices have been received for quarter-sawed stock. Maple, basswood and elm are among the best sellers of the lower-priced woods.

GREAT BRITAIN.

So many conflicting opinions are expressed regarding the British lumber market that it is most difficult to arrive at a conclusion as to the existing conditions and future course of prices. Representatives of shippers do not appear to be offering stock at any concession, while importers show little willingness to buy on account of the disparity which exists between the prices asked by shippers and those which can be obtained from dealers and consumers. Baltic deals are said to be somewhat lower in price, and it would probably be a mistake to become too sanguine as to the maintenance of present prices. Should consignment cargoes arrive this fall in any quantity the effect upon values might be serious. The building trade is accountable in a large measure for the present accumulation of stock in the hands of dealers, unfavorable weather having greatly interfered with outdoor work. Third and fourth quality pine deals are reported to be slightly easier, but the better qualities continue firm. The quantity of spruce deals arriving at the British ports is comparatively small, which has done much to sustain the market. A cargo was recently sold for delivery on the west coast of England at a price which is described as an exceedingly good one.

Sellers are already sounding the market in respect to next year's prices, although mo contracts are likely to be closed until the financial situation becomes improved, unless, of course, shippers should make some tempting offers. This they are not likely to do in the immediate future, as we are told that they are talking of higher prices for next year.

STOCKS AND PRICES.

The steamer Sardhana is loading deals at Montreal for Australia.

The Rathbun Company have a drive of 90,000 logs nearing Deseronto. They were cut in McClintock township, Haliburton county.

W. McPherson, of Menominee, Mich., who bought two million feet of white pine in the Georgian Bay district, is having the stock shipped to Marinette, Wis.

The Standard Oil Company last week purchased three million feet of No. 2 and 3 10-inch pine lumber at Duluth. It is to be shipped east for box-making.

The schooner J. V. Taylor cleared from Menominee, Mich., on September 27th, with some 300,000 feet of lumber for Dresden, Ont., shipped by the Ludington Lumber Company. This is the first cargo of lumber ever shipped from Menominee to a Canadian port.

In the Saginaw valley 16-inch cedar shingles are quoted at $2.25 to $2.40, and 18-inch at $2.25 and $3.25. At Tonawanda white pine extra clears are selling at $3.50, a decrease of 25 cents from the figures quoted one month ago.

The New Brunswick Government will offer for sale at Fredericton on October 7th three square miles of timber limits on the east branch of the Sabbies River and Salmon Brook, and two square miles at the head of Pleasant Brook, a branch of the Gaspereau River. The respective applicants are J. H. Barry and the King Lumber Company.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to September 29th as furnished by the Supervisor of Cullers:—

	1901	1902	1903
Waney White Pine..	1,353,666	1,815,920	1,618,920

Birch and Maple	307,039	164,800	196,760

The last circular of Messrs. Churchill & Sim, London, England, says: "The importation of both pine and spruce deals has been most moderate, and this has checked the tendency to weakness which was observable in this market in July. For pine there may be said to be no appreciable change in quotations during the month, but for spruce there has been some recovery in the demand, and prices have moved a point in advance. For all Canadian hardwoods and for white pine timber the London market has been almost at a stand-still, and prices have sagged accordingly.

Messrs. S. P. Musson, Son & Company, in their last report, refer to the lumber market as follows: "The only arrival to report is the 'Corona' from Shelburne, N.S., with about 82,000 feet of white pine. Of this we placed 15,000 feet of the deck load, almost all second quality, at $24.39, and 17,000 feet of the balance of deck load, which was rather better, at $25.87 as it run. Of the 50,000 feet under deck, we sold 30,000 feet at $27.43 and the balance at $27 as it run. There has been no arrival of spruce and the demand for crop requirements will soon set in; the high prices of white pine should enhance value of spruce, and we anticipate full rates later on, and think shippers can safely take chance of market. No further arrivals of shingles have taken place and stocks are light, but we understand that about 1,500,000 cedar laying have been placed to arrive at $2.30.

The reports of the secretaries of the Mississippi valley and the Wisconsin valley associations for the month of August have recently been issued. For both sections they show a falling off in the volume of lumber business as compared with the same month of last year. The decrease is small, however, and does not wipe out the balance on the other side of the books, made by the shipments of the previous months of the year. The shipments of the Wisconsin valley manufacturers show a falling off as compared with the corresponding eight months of 1902, but the increase in the volume of trade of the Mississippi valley manufactures is great enough to give a net increase for the two sections combined. August was a trying month. In all of the territory where white pine finds its best customers, it was the month when business affairs were unsettled by the uncertainty as to the crops. The harvesting of the small grains was about over, but threshing had not been completed and the actual yield was not known.

THE BOSTON MARKET.

There continues to be an improved tone in the market for spruce lumber at Boston. Prices are not yet advanced, but there is more disposition to scrutinize schedules, and to refuse to bid on those at all difficult to fill. Logs on the Kennebec river are now selling at $14.50 per 1000 feet for medium size spruce, in the booms, which is said to be the highest price ever paid on that river, although the big spruce of the Penobscot have sold at $15 to $17 at Bangor lately. Here the quotations on lumber are: Ten and 12 in dimensions, $21; 9 in. and under, $19; 12 in. random lengths, 10 feet and up, $20,50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18 50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is steady and unchanged: Boards, 12, 14 and 16 feet stock, $15; random eastern, $13.50 to $14.50; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is very quiet, but prices are firmly held at full quotations: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2 1-2 to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There is a moderate demand for hard woods, especially for finish work. Prices are steady and unchanged: Quartered oak, $75 to $83; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; white wood, $51 to $53; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31 Michigan elm, $34 to $37.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Shingles are steady and unchanged: Extra cedar, $2.35 to $3.45; clear, $2.90 to $3; second clear, $2.25 to $2.40; extra No. 1, $1.50 to $1.75.

Laths are firm with sales being made at full quotations: One and five-eighths in., $3.30 to $3.40; 1½-in., $3.15 to $3.25.

FIRES.

The shingle mill at McArthur's Mills, Ont., owned by John Mather and James Casselman, was burned a few days ago.

Fire at Lion's Head, Ont., on September 26th completely destroyed the saw mill of Pedwell & Company. The loss is $7,000, but there is an insurance of $2,000.

BUSINESS NOTES.

Miller & McPherson, sash and door manufacturers, Russell, Ont., have dissolved, W. C. Miller continuing.

A. Lajoie, general store and lumber, L'Asne Au Foin, Que., is announced to have assigned to V. E. Paradis.

L. H. Swan & Company have leased the docks at Tonawanda, N. Y., formerly used by the defunct Muskoka Lumber Company.

McLeod & Atkinson, general store and lumber, Kouchibouguac, N.B., are said to be offering to compromise at 33¼ cents on the dollar.

The Buffalo Box Factory has been incorporated at Buffalo, N. Y., with a capital stock of $125,000. The directors are James Fenton, S. E. Scroll, H. F. Sickler, J. B. Fenton and R. L. Newell.

Address: Price 35 Cents

The Canada Lumberman
TORONTO, ONT.

SHIPPING MATTERS.

The steamer Laura has been fixed to load deals at Halifax, N. S., for the west coast of England at 35 shillings, and the schooner Canada has been chartered to carry lumber from St. John to Grenada. The steamer Ida sailed from Halifax last week for Cardiff, with deals.

The announcement comes from Montreal that the Canadian Railways will on October 1st make an advance of 20 cents per thousand feet on seasoned soft wood lumber destined for New York by rail and water over the barge route on the Hudson river.

There has been a rise in freight rates during the past month. The demand for vessels does not seem to have increased but owners are evidently greatly dissatisfied with the returns which have been received during the past season, and it is not improbable that a further advance in rates will take place.

TIMBER LIMIT TRANSACTIONS.

The timber areas in the vicinity of Botwoodville, Nfld., owned by C. T. Hillson, of Amherst, N. S., are reported to have been sold to Baker & Company, of Boston, for $250,000.

The British American Land Company, of Sherbrooke, Que., are offering for sale 1,792 acres of timber lands in the township of Dudswell and 1,400 acres in the township of Stoke.

A syndicate of American capitalists has purchased about 300 square miles of timber land on Bay de Chaleur and is building a large saw mill at Restigouche, Que. The American stockholders include F. S. Farr, of Minneapolis; W. A. Taft and Frank J. Saxe, of New York city, and James E. Marrett, of Portland, Me.

We are in the Market for :—

Rock Maple logs and planks
Rock Elm Logs
Waney Birch Logs
White Oak Logs
Oak planks, best quality, in long lengths
White Ash planks, best quality, in long lengths

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, ~~SEPTEMBER 30~~ Oct 7th, 1903 No. 35

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

HARDWOOD LUMBER FOR SALE, ABOUT 600,000 ft. of birch, beech and maple. The lumber is wide and prime and could be sawed to suit purchaser. L. M. MAJOR, Bedford, N. S.

FOR SALE—ONE 48" Hercules Water Wheel in good order, a bargain for immediate sale. Address, MACHINERY EXCHANGE, 22-24 Victoria Square, Montreal, Que.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1¼, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care BOX 22 CANADA LUMBERMAN.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.
One 10" x 18" Engine.
One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)
One pair twin engines, 10x16.
One No.2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.
One set Trimmers, to trim 6 to 24 ft., chains, mandrils and saws.
Also a quantity of Shafting, 2" to 4" pulley, and steam and water pipe.
One 14' x 60" Boiler; one top saw slash table.
About one mile of telephone wire, and two 'phones. For particulars, apply to BOOTH & GORDON, Azilda. Ont.

WANTED—1" SPRUCE, LOG RUN, DEADculls out. Tamarac sawn to order. Hardwood lumber. R. E. KINSMAN, Hamilton, Ont.

FOR SALE

CEDAR AND TAMARACK; 200,000 ties and 20,000 telephone poles on the Vermillion River or drove to Spanish boom. JAMES MCCREARY, Larchwood, Ont.

TIMBER LIMITS FOR SALE

We offer for sale the Townships of Burton and Croft containing a large quantity of hemlock and hard woods. HOLLAND & GRAVES, Buffalo, N. Y.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

AUCTION SALE OF TIMBER BERTHS

PUBLIC NOTICE IS HEREBY GIVEN THAT pursuant to authority of Orders in Council, the Red and White PINE TIMBER in the following townships, berths and areas, namely :—

ONE HUNDRED AND FIFTY MILLION feet of good sound healthy timber. About 10 million white pine, 80 million cedar; balance hemlock. For particulars apply to P. J. GALLAGHER, Rossbery, B. C.

WANTED

1 INCH SPRUCE LUMBER, EITHER IN long sections or cut up to the following sizes:
1"x2"—2 ft. long.
1"x3"—1 ft. 1 in. long.
1"x1½"—1 ft. long.
½"x6"—1 ft. 1 in. long.
½"x4", 5¼, 6" and 7"—1 ft. long.
1"x12"—1 ft long.

Parties quoting prices for these dimensions will understand that the spruce must be clear; also mention what quantity can be supplied in each case. Address

UNITED FACTORIES LIMITED,
Newmarket, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The information which comes from Ottawa that a contract has been closed for the purchase of a quantity of deals of next season's production for export at an advance over the prices of one year ago is regarded in a favorable light by the lumber trade. The manufacturers in the Ottawa Valley seem to be a unit in demanding higher prices for their lumber, such demand being based upon the heavy advance in the cost of production. They argue that it is absolutely necessary for manufacturers to obtain an advance in prices if they are to come out with a reasonable margin of profit. In contrast to the conditions in the Georgian Bay district, the higher grades of lumber are in a particular demand in the Ottawa Valley and manufacturers generally are sold up closely. In Western Ontario by far the greater activity pertains to the lower grades, which have been moving steadily for some time past. Should conditions become such as to bring about a weakening of the lumber market, it would probably be first reflected in the better grades. So long as the local consumption continues in such a healthy condition, however, there is little fear of any decided drop in prices. The hardwood market maintains its stability. It is generally believed that stocks in the hands of the factories are low and that the buying which has been in evidence

for some time will continue in a more or less degree. Persons who have required lumber but who have refrained from making purchases have not as yet been rewarded by lower prices, nor do they seem likely to be in the near future. There is a strong demand for mill run basswood and birch.

QUEBEC AND NEW BRUNSWICK.

There is still an upward tendency to the spruce market. Very few manufacturers are in a position to accept large orders on account of the depleted condition of their yard stocks. The scarcity of logs is exercising no little influence on the market, as several of the large mills in St. John are likely to be compelled to shut down for this reason. The proposal of the Government to increase the stumpage dues has also served to stiffen the price of lumber. A memorial has been presented to the Government by the lumbermen setting forth that if the stumpage is to be increased it should be collected only on merchantable logs.

There are fairly large offerings of low grade shingles at $3.35 to $3.40 for extras and $2.85 to $2.90 for clears for Boston delivery. The best brands are held at $3.50 and $3.

UNITED STATES.

A revival of the demand for lumber in the Lake Superior district has had a good effect upon the market generally. The shipments from Minneapolis during last week were over ten million feet, and stocks are now so broken that a moderate demand through the fall and winter months might make it comparatively easy for manufacturers to advance prices. The buying seems to be largely for immediate consumption, which indicates that stocks carried by consumers are light. At Menominee, Mich., there is practically no low grade lumber to be purchased. Prices of these grades are $15 for No. 3, $13 for No. 4, and $10 for No. 5. In the Wisconsin district there is less activity, there being very little call for the higher grades but a fair movement of common aud culls. The eastern markets are steady and trade moderately active excepting in New York, where the labor troubles seem to be in an almost hopeless condition so far as an early settlement is concerned. It is estimated that fifty million dollars of capital that would otherwise have gone into building operations this winter and next spring has been held back by the existing difficulties.

Buffalo dealers report sales to be as numerous as at the corresponding time last year. There is a heavy call for Norway lumber on account of its low price as compared with white pine. There has been no falling off in the demand for the hardwoods. Maple, ash and oak are inquired for more frequently than the other kinds. Maple flooring still exhibits weakness and little effort is being made to maintain the list prices. Hemlock holds a strong position in the lumber trade, there being absolutely no surplus anywhere. Dealers are behind on orders. The basis for piece stuff at Chicago is $14.

GREAT BRITAIN.

In the face of adverse circumstances the British lumber market has shown symptoms of firmness. The retail market is steady and was not influenced to any extent by the failure of an important Liverpool firm of importers. It is stated that a few transactions for next season's shipments have been closed, and that prices correspond very closely with the values that have ruled during the past three months. British importers appear at last to be recognizing the fact that shippers are aiming to limit the output to suit the demand, this policy being due in a large measure to the increased cost of the raw material. A Cardiff correspondent states that spruce has made a further advance, £8 5s. being now asked for cargoes from St. John. Recent auction sales have also brought higher prices for pine and spruce lumber. Second quality spruce deals, 3 x 9, brought £10 5s, and third quality £9 10s. Some Miramichi fourth quality, 3 x 12, 7 and 9 inch, sold at £8 5s and £8 10s. The season is now so far advanced that there is no possibility of any large quantity of lumber being sent forward on consignment, the knowledge of which fact has created a more hopeful feeling. It is stated that some orders for Quebec spruce have been refused by the manufacturers on this side, as their output had already been taken.

GRADING OF CANADIAN TIMBER FOR EXPORT.

The CANADA LUMBERMAN recently had the honor of a visit from three prominent representatives of the British timber industry, who had come to Canada for the purpose of attending the Congress of Representatives of the British Chambers of Commerce in Montreal. These were Mr. William Kay, of Bolton, England, Mr. Gradwell, of William Gradwell & Company, Barrow-in-Furness, England, and Mr. Ward Layle, of Wisbech, England, the latter being the representative of the British Timber Trades Federation.

These gentlemen, on behalf of the British timber importers, complained of the lack of proper grading of Canadian timber shipped to Great Britain. It was formerly the custom of shippers to deduct waney timber, and to mark with a "V" fourth quality. It is said, however, that now many shippers fail to put any mark to indicate the grade. British importers complain that in the case of Canadian shipments the standard grades are not being maintained, and that in consequence they find themselves in constant diffiiculty with their customers in the retail trade.

It is urged that Canadian manufacturers and shippers should cut off the waney part of the timber, and see to it that the grades are maintained, even though the quantity of the higher grades should thereby be materially reduced. This, it is claimed, is done by the exporting firms in Sweden and other countries which ship timber into the British market—in proof whereof it is stated that not more than about 5 per cent. of first quality deals are now received from Archangel, but this 5 per cent. is known to be first quality.

As regards red pine deals, for which there is said to be an excellent demand, it is urged that they should be properly marked with stencil (not pencil) on the ends of the deals, so that the mark will be always visible from the wagon to those who load and unloac the timber. The British representatives stated that the best deals received from Canada are those which come from Miramichi; they are said to be much superior to those received from St. John.

We have pleasure in directing the attention of Canadian manufacturers and shippers to this important matter, as if Canada is to compete successfully with other exporting countries, equal attention must be given to the requirements of the British market.

STOCKS AND PRICES.

The barque Falkirk is loading lumber at the Hastings mill, Vancouver, for South Africa.

The barque Reform is loading a cargo of lumber at Yarmouth, N.S., for Buenos Ayres.

The steamer Henrich Manzell is loading a cargo of deals at Musquash, N. B., for the United Kingdom.

Twenty-one vessels arrived at North Tonawanda, N. Y., during the fourth week of September, with over 14,000,000 feet of lumber.

It is estimated that 300,00,000 feet of lumber have been carried by barge on the Ottawa River this season, chiefly for export to Great Britain.

J. E. Hickman, of Port Elgin, N.B., are loading the steamer "Holme" with lumber for the United Kingdom. The cargo will consist of about 1,000,000 feet.

Lumber shipments from the port of St. John, N.B., are light. Last week they aggregated 1,785,000 feet of long lumber, 3,135,000 shingles and 1,108,000 laths.

Lath are almost a drug on the Chicago market. Prices range from $3 upwards. Hemlock lath is nominally $3.20 a thousand, but prices are made as low as $3.

The Barque Cimpa Emilia has just loaded a cargo of birch and spruce deals at Tusket, N. S., for Bristol Channel. The barque Volve is loading 1,500,000 ft. of lumber, for Buenos Ayres.

The Canadian Pacific Lumber Company, of Port Moody, B.C., has purchased Clem & McLeod's logging camp up the coast and will conduct logging operations on the limit on a large scale.

The Fraser River Lumber Company, of New Westminster, B. C., have about 1,000 cords of shingle bolts in the Whonock Creek awaiting the fall rains to take them down the river to their mill.

There is a great scarcity of all sorts of cooperage stock. Coopers are asking 40 cents for apple barrels and several cents more for flour barrels, and say they are not able to make a satisfactory profit at that. Buffalo jobbers quote first-class elm staves at $10.50 to $10.75, and second-class as high as $9. Basswood heading sells for 8 to 8½ cents for first-class and 5½ to 6 cents for second-class. Coiled hoops are $10 to $10.50 for 5½-foot and $10.75 for 6-foot.

The Department of Interior at Ottawa will receive tenders up to Wednesday, November 11th, for licenses to cut timber on the following berths in the district of Alberta: Berth No. 1099, on the Athabasca River, 44 square miles; Berth No. 1096, on the McLeod River, 24 square miles; Berth No. 1098, on the north side Brazeau River, 40 square miles; and Berth No. 1097, on south side of Brazeau River, about 100 square miles; also Berth No. 1101, comprising 50 square miles in townships 40, 41 and 42, in the Province of Manitoba.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Predictions have been borne out by facts in one particular at least. An Ottawa district lumberman has closed with an English buyer for his 1904 cut of deals at a slight advance on the quotations ruling for the cut for 1903. It is the usual thing to close contracts for the English market about the end of November, so that the early deal made this year is indicative of the brisk demand there is for Canadian lumber across the pond.

It is the general opinion that there will be an all round advance on lumber of from five to ten per cent., this having reference to next season's cut. Of course the wage question has much to do with it. In other years the question of the cost of supplies for man and beast and equipment of camps was taken into consideration, but this time the wage question overshadows everything else. The advance in provisions has been marked, in the case of beans, a staple, fully 100 per cent.

Discussing the situation to-day a member of an old established firm said that experienced men were holding out for $40 a month and board. However, experienced men at $40 a month are cheap compared with inexperienced men at $35, $32 or even $30. According to this party his firm will curtail operations in the bush owing to the scarcity and high price of labor. He laid emphasis on the fact that prices of lumber will have to be advanced if the manufacturer is to get his own out of it.

No change in prices are reported by millmen or dealers. There is a slight weakening in some lines of cutting up lumber owing to the falling off in the demand from the American market. This is accounted for by the set-back given building operations by the strikes and the consequent slackness in business in the sash and door factories of the Eastern States.

The lath and shingle market is picking up, with the promise of an active fall trade. Prices, however, remain unchanged.

Fraser & Company's new mill at Deschenes above Ottawa is now running full time cutting 50,000 feet a day. This mill is considered by experts to be the best equipped in Canada if not in America. It ran without a hitch from the first day, a feature of mill operations not often met with.

The Hawkesbury Lumber Company's mill at Hawkesbury has been shut down for the season, and the men sent to the shanties. The season was a long one, thanks to the continued high water of the Ottawa, upon which the band mill depends for water power. Work is now under way on the deepening of the waterway. The rock will be blasted down for a further depth of five feet. When this work is completed the increased water power even in times of low water will permit of the mill being run up till the snow flies. The cut at the Hawkesbury Company's mills this season ran between forty-five and fifty million feet.

Recent rains improved the situation on the tributaries of the Rouge river, and a portion of the logs that were "hung up" have been floated down. The Riordan Company, of Hawkesbury, had about 300,000 logs on the streams. The Morrison mill at L'Orignal had to be shut down for a while on account of scarcity of logs.

Perley & Company's mill at Calumet is cutting about 30,000,000 feet of lumber this season.

It is estimated that fully 300,000,000 feet of lumber was carried on the Ottawa Transportation Company's barges from points on the Ottawa river this season. It was the heaviest business done in years. From the mills at Ottawa, Hull, Rockland, Hawkesbury, Calumet, Montebello and Grenville shipments were made almost daily. Most of the lumber went to Montreal for export to England, but a goodly share was forwarded to New York. In the matter of values one barge load shipped from the Hawkesbury Lumber Company's mills at Hawkesbury took the cake. It contained about 270,000 feet of three inch first quality deals for the English market. It was valued at $60 per thousand, making a total of almost $17,000.

Reports received from the limits show that work is progressing well. Many foremen are devoting their time to road making, which is facilitated in the absence of snow, while more are busy logmaking. From general observation it seems likely there will be a falling off in the cut of waney and square timber this season, for the very good reason that, especially in the Kippewa region, it isn't to be had.

The suspension of operations at the Soo caused considerable discussion in Ottawa lumber circles. Agents lost no time in making their way to the Soo to engage men for the camps, but few were secured for the Ottawa firms. The majority of the men who did not remain idle waiting for the payment of their wages, hired with companies in the Georgian Bay district.

Ottawa district capital will be well represented at the big sale of limits to be held by the Ontario Government on December 9th. It is said that between fifteen and twenty parties are out going over the promised land for the Ottawa and district mills.

The new planing and sash and door factories built by Davidson & Thackray in the west end of the city are completed. The work of installing the machinery, which has all been ordered, will shortly be proceeded with. The mill will be running before Christmas.

LIVERPOOL TIMBER FIRM IN DIFFICULTIES.

The announcement that the firm of Lightbound, Rigby & Company, timber importers, Liverpool, England, had suspended payment caused some surprise in timber trade circles, although it had been known for some time that their position was uncertain. It is satisfactory to learn, however, that the difficulties are not the result of losses in timber transactions, but arose from land speculation. The total liabilities, as shown by a statement prepared by the accountants, are £78,761 10s 2d, and the net assets £80,143 3s. Several of the largest creditors are said to be secured. About forty Liverpool houses are interested, as well as a few Canadian shippers, including J. Burstall & Company, W. & J. Sharples and King Bros., of Quebec, and A. Dickie, of Halifax, N.S. The Swan-Donogh Lumber Company, of Tonawanda, and Scatcherd & Son, of Buffalo, also appear as small creditors.

The Canada Lumberman
TORONTO, ONT.

THE SASH AND DOOR TRADE AT WINNIPEG.

During the unprecedented building activity of the past season in Winnipeg, difficulty has been experienced in securing sufficient sash and doors with which to fill orders. Two of the largest retail lumber companies doing business in Winnipeg have adopted a new plan. The Prairie Lumber Company and the Canadian Elevator Company are erecting an extensive warehouse 50x150 feet in dimension, three stories in height, with a deep basement. This is to be used for the storage of sash and doors, the basement being intended exclusively for glass. J. C. Graham, the enterprising manager of the Prairie Lumber Company, will have charge of the warehouse. The supply of sash and doors for the various yards of the two companies, now numbering something like a hundred, will be supplied from this source. It is also expected that an extensive jobbing business will be carried on. Mr. Graham will continue to purchase the lumber and will look after the general affairs of the Prairie Lumber Company. A. A. McKinney, who is general manager for the Canadian Elevator Company, will still retain his position with that company, with the exception of buying the sash and doors.

It is announced that W. H. Higgins, logger, of Vancouver, B.C., who assigned rscently, has compromised with his creditors at 25 cents on the dollar.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, OCTOBER 14, 1903 No. 37

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

4/4, 5/4, 6/4 and 8/4" Good Shorts, Strips and Sidings.

HURDMAN & ELMITT,
Ottawa, Ont.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1¼, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care BOX 22 CANADA LUMBERMAN.

FOR SALE.

One 20" x 24" Waterous engine, 8 ft. driving wheel, 26" face. 11 ft. x 4 ft. Stillwell & Bierce Heater, feed pipe and connections to heater complete.

One 10" x 18" Engine.

One 3-k.w. 2,500 Standard Dynamo and Voltmeter, wiring and 50 lamps (complete.)

One pair twin engines, 10x16.

One No. 2 Carriage and Saw Frame, 78 ft. track, and two 60" Saws.

One set Trimmers, to trim 6 to 24 ft., chains, mandrils and saws.

Also a quantity of Shafting, 2" to 4" pulley, and steam and water pipe.

One 14' x 60" Boiler; one top saw slash table.

About one mile of telephone wire, and two 'phones. For particulars, apply to BOOTH & GORDON, Azilda. Ont.

WANTED—1" SPRUCE, LOG RUN, DEADculls out. Tamarac sawn to order. Hardwood lumber. R. E. KINSMAN, Hamilton, Ont.

FOR SALE

CEDAR AND TAMARACK; 200,000 ties and 20,000 telephone poles on the Vermillion River or drove to Spanish boom. JAMES McCREARY, Larchwood, Ont.

TIMBER LIMITS FOR SALE

We offer for sale the Townships of Burton and Croft containing a large quantity of hemlock and hard woods. HOLLAND & GRAVES, Buffalo, N. Y.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

LUMBER.

WANTED — GOOD CEDAR, BASSWOOD, oak, elm, etc., for boat building. PETERBORO CANOE CO., Ltd.

WANTED

1 INCH SPRUCE LUMBER, EITHER IN long sections or cut up to the following sizes:
1"x2"—2 ft. long.
1"x3"—1 ft. 1 in. long.
1"x1½"—1 ft. long.
½"x6"—1 ft. 1 in. long.
½"x4", 5", 6" and 7"—1 ft. long.
1"x12"—1 ft long.

Parties quoting prices for these dimensions will understand that the spruce must be clear; also mention what quantity can be supplied in each case. Address

UNITED FACTORIES LIMITED,
Newmarket, Ont.

VALUABLE TIMBER LIMITS AND MILL FOR SALE

The Edmund Hall Estate offers for sale the following desirable property:

FIRST.—Timber limits in the District of Algoma. Province of Ontario, Canada and comprising the townships of Totten, Porter, Hymen, Vernon, and No. Ninety One. These limits contain, by estimate, from one hundred and fifty-five to one hundred and sixty-five millions feet of merchantable pine, besides other timber. Lumbering operations are now in progress looking to a cut of about sixteen millions feet for the season.

SECOND.—Dwelling house, office, store house, barns and land at Nairn Center, Ontario, together with household goods and office furniture, lumber camps and lumbering outfit.

THIRD.—Sarnia Bay Mill site and Mill at Sarnia, Ont., including complete saw mill and salt block and equipment

FOURTH.—The capital stock of the Sarnia Bay Towing & Salvage Company, including the tugs Manistique, Salvor and Argyle, and also steam dredge, booms and towing material.

It is desired to sell all the above property in one parcel. Full statements and descriptions will be furnished on application. Bids will be received on or before the FIRST DAY OF DECEMBER, 1903, at 12 o'clock noon, at the office of the Estate, No. 80 Griswold Street, Detroit, Michigan. The highest or any bid is not necessarily accepted.

MARY H. HALL,
FRANES C. STRONG,
Executors.

Detroit, Michigan, September 8, 1903.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber demand continues fairly satisfactory all over the province, although there has been a falling off in the volume of orders booked from the Eastern States. Until the labor troubles in New York are settled shipments to that market are likely to be very light. The local consumption is large. The fine weather of the past week has permitted outdoor work to be carried on without interruption, and builders have been large buyers of lumber. Implement and furniture factories are also increasing their stocks at each favorable opportunity. The trend of prices has been such as to bring the higher and lower grades closer together. Nearly all the better grades of pine are about $2 per thousand lower than a fortnight ago, while the lower qualities have stiffened in price. Mill culls, for instance, are almost invariably held at an advance of 50 cents. Box and common lumber have remained about stationary, but with the buyer usually willing to concede more than the seller. Inch No. 1 cuts and better, which a short time ago were held at $50 at the mill, are now freely offered at $48, while 1½ inch cuts are quoted at $53 as compared with $55 a couple of weeks ago. There continues to be heavy buying of hemlock both in dimension timber and lumber, with no apparent weakness in prices. The demand for hardwoods has not been quite so urgent as in the month of September, but as the supply is light there is no uneasiness over the situation. Lath is not a quick seller, and in some quarters predictions of lower prices are heard. For No. 1 4-foot pine lath $2.85 at the mill is asked, and for No. 2 $2.25.

QUEBEC AND NEW BRUNSWICK.

Lumber shipments from the eastern provinces are showing less activity, due in part to the advance in freight rates. Shipowners are now asking 50 shillings from St. John to Great Britain, the increase being based on the higher cost of insurance and the fact that only small deckloads can be carried. Nevertheless, firmness characterizes spruce lumber prices. The stocks carried by manufacturers are so light that they are not worrying over their disposal. We cannot conscientiously report any improvement in the shingle situation. There is a large supply of low grade cedar shingles, and as it is impossible to hold the small manufacturers together, prices remain low. The upper grades are steadier and bring from $3.40 to $3.50 for Boston delivery.

MANITOBA AND BRITISH COLUMBIA.

There is still a very satisfactory movement of lumber throughout Manitoba and the Territories. There are so many buildings in process of completion that the demand for finishing lumber is quite heavy. Up to the end of September of this year the building inspector of Winnipeg issued 1,127 permits for buildings, of a total value of $5,235,700. The lumber situation in British Columbia has improved, foreign shipments being more numerous than for some weeks past. The threatened labor troubles in the shingle industry have been averted, and as the new arrangement for the disposal of the shingle output is now in force, more settled conditions are expected to prevail. It is understood that according to the agreement, each mill owner will pay to the association 35 cents for every thousand shingles produced, this sum to be returned at the end of certain fixed periods to those manufacturers who have not exceeded the percentage of output awarded them. Mill owners who exceed their allotted percentage will be penalized by a fine, in addition to the forfeiture of the deposits made on their output. It is thought that this arrangement will work out satisfactorily.

UNITED STATES.

The white pine market in the United States has become quite irregular. The higher grades are off from $2 to $4 per thousand in nearly all the leading markets, while the lower grades, and particularly mill culls and box lumber, are somewhat stronger than at last report. The fact that there continues to be a heavy demand for boxes is taken to indicate that the general business of the country is in a prosperous condition. Last week 25,000,000 feet of lumber were shipped from Duluth, largely to the east. At Buffalo and Tonawanda the demand has lately picked up in a slight degree, although there is not the uniformity of favorable reports that characterizes the fall trade of some years.

Norway piece stuff is in active request, and with a continuance of present demand there is not likely to be any cut in prices of this class of lumber. From some points a slight falling off in the demand for hardwood lumber is reported. Basswood, which has been very scarce all season, is in more plentiful supply. Maple is a good seller, nothwithstanding the weakness of maple flooring. Some of the mills are still cutting prices on the latter commodity, and there is no improvement in sight. Spruce prices are unchanged. Many of the small mills are now shutting down and the large ones have orders on hand to keep them running for some weeks.

There is no decided tendency to the shingle market. A report from Marinette, Mich., states that some of the mills in that vicinity have a large stock of shingles on hand and will close down until the market shows more strength and activity.

GREAT BRITAIN.

The announcement of the suspension of another firm of timber merchants has further unsettled the British market. It is some satisfaction to learn that the misfortune was the result of the continued decline in securities rather than of unprofitable transactions in lumber. The knowledge of this fact will no doubt tend in a degree to assure the lumber trade. There can be no doubt, however, but that the unsettled financial and political condition of Great Britain is against any improvement in the timber trade at the present time. Holders of lumber find it difficult to realize on their stocks, although it is admitted that consumers have been buying very sparingly for some time past. The position of importers who have large stocks on hand is strenghened by the action of the shippers in holding out for high prices for next year's shipments. Figures of the stock on hand at Liverpool on October 1st show that in waney pine timber, elm timber, birch plank, and spruce deals there is a considerable shortage as compared with one year ago, while square pine and birch timber and Quebec pine deals are in slightly larger stock. There is a fair demand for the best quality of timber and lumber, bnt the lower grades are difficult to dispose of.

STOCKS AND PRICES.

The steamer Glen Head is loading deals at St. Thomas, Que., for Belfast, Ireland.

Sullivan & Company are shipping a considerable quantity of elm lumber from Ontario to Buffalo.

There has been a drop in Michigan in the price of cedar posts and poles, the latter being off about 25 per cent.

The Eastern Lumber Company, of Tonawanda, N. Y., last week purchased 12,000,000 feet of lumber at Duluth.

The Lake Megantic Lumber Company, of Lake Megantic, Que., are putting in five camps this fall in the Woburn district, at the head of the Arnald river.

Cargo prices for mill run Norway piece stuff in Chicago are $16.50 to $16.75; short piece stuff, $16. Mill run hemlock sells at $12 to $12.50 for short lengths.

The Pacific Coast manufacturers of red cedar shingles are said to have made an advance of five cents, with the probability of another similar advance at an early date.

The tendency of lath is to decline. White pine lath is offered in Chicago at $3 to $3.10 a thousand, and No. 2 at $2.50, but it is believed that these prices are frequently shaded.

On Wednesday, October 21st, the New Brunswick Government will offer for sale the license to cut timber on three square miles on the Magaguadavic river, above Flume Ridge, the applicant for which is Robert Anderson.

The Muskoka Wood Manufacturing Company, of Huntsville, Ont., are paying from $5 to $6 per 1,000 feet for 10 to 16 foot hemlock logs delivered in Vernon Peninsular or Fairy Lakes, and $7 to $8.50 per M for other hardwoods.

Two timber berths were sold by the New Brunswick Government last week as follows: Three miles on East Sebbis river to A. R. Slipp at $50 per mile; 3 miles at head of Pleasant Brook, Gaspereau river, to Fred. E. Sayre, at $8.50 per mile.

There were rafted by the Fredericton Boom Company, of Fredericton, N.B., during the past season 34,164 joints of timber, containing 80,009,575 superficia feet. This included 780,110 feet of hemlock, 8,395,230 feet of cedar, 1,448,340 feet of pine, 1,253 pieces of pulpwood, 2,967 feet of fir, and 69,356,223 feet of spruce.

Last week there arrived at Owen Sound, Ont., for the John Harrison & Sons Company, a raft containing approximately 3,500,000 feet of timber. The timber was cut on the company's limits on the Magnetawan river, and included pine, hemlock and cedar. This is the largest raft ever brought into Owen Sound harbor, its value being about $40,000.

One of the most reassuring features in the present market situation, says the American Lumberman, is the heavy demand for box lumber. Box and shook factories are all busy and their requirements hold the prices of box grades of lumber at top notch figures. When the box factories are busy the general business must be in prosperous shape.

The receipts of lumber at the Tonawandas during September were 64,870,684 feet by water, exceeding the receipts of the corresponding month of last year by 17,414,435 feet. Since the season opened 322,606,571 feet have arrived, as compard with 285,586,865 feet for the same period of 1902. An increase in the shipment of lumber from the Tonawandas over the Erie canal was recorded last month.

Thomas Bouregard, Captain W. H. Neale and Captain E. W. Brydges, of Warroad, Minn., have just concluded a contract with the Rat Portage Lumber Company to deliver several million feet of timber at Warroad next summer. This timber will be towed to Warroad from points on the Lake of the Woods and Rainy River and will be shipped by the Canadian Northern Railway to the Rat Portage Lumber Company at Winnipeg. The contract is one of the largest ever made for towage on the Lake of the Woods.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar cares to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

THE SOUTH AFRICAN DEMAND.

The confidence in the capacity of the South African Colonies to absorb wood goods remains unabated, and although, as far as we can learn, the orders for the present season are practically completed, it is believed, probably rightly, that the demands for the next year will be considerably in excess of those filled this season, says the Timber Trades Journal, of London, Eng. Not only are shippers abroad looking to that market to absorb the stocks which they will have to carry over the winter, but we hear that a leading London buyer has recently bought a thousand standards as a speculation for the Cape market. As the season advances it is now more apparent than ever that a much larger proportion than usual of this trade has gone past the London agents, and it is difficult to understand why Danish and German firms have been able to secure so much of this valuable business.

TIMBER PROPERTY FOR SALE.

An advertisement in the Wanted and For Sale Department of this issue announces that the Edmund Hall Estate, of Detroit, Mich., are prepared to receive offers for their timber property in Ontario, including timber limits in the District of Algoma, comprising the townships of Totten, Porter, Hymen, Vernon, and No. 91. These limits are estimated to contain from 155,000,000 to 165,000,000 feet of merchantable pine, besides other timber. The saw mill at Sarnia, buildings and lumbering outfit at Nairn Centre and the capital stock of Sarnia Bay Towing & Salvage Company will also be disposed of. Bids are to be received by December 1st next.

NEW BRUNSWICK STUMPAGE DUES.

The Lumbermen's Association of New Brunswick have presented to the Provincial Government a memorial drawn up after the declaration that the government proposed increasing the stumpage, which is now $1 a thousand feet.

In the memorial they claim that if the stumpage is to be increased it should be collected only on merchantable logs. They recommend a uniform rate of stumpage as at present throughout the province, also that a reduced rate be allowed to operators cutting on burned districts; that in certain lands where the lumber is fit only for pulp wood they be allowed to cut for the pulp industry and that no additional stumpage be charged for this.

They recommend the appointment of practical men as fire wardens to protect the forests. They also suggest that if the government purposes raising the stumpage to $1.25 per thousand that the present holders of crown land leases be granted extension of term for 25 years from the date on which the stumpage is increased. The government will consider the memorial.

FAILURE OF A GLASGOW FIRM.

On September 29th the suspension of McDowall & Neilson, timber merchants, 55 West Regent street, Glasgow, was announced. The total liabilities are roughly estimated at £100,000, of which a large proportion falls on the London, Liverpool and Canadian firms. The firm had been in existence for about twenty years. They had a fairly prosperous career and the failure is reported to have been brought about mainly by heavy speculation. The list of creditors includes W. & J. Sharples, Dobell, Beckett & Company, Robert Cox & Company, J. Burstall & Company, and the McArthur Bros. Company, of Quebec; Allison, Cousland & Company, and Price & Pearce, of Glasgow; A. Dobell & Company, Farnworth & Jardine, Crow, Rudoff & Company, and Frank Harrison & Company, of Liverpool.

THE BOSTON MARKET.

Spruce lumber at Boston shows little change. There is considerable difficulty in placing orders for dimension stuff. Most of the lumber from the Kennebec mills is still going to New York, where better prices are ruling. There is not likely to be much improvement in the supply, as few of the mills would be benefitted now by high water. Prices are steady: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 12 in. random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9 in. and under, 10 feet and up, $18 to $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is steady and unchanged: Boards, 12,14 and 16 feet stock, $14.50 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

CANADIAN NORTHERN RAILWAY

The New Canadian Highway from Port Arthur, the head of Lake Superior, to :—

WM. PHILLIPS, G. E. A., 52 King St. East, Toronto. Ont.
GEORGE H. SHAW, Traffiic Manager, Winnipeg, Man.

Western pine lumber is quiet, but prices are firm and unchanged: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1-in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2 1-2 to 3 in. $84; 4-in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There is a firmer market for choice hardwood finish stock, especially quartered oak and whitewood. Prices are advanced: Quartered oak, $85 to $92; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $56; sap, $43 to $48; common, $39 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $34 to $37.

Clapboards are quiet at unchanged quotations: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Shingles hold steady at recent quotations, though there is still a large supply of low grades: Extra cedar, $3.35 to $3.45; clear, $2.90 to $3; second clear, $2.25 to $2.35; extra No. 1, $1.50 to $1.75; British Columbia red cedar, 16-in. five butts to 2 in. $3.40 to $3.45; 18-in. five butts to 2 in. $3.70 to $3.90; five butts to 2¼ in. $4.10 to $4.20.

Laths are firm at the recent advance: One and five-eighths in., $3.35; 1½-in. $3.20.

TIMBER LIMIT TRANSACTIONS.

It is announced that Mr. Louis Miller, of Scotland, has acquired the property of the Dominion Lumber Company at St. Margaret's Bay, N.S. Mr. Miller is said to have held an option on the property for some time. It comprises about 80,000 acrss of land, containing a large quantity of spruce and hemlock timber. There is one mill, located at Ingraham Docks, besides stores, houses, outbuildings, etc. The property was formerly owned by Young Bros. The present purchaser only recently disposed of extensive timber lands in Newfoundland to the Newfoundland Timber Estates Company.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, OCTOBER 21, 1903 No. 38

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

4/4, 5/4, 6/4 and 8/4" Good Shorts, Strips and Sidings.

HURDMAN & ELMITT,
Ottawa, Ont.

TIMBER LIMITS FOR SALE

We offer for sale the Townships of Burton and Croft containing a large quantity of hemlock and hard woods. HOLLAND & GRAVES, Buffalo, N. Y.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

½"x4", 5", 6" and 7"—1 ft. long.
1"x12"—1 ft long.

Parties quoting prices for these dimensions will understand that the spruce must be clear; also mention what quantity can be supplied in each case. Address

UNITED FACTORIES LIMITED,
Newmarket, Ont.

VALUABLE TIMBER LIMITS AND MILL FOR SALE

The Edmund Hall Estate offers for sale the following desirable property:

FIRST.—Timber limits in the District of Algoma, Province of Ontario, Canada and comprising the townships of Totten, Porter, Hymen, Vernon, and No. Ninety One. These limits contain, by estimate, from one hundred and fifty-five to one hundred and sixty-five millions feet of merchantable pine, besides other timber. Lumbering operations are now in progress looking to a cut of about sixteen millions feet for the season.

SECOND.—Dwelling house, office, store house, barns and land at Nairn Center, Ontario, together with household goods and office furniture, lumber camps and lumbering outfit.

THIRD.—Sarnia Bay Mill site and Mill at Sarnia, Ont., including complete saw mill and salt block and equipment

FOURTH —The capital stock of the Sarnia Bay Towing & Salvage Company, including the tugs Manistique, Salvor and Argyle, and also steam dredge, booms and towing material.

It is desired to sell all the above property in one parcel. Full statements and descriptions will be furnished on application. Bids will be received on or before the FIRST DAY OF DECEMBER, 1903, at 12 o'clock noon, at the office of the Estate, No. 80 Griswold Street, Detroit, Michigan. The highest or any bid is not necessarily accepted.

MARY H. HALL,
FRANES C. STRONG,
Executors.

Detroit, Michigan, September 8, 1903.

LUMBERMAN KNOWING THOROUGHLY, both bush and office work, wants position; best references. Address CANADA LUMBERMAN 38 Imperial Bldg., Montreal, Que.

BIRCH TIMBER FOR SALE

TIMBER ON 500 ACRES IN MUSKOKA District, containing upwards of 3,000,000 feet of birch, also about 1 000 000 feet of other timber. Would sell at reasonable figure as standing timber, or would give part interest to person who would put in a saw mill; make offer. Address, "R.D." care CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

Conservatism is now entering into lumber transactions to a greater extent than it has for some time past. There are many consumers who must continue to buy lumber for requirements, but few speculative ventures are being entered upon. Dealers do not wish to carry large stocks, consequently they seek to find an outlet for the lumber before purchasing it. Business, therefore, is somewhat quieter, but prices continue firm. There is no large supply of dry stock in the mill yards, and this fact has encouraged the manufacturer to hold for high prices, although his views in that respect frequently do not correspond with those of the dealer or buyer. Conditions, however, have up to the present been in favor of the manufacturer. Indications point to an average volume of trade during the fall and early winter months, although as the building season draws to a close the market cannot but feel the loss of the demand from that quarter.

A scarcity of men for work in the woods continues to be reported from all sections of the province. Owing to high wages and the uncertainty as to lumber prices next year, there is a disposition to curtail logging operations this winter, and it is probable that the cut will be lighter than last season.

QUEBEC AND NEW BRUNSWICK.

In some respects the spruce lumber market is less firm than at last writing. There has been a falling off in the number of enquiries for stock for local consumption, but the New York market has absorbed all the spruce lumber that has arrived at that centre and there are still many willing buyers. For this reason cargo spruce is quite strong. Shippers to Great Britain have their contracts pretty well covered and are not buying to any extent at the present time. As the supply at the mills is light, no difficulty is likely to be experienced in maintaining prices. For cedar shingles there is a slightly improved demand. Several recent sales of extras have been made at $3.45 for Boston delivery. Spruce lath is also a shade firmer.

UNITED STATES.

It is perhaps within the mark to say that the lumber salesman has been obliged to put forth more effort during the past week to sell lumber than at any previous time this year. Consumers seem to have decided upon a policy of retrenchment, on the ground that prices are not likely to go higher, while there is a probability that they may decline. There is still a fair volume of business, but the showing is not favorable when compared with one year ago, at which time dealers and consumers were anxious to buy lumber at almost any price. Reports from the Lake Superior district and from Chicago state that stocks of low grade inch lumber and Norway dimension are well sold up, but that there is an accumulation of shop lumber and a moderate supply of uppers. Many times within the past few months we have stated that the call for box lumber was the feature of the market, and this condition exists as much to-day as ever. The box factories and planing mills are operating to their full capacity, with many unfilled orders on their books. Buffalo and Tonawanda dealers take a somewhat hopeful view of the situation. While the slight slackness in the white pine trade may continue for a time, it is stated that dealers there consider the prospects for the fall and winter movement very bright. Salesmen returning from the Eastern States have brought back a reasonable number of orders, and there is a feeling that after the turn of the year a more active trade may be expected. Hardwood lumber has shown no signs of weakness. Orders have not been as numerous, but the supply of dry stock is so small that prices are maintained with ease. A scarcity of elm has developed, consequent on the large demand for it in the cooperage trade. Thick maple is also scarce, sales of four inch having been made recently at Buffalo at $40. Maple flooring continues weak, with keen competition on large orders.

A report from Calumet, Mich., states that shingles have slumped and that manufacturers are storing them until prices shall improve. This report does not agree with advices from other points. At Buffalo and Tonawanda an advance of five cents has been made on red cedars and a further rise is anticipated.

GREAT BRITAIN.

Recent developments in Great Britain have caused buyers of lumber to pursue a very cautious policy. General business is not in the most healthy condition and there is little disposition to increase obligations unless for immediate necessities. The late suspension of the two leading timber firms is not characterized to aid in the restoration of confidence, although it should probably be stated that these failures were due to circumstances entirely apart from the lumber trade. While they may result in the embarrassment of one or two smaller concerns, they are not likely to have a serious effect upon the lumber trade in general. Representatives of shippers find it almost impossible to close business unless at materially lower figures, and as yet they show no disposition to meet buyers in this respect. Prices of lumber in stock are quite firm, as holders realize that they would be compelled to pay higher figures to replenish their stock. If shippers refrain from sending forward consignment cargoes prices are likely to hold at least until the spring of next year. Large quantities of Canadian spruce and pine have been received at Belfast and Dublin, where the demand has been sufficient to keep the supply down to a reasonable point.

In timber, elm, birch and oak are finding a fairly steady sale and values seem likely to continue firm. There is only a small quantity of first-class waney pine in stock at the leading ports, and should the demand be of average volume, higher prices for this class of stock may be experienced.

STOCKS AND PRICES.

The Spanish River Boom Company have this season sorted 200,000,000 feet of logs.

It is stated that Donald Fraser & Sons, Fredericton, N.B., will cut 50,000,000 feet of lumber next season at their mills there and at Cabano, Que.

There is a marked scarcity of cooperage stock on account of the heavy apple crop. Quotations are very wide and considerably higher than last week.

The Scott Lumber Company, of Fredericton, N. B., last week sent a crew of forty men to the scene of their lumbering operations on Black river. The company expects to cut 5,000,000 feet of logs during the coming winter.

N. N. Wright & Company, of Spanish River, Ont., will have eleven camps in the woods this winter and expect to bank 40,000,000 feet of logs. The Saginaw Lumber & Salt Company, of Sandwich, Ont., will have five camps in operation.

A two mile timber berth situated on Rockwell stream, Sunbury county, N.B., was last week sold by the Crown Lands Department to Smith Bros., Limited, of Blissville, at $49 per mile.

Thomas Robinson, of Harvey Station, N B., has taken a contract to get out logs for James Murchie & Sons, of St. Stephen, and will operate the coming winter on the west of the Magaguadavic lake.

Crate & Sparham, of Smith's Falls, Ont., are extending their lumbering operations. They have now in the boom some 13,000 logs, which were brought down Gible's creek to the Tay canal and thence to Smith's Falls.

The Department of Interior at Ottawa will receive tenders up to November 18th for a permit to cut timber on Berth No. 1106, comprising sections 30, 31 and 32, township 3, Range 12, in the province of Manitoba. The area is three square miles.

It is said that one operator who is interested in the logs stranded in the St. John River above Grand Falls, N. B., will not consent to the proposition to boom the logs for the winter near Van Buren. As it is impossible to sort them the owners are in a quandary to know what course to pursue.

The exports of lumber from St. John, N.B., during the week ending October 10 were as follows: To the United States, 2,173,000 feet of long lumber, 2,179,000 shingles, 311,000 lath; to English ports, 1,680,000 feet of deals; to Barbados, 150,000 feet of lumber and 200,000 shingles; and to St. Vincent, West Indies, a schooner cargo of long lumber and shingles.

A large number of men are going into the woods along Rainy River and the lake to prepare for the winter's cut of logs, which will exceed anything ever attempted before. It is estimated over 100,000,000 feet of logs, 1,000,000 ties, 100,000 posts, 200,000 piles, and 50,000 telegraph poles will be taken out this winter. Wages range from $26 to $35 a month.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

Str. Dominion, for Liverpool, 8,375 pcs. deals and boards, by Watson & Todd.

THE BOSTON MARKET.

The situation in spruce lumber is decidedly mixed. The demand is not large and yet buyers find it difficult to get desired sizes. Some holders are getting fancy prices for certain dimensions, said to be as high as $25 in some cases. Prices are very firm on all small stuff, and full quotations are being obtained. The mills are still held up for the lack of logs, and the supply for the winter promises to be small. Prices are nominally unchanged, but firm: Ten and 12 in. dimensions, $21; 9in. and under, $19; 9 and 12 in. random lengths, 10 ft. and up, $20.50 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 ft. and up, $17@17.50; all other random, 9 in. and under, 10 ft. and up, $18@18.50; 5 in. and up, merchantable boards, $17; matched boards, $18.50@20; out spruce boards, $13@14; bundle furring, $17.

Hemlock lumber is steady and unchanged.

Hardwood finishing lumber continues in fair demand, especially for quartered oak and whitewood. Prices are firm: Quartered oak, $85 to $92; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $56; sap, $43 to $48; common, $39 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $34 to $37.

Clapboards are quiet at nominally unchanged quotations: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Shingles are about steady: Extra cedar, $3.35 to $3.45; clear, $2.90 to $3; second clear, $2.25 to $2.35; extra No. 1, $1.50 $1.75; British Columbia red cedar Extras, 16-in. five butts to 2 in. $3.30 to $3.40; Eurekas, 18-in. five butts to 2 in. $3.80 to $3.90; Perfections, five butts to 2¼ in. $4.15 to $4.30.

Laths are firm at the recent advance: One and five-eighths in., $3.40; 1½-in. $3.25.

LUMBER CONDITIONS AT GLASGOW.

Messrs. Edmiston & Mitchells, of Glasgow, Scotland, in their last report, review the lumber market as follows:

In submitting our September report we annex the usual comparative statement, which gives details of imports, the consumption for nine months, and the stock on hand as compared with recent years. In Quebec timber, as will be observed, waney and square pine logs show a decrease of about 20 per cent. as compared with the stock at 30th September last year, while reductions are also noticeable in red pine, oak, elm, and ash logs. On the other hand, the stock of 1st, 3rd, and 4th pine is largely in excess of last year, and the same may be said of pine sidings and spruce deals, the only items showing a reduction being 2nd pine and red pine deals. In Lower Port spruce and pine the figures are almost double, and this without taking into consideration Galatz spruce, of which there are at least 1,000 standards in the market. The other figures, while of interest, do not call for special mention.

The tendency of the market during the past month has been somewhat unsatisfactory, which may be ascribed to various causes, the chief one perhaps being that arrivals from the St. Lawrence and lower ports have been abnormally heavy of late, and this seems to have had a disquieting effect on buyers, who have been rather inclined to avoid "ex quay" purchases except at lower prices than have been ruling of late. Another adverse influence on the market has been the suspension a few days ago of a prominent firm of Glasgow merchants, full details of which are not yet available. The stability of the market will now largely depend upon the import during the next month or two, which it is hoped will be on a less lavish scale than has ruled of late.

The Clyde shipbuilding returns for the month show that 18 vessels aggregating about 23,000 tons were launched, against 24 vessels of 54,000 tons for the same month last year, while the new orders fixed amount to no less than about 45,000 tons—a very satisfactory addition to the work on hand.

The housebuilding trade continues in a satisfactory condition, the amount of work in progress and in prospect being quite considerable.

WHITE PINE.—The import during the month amounts to about 2000 loads. Business is quiet and we hear of no transactions of any importance. There are, however, one or two good enquiries pending. Stocks are moderate and prices continue firm.

RED PINE.—There has been no import, and the stock, though low, is sufficient for all the demand.

OAK.—The import during the month amounts to about 630 loads. The stock consists of 4,500 loads, of which about 2700 loads is Quebec, and 1800 loads Southern States wood. Railway companies having filled their requirements, the demand is languid.

ELM.—There has been an import of 800 loads during the month. The stock amounts to 3400 loads, and while it is 500 loads less than the same time last year, it is still too heavy for prospective requirements. There have been no sales of any importance. Prices of first-class rock are firm, but 2nd class and soft elm are weak.

BIRCH.—Quebec.—The import for the month amounts to 270 loads, some of which was disposed of from ship's side and some stored. There is very little demand, and the stock, which amounts to 1460 loads (Quebec and Low Port), is more than ample for the market's apparent requirements for some time to come.

Lower Port.—There is not much doing and the nominal value of 15-inch Pictou logs is 17d. There is still a large stock on hand, which is moving off very slowly.

ASH.—The import has been comparatively unimportant recently, but small though it has been, it has been ample for all the demand which exists for this wood nowadays. The nominal value of good 15-inch average is about 2s. to 2s. 1d. per foot.

DEALS, &C.—Deliveries from public yards have been large, but new business has been very quiet and disappointing. Imports have been on a large scale, and stocks of all kinds are accumulating. Prices, however, continue firm. Current values are as under:—Broad first pine deals, £32 to £34; 11-inch, £29 to £31; ends and non-dimensions, £22 to £24. Second pine deals:—11-inch and up, £19 to £21 10s.; ends and non-dimensions, £13 to £14, 10s. Third pine deals:—11-inch and up, £13 to £14 10s.; ends and non-dimensions, £10 to £11. Red pine deals:—9 and 11 inch, £11 10s. to £12 10s.; narrows, £8 10s. to £9 10s. First pine siding:—8 and 10 inch, £24 to £25; 11 to 12 inch, £26 to £28; 13 to 14 inch, £29 to £31. Spruce deals:—9 inch and up, £8 15s. to £9 10s.; 7 and 8 inch, £7 5s. to £8 5s. Lower Port pine and spruce: 7 and 8 inch, £7 to £7 15s.; 9-inch and up, £8 5s. to £8 15s.

TORONTO, ONT.

TIMBER LIMIT TRANSACTIONS.

J. M. Pugsley has sold to I. Lorne Pugsley, of Five Islands, his one-half interest in the Moose River lumber property at Moose River, N.S.

The Dudswell Lumber Company, of Cookshire, Que., have recently acquired 3,200 acres of timber land, comprising the Dudswell Mountains, from the British American Land Company.

Henry Atkinson, of Quebec, has disposed of his Beauce and Chaudiere lumber properties to H. R. Goodday & Company, of the same city, the price paid being in the vicinity of a quarter of a million dollars. The property consists of about 225 square miles, together with mills and other buildings.

John McLennan, of Quebec, has just completed a sale of the Baie St. Paul mill property, seigniory and timber limits, comprising about 300 square miles of territory. The property is on the north shore, about fifty miles from the city of Quebec, and has been sold to an American syndicate, composed of George Skiff and Charles Skiff, of Syracuse, N.Y.; Emmet G. Latta, of Friendship, N.Y.; and J. S. Brown and Daniel K. Condon, of Wilcocks, Pa. The price paid is supposed to be in the neighborhood of $130,000 cash. The new purchasers propose to improve the property.

The J. E. Murphy Lumber Company, of Milford Haven, Ont., are taking out a stock of hardwood logs this winter. Their new mill will be ready in the spring and will manufacture lumber, lath and shingles.

We are in the Market for :—

Rock Maple logs and planks
Rock Elm Logs
Waney Birch Logs
White Oak Logs
Oak planks, best quality, in long lengths
White Ash planks, best quality, in long lengths
Black Walnut logs and boards
Pine deals and sidings

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, OCTOBER 28, 1903 No. 39

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited)

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

1"x12"—1 ft long.

Parties quoting prices for these dimensions will understand that the spruce must be clear; also mention what quantity can be supplied in each case. Address

UNITED FACTORIES LIMITED,
Newmarket, Ont.

SHIPPING MATTERS.

The steamer Otterspool is loading deals at St. John, N.B., for the Clyde.

The ship Port Stanley is now loading lumber at Chemainus, B. C., for Chili. The ship Neville is also chartered to load lumber at that port.

The following charters are reported: Schr. E. A. Post, Bridgewater, N.S., to Madeira, lumber, $7.50; schr. Leonard Potter, Bridgewater, N.S., to Havanna, lumber, $4.75; str. Platea, Sheet Harbor, N.S., to Swansea and Preston, deals, private terms.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market is showing a degree of strength that is very encouraging to holders of stock. Efforts have been made to depress prices, but with the exception of the upper grades, which were perhaps forced to an abnormally high point, the attempt has been unsuccessful. This may be explained in part by the fact that many of the large manufacturers sold their entire cut early in the season, and there is consequently no accumulation of stock in mill yards. The close of the season will find comparatively small stocks of pine lumber in first hands. Ottawa manufacturers seem determined to endeavor to obtain higher prices for the production of next year. Already one manufacturer has sold his output of British deals at an advance. In Toronto there is a steady consumption of lumber in building operations, and this condition exists quite generally throughout the province.

The range of hardwood prices is quite wide. A few manufacturers are disposed to offer concessions to effect sales rather than carry their stock into the winter, while others, and the larger number, are holding prices firmly, some even asking an advance upon late quotations. A Toronto dealer was recently asked $22 for inch soft elm at the mill. There is a quite active demand for birch lumber, which has been a ready seller all season.

QUEBEC AND NEW BRUNSWICK.

There is a more active demand for spruce lumber. Manufacturers report numerous inquiries for stock for shipment to Ontario, where it is being used for many purposes in place of white pine, owing to the difference in price. Considerable shipments are also being made to the Eastern States. The demand for certain sizes is in excess of the supply. This is particularly so in the case of clapboards and heavy dimensions. It is learned that there is very little stock yet to go forward to England, the Alexander Gibson Company, for instance, having completed their last shipment. It is probable that still higher prices will be witnessed within the next three months. There is a little better feeling in the shingle trade also, although Extras still range in price from $3.35 to $3.50 for Boston delivery.

UNITED STATES.

The changes in our price list this week reflect very closely the tendency of the market. Certain sizes of cutting-up stock and fine common have been marked down about $2 per thousand feet. This is the result of a limited demand for good pine lumber. Accumulation of this class of stock has been in evidence during the past two months, but nevertheless the supply is not exceptionally large, as at the beginning of this accumulation the wholesale and mill yards were carrying very light stocks. In contradistinction to this condition is the decided scarcity of and active demand for box lumber. All that can be found is quickly bought up. In Philadelphia, for instance, where dealers are holding aloof from the better grades of pine, they are taking all the box lumber that is offered. At Buffalo and Tonawanda spruce is being used for box making on account of the shortage and high price of the box grades of pine. Throughout Minnesota, Wisconsin and Michigan the trade is gradually getting down to a winter basis, but in the Eastern States activity is more marked and there is a considerable distribution of stock to retail yards and manufacturing industries.

Hardwood prices all along the line are well maintained. The scarcity of certain kinds of lumber is still quite visible. In Wisconsin it is said there is practically no hardwood lumber remaining unsold, and in Michigan elm stock is exhausted. While there is a brisk movement of thick maple, flooring is still in the same dormant state as last reported, the recent meeting of manufacturers failing to stiffen prices. Long lengths in all kinds of hardwoods are bringing much higher prices than the regular run.

Shingles are slightly stronger, while the lath market is dull and prices barely steady. Good white pine lath are quoted at $3 to $3.10 and mixed at $2.70 to $2.80 in Chicago.

GREAT BRITAIN.

If anything, there is a slight improvement in the British lumber market. There are no signs that shippers intend lowering their prices, while importers having stock for sale show no inclination to sell below current quotations. These two circumstances, it is contended, should create more confidence, but at the same time it is pointed out that any attempt to advance prices sharply would be likely to prove disastrous. Inland stocks are comparatively light and must be replenished at an early date. When buying for this purpose commences, the retail trade will no doubt assume a brighter aspect. It is remarkable that Canadian lumber of all kinds has not only held its own, but several lines have exhibited an advance. The depression in the cotton trade has restricted the consumption of spruce, but this obstacle to business is gradually being removed, and when this is accomplished there will be an active demand for box lumber. A Glasgow report states that a fair volume of business has been put through during the past ten days in pine and spruce deals and sidings, while in log timber an active trade has been done, including several sales of Quebec waney boardwood and square pine. A correspondent at Liverpool writes: "Quebec goods have come pretty well into consumption. Spruce has again done some business, but many buyers profess to have supplied their wants for some time. I am certain, however, that consumers should "stock up," as in my opinion prices will shortly show some advance." These expressions of opinion indicate that the feeling in regard to the future is hopeful.

STOCKS AND PRICES.

There is such a scarcity of slack cooperage stock that it is almost impossible to quote prices.

Thirteen steamers and four square riggers have loaded lumber at Bathurst, N.B., this season.

Gilbert McMulkin, of St. John, N.B., has commenced logging operations back of Upper Gagetown.

Avery & Pringle, of Dead Creek, Ont., have forty men employed in the woods in that vicinity cutting logs.

Tenders are invited by Jos. Hunter, of Victoria, B.C., for furnishing 30,000 hewn ties for the Esquimalt and Nanaimo railways.

Ament & Krauter, of Brussels, Ont., have started cutting logs on their timber limits in Grey county. They will take out elm, ash, pine and hemlock.

The Canadian Pacific Railway is said to have placed an order with a British Columbia manufacturer for 2,000,000 feet of lumber for the construction of new buildings at Winnipeg.

A raft of logs from Jack Fish Bay reached Rainy River, Ont., last week. It contained over 3,500,000 feet which the Backus & Brook Company recently sold to the Shelvin Clarke Lumber Company.

At Bangor, Me., spruce prices are $18.50 to $19 for 10 and 12 inch dimensions; $16.50 to $17 for 9 inch and under; $18 to $18.50 for wide randoms; and $16 to $16.50 for 9 inch and under.

Considerable square timber will be manufactured this season in the Ottawa valley. Klock Bros. are operating on the Quinze river, Edward Moore on the Dumoine river and Fraser & Company on the Jock river.

The lumber surveyed at the port of Bangor, Me., for the three months ending September 30th was 46,000,000 feet, about 3,000,000 feet more than the corresponding period of 1902 and 9,000,000 feet more than in 1901.

At Toledo, Ohio, common pine sells freely at full list; No. 4 boards are strong and in rather light supply; Norway is strong; hemlock boards have moved freely and are in good supply, although there is no abundance of 16-foot lengths.

The lumber exports from St. John, N.B., for the week ending October 17th were a cargo of 1,451,500 feet of deals to England, 483,283 feet of long lumber, 192,000 lath and 9,500 pickets to Santa Cruz, and 668,000 feet of long lumber, 2,493,000 feet of lath and 80 pieces of piling to United States ports.

Maine and New Brunswick have been experiencing an almost unprecedented drought and many million feet of logs are stranded. There have been a few heavy but brief rainfalls in the past few weeks, but not enough to help the rivers much. A letter from Edmunston, N.B., states that the logs now in the St. John river above Grand Falls cannot be de driven this fall, but are to be sheered behind the islands above the falls.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to October 20th as furnished by the Supervisor of Cullers:—

	1901 Cu. Ft.	1902 Cu. Ft.	1903 Cu. Ft.
Waney White Pine..	1,423,188	1,815,920	1,820,200
White Pine	582 209	383,600	4 8,800
Red Pine	89,917	71, 60	57.360
Oak	485,80	618,680	871,320
Elm.....	942,372	561,880	417,800
Ash	135,108	79,920	57,200
Basswood	464	.....	160
Butternut.....	944	.....	.....
Tamarac.....	198	.....	40
Birch and Maple.....	307,039	164,800	196,760

TIMBER LIMIT TRANSACTIONS.

Gilroy & Hunter, of Southampton, N.S., have purchased from Pugsley Bros. a block of burnt timber, comprising 600 acres on the River Herbert road, and will establish camps there this winter.

A big lumber deal has just been concluded whereby the Rat Portage Lumber Company, of Rat Portage, Ont., acquires the property of the Harrison River, Mills Timber & Trading Company at Harrison River, about 60 miles east of Vancouver, B.C. Extensive timber limits are included in the purchase, and it is the intention of the Rat Portage Lumber Company to erect a large saw mill.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

PREDICTION AS TO WHITE PINE.

A correspondent of the American Lumberman makes the following prediction concerning the lumber market in general and white pine in particular: "Never in the history of the lumber trade has there been an extremely low market when any particular grade met with an active demand and at almost abnormal prices that the condition of the market for the other grades was not eventually benefitted. The grade which is at present meeting with this great demand is box lumber, which is pretty well out of the market. Upper grades of lumber have dropped in price very much, but all good lumbermen, especially those manufacturing sash, doors and blinds, realize that shop and better has been too high for the last year or more. There is no doubt that the feeling of uneasiness and present dullness in the lumber market can be laid at the door of the unsettled condition of labor. In large cities, especially in the Pittsburg district, building has fallen off materially, as the people are virtually afraid to go into a large building proposition on account of the uncertainty of the time the jobs will be completed.

"As long as white pine can be had it will be used and there is no immediate danger of any great decline. All lumbermen know that there is always a pulling in and conservative action during the year just preceeding a presidential election."

CANADIAN LUMBER IN ENGLAND.

Pine and spruce deals brought the following prices at a recent auction sale held by Churchill & Sim, London, England:

Pine –Ex. Vera, from Quebec—12-22 ft. 3 x 9 in. first quality red, £11 15s per std. of 1980 ft. Ex. Belgian, from Quebec—6-22 ft. 3x11 in. red, £8 10s; 15-22 ft. 1x11 in., £8 5s. Ex. Prime, from Montreal—8-22 ft. 1 x 11 in., second quality red, £9 5s; 14-16 ft. 1 x 9 in., "A" quality, £8 5s. Ex. Everingham, from Montreal—15-16 ft. 3x11 in., £12 5s. Ex. Obi, from Quebec—13 ft. 3 x 11 in., third quality, £12 10s and £12 15s. Ex. Flinsburg, from Quebec—6-8 ft. 3x7-18 in. second quality, £11 10s; 6-8 ft. 3x7-19 in. third quality, £10. Ex. Montreal, from Quebec—10-18 ft. 1x9 in. unassorted red, £8 10s. Ex. Montezuma, from Quebec—12-22 ft. 1x9 in. second quality red, £8 10s. Ex. Mount Royal, from Quebec — 13-17 ft. 3x11 in. fifth quality, £8; 11-14 ft. 3x9-14 in., £8. Ex. Brantingham, from Quebec—9-11 ft. 3x11 in. first quality, £27 10s; 9-11 ft. 3x7-9 in., £23; 5-8 ft. 3x5-18 in., £21. Ex. Nordboen, from Quebec—9 ft. 2x5-10 first quality, £21 15s; 6-8 ft. 2x4-11 in., £18 15s; 9 ft. 3x8-11 in., second quality, £15 5s; 9 ft. 3x5-7 in., £13 5s; 6-8 ft. 3x11 in., £16; 6-8 ft. 3x9-10 in., £14 5s; 6-8 ft. 3x7-8 in., £13 10s; 6-8 ft. 3x5-6 in., £11 5s.

Spruce—Ex. Aquila, from Quebec—13 ft. 3 x 9 in. third quality, £9 5s. per std. Ex. Theodore Wille, from Quebec—12-16 ft. 3 x 9 in. fourth quality, £8 10s.; 12 ft. 3 x 9 in. £7 10s. Ex. Elizabeth, from Matane and Rimouski, Que.—9-14 ft. 3 x 9 in. unassorted, £9; 9-16 ft. 3 x 9 in. £9 and £8 15s.; 9-16 ft. 3 x 10 in. £8 15s.; 11-16 ft. 3 x 8 in. £8 10s.; 9-16 ft. 3 x 8 in. £8 15s.; 9-16 ft, 3 x 7 in. £7 10s. and £7 5s.; 9-16 ft. 3 x 6 in. £7 5s.; 11-14 ft. 3 x 8 in. £8; 9-16 ft. 3 x 7 in. £7 10s.; 12-14 ft. 3 x 6 in. £7 10s.; 12-14 ft. 3 x 6 in. £7 5s. Ex. Mount Royal, from Montreal—12-14 ft. 3 x 9 in. third quality, £8 10s.

THE BOSTON MARKET.

Spruce lumber is in light supply at Boston and some sizes are firmer and higher. The demand is not large, but many mills are short of logs. The quotations are: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 9 and 12 in. random lengths, 10 ft. and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 ft. and up, $17.50; all other randoms, 9 in. and under, 10 ft. and up, $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18.50@20; out spruce boards, $13@14; bundle furring, $17.

There is no change to note in hemlock lumber, either in tone or prices: Boards, 12, 14 and 16 ft. stock, $14.50 for good eastern; Pennsylvania No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is quiet but firm: Uppers, 1 to 2 in., $84 to $87; 2½ to 3 in., $92 to $87; 4-in. $96 to $100; selects, 1-in., $76; 1¼ to 1¾ in., $76 to $78; 2-in., $78; 2½ to 3 in., $84; 4-in., $86; fine common, 1-in., $67; 1¼ to 1½ in., $69; 2-in., $72; 2½ to 3 in. $80; 4-in., $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is unchanged, the demand for fine, fresh quartered oak and whitewood being good: Quartered oak, $85 to $92; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $56; sap, $43 to $48; common, $39 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $34 to $37.

Extra cedar shingles are firm at $3.35 to $3.50, with other grades steady.

Clapboards are steady and unchanged: Extra, $45; clear, $43; second clear, $40; extra No. 1, $30.

Laths are firm but not further advanced: One and five-eighths in., $3.40; 1½-in. $3.25.

THE BARBADOS MARKET.

The last report of Messrs. S. P. Musson, Son & Company reviews the Barbados lumber market as follows : "There have been no arrivals of either white pine or spruce during the fortnight; stocks of former are again very bare, and first arrivals will command full rates. In spruce we anticipate a good demand for crop requirements, and as the high price of white pine will enhance the value of spruce, shippers should do well if they take the chance of the market. No arrivals of shingles have taken place, but we expect a cargo of about 1,500,000 Laying Cedar, of which we have placed about two-thirds at $2.30. We have heard nothing further about the assorted cargo alluded to in our last. The "Harrington" arrived on 29th ult., with 5,500 bundles French hoops, a portion of which were sold ex wharf at $20 for long and $17.50 for short; but for balance, which have been stored, $20.50 and $18.50 is now asked."

The Canada Lumberman
TORONTO, ONT.

BUSINESS NOTES.

Robert Cole has sold his planing mill at St. Thomas, Ont., to Blewett & Baldon.

J. Carnegie, mills and lumber, Port Perry, Ont., is advertising his business for sale.

A meeting of the creditors of C. Lawton Work, saw miller, St. Adolphe de Howard, Que., has been called for October 31st.

T. A. McCulloch, lumber dealer and commission merchant, Lethbridge, N.W.T., has assigned, and the stock is now offered for sale by the assignee.

Damase Pariseau, lumber merchant, of Boucherville and Montreal, assigned last week on demand of Taillon, Bonin & Morin. The liabilities are said to amount to $35,105.54. The principal creditors are: The Credit Foncier Franco-Canadien, $11,434 ; E. H. Lemay, $2,330 ; Montreal Loan and Mortgage Co., $1,615; G. A. Grier, $1,431 ; Montreal Investment and Freehold Co., $1,350 ; Joel Dubois, Boucherville, $3,075 ; Dame M. L. Bourassa, Montreal, $2,030 ; Molson's Bank, $3,837 ; Mrs. Legault, $2,000.

The saw mill and a portion of the table factory of the Canada Furniture Manufacturers, Limited, at Wiarton, Ont., were destroyed by fire last week, together with a considerable quantity of lumber. The loss is about $40,000, only $14,500 of which is covered by insurance.

We are in the Market for :—

Rock Maple logs and planks
Rock Elm Logs
Waney Birch Logs
White Oak Logs
Oak planks, best quality, in long lengths
White Ash planks, best quality, in long lengths
Black Walnut logs and boards

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, NOVEMBER 4, 1903 No. 40

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL

22 GREAT ST. HELEN'S, LONDON, E. C

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

500 2 in. x 6 in. Red Pine to be manufactured next season; also few Cars for spring delivery.

HURDMAN & ELMITT,
Ottawa, Ont.

WANTED—MAPLE STRIPS, 2½"x2¼", 30" long. Ship green during coming winter. Apply Box 9, CANADA LUMBERMAN.

For Sale

PINE AND CEDAR SHINGLES. XXX 6" C. B. and X; 2 to 3 cars 12"x12"-16, 18 and 20 feet hemlock, 2 million 1" and 2" hemlock. A. McPHERSON CO., Longford Mills, Ont.

Circular Saw Hammering

taught right in your mill by mail. No previous experience necessary. Sent prepaid on trial. Send for Canada references, who are cutting frozen timber with my gauge and instructions. J. H. MINER, Lumberton, Miss.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1¼, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care Box 22 CANADA LUMBERMAN.

WANTED—1" SPRUCE, LOG RUN, DEAD culls out. Tamarac sawn to order. Hardwood lumber. R. E. KINSMAN, Hamilton, Ont.

FOR SALE

CEDAR AND TAMARACK; 200,000 ties and 20,000 telephone poles on the Vermillion River or drove to Spanish boom. JAMES McCREARY, Larchwood, Ont.

WANTED—POSITION IN LUMBER BUSINESS by young man 27 years old; ten years' experience in operating, manufacturing buying and selling lumber; can survey all kinds of spruce cargoes for foreign trade. Address P. O. Box No. 9, North End, St. John, N. B

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited)

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

AUCTION SALE OF TIMBER BERTHS

PUBLIC NOTICE IS HEREBY GIVEN THAT pursuant to authority of Orders in Council, the Red and White PINE TIMBER in the following townships, berths and areas, namely:—

IN THE DISTRICT OF NIPISSING — the Townships of HUTTON, CREELMAN, PARKIN, AYLMER, MACKELCAN, McCARTHY, MERRICK, MULOCK (part of) FRENCH (part of), STEWART, LOCKHART (part of), GARROW (part of), OSBORNE (part of), HAMMELL and PHELPS (part of).

IN THE DISTRICT OF ALGOMA — Berths Nos. 159 and 201, the Townships of KITCHENER and ROBERTS, and Block "W" near Onaping Lake.

IN THE RAINY RIVER DISTRICT—Berths G19, G21, C23, G29 and G38, and the following Berths with the right to cut and remove the pine, spruce, tamarack, cedar and poplar:—G4, G6, G17, G18, G24, G25, G26, G27, G28, G33, G35, G36, G37, G39, G40, G41, G42, G43, Berths Nos. S1, S2, S3, and S4, will be offered for sale by Public Auction at the Parliament Buildings, in the City of Toronto, on WEDNESDAY, the NINTH day of DECEMBER, 1903, at the hour of ONE o'clock in the afternoon.

Sheets containing terms and conditions of Sale and information as to Areas and Lots and Concessions comprised in each Berth will be furnished on application, either personal or by letter, to the Department of Crown Lands, Toronto, or the Crown Timber Agencies at OTTAWA, SAULT STE. MARIE, PORT ARTHUR, RAT PORTAGE and FORT FRANCES.

E. J. DAVIS,
Commissioner Crown Lands.

Department of Crown Lands,
Toronto, July 29, 1903.

N. B.—No unauthorized publication of this advertisement will be paid for.

FOR SALE

WHOLESALE AND RETAIL LUMBER Yard; small band saw and planing mill; steam dry kiln; unlimited supply of both Pine and Hardwood timber; water and rail transportation; healthy locality; prosperous town in the South; 12,000 population; cheap labor; established paying business. Write for particulars GEO. T. HOUSTON & Co., Chicago, Ill.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED—ONE PAIR TWIN ENGINES 10" x 12" or about that size, for medium weight rotary carriage. Advise by whom made, how long used, and price f.o.b. cars. J. & C. HICKMAN, Dorchester, New Brunswick.

GOOD CEDAR LUMBER SUITABLE FOR boat building. PETERBORO CANOE CO., Ltd., Peterboro.

ADVERTISERS ARE PREPARED TO CUT to order during the coming winter a quantity of prime hard Maple and Birch any special thickness. Box 36, CANADA LUMBERMAN.

FOR SALE

FACTORY FLOORING

KILN DRIED BIRCH, ABOUT 60 M. Box 442 CANADA LUMBERMAN.

TIMBER LIMIT FOR SALE

ONE HUNDRED AND FIFTY MILLION feet of good sound healthy timber. About 10 million white pine, 80 million cedar; balance hemlock. For particulars apply to P. J. GALLAGHER, Rossbery, B. C.

FOR SALE

SEVERAL LARGE TIMBER LIMITS ON the Kootenay Lakes and along Crows' Nest line of C. P. R. Most available timber for Northwest trade. For particulars, apply to D. I. DEWAR, Nelson, B. C.

SOFT ELM LOGS WANTED

10 OR 15 FEET LONG, SUITABLE FOR Cheese Box Veneers. We are open to buy any quantity on cars, on line of Canada Atlantic Railway. MACPHERSON & SCHELL, Alexandria, Ont.

Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier Ont.

WANTED

1 INCH SPRUCE LUMBER, EITHER IN long sections or cut up to the following sizes:
1"x2"—2 ft. long.
1"x3"—1 ft. 1 in. long
1"x1½"—1 ft. long.
½"x6"—1 ft. 1 in. long.
½"x4", 5", 6" and 7"—1 ft. long.
1"x12"—1 ft long.

Parties quoting prices for these dimensions will understand that the spruce must be clear; also mention what quantity can be supplied in each case. Address

UNITED FACTORIES LIMITED,
Newmarket, Ont.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED — TWO CAR LOADS DRY quarter cut white or red oak, cut 1¼" x 2" and 1" x 3", 4, 8, and 12 ft. long, clear stock. Address, "W", care CANADA LUMBERMAN.

FOR SALE — SAW MILL AND ONE hundred acres of land; about 80 acres of well mixed timbered bush, including 20 acres of cedar swamp; situated on country road, four miles from Angus station. Address J. D GREENLEES, Alliston, Ont.

WANTED—TO PURCHASE A PORTABLE Saw Mill, must be in good order; state capacity; or would contract with the owner of a portable mill to cut logs by the thousand feet in Province of Quebec. Several years cutting of hard and soft woods. Apply to "W.D.," P.O. Box 466, Montreal.

CURRENT TRADE CONDITIONS.

ONTARIO.

The buying of small lots of lumber which has been so general during the past month is paipable evidence that retailers and consumers throughout the province are not heavily stocked. It may be that the exceptionally fine weather is responsible for a larger consumption in outdoor work than was anticipated, but the many requests for early delivery would seem to indicate a sold-out condition. Accordingly, firmness of prices has ruled. The predicted reaction in white pine values is still confined to the higher grades, which, as stated last week, were perhaps selling relatively too high. And even these grades are showing strength, for from Ottawa comes the information that the 1904 cuts of the McLachlin mills at Arnprior and the McLaren mills at Buckingham have already been contracted for, and rumor says at an advance over the prices of the past year. There have also been some negotiations for blocks of Georgian Bay stock to be sawn next season. The lower grades continue to be in steady request. A few days ago 2,000,000 feet of log run pine changed hands at fifty cents over the price at which the same grade of lumber sold last spring. The average price of log run at the mill is $18, shorts from $11 to $14, box $14, and scoots $5 to $6. Very few of the mills have any stock of mill culls or box lumber for sale, so great has been the demand.

Hardwood buyers do not take everything offered without discrimination, as they were disposed to do earlier in the year, but they are still buying for customers and picking up lots on speculation whenever the price is an inducement. No weakness is visible in any of the hardwoods.

It is difficult to make sales of lath and shingles. Shipments of such material to the Eastern States have fallen off of late, and the trend of prices is towards a slightly lower basis.

QUEBEC AND NEW BRUNSWICK.

Values of spruce lumber continue remarkably firm. Manufacturers are holding out for higher prices for next season's production, and if the demand from the United States and Great Britain should be nearly as active as during the past season, it is quite probable that they will succeed in their efforts to establish a higher selling basis. Some contracting has already been done, but as a rule shippers are pursuing a cautious policy until matters in Great Britain become more settled. New York is absorbing a large quantity of stock. Cargoes arriving there have been readily taken at firm prices. Some mills are getting an advance of one dollar per thousand for large sizes, which are particularly scarce.

UNITED STATES.

The buying of lumber in the United States has been confined almost exclusively to actual needs, yet the volume of business has been sufficient to create the impression that a very fair trade will continue throughout the winter months. While there is not likely to be a further general rise in prices, it is equally certain that no material slump will occur, so that those in need of lumber are disposed to place orders at current prices. Reports from the Lake Superior district are of an encouraging character. Recently there have been large sales of factory lumber and low grade boards, which have been shipped in large quantities as far east as New York. The stock of these grades at the mills is almost exhausted. Other grades are held in moderate quantity, excepting selects, of which there is an accumulation. There is a considerable supply of No. 3 boards at interior mills at the head of Lake Superior, but on Lake Michigan there is not much of that class of lumber that has not passed out of first hands. Eastern buyers have been persistent in demanding lower prices from the western manufacturers, but up to the present time the latter have not seemed disposed to yield. Hemlock piece stuff occupies a unique position, the supply being less than in any previous season. Conditions favor high prices for this class of lumber, although it is a question whether manufacturers will consider it advisable to make an advance.

Hardwood stocks are low and the indications point to a steady market with an advancing tendency, as there will doubtless be a pronounced scarcity before the large mills commence operations next spring.

Shingles and lath are slightly weaker. The Wisconsin and Minnesota mills are said to be carrying an abnormal supply of lath.

GREAT BRITAIN.

The high prices asked for next season's production of lumber are having a strengthening effect upon the British market. Importers refuse to dispose of present holdings at a sacrifice until they feel reasonably certain that they will be able to replenish their supply on favorable terms. The resumption of work by the cotton mills has stimulated the consumption, but reports still tell of an irregular demand. A Manchester writer says that it is remarkable how prices keep on advancing, especially in spruce deals. Very stiff c.i.f. prices are now being asked, and it is very likely that spruce may go up ten shillings per standard more before the winter is over. Three inch by seven inch are very scarce and dear, a large line having recently been sold at two shillings six pence per standard more than an average of a cargo could have been bought for a short time ago. There is also a scarcity at Manchester of 2½ x 7 inch spruce. At the last auction sale first quality Quebec spruce brought £12 per standard, which is rather below the previous sales. Third quality spruce brought £9 10s and fourth quality £8 10s. There is brisk competition for the best quality of pine lumber, but the lower grades are not in great demand.

There is much speculation as to the prices that will rule for first-open-water shipments next spring. Very little buying has as yet been done, the disposition of the importers being to delay as long as possible before closing contracts in the hope of being able to form an idea as to the prices which are likely to rule. At the present time opinion is greatly divided, some contending that higher prices may be obtained, others that it will be necessary to reduce prices in order to faciliate buying.

STOCKS AND PRICES.

The Kinmount Cooperage Company, of Kinmount, Ont., have two camps in the woods getting out elm logs.

The mill of the Saginaw Lumber & Salt Company at Sandwich, Ont., has laid off its night crew and will carry over less than 3,000,000 feet of unsold lumber.

W. Sleeman, of Rapid River, Ont., has just signed a contract with the Canadian Northern Railway to get out 100,000 ties between Emo and Rainy River.

The Canadian Northern Railway have built a spur line into the Little Turtle Lake District of Manitoba, in order to get out 150,000 ties which were cut last season by A. R. Mann.

The Millar Lumber Company, of Pembroke, Ont., have about 300 men in the woods this winter and have already cut 150,000 feet of square and waney timber, besides a quantity of logs.

Logging operations along the line of the Quebec and Lake St. John Railway, in the Province of Quebec, promise to be brisk this winter. Contracts have been closed for the cutting of over 2,000,000 logs, and apart from this the Chicoutimi Pulp Company have contracted for 1,125,000 logs to be cut on their limits for the manufacture of pulp.

It is again reported that the Ross-McLaren mills at Barnet, B.C., are to resume operations at an early date. This mill when in operation is an important factor in both foreign and local trade.

Donald Fraser & Sons, of Fredericton, N.B., have now upwards of 2,000 men at work in the woods in the Tobique and other districts and before Christmas expect to increase this number by 500. Scott Bros., of the same place, are conducting operations on the Black, Keswick, and Magaguadavic rivers, besides several small camps on limits near Fredericton.

The shingle manufacturers of Wisconsin have adopted the following schedule of wages: Sawyers, double block, $3.25 to $3.00; sawyers, single block, $2.75 to $2.50; bolters, $2.50 to $2.25; knot sawyers, $2.40 to $2.00; packers, 10 cents to 8 cents. The various manufacturers at a recent meeting reported that they had manufactured this year about 588,000,000 shingles and there remained on hand about 178,000,000.

It is learned on good authority that the entire cut of McLachlin Bros., of Arnprior, for next year, has been purchased by E. H. Lemay, of Montreal. The cut is expected to be between 50,000,000 and 60,000,000 feet. Last year Watson & Todd secured the McLachlin production. It is also learned that the lumber cut of the Maclaren mills at Buckingham, Que., has been sold to a British firm.

The Dauphin Press states that the lumbermen in that section of Manitoba have commenced work in the woods. The Northern Lumber Company has established two camps at Pine River, Shaw Bros. two camps in the Riding Mountain, and T. A. Burrows two camps in the Duck Mountain. The Red Deer Lumber Company has several camps at Erwood, while Robert Machan has secured the Dauphin Lumber Company's limit in the Riding Mountains and intends cutting lumber with a portable mill this winter.

The Canadian Northern Railway have placed the following contracts for material to be got out during the coming winter, principally in the Rainy River district: Preston-Bell Company, 1,000,000 ties; R. Lockhart & Co., Fort Frances, 100,000 ties; L. Christie, 100,000 ties; W. Sleeman, Rapid River, 100,000 ties and 500,000 telegraph poles; Holmes & Langstaff, Devlin and Emo, 50,000 ties, 50,000 posts and 50,000 telegraph poles; Graham, Horne & Company, Fort William, 1,000,000 feet of square cedar; Strevel & Company, Winnipeg, 250,000 ties.

THE BOSTON MARKET.

The situation in the spruce lumber market at Boston is strong. The supply of desirable sizes is extremely limited and from $1 to $4 up is being asked by the few holders. Many of the mills are shut down for the season, and others are held up on account of the lack of the rain necessary to bring the logs down to the saws. Prices are largely nominal, owing to the small offerings. The quotations are nominally unchanged at: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 9 and 12 in. random lengths, 10 ft. and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 ft. and up, $17.50; all other randoms, 9 in. and under, 10 ft. and up, $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18.50@20; out spruce boards, $13@14; bundle furring, $17.

Hemlock lumber is quiet and unchanged: Boards, 12, 14 and 16 ft. stock, $14.50 for good eastern; Pennsylvania No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is very firm, with a quiet demand: Uppers, 1 to 2 in., $84 to $87; 2½ to 3 in., $92 to $97; 4-in. $96 to $100; selects, 1-in., $76; 1¼ to 1¾ in., $76 to $78; 2-in., $78; 2½ to 3 in., $84; 4-in., $86; fine common, 1-in., $67; 1¼ to 1½ in., $69; 2-in., $72; 2½ to 3 in. $80; 4-in., $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There is a steady demand for hardwood lumber at firm prices: Quartered oak, $85 to $92; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $56; sap, $43 to $48; common, $39 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31.

Well-known brands of clapboards are firmly held, but some of Canadian make are offering lower: Extra, $44 to $45; clear, $43; second clear, $40; extra No. 1, $30.

Extra cedar shingles are firm at $3.35 to $3.50, with other grades steady.

Laths are firm and unchanged: One and five-eighths in., $3.40; 1½-in. $3.25.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

TELEGRAPH POLES WANTED

We buy all lengths. Write us for prices and you will see that by cutting your Cedar into Poles it will net you more than you can get out of it in any other way.

SALIENT FEATURES IN WHITE PINE.

It is well known throughout the trade that the most active stock of white pine in the market is the low grade stuff used for box making. It is also the class that is in shortest supply compared to the extent and urgency of demand for the higher grades of lumber. The qualities of white pine employed in box manufacture are included in Nos. 3, 4, 5 and 6, four inches and upward in width.

As a matter of fact there is no specific grade of box lumber ; it is simply coarse, common or cull stock and below the grade of No. 2. Such lumber is used more extensively in the manufacture of boxes than for any other kind of application, though every retail yard carries a quantity of it, in all widths, to meet a demand that frequently arises. No. 3 in particular is considerably devoted to under flooring, roofing, building and repairing sheds, or for any purpose where cheapness is the object sought more than excellence of work. Coarse lumber is used in box manufacture because it is relatively cheap, and can be cut up so as to utilize all that is good in each piece, No. 3 is the favorite grade, because it can be cut up with the least waste in knots and rot. No. 4 comes next in desirability ; No. 5 is a more or less desperate resort, while No. 6 furnishes the last grab at a vanishing supply.

The grades sought by box makers depend on relative prices, the kind of boxes being made and other conditions peculiar to each case. This season the lower grades have been bought up as never before, because scarcity has been such and prices have been so high that manufacturers have been forced to take the lower grades or nothing.

Present wholesale prices of No. 3 white pine on a Chicago basis are $16 to $17 a thousand ; No. 4, $13 to $13.50 ; No. 5, $8.50 to $9, and No. 6, $6. At the same time No. 2 is selling at $19 to $20.50.

The present box lumber supply is lower than ever before known at the close of the season. Nos. 3 and 4 are practically out of first hands, while Nos. 5 and 6 are fast disappearing. It is thought that this almost complete exhaustion of the white pine coarse lumber supply must have a reflex influence on demand and prices of low grade shop lumber and the general market for medium quality white pine. The supply of all coarse stock from No. 2 downward having been exhausted, holders of the residue of better lumber will be inclined to insist on good figures for it. The only kind that now is in surplus is shop lumber, and the manufacturers have no doubt that it all will be wanted in the ordinary course of the coming year's manufacture. As for uppers, they are like wheat in store, or gold in the vault ; even better than that, like money at interest on good security, because this year's cut is getting dry and therefore more valuable. —American Lumbermen.

TIMBER LIMIT TRANSACTIONS.

Small & Buckler have acquired timber limits on the Fraser river, in British Columbia, and purpose establishing a saw mill at New Westminster.

Patrick Culligan, of Alpena, has just sold to the Rat Portage Lumber Company 4,000,000 feet of standing timber in Minnesota at $6.50 a thousand.

It is estimated that the timber limits in British Columbia recently acquired by the Rat Portage Lumber Company from the Harrison River Mills Company contain 600,000,000 feet of standing timber.

At Revelstoke, B. C., the other day Lammerst & Goldrick concluded the purchase of over 40 square miles of timber on the Duncan river from W. de V. LeMaistre, Cowan, Kinsman and associates. It was a cash transaction and the purchasers propose to erect a large mill at Nelson.

J. B. Dorfmann, representing United States capitalists, has purchased several blocks of timber land from James Dunsmuir, of Vancouver, B. C. By a recent purchase Mr. Dorfmann secured control of a solid block of timber land in the northern part of Vancouver Island. It is probable that for the present he will erect a portable mill near Nanaimo, where he has purchased a block of oak timber.

The Canada Lumberman

TORONTO, ONT.

COMMENTS ON THE LUMBER SITUATION IN GREAT BRITAIN.

The Belfast correspondent of the Timber News says: The consumption of spruce deals is large and increasing, and prices are fairly steady. There is but little doubt that the requirements in spruce deals will increase in Ireland before long, for on every side there is a disposition to put up new buildings and to touch up old ones, which will mean very shortly a decided increase in consumption of timber of all kinds.
